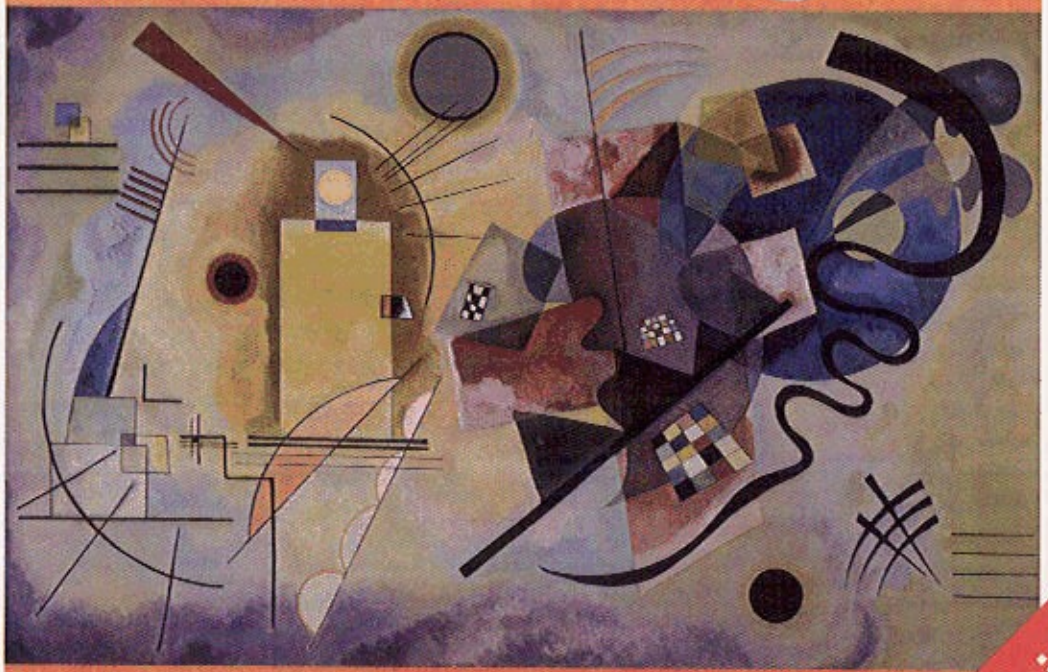
An Introduction to Language



Eighth Edition

Not for Sale in the United States

Contents

Preface xv
About the Authors xxi

PART 1
The Nature of Human Language

CHAPTER 1
What Is Language? 3

Linguistic Knowledge 4
Knowledge of the Sound System 4
Knowledge of Words 5
Arbitrary Relation of Form and Meaning 5
The Creativity of Linguistic Knowledge 8
Knowledge of Sentences and Nonsentences 10

Linguistic Knowledge and Performance 11

What Is Grammar? 13
Descriptive Grammars 13
Prescriptive Grammars 14
Teaching Grammars 16

Language Universals 17
The Development of Grammar 18
Sign Languages: Evidence for the Innateness of Language 19
American Sign Language 20

Animal "Languages" 21
"Talking" Parrots 22
The Birds and the Bees 23

Language and Thought 25

What We Know about Language 28

Summary 29

References for Further Reading 31

Exercises 31

CHAPTER 2
Brain and Language 35

The Human Brain 36
The Localization of Language in the Brain 37
Aphasia 38
Brain Imaging Technology 43
Brain Plasticity and Lateralization in Early Life 45
Split Brains 46
Other Experimental Evidence of Brain Organization 48

The Autonomy of Language 49
Other Dissociations of Language and Cognition 50
Laura 50
Christopher 51

Genetic Basis of Language 52

Language and Brain Development 52
The Critical Period 53
A Critical Period for Bird Song 55

The Evolution of Language 56
In the Beginning: The Origin of Language 57
God's Gift to Mankind? 58
The First Language 58
Human Invention or the Cries of Nature? 59
The Development of Language in the Species 60

Summary 61

References for Further Reading 63

Exercises 64

PART 2
Grammatical Aspects of Language

CHAPTER 3
Morphology: The Words of Language 71

Dictionaries 73

Content Words and Function Words 74

Morphemes: The Minimal Units of Meaning 76
Bound and Free Morphemes 78
Prefixes and Suffixes 78
Infixes 80
Circumfixes 81
Roots and Stems 81
Huckles and Ceives 82

Rules of Word Formation 83
Derivational Morphology 84
The Hierarchical Structure of Words 84
More about Derivational Morphemes 86
Lexical Gaps 88
Rule Productivity 89
"Pullet Surprises" 91

