<i>Preface</i>	vi
<i>Acknowledgments</i>	xiii
<i>Introduction</i>	xvi

Food Nutrients: Structure, Function and Digestion, Absorption, and Assimilation 1

<i>Chapter 1</i>	•	The Macronutrients	3
<i>Chapter 2</i>	•	The Micronutrients and Water	45
<i>Chapter 3</i>	•	Digestion and Absorption of the Food Nutrients	89

Nutrient Bioenergetics in Exercise and Training 119

<i>Chapter 4</i>	•	Nutrient Role in Bioenergetics	121
<i>Chapter 5</i>	•	Macronutrient Metabolism in Exercise and Training	151
<i>Chapter 6</i>	•	Measurement of Energy in Food and During Physical Activity	167

Optimal Nutrition for the Physically Active Person: Making Informed and Healthful Choices 185

<i>Chapter 7</i>	•	Nutritional Recommendations for the Physically Active Person	187
<i>Chapter 8</i>	•	Nutritional Considerations for Intense Training and Sports Competition	229
<i>Chapter 9</i>	•	Making Wise Choices in the Nutrition Marketplace	251

Thermoregulation and Fluid Balance During Heat Stress 281

- Chapter 10* • **Exercise Thermoregulation, Fluid Balance, and Rehydration** 283

Purported Ergogenic Aids 307

- Chapter 11* • **Pharmacologic and Chemical Ergogenic Aids Evaluated** 309
- Chapter 12* • **Nutritional Ergogenic Aids Evaluated** 357

Body Composition, Weight Control, and Disordered Eating Behaviors 389

- Chapter 13* • **Body Composition Assessment and Sport-Specific Observations** 391
- Chapter 14* • **Energy Balance, Exercise, and Weight Control** 445
- Chapter 15* • **Disordered Eating** 485
- Appendix A* • **Nutritive Values for Common Foods, Alcoholic and Nonalcoholic Beverages, and Specialty and Fast-Food Items** 515
- Appendix B* • **Energy Expenditure in Household, Occupational, Recreational, and Sports Activities** 563
- Appendix C* • **Assessment of Energy and Nutrient Intakes: Three-Day Dietary Survey** 577
- Appendix D* • **Body Composition Assessment** 587
- Appendix E* • **Body Composition Characteristics of Athletes in Different Sports** 595
- Appendix F* • **Three-Day Physical Activity Log** 601
