

Concepts of Athletic Training

**FOURTH
EDITION**

**Ronald P. Pfeiffer
Brent C. Mangus**

Contents

Chapter 1

The Concept of Sports Injury	1
Definition of Sports Injury	3
Injury Classifications	6
Sprains	7
Strains	7
Contusions	7
Fractures	7
Dislocations	9
Injury Recognition	10
Epidemiology of Sports Injury	10
Classification of Sports	11
Extent of the Injury Problem: Some Examples	12
Tackle Football	12
Basketball	13
Baseball and Softball	14
Wrestling	15
Volleyball	15
Soccer	16
Review Questions	17
References	18

Chapter 2

The Athletic Health Care Team	21
Sports Medicine	22
Key Members of the Team	23
Requirements for Application for the NATABOC Certification Examination	25
Professional Settings for the Practice of Athletic Training	25
The Secondary School Setting	26
Sports Medicine Delivery	27
Review Questions	29
References	29

Chapter 3

The Law of Sports Injury	31
The Concept of Tort	32
What Is Your Liability?	33
Are You Protected?	33
Good Samaritan Law	33
How to Reduce Your Chances of Going to Court	34
What to Do if You Get Sued	36
Ethics of Sports-Injury Care	36

State Regulation of Athletic Training	36
Review Questions	38
References	39

Chapter 4

Sports-Injury Prevention	41
Causative Factors in Injury	42
Intervention Strategies	42
Injury Prevention and Preseason Conditioning	46
Aerobic Fitness	46
Muscle Strength, Power, and Endurance	47
Flexibility	48
Nutrition and Body Composition	48
Periodization	49
Modification of Extrinsic Factors	49
Practice/Competition Environment	49
Facilities	50
Protective Equipment	51
Review Questions	51
References	51

Chapter 5

The Psychology of Injury	53
Personality Variables	54
Seasonal Affective Disorder (SAD)	55
Psychosocial Variables	55
Competitive Stress and the Adolescent	57
Psychology of the Injured Athlete	57
Recommendations	58
Eating Disorders	58
Anorexia Nervosa and Bulimia Nervosa	58
Research	59
Sport Specificity and Eating Disorders	59
Prevention	61
Treatment	62
Review Questions	62
References	62

Chapter 6

Nutritional Considerations	65
Essential Nutrients: An Overview	66
Carbohydrates	66
Fats (Lipids)	67
Proteins	68

viii Contents

Vitamins	69
Minerals	69
Water	70
Dietary Habits of Athletes: What the Research Shows	70
Conclusions	71
Wrestling: Special Considerations	72
Educating Athletes: What Can the Coach Do?	73
General Dietary Guidelines for Athletes	73
Daily Diet (Nutritional Maintenance)	73
Precompetition Diets	74
Nutrition During Competition	75
Weight vs. Fat Management	75
Minimal Competitive Weight	75
Nutrition and Injury Recovery	76
Supplements and Ergogenic Aids	76
Review Questions	80
References	81

Chapter 7

Emergency Plan and Initial Injury Evaluation

Important Questions and Considerations	85
First Aid Training	85
Injury-Evaluation Procedures	85
The Coach's Responsibility	85
The Evaluation Process	86
Assessment of the Injured Athlete	86
Nervous System	87
Respiratory System	87
Circulatory System	88
The Initial Survey: Summary	89
Physical Exam	89
Shock	91
Medical History	91
Palpation	92
Return to Play?	93
The Coach's Limitations	94
Review Questions	95
References	95

Chapter 8

The Injury Process

The Physics of Sports Injury	98
The Mechanical Forces of Injury	98
The Physiology of Sports Injury	98
The Inflammatory Process	98
Acute Inflammatory Phase	99
Resolution (Healing) Phase	100
Regeneration and Repair	100
Pain and Acute Injury	102
Intervention Procedures	103
Cryotherapy and Thermotherapy	103
Pharmacologic Agents	105

The Role of Exercise Rehabilitation	106
Review Questions	108
References	109

Chapter 9

Injuries to the Head, Neck, and Face

Anatomy Review	112
Skull	112
The Meninges	113
The Central Nervous System (CNS)	113
The Face	113
The Neck (Cervical Spine)	114
Head Injuries in Sports	114
Background Information	114
Mechanism of Injury	114
Concussion (Mild Head Injury)	115
Second Impact Syndrome	116
Intracranial Injury	117
Cranial Injury	117
Initial Treatment of a Suspected Head Injury: Guidelines	117
Initial Survey	118
Physical Exam	118
Sideline Assessment	120
Cervical Spine Injuries	121
Background Information	121
Mechanisms of Injury	121
Brachial Plexus Injuries	123
Sprains	124
Strains	124
Fractures and Dislocations	124
Initial Treatment of a Suspected Neck Injury: Guidelines	125
Emergency Procedures for the Treatment of Head and Neck Injuries in Football	127
Injuries to the Maxillofacial Region	130
Dental Injuries	130
Eye Injuries	131
Nose Injuries	133
Ear Injuries	134
Fractures of the Face (Nonnasal)	135
Wounds of the Facial Region	135
Review Questions	136
References	137

