

SAMS
**Teach
Yourself**

STARTER KIT
CD-ROM includes a complete
starter kit for Windows®, Linux®,
and Mac OS X®

PHP, MySQL[®] and Apache

Julie C. Meloni

All in
One

Table of Contents

| | |
|--|-----------|
| Introduction | 1 |
| Who Should Read This Book? | 1 |
| How This Book Is Organized | 1 |
| Conventions Used in This Book | 3 |
| | |
| Part I: Laying the Groundwork | |
| | |
| CHAPTER 1: Installation QuickStart Guide | 7 |
| Linux/UNIX Installation | 7 |
| Installing MySQL | 7 |
| Installing Apache | 8 |
| Installing PHP | 9 |
| Windows Installation | 10 |
| Installing MySQL | 10 |
| Installing Apache | 13 |
| Installing PHP | 15 |
| Mac OS X Installation | 17 |
| Installing MySQL | 17 |
| Installing PHP | 19 |
| Troubleshooting | 20 |
| | |
| CHAPTER 2: Installing and Configuring MySQL | 21 |
| Current and Future Versions of MySQL | 21 |
| How to Get MySQL | 22 |
| Installing MySQL on Linux/UNIX | 22 |
| Installing MySQL on Mac OS X | 23 |
| Installing MySQL on Windows | 25 |
| Troubleshooting Your Installation | 32 |

| | |
|---|-----------|
| Basic Security Guidelines | 32 |
| Starting MySQL | 33 |
| Securing Your MySQL Connection | 33 |
| Introducing the MySQL Privilege System | 34 |
| The Two-Step Authentication Process | 35 |
| Working with User Privileges | 36 |
| Adding Users | 36 |
| Removing Privileges | 38 |
| CHAPTER 3: Installing and Configuring Apache | 41 |
| Current and Future Versions of Apache | 41 |
| Choosing the Appropriate Installation Method | 42 |
| Building from Source | 42 |
| Installing a Binary | 42 |
| Installing Apache on Linux/UNIX | 42 |
| Downloading the Apache Source Code | 43 |
| Uncompressing the Source Code | 43 |
| Preparing to Build Apache | 44 |
| Building and Installing Apache | 44 |
| Installing Apache on Mac OS X | 45 |
| Installing Apache on Windows | 45 |
| Apache Configuration File Structure | 48 |
| Directives | 49 |
| Containers | 50 |
| Conditional Evaluation | 51 |
| The ServerRoot Directive | 52 |
| Per-Directory Configuration Files | 52 |
| Apache Log Files | 53 |
| The access_log File | 53 |
| The error_log File | 54 |
| Additional Files | 54 |
| Apache-Related Commands | 54 |
| Apache Server Binary | 54 |
| Apache Control Script | 56 |

| | |
|--|-----------|
| Starting Apache for the First Time | 56 |
| Check Your Configuration File | 56 |
| Starting Apache | 57 |
| Troubleshooting | 58 |
| Already an Existing Web Server | 58 |
| No Permission to Bind to Port | 58 |
| Access Denied | 59 |
| Wrong Group Settings | 59 |
| CHAPTER 4: Installing and Configuring PHP | 61 |
| Current and Future Versions of PHP | 61 |
| Building PHP on Linux/UNIX with Apache | 62 |
| Additional Linux/UNIX Configuration Options | 64 |
| Integrating PHP with Apache on Linux/UNIX | 64 |
| Installing PHP on Mac OS X | 65 |
| Installing PHP on Windows | 67 |
| Integrating PHP with Apache on Windows | 67 |
| php.ini Basics | 68 |
| Testing Your Installation | 69 |
| Getting Installation Help | 70 |
| The Basics of PHP Scripts | 71 |
| Beginning and Ending a Block of PHP Statements | 72 |
| The echo Statement and print() Function | 73 |
| Combining HTML and PHP | 74 |
| Adding Comments to PHP Code | 75 |
| Part II: PHP Language Structure | |
| CHAPTER 5: The Building Blocks of PHP | 81 |
| Variables | 81 |
| Globals and Superglobals | 83 |
| Data Types | 84 |
| Changing Type with settype() | 86 |
| Changing Type by Casting | 87 |
| Why Test Type? | 90 |

