PART I
Preparing for OCP Database Administration Fundamentals I Exam

1 Basics of the Oracle Database Architecture 5
Oracle Architectural Components 6
Oracle Server Architecture 7
Reading Data from Disk for Users: The Server Process 9
Structures That Connect Users to Oracle Servers 12
Stages in Processing Queries, Changes, and commits 15
Getting Started with the Oracle Server 22
Common Database Administrative Tools 22
The Oracle Universal Installer 24
Benefits of Optimal Flexible Architecture 29
Setting Up Password File Authentication 31
Using Oracle Enterprise Manager Components 38
Managing an Oracle Instance 44
Creating and Managing Initialization Parameter File 45
Configuring Oracle-Managed Files (OMF) 51
Starting an Instance 54
Monitoring Use of Diagnostic Files 62

Creating an Oracle Database 66
Prerequisites for Database Creation 66
Creating Databases Using Database Configuration Assistant 72
Creating a Database Manually 75
Chapter Summary 79
Two-Minute Drill 80
Fill-in-the-Blank Questions 85
Chapter Questions 85
Fill-in-the-Blank Answers 89
Answers to Chapter Questions 89

2 Managing the Physical Database Structure 93
Data Dictionary Content and Usage 94
Constructing the Data Dictionary Views 95
Key Data Dictionary Components and Contents 98
Querying the Data Dictionary 105
Maintaining Control Files 109
How Control Files Are Used 109
Examining Control File Contents 112
Managing Control Files with Oracle-Managed Files 116
Obtaining Information about Control Files 119
Multiplexing Control Files 123
Maintaining Redo Log Files 125
The Purpose and Structure of Online Redo Logs 125
Controlling Log Switches and Checkpoints 129
Multiplexing and Maintaining Redo Log Files 132
Managing Online Redo Log Files with OMF 135
Chapter Summary 137
Two-Minute Drill 137
Chapter Questions 142
Answers to Chapter Questions 144

3 Managing Tablespaces and Datafiles 147
Describing the Logical Structure of the Database 148
Creating Tablespaces 155
Changing Tablespace Size 161
Allocating Space for Temporary Segments 164
Temporary Segments in Permanent Tablespaces 164
Changing Tablespace Status 169
Changing Tablespace Storage Settings 172
Oracle-Managed Files (OMF) 176
Chapter Summary 179

Two-Minute Drill 179
Fill-in-the-Blank Questions 182
Chapter Questions 182
Fill-in-the-Blank Answers 184
Answers to Chapter Questions 184

4 Storage Structures and Undo Data **187**
Storage Structures and Relationships 188
Different Segment Types and Their Uses 189
Controlling the Use of Extents by Segments 197
Using Block Space Utilization Parameters 206
Obtaining Information about Storage Structures 210
Managing Undo Data 213
The Purpose of Undo Segments 213
Implementing Automatic Undo Management 217
Creating and Configuring Undo Segments Manually 222
Obtaining Information about Undo Data 232
Chapter Summary 233
Two-Minute Drill 233
Fill-in-the-Blank Questions 236
Chapter Questions 236
Fill-in-the-Blank Answers 239
Answers to Chapter Questions 239

5 Managing Database Objects **241**
Managing Tables 242
Various Methods of Storing Data 243
Distinguishing Oracle Datatypes 248
Extended and Restricted ROWIDs 252
Structure of Data Blocks and Rows 255
Creating Permanent and Temporary Tables 257
Managing Storage Structures in a Table 264
Reorganizing, Truncating, and Dropping Tables 268
Dropping Unused Columns from Tables 274
Managing Indexes 277
Different Index Types and Their Uses 278
Creating B-Tree and Bitmap Indexes 285
Reorganizing Indexes 289
Dropping Indexes 294
Getting Index Information from the Data Dictionary 295
Monitoring Use of Indexes 297

Managing Data Integrity 301
Implementing Data Integrity Constraints 301
Maintaining Integrity Constraints 308
Obtaining Constraint Information from Oracle 312
Chapter Summary 314
Two-Minute Drill 315
Fill-in-the-Blank Questions 318
Chapter Questions 318
Fill-in-the-Blank Answers 323
Answers to Chapter Questions 323

6 Managing Database Users 327
Managing Users 328
Creating New Database Users 328
Altering and Dropping Existing Users 334
Monitoring Information about Existing Users 339
Managing Password Security and Resources 341
Controlling Resource Use with Profiles 342
Administering Profiles 346
Administering Passwords Using Profiles 350
Obtaining Profile Information from the Data Dictionary 355
Managing Privileges 357
Identifying System and Object Privileges 358
Granting and Revoking Privileges 364
Identifying Audit Capabilities 369
Managing Roles 377
Creating and Modifying Roles 377
Controlling Availability of Roles 380
Removing Roles 384
Using Predefined Roles 385
Displaying Role Information from the Data Dictionary 387
Chapter Summary 388
Two-Minute Drill 389
Fill-in-the-Blank Questions 395
Chapter Questions 395
Fill-in-the-Blank Answers 399
Answers to Chapter Questions 399

PART 2

OCP Oracle9*i* DBA Fundamentals I Practice Exams

7 OCP Database Administration Fundamentals I 405
Practice Exam 1 406
Practice Exam 2 424
Practice Exam 3 440
Answers to Practice Exam 1 460
Answers to Practice Exam 2 473
Answers to Practice Exam 3 487

A Globalization Support 503
Choosing a Database and a National Character Set for a Database . 505
Specifying Language-Dependent Behavior 506
NLS Parameters 507
Obtaining Information about Globalization Support Usage 508

Index 511
