

INTERNATIONAL EDITION

BUSINESS FORECASTING

EIGHTH EDITION

JOHN E. HANKE
DEAN W. WICHERN

Student and faculty resources available at www.prenhall.com/hanke

Contents

Preface **xiii**

CHAPTER 1 **Introduction to Forecasting** **1**

The History of Forecasting	1
The Need for Forecasting	1
Types of Forecasts	3
Macroeconomic Forecasting Considerations	4
Choosing a Forecasting Method	4
Forecasting Steps	5
Managing the Forecasting Process	6
Computer Forecasting Packages	7
Online Information	8
Forecasting Example	8
Summary	9
Case 1-1: Mr. Tux	10
Case 1-2: Consumer Credit Counseling	10
Minitab Applications	11
Excel Applications	12
References	12

CHAPTER 2 **A Review of Basic Statistical Concepts** **15**

Describing Data with Numerical Summaries	15
Displays of Numerical Information	19
Probability Distributions	22
Sampling Distributions	26
Inference from a Sample	28
<i>Estimation</i>	28
Hypothesis Testing	29
<i>p-Value</i>	31
Correlation Analysis	32
<i>Scatter Diagrams</i>	32
Correlation Coefficient	35

Fitting a Straight Line	37
Assessing Normality	39
Application to Management	42
Glossary	43
Key Formulas	43
Problems	45
Case 2-1: Alcom Electronics	50
Case 2-2: Mr. Tux	51
Case 2-3: Alomega Food Stores	52
Minitab Applications	53
Excel Applications	55
References	56

CHAPTER 3 Exploring Data Patterns and Choosing a Forecasting Technique 57

Exploring Time Series Data Patterns	58
Exploring Data Patterns with Autocorrelation Analysis	60
<i>Are the Data Random?</i>	65
<i>Do the Data Have a Trend?</i>	67
<i>Are the Data Seasonal?</i>	69
Choosing a Forecasting Technique	74
<i>Forecasting Techniques for Stationary Data</i>	75
<i>Forecasting Techniques for Data with a Trend</i>	75
<i>Forecasting Techniques for Seasonal Data</i>	76
<i>Forecasting Techniques for Cyclical Series</i>	76
<i>Other Factors to Consider When Choosing a Forecasting Technique</i>	77
<i>Empirical Evaluation of Forecasting Methods</i>	77
Measuring Forecasting Error	78
<i>Basic Forecasting Notation</i>	79
Determining the Adequacy of a Forecasting Technique	81
Application to Management	83
Glossary	84
Key Formulas	84
Problems	85
Case 3-1A: Murphy Brothers Furniture	90
Case 3-1B: Murphy Brothers Furniture	92
Case 3-2: Mr. Tux	92
Case 3-3: Consumer Credit Counseling	94
Case 3-4: Alomega Food Stores	94
Minitab Applications	95

Excel Applications	98
References	100

CHAPTER 4 Moving Averages and Smoothing Methods 101

Naive Models	102
Forecasting Methods Based on Averaging	105
<i>Simple Averages</i>	105
<i>Moving Averages</i>	107
<i>Double Moving Averages</i>	110
Exponential Smoothing Methods	114
<i>Exponential Smoothing Adjusted for Trend: Holt's Method</i>	121
<i>Exponential Smoothing Adjusted for Trend and Seasonal Variation: Winters' Method</i>	126
Application to Management	130
Glossary	131
Key Formulas	131
Problems	133
Case 4-1: The Solar Alternative Company	139
Case 4-2: Mr. Tux	140
Case 4-3: Consumer Credit Counseling	141
Case 4-4: Murphy Brothers Furniture	141
Case 4-5: Five-Year Revenue Projection for Downtown Radiology	142
Minitab Applications	148
Excel Applications	150
Excel Applications: CB Predictor	151
References	155

CHAPTER 5 Time Series and Their Components 157

Decomposition	158
Trend	160
<i>Additional Trend Curves</i>	164
<i>Forecasting Trend</i>	166
<i>Seasonality</i>	167
Seasonally Adjusted Data	171
<i>Cyclical and Irregular Variations</i>	172
Forecasting a Seasonal Time Series	177
The Census II Decomposition Method	179
Application to Management	181
Appendix: Price Index	182
Glossary	184

Key Formulas	184
Problems	185
Case 5-1: The Small Engine Doctor	191
Case 5-2: Mr. Tux	192
Case 5-3: Consumer Credit Counseling	196
Case 5-4: Murphy Brothers Furniture	197
Case 5-5: AAA Washington	200
Case 5-6: Alomega Food Stores	202
Minitab Applications	203
Excel Applications	206
References	209

CHAPTER 6 Simple Linear Regression 211

Regression Line	212
Standard Error of the Estimate	216
Forecasting Y	217
Decomposition of Variance	220
Coefficient of Determination	224
Hypothesis Testing	226
Analysis of Residuals	229
Computer Output	231
Variable Transformations	233
Growth Curves	237
Application to Management	242
Glossary	243
Key Formulas	243
Problems	245
Case 6-1: Tiger Transport	254
Case 6-2: Butcher Products, Inc.	256
Case 6-3: Ace Manufacturing	257
Case 6-4: Mr. Tux	258
Case 6-5: Consumer Credit Counseling	259
Case 6-6: AAA Washington	260
Minitab Applications	262
Excel Applications	265
References	267