| | |
|--|------------|
| Operators and Expressions | 90 |
| The Assignment Operator | 91 |
| Arithmetic Operators | 91 |
| The Concatenation Operator | 92 |
| Combined Assignment Operators | 92 |
| Automatically Incrementing and Decrementing an Integer Variable | 93 |
| Comparison Operators | 95 |
| Creating Complex Test Expressions with the Logical Operators | 96 |
| Operator Precedence | 97 |
| Constants | 98 |
| Predefined Constants | 99 |
| CHAPTER 6: Flow Control Functions in PHP | 103 |
| Switching Flow | 103 |
| The if Statement | 103 |
| Using the else Clause with the if Statement | 104 |
| Using the elseif Clause with the if Statement | 105 |
| The switch Statement | 106 |
| Using the ? Operator | 108 |
| Loops | 109 |
| The while Statement | 109 |
| The do...while Statement | 110 |
| The for Statement | 111 |
| Breaking Out of Loops with the break Statement | 112 |
| Skipping an Iteration with the continue Statement | 114 |
| Nesting Loops | 115 |
| Code Blocks and Browser Output | 117 |
| CHAPTER 7: Working with Functions | 123 |
| What Is a Function? | 123 |
| Calling Functions | 124 |
| Defining a Function | 125 |

| | |
|---|------------|
| Returning Values from User-Defined Functions | 128 |
| Variable Scope | 129 |
| Accessing Variables with the global Statement | 130 |
| Saving State Between Function Calls with the static Statement | 132 |
| More About Arguments | 134 |
| Setting Default Values for Arguments | 134 |
| Passing Variable References to Functions | 135 |
| Testing for the Existence of a Function | 137 |
| CHAPTER 8: Working with Arrays | 141 |
| What Are Arrays? | 141 |
| Creating Arrays | 141 |
| Creating Associative Arrays | 143 |
| Creating Multidimensional Arrays | 143 |
| Some Array-Related Functions | 145 |
| CHAPTER 9: Working with Objects | 149 |
| Creating an Object | 149 |
| Properties of Objects | 151 |
| Object Methods | 152 |
| Constructors | 154 |
| Object Inheritance | 154 |
| Part III: Getting Involved with the Code | |
| CHAPTER 10: Working with Strings, Dates, and Time | 161 |
| Formatting Strings with PHP | 162 |
| Working with printf() | 162 |
| Specifying a Field Width | 165 |
| Argument Swapping | 168 |
| Storing a Formatted String | 170 |
| Investigating Strings in PHP | 170 |
| A Note About Indexing Strings | 170 |
| Finding the Length of a String with strlen() | 171 |

| | |
|---|------------|
| Finding a Substring Within a String with strstr() | 171 |
| Finding the Position of a Substring with strpos() | 172 |
| Extracting Part of a String with substr() | 172 |
| Tokenizing a String with strtok() | 173 |
| Manipulating Strings with PHP | 174 |
| Cleaning Up a String with trim(), ltrim(), and strip_tags() | 174 |
| Replacing a Portion of a String Using substr_replace() | 176 |
| Replacing Substrings Using str_replace | 176 |
| Converting Case | 177 |
| Wrapping Text with wordwrap() and nl2br() | 178 |
| Breaking Strings into Arrays with explode() | 180 |
| Using Date and Time Functions in PHP | 181 |
| Getting the Date with time() | 181 |
| Converting a Time Stamp with getdate() | 181 |
| Converting a Time Stamp with date() | 182 |
| Creating Time Stamps with mktime() | 185 |
| Testing a Date with checkdate() | 185 |
| Other String, Date, and Time Functions | 186 |
| CHAPTER 11: Working with Forms | 189 |
| Creating a Simple Input Form | 189 |
| Accessing Form Input with User-Defined Arrays | 191 |
| Combining HTML and PHP Code on a Single Page | 193 |
| Using Hidden Fields to Save State | 196 |
| Redirecting the User | 197 |
| Sending Mail on Form Submission | 198 |
| System Configuration for the mail() Function | 199 |
| Creating the Form | 200 |
| Creating the Script to Send the Mail | 201 |
| Formatting Your Mail with HTML | 202 |
| Working with File Uploads | 204 |
| Creating the File Upload Form | 205 |
| Creating the File Upload Script | 205 |