Sign Language Morphology 91

Word Coinage 92
Words from Names 93
Back-Formations 94
Compounds 95
Meaning of Compounds 96
Universality of Compounding 97
Blends 97
Reduced Words 98

Inflectional Morphemes 98
Exceptions and Suppletions 100
Morphology and Syntax 101

Morphological Analysis: Identifying Morphemes 103

Summary 105

References for Further Reading 106

Exercises 107

CHAPTER 4
Syntax: The Sentence Patterns of Language 115

What the Syntax Rules Do 116
What Grammaticality Is Not Based On 120

Sentence Structure 121
Constituents and Constituency Tests 122
Syntactic Categories 124
Phrase Structure Trees and Rules 127
Some Conventions for Building Phrase Structure Trees 131
The Infinity of Language 133
Heads and Complements 139
Selection 140
What Heads the Sentence 142
Structural Ambiguities 145
More Structures 147
Sentence Relatedness 150
Transformational Rules 150
Structure-Dependent Rules 152
Syntactic Dependencies 155
Wh *Questions* 155
UG Principles and Parameters 158
Sign Language Syntax 161
Summary 162
References for Further Reading 163
Exercises 163

CHAPTER 5
The Meaning of Language 173

What Speakers Know about Sentence Meaning 174
Truth 175
Entailment and Related Notions 175
Ambiguity 176
Compositional Semantics 178
Semantic Rules 178
Semantic Rule I 179
Semantic Rule II 180
When Compositionality Goes Awry 181
Anomaly 181
Metaphor 183
Idioms 184
Lexical Semantics (Word Meanings) 186
Theories of Word Meaning 187
Reference 187
Sense 188
Lexical Relations 189
Semantic Features 192
Evidence for Semantic Features 193
Semantic Features and Grammar 193
Argument Structure 197
Thematic Roles 197
Pragmatics 199
Pronouns 200
Pronouns and Syntax 200
Pronouns and Discourse 201
Deixis 202
More on Situational Context 204
Maxims of Conversation 204
Implicatures 205
Speech Acts 206
Summary 208
References for Further Reading 209
Exercises 210

CHAPTER 6
Phonetics: The Sounds of Language 221

Sound Segments 221
Identity of Speech Sounds 222
The Phonetic Alphabet 223
Articulatory Phonetics 226
Consonants 227
Places of Articulation 227
Manner of Articulation 229
Phonetic Symbols for American English Consonants 234

Vowels 236
Lip Rounding 238
Diphthongs 238
Nasalization of Vowels 239
Tense and Lax Vowels 239
Different (Tongue) Strokes for Different Folks 240
Major Phonetic Classes 240
Noncontinuants and Continuants 240
Obstruents and Sonorants 241
Consonantal 241
Syllabic Sounds 241

Prosodic Features 242
Tone and Intonation 243

Phonetic Symbols and Spelling Correspondences 245

The "Phonetics" of Signed Languages 247

Summary 249

References for Further Reading 250

Exercises 250

CHAPTER 7
Phonology: The Sound Patterns of Language 255

The Pronunciation of Morphemes 256
The Pronunciation of Plurals 256
Additional Examples of Allomorphs 259

Phonemes: The Phonological Units of Language 261
Vowel Nasalization in English as an Illustration of Allophones 261
Allophones of /t/ 263
Minimal Pairs in ASL 264
Complementary Distribution 264

Distinctive Features of Phonemes 266
Feature Values 267
Nondistinctive Features 268
Phonemic Patterns May Vary Across Languages 269
Natural Classes of Speech Sounds 270
Feature Specifications for American English Consonants and Vowels 271

The Rules of Phonology 273
Assimilation Rules 274
Dissimilation Rules 276
Feature-Changing Rules 277
Segment Insertion and Deletion Rules 278
Movement (Metathesis) Rules 281
From One to Many and from Many to One 282
The Function of Phonological Rules 284
Slips of the Tongue: Evidence for Phonological Rules 285

Prosodic Phonology 286
Syllable Structure 286
Word Stress 287
Sentence and Phrase Stress 288
Intonation 289

Sequential Constraints of Phonemes 290
Lexical Gaps 292

Why Do Phonological Rules Exist? 292

Phonological Analysis: Discovering Phonemes 294

Summary 297

References for Further Reading 299

Exercises 299

PART 3
The Psychology of Language

CHAPTER 8
Language Acquisition 313

Mechanisms of Language Acquisition 314
- Do Children Learn through Imitation? 314
- Do Children Learn through Reinforcement? 315
- Do Children Learn Language through Analogy? 316
- Do Children Learn through Structured Input? 318