Chapter 10

Injuries to the Thoracic Through Coccygeal Spine

Anatomy Review of the Thoracic Spine	140
Common Sports Injuries	140
Skeletal Injuries	140
Sprains	141
Strains	142
Intervertebral Disk Injuries	142

Anatomy Review of the Lumbar Spine	
Distally to the Coccyx	143
Common Sports Injuries	144
Spondylolysis and Spondylolisthesis	144
Traumatic Fractures	145
Sprains and Strains	145
Lumbar Disk Injuries	146
Review Questions	147
References	147

Chapter 11

Injuries to the Shoulder Region	149
Anatomy Review	150
Common Sports Injuries	151
Skeletal Injuries	153
Soft-Tissue Injuries	154
Review Questions	162
References	163

Chapter 12

Injuries to the Arm, Wrist, and Hand	165
Anatomy Review	166
Soft-Tissue Injuries to the Upper Arm	166
Myositis Ossificans Traumatica	166
Triceps Injuries	168
Fractures of the Upper Arm	168
Elbow Injuries	170
Sprains and Dislocations	171
Fractures	172
Epicondylitis of the Elbow	173
Osteochondritis Dissecans of the Elbow	174
Contusions of the Elbow	175
Wrist and Forearm Injuries	175
Wrist Fractures	176
Wrist Sprains and Dislocations	177
Nerve Injuries to the Wrist	178
Unique Tendon Problems of the Wrist	180
Hand Injuries	181
Hand Fractures	181
Sprains and Dislocations of the Hand	182
Wrist and Thumb Taping	186
Review Questions	189
References	189

Chapter 13

Injuries to the Thorax and Abdomen	191
Anatomy Review	192
Internal Organs	193
Common Sports Injuries	193
External Injuries	194
Internal Injuries	195
Review Questions	198
References	199

Chapter 14

Injuries to the Hip and Pelvis	201
Anatomy Review	202
Common Sports Injuries	204
Skeletal Injuries	204
Soft-Tissue Injuries	207
Review Questions	209
References	209

Chapter 15

Injuries to the Thigh, Leg, and Knee	211
Anatomy Review	212
Common Sports Injuries	213
Skeletal Injuries	214
Soft-Tissue Injuries to the Thigh	215
Patellofemoral Joint Injuries	217
Patellofemoral Conditions	219
Menisci Injuries	220
Knee Ligament Injuries	221
Knee Bracing	223
Review Questions	224
References	225

Chapter 16

Injuries to the Lower Leg, Ankle, and Foot	227
Anatomy Review	228
Common Sports Injuries	231
Skeletal Injuries	231
Soft-Tissue Injuries	232
Foot Disorders	238
Preventive Ankle Taping	241
Review Questions	244
References	245

Chapter 17

Skin Conditions in Sports	247
Wounds	248
Treatment	248
Other Skin Conditions	251
Ultraviolet Light–Related Skin Problems	251
Skin Infections	251
Wrestling and Skin Infections	254
Allergic Reactions	255
Review Questions	257
References	257

Chapter 18

Thermal Injuries	259
Exertional Heat Illnesses	261
Dehydration	261

x Contents

Heat Cramps	262	Injury Imitators	291
Heat Exhaustion	263	Oncologic	291
Heatstroke	263	Rheumatologic	292
Prevention of Exertional Heat Illnesses	264	Infectious	292
Cold-Related Health Problems	266	Neurovascular	292
Hypothermia	266	Psychologic	292
Frostbite and Frostnip	267	Strength Training	292
Cold Urticaria	268	Safety	293
Review Questions	269	Lat Pull Down	293
References	269	Bench Press	293
		Military Press	294
		Squats	294
Chapter 19		Prevention of Injury	294
Other Medical Concerns	271	Preparticipation Physical Examination	294
Exercise and Infectious Disease	272	Rehabilitation of Previous Injuries	294
Respiratory Infections	272	Stretching Programs	294
Gastrointestinal Infections	274	Coaching Techniques	295
Other Infectious Diseases	274	Female Athletes	295
Exercise-Induced Asthma	277	Prescription Stimulant Medications	295
The Athlete with Diabetes	278	Review Questions	296
Epilepsy and Sports Participation	281	Suggested Readings	296
Review Questions	283	References	296
References	283		
		Appendix 1 CPR	297
Chapter 20		Appendix 2 Bloodborne Pathogens	313
The Adolescent Athlete: Special		Appendix 3 NATA Position Statement:	
Medical Concerns	285	Exertional Heat Illnesses	341
Youth Sports in America	286	Appendix 4 Weight Loss in Wrestlers	363
Factors in Youth Sports Participation	286	Appendix 5 Health Evaluation History	369
The Growing Athlete	286	Appendix 6 Generic First Aid Kit for Sports Injuries	
Puberty	286	(Checklist)	371
Growth	287	Appendix 7 Rehabilitation: An Overview	372
Injury Mechanisms	287	Appendix 8 Equipment Fitting	379
Ligament Injuries	287	Glossary	385
Tendon Injuries	288	Index	395
Growth Plate Injuries	289		
Growth Cartilage	290		
Contributors to Injury	290		
Intrinsic Factors	290		
Extrinsic Factors	290
