CONTENTS

1 ▼ Principles and Concepts **1**

Patient History	2
Observation	10
Examination	12
Principles	12
Scanning Examination	13
Examination of Specific Joints	23
Functional Assessment	34
Special Tests	44
Reflexes and Cutaneous Distribution	45
Joint Play Movements	49
Palpation	49
Diagnostic Imaging	52
Précis	60
Case Studies	60
Conclusion	60
Appendices	65

2 ▼ Head and Face **67**

Applied Anatomy	67
Patient History	72
Observation	82
Examination	90
Examination of the Head	90
Examination of the Face	97
Examination of the Eye	98
Examination of the Nose	106
Examination of the Teeth	107
Examination of the Ear	107
Special Tests	108
Reflexes and Cutaneous Distribution	111
Joint Play Movements	111
Palpation	111
Diagnostic Imaging	113
Précis of the Head and Face Assessment	117
Case Studies	117

3 ▼ Cervical Spine **121**

Applied Anatomy	121
Patient History	125

Observation	131
Examination	133
Active Movements	133
Passive Movements	135
Resisted Isometric Movements	137
Peripheral Joint Scanning Examination	139
Myotomes	141
Functional Assessment	144
Special Tests	145
Reflexes and Cutaneous Distribution	161
Joint Play Movements	165
Palpation	167
Diagnostic Imaging	169
Précis of the Cervical Spine Assessment	176
Case Studies	176

4 ▼ Temporomandibular Joint **183**

Applied Anatomy	183
Patient History	185
Observation	189
Examination	192
Active Movements	192
Passive Movements	196
Resisted Isometric Movements	196
Functional Assessment	196
Special Tests	197
Reflexes and Cutaneous Distribution	198
Joint Play Movements	199
Palpation	200
Diagnostic Imaging	202
Précis of the Temporomandibular Joint Assessment	203
Case Studies	204

5 ▼ Shoulder **207**

Applied Anatomy	207
Patient History	210
Observation	216
Examination	221
Active Movements	222

Passive Movements 232
Resisted Isometric Movements 234
Functional Assessment 237
Special Tests 243
Reflexes and Cutaneous Distribution 289
Joint Play Movements 291
Palpation 294
Diagnostic Imaging 296
Précis of the Shoulder Assessment 309
Case Studies 310

6 ▾ Elbow 321

Applied Anatomy 321
Patient History 323
Observation 324
Examination 326
 Active Movements 326
 Passive Movements 327
 Resisted Isometric Movements 328
 Functional Assessment 330
 Special Tests 334
 Reflexes and Cutaneous Distribution 338
 Joint Play Movements 342
 Palpation 343
 Diagnostic Imaging 345
Précis of the Elbow Assessment 350
Case Studies 350

7 ▾ Forearm, Wrist, and Hand 355

Applied Anatomy 355
Patient History 358
Observation 359
 Common Hand and Finger Deformities 364
 Other Physical Findings 366
Examination 370
 Active Movements 372
 Passive Movements 374
 Resisted Isometric Movements 375
 Functional Assessment 376
 Special Tests 392
 Reflexes and Cutaneous Distribution 402
 Joint Play Movements 406
 Palpation 409
 Diagnostic Imaging 411
Précis of the Forearm, Wrist, and Hand Assessment 419
Case Studies 419

8 ▾ Thoracic (Dorsal) Spine 425

Applied Anatomy 425

Patient History 428
Observation 429
 Kyphosis 429
 Scoliosis 430
 Breathing 432
 Chest Deformities 432
Examination 436
 Active Movements 436
 Passive Movements 445
 Resisted Isometric Movements 446
 Functional Assessment 447
 Special Tests 452
 Reflexes and Cutaneous Distribution 452
 Joint Play Movements 454
 Palpation 456
 Diagnostic Imaging 458
Précis of the Thoracic Spine Assessment 462
Case Studies 463

9 ▾ Lumbar Spine 467

Applied Anatomy 467
Patient History 473
Observation 480
Examination 484
 Active Movements 484
 Passive Movements 492
 Resisted Isometric Movements 492
 Peripheral Joint Scanning Examination 499
 Myotomes 501
 Functional Assessment 504
 Special Tests 508
 Reflexes and Cutaneous Distribution 529
 Joint Play Movements 533
 Palpation 534
 Diagnostic Imaging 538
Précis of the Lumbar Spine Assessment 557
Case Studies 558

10 ▾ Pelvis 567

Applied Anatomy 567
Patient History 568
Observation 570
Examination 574
 Active Movements 575
 Passive Movements 578
 Resisted Isometric Movements 584
 Functional Assessment 584
 Special Tests 584
 Reflexes and Cutaneous Distribution 594
 Joint Play Movements 595

Palpation 597
Diagnostic Imaging 599
Précis of the Pelvis Assessment 602
Case Studies 602

