Contents

List of Contributing Authors	vii
Preface	xi

Part I Overview

1. CRPS-I and CRPS-II: A Strategic View <i>Wilfrid Jänig</i>	3
---	---

Part II Animal Models

Section Editor: Bradley S. Galer

2. Sympathetic Involvement in the Spinal Nerve Ligation Model of Neuropathic Pain <i>Kyungsoon Chung and Jin Mo Chung</i>	19
3. The Role of Injured and Uninjured Afferents in Neuropathic Pain <i>Matthias Ringkamp and Gang Wu</i>	27
4. Neuropathy after Spinal Nerve Injury in Rats: a Model for Sympathetically Maintained Pain? <i>Heinz-Joachim Häbler and Wilfrid Jänig</i>	39
5. A Model of CRPS-I Produced by Tetanic Electrical Stimulation of an Intact Sciatic Nerve in the Rat: Genetic and Dietary Effects <i>Jean-Jacques Vatine, Jeanna Tsenter, Pnina Raber, and Ze'ev Seltzer</i>	53
6. The Value of Animal Models in Research on CRPS <i>Wilfrid Jänig and Ralf Baron</i>	75

Part III Human Experimentation

Section Editor: Stephen Bruehl

7. The Role of the Sympathetic Nervous System in Autonomic Disturbances and "Sympathetically Maintained Pain" in CRPS <i>Gunnar Wasner, Peter Drummond, Frank Birklein, and Ralf Baron</i>	89
8. Kinematic Analysis of the Upper Extremity in CRPS <i>Jörn Schattschneider, Roland Wenzelburger, Günther Deuschl, and Ralf Baron</i>	119
9. Grip Force Coordination in CRPS <i>Roland Wenzelburger, Jörn Schattschneider, Gunnar Wasner, Jan Raethjen, Henning Stolze, Guenther Deuschl, and Ralf Baron</i>	129
10. Motor Abnormalities in CRPS: A Neglected but Key Component <i>Bradley S. Galer and R. Norman Harden</i>	135

11.	Disuse and CRPS <i>Stephen Butler</i>	141
12.	A Prospective Clinical Model for Investigating the Development of CRPS <i>Steven P. Stanos, Jr., R. Norman Harden, Lynne Wagner-Raphael, and Samuel L. Saltz</i>	151
13.	Human Models of Hyperalgesia Induced by Capsaicin: A Discussion of Secondary Hyperalgesia to Heat <i>Ole K. Andersen, Aysen Yucel, and Lars Arendt-Nielsen</i>	165
14.	The Role of an Exaggerated Regional Inflammatory Response in the Pathophysiology of CRPS <i>Lijckle van der Laan and R. Jan A. Goris</i>	183
15.	Clinical Evidence of Central Sensory Disturbances in CRPS <i>Oliver Rommel and Mark Thimineur</i>	193
16.	Imaging Brain Pathophysiology of Chronic CRPS Pain <i>A. Vania Apkarian, Igor D. Grachev, Beth R. Krauss, and Nikolaus M. Szeverenyi</i>	209
17.	Genetic Considerations in CRPS <i>Angela Mailis and Judith A. Wade</i>	227
18.	Human Experimentation <i>Ralf Baron and Wilfrid Jänig</i>	239
Part IV Diagnosis		
<i>Section Editor: Michael Stanton-Hicks</i>		
19.	Reliability of Assessment of Motor Function and Swelling in Patients with Chronic CRPS-I of the Upper Extremity <i>Pieter U. Dijkstra and Jan H.B. Geertzen</i>	249
20.	Regional Anesthesia as a Diagnostic Tool for CRPS <i>Michael Stanton-Hicks</i>	261
21.	Do Psychological Factors Play a Role in the Onset and Maintenance of CRPS-I? <i>Stephen Bruehl</i>	279
22.	CRPS: Impact of the Change in Taxonomy <i>Michael Stanton-Hicks</i>	291
23.	An Empirical Approach to Modifying IASP Criteria for CRPS <i>Stephen Bruehl and R. Norman Harden</i>	303
24.	Diagnosis of CRPS: Summary <i>R. Norman Harden and Michael Stanton-Hicks</i>	315
Part V Epilogue		
25.	Epilogue <i>Gary J. Bennett</i>	323
	Index	327