CHAPTER 7 Multiple Regression Analysis 269

Several Predictor Variables	269
Correlation Matrix	270

Multiple Regression Model	271
<i>Statistical Model for Multiple Regression</i>	271
Interpreting Regression Coefficients	273
Inference for Multiple Regression Models	274
<i>Standard Error of the Estimate</i>	275
<i>Significance of the Regression</i>	276
<i>Individual Predictor Variables</i>	278
<i>Forecast of a Future Response</i>	279
Computer Output	280
Dummy Variables	281
Multicollinearity	285
Selecting the “Best” Regression Equation	288
<i>All Possible Regressions</i>	290
<i>Stepwise Regression</i>	292
<i>Final Notes on Stepwise Regression</i>	294
Regression Diagnostics and Residual Analysis	295
Forecasting Caveats	297
<i>Overfitting</i>	297
<i>Useful Regressions, Large F Ratios</i>	298
Application to Management	298
Glossary	300
Key Formulas	300
Problems	301
Case 7-1: The Bond Market	310
Case 7-2: AAA Washington	313
Case 7-3: Fantasy Baseball (A)	315
Case 7-4: Fantasy Baseball (B)	320
Minitab Applications	324
Excel Applications	326
References	326
CHAPTER 8 Regression with Time Series Data	327
Time Series Data and the Problem of Autocorrelation	327
Durbin-Watson Test for Serial Correlation	331
Solutions to Autocorrelation Problems	334
<i>Model Specification Error (Omitting a Variable)</i>	335
<i>Regression with Differences</i>	337
<i>Autocorrelated Errors and Generalized Differences</i>	342
<i>Autoregressive Models</i>	345

Time Series Data and the Problem of Heteroscedasticity	346
Using Regression to Forecast Seasonal Data	349
Econometric Forecasting	352
Application to Management	353
Glossary	353
Key Formulas	353
Problems	355
Case 8-1: Company of Your Choice	362
Case 8-2: Business Activity Index for Spokane County	363
Case 8-3: Restaurant Sales	367
Case 8-4: Mr. Tux	369
Case 8-5: Consumer Credit Counseling	371
Case 8-6: AAA Washington	372
Case 8-7: Alomega Food Stores	375
Minitab Applications	376
Excel Applications	377
References	379

CHAPTER 9 The Box-Jenkins (ARIMA) Methodology 381

Box-Jenkins Methodology	381
<i>Autoregressive Models</i>	386
<i>Moving Average Models</i>	387
<i>Autoregressive Moving Average Models</i>	388
<i>Summary</i>	389
Implementing the Model-Building Strategy	389
<i>Step 1: Model Identification</i>	389
<i>Step 2: Model Estimation</i>	391
<i>Step 3: Model Checking</i>	392
<i>Step 4: Forecasting with the Model</i>	392
<i>Final Comments</i>	411
<i>Model Selection Criteria</i>	412
<i>Models for Seasonal Data</i>	414
<i>Simple Exponential Smoothing and an ARIMA Model</i>	424
<i>Advantages and Disadvantages of ARIMA Models</i>	426
Application to Management	428
Glossary	429
Key Formulas	429
Problems	430
Case 9-1: Restaurant Sales	440

Case 9-2: Mr. Tux	442
Case 9-3: Consumer Credit Counseling	444
Case 9-4: The Lydia E. Pinkham Medicine Company	444
Case 9-5: City of College Station	447
Case 9-6: UPS Air Finance Division	450
Case 9-7: AAA Washington	453
Minitab Applications	455
Excel Applications: CB Predictor	457
References	460

CHAPTER 10 Judgmental Forecasting and Forecast Adjustments 463

The Delphi Method	464
Scenario Writing	467
Combining Forecasts	468
Forecasting and Neural Networks	470
Summary of Judgmental Forecasting	472
Other Tools Useful in Making Judgments About the Future	473
Key Formulas	477
Problems	478
Case 10-1: Golden Gardens Restaurant	478
Case 10-2: Alomega Food Stores	479
Case 10-3: The Lydia E. Pinkham Medicine Company Revisited	480
References	482

CHAPTER 11 Managing the Forecasting Process 485

The Forecasting Process	485
Monitoring Forecasts	486
Forecasting Steps Reviewed	491
Forecasting Responsibility	492
Forecasting Costs	493
Forecasting and the MIS System	493
Selling Management on Forecasting	494
The Future of Forecasting	494
Problems	495
Case 11-1: Boundary Electronics	495
Case 11-2: Busby Associates	496
Case 11-3: Consumer Credit Counseling	499
Case 11-4: Mr. Tux	500
Case 11-5: Alomega Food Stores	501
References	501

APPENDIX A Derivations 503

Correlation Derivation 503

Least Squares Derivation 503

Partial Derivatives 503

APPENDIX B Data for Case 7-1 505

APPENDIX C Tables 507

Table C-1 Individual Terms of the Binomial Distribution 507

Table C-2 Table of Areas for Standard Normal Probability Distribution 509

Table C-3 Critical Values of t 510

Table C-4 Critical Values of Chi-Square 511

Table C-5 Table of F Distribution 513

Table C-6 Durbin-Watson Test Bounds 514

APPENDIX D Data Sets and Databases 517

Index 531