Children Construct Grammars 318
- The Innateness Hypothesis 319
- Stages in Language Acquisition 322
- The Perception and Production of Speech Sounds 323
- First Words 325
- The Development of Grammar 326
  - *The Acquisition of Phonology* 326
  - *The Acquisition of Word Meaning* 328
  - *The Acquisition of Morphology* 330
  - *The Acquisition of Syntax* 332
  - *The Acquisition of Pragmatics* 336
  - *The Development of Auxiliaries: A Case Study* 337
- Setting Parameters 340
- The Acquisition of Signed Languages 341

Knowing More Than One Language 342
- Childhood Bilingualism 343
  - *Theories of Bilingual Development* 343
  - *Two Monolinguals in One Head* 345
  - *The Role of Input* 345
  - *Cognitive Effects of Bilingualism* 346
- Second Language Acquisition 346
  - *Is L2 Acquisition the Same as L1 Acquisition?* 346
  - *Native Language Influence in L2 Acquisition* 348
  - *The Creative Component of L2 Acquisition* 349
  - *Is There a Critical Period for L2 Acquisition?* 350

Second-Language Teaching Methods 351

Can Chimps Learn Human Language? 352

Summary 356

References for Further Reading 358

Exercises 358

CHAPTER 9
Language Processing: Humans and Computers 363

The Human Mind at Work: Human Language Processing 363
- Comprehension 365
  - *The Speech Signal* 365
  - *Speech Perception and Comprehension* 367
  - *Bottom-up and Top-down Models* 369
  - *Lexical Access and Word Recognition* 370
- Syntactic Processing 372
- Speech Production 374
  - *Planning Units* 375
  - *Lexical Selection* 376

Application and Misapplication of Rules **377**
Nonlinguistic Influences **378**

Computer Processing of Human Language 378
Frequency Analysis, Concordances, and Collocations **378**
Information Retrieval and Summarization **380**
Spell Checkers **381**
Machine Translation **381**
Computers That Talk and Listen **383**
Computational Phonetics and Phonology **384**
Computational Morphology **388**
Computational Syntax **389**
Computational Semantics **394**
Computational Pragmatics **396**
Computer Models of Grammar **397**

Summary 398

References for Further Reading 400

Exercises 401

PART 4
Language and Society

CHAPTER 10
Language in Society 409

Dialects 409
Regional Dialects **410**
Accents **411**
Dialects of English **411**
Social Dialects **417**
The "Standard" **418**
African American English **423**
Latino (Hispanic) English **427**
Genderlects **430**
Sociolinguistic Analysis **431**

Languages in Contact 432
Lingua Francas **433**
Pidgins **434**
Creoles **436**

Language in Use 437
Styles **438**
Slang **439**
Jargon and Argot **440**
Taboo or Not Taboo? **442**
Euphemisms **444**
Racial and National Epithets **446**
Language and Sexism **447**
Marked and Unmarked Forms **448**
The Generic "He" **450**

Secret Languages and Language Games 451

Summary 452

References for Further Reading 453

Exercises 454

CHAPTER 11
Language Change: The Syllables of Time 461

The Regularity of Sound Change 463
Sound Correspondences **463**
Ancestral Protolanguages **463**

Phonological Change 464
Phonological Rules **465**
The Great Vowel Shift **466**

Morphological Change 467
Syntactic Change 468
Lexical Change 472
Addition of New Words 473
Borrowings or Loan Words 474
History through Loan Words 474
Loss of Words 476
Semantic Change 477
Broadening 477
Narrowing 477
Meaning Shifts 478
Reconstructing "Dead" Languages 478
The Nineteenth-Century Comparativists 478
Cognates 480
Comparative Reconstruction 482
Historical Evidence 484
Extinct and Endangered Languages 485
The Genetic Classification of Languages 487
Languages of the World 490
Types of Languages 492
Why Do Languages Change? 494
Summary 496
References for Further Reading 497
Exercises 498

CHAPTER 12
Writing: The ABCs of Language 505

The History of Writing 506
Pictograms and Ideograms 506
Cuneiform Writing 508
The Rebus Principle 510
From Hieroglyphics to the Alphabet 511
Modern Writing Systems 512
Word Writing 513
Syllabic Writing 514
Consonantal Alphabet Writing 515
Alphabetic Writing 516
Reading, Writing, and Speech 518
Reading 521
Spelling 523
Spelling Pronunciations 526
Summary 527
References for Further Reading 528
Exercises 529

GLOSSARY 535
INDEX 567