11 ▼ Hip 607

Applied Anatomy 607
Patient History 607
Observation 608
Examination 610
 Active Movements 610
 Passive Movements 612
 Resisted Isometric Movements 612
 Functional Assessment 613
 Special Tests 616
 Reflexes and Cutaneous Distribution 638
 Joint Play Movements 642
 Palpation 643
 Diagnostic Imaging 645
Précis of the Hip Assessment 654
Case Studies 655

12 ▼ Knee 661

Applied Anatomy 661
Patient History 663
Observation 666
Examination 675
 Active Movements 675
 Passive Movements 676
 Resisted Isometric Movements 678
 Functional Assessment 679
 Ligament Stability 684
 Special Tests 719
 Reflexes and Cutaneous Distribution 734
 Joint Play Movements 738
 Palpation 740
 Diagnostic Imaging 743
Précis of the Knee Assessment 755
Case Studies 755

13 ▼ Lower Leg, Ankle, and Foot 765

Applied Anatomy 765
 Hindfoot (Rearfoot) 765
 Midfoot (Midtarsal Joints) 768
 Forefoot 769
Patient History 769
Observation 771
Examination 789

Active Movements 789
Passive Movements 793
Resisted Isometric Movements 793
Functional Assessment 794
Special Tests 797
Reflexes and Cutaneous Distribution 809
Joint Play Movements 815
Palpation 818
 Diagnostic Imaging 822
Précis of the Lower Leg, Ankle, and Foot
 Assessment 838
Case Studies 838

14 ▼ Assessment of Gait 847

Definitions 847
 Gait Cycle 847
 Stance Phase 847
 Swing Phase 849
 Double-Leg Stance 850
 Single-Leg Stance 850
Normal Parameters of Gait 850
 Base Width 851
 Step Length 852
 Stride Length 852
 Lateral Pelvic Shift (Pelvic List) 852
 Vertical Pelvic Shift 852
 Pelvic Rotation 852
 Center of Gravity 853
 Normal Cadence 853
Normal Pattern of Gait 854
 Stance Phase 854
 Swing Phase 857
 Joint Motion During Normal Gait 857
Overview and Patient History 860
Observation 860
 Footwear 862
Examination 862
 Locomotion Score 863
 Compensatory Mechanisms 863
Abnormal Gait 864
 Antalgic (Painful) Gait 864
 Arthrogenic (Stiff Hip or Knee) Gait 864
 Ataxic Gait 865
 Contracture Gaits 866
 Equinus Gait 866
 Gluteus Maximus Gait 866
 Gluteus Medius (Trendelenburg's) Gait 866
 Hemiplegic or Hemiparetic Gait 867
 Parkinsonian Gait 867
 Plantar Flexor Gait 868
 Psoatic Limp 868
 Quadriceps Gait 868

Scissors Gait 868
Short Leg Gait 868
Steppage or Drop Foot Gait 869

15 ▼ **Assessment of Posture** **873**

Postural Development 873
 Factors Affecting Posture 875
 Causes of Poor Posture 875
Common Spinal Deformities 876
 Lordosis 876
 Kyphosis 877
 Scoliosis 879
Patient History 880
Observation 883
 Standing 884
 Forward Flexion 894
 Sitting 895
 Supine Lying 897
 Prone Lying 897
Examination 897
Précis of the Postural Assessment 902

16 ▼ **Assessment of the Amputee** **905**

Levels of Amputation 906
Patient History 908
Observation 915
Examination 920
 Measurements Related to Amputation 920
 Active Movements 920
 Passive Movements 920
 Resisted Isometric Movements 924
 Functional Assessment 924
 Sensation Testing 924
 Psychological Testing 924
 Palpation 924
 Diagnostic Imaging 925
Précis of the Amputee Assessment 925

17 ▼ **Emergency Sports Assessment** **927**

Pre-Event Preparation 927

Primary Assessment 927
 Level of Consciousness 930
 Establishing the Airway 930
 Establishing Circulation 934
 Assessment for Bleeding, Fluid Loss, and Shock 937
 Pupil Check 938
 Assessment for Spinal Cord Injury 939
 Assessment for Head Injury (Neural Watch) 941
 Assessment for Heat Injury 946
 Assessment for Movement 946
 Positioning the Patient 947
 Injury Severity 950
Secondary Assessment 951
Précis of the Emergency Sports Assessment 955
Case Studies 957

18 ▼ **Preparticipation Evaluation** **961**

Objectives of the Evaluation 962
Setting Up the Examination 963
Preparticipation History 965
Examination 965
 Eye Examination 965
 Musculoskeletal Examination 967
 Neurological Examination and Convulsive Disorders 969
 Cardiovascular Examination 969
 Pulmonary Examination 971
 Urogenital Examination 972
 Gastrointestinal Examination 972
 Dermatological Examination 974
 Examination for Heat Disorders 974
 General Medical Problems 975
 Dental Examination 975
Laboratory Tests 975
Physical Fitness Profile 975
Should the Individual Be Allowed to Participate? 983

Index **989**