| | |
|---|------------|
| CHAPTER 12: Working with Cookies and User Sessions | 211 |
| Introducing Cookies | 211 |
| The Anatomy of a Cookie | 212 |
| Setting a Cookie with PHP | 213 |
| Deleting a Cookie | 215 |
| Session Function Overview | 215 |
| Starting a Session | 215 |
| Working with Session Variables | 216 |
| Passing Session IDs in the Query String | 221 |
| Destroying Sessions and Unsetting Variables | 221 |
| Using Sessions in an Environment with Registered Users | 222 |
| Working with Registered Users | 222 |
| Working with User Preferences | 222 |
| CHAPTER 13: Working with Files and Directories | 225 |
| Including Files with <code>include()</code> | 225 |
| Returning a Value from an Included Document | 227 |
| Using <code>include()</code> Within Control Structures | 227 |
| Using <code>include_once()</code> | 228 |
| The <code>include_path</code> Directive | 229 |
| Validating Files | 230 |
| Checking for Existence with <code>file_exists()</code> | 230 |
| A File or a Directory? | 230 |
| Checking the Status of a File | 230 |
| Determining File Size with <code>filesize()</code> | 231 |
| Getting Date Information About a File | 231 |
| Creating a Function That Performs Multiple File Tests | 232 |
| Creating and Deleting Files | 234 |
| Opening a File for Writing, Reading, or Appending | 234 |
| Reading from Files | 235 |
| Reading Lines from a File with <code>fgets()</code> and <code>feof()</code> | 235 |
| Reading Arbitrary Amounts of Data from a File with <code>fread()</code> | 237 |
| Reading Characters from a File with <code>fgetc()</code> | 239 |

Sams Teach Yourself PHP, MySQL and Apache All In One

| | |
|--|------------|
| Writing or Appending to a File | 241 |
| Writing to a File with <code>fwrite()</code> or <code>fputs()</code> | 241 |
| Locking Files with <code>flock()</code> | 242 |
| Working with Directories | 243 |
| Creating Directories with <code>mkdir()</code> | 243 |
| Removing a Directory with <code>rmdir()</code> | 243 |
| Opening a Directory for Reading with <code>opendir()</code> | 243 |
| Reading the Contents of a Directory with <code>readdir()</code> | 244 |
| Opening Pipes to and from Processes Using <code>popen()</code> | 246 |
| Running Commands with <code>exec()</code> | 248 |
| Running Commands with <code>system()</code> or <code>passthru()</code> | 250 |
| CHAPTER 14: Working with Images | 255 |
| Understanding the Image-Creation Process | 255 |
| A Word About Color | 255 |
| Necessary Modifications to PHP | 256 |
| Obtaining Additional Libraries | 256 |
| Drawing a New Image | 257 |
| Drawing Shapes and Lines | 258 |
| Using a Color Fill | 259 |
| Getting Fancy with Pie Charts | 261 |
| Modifying Existing Images | 264 |
| Image Creation from User Input | 267 |
| Part IV: PHP and MySQL Integration | |
| CHAPTER 15: Understanding the Database Design Process | 275 |
| The Importance of Good Database Design | 275 |
| Types of Table Relationships | 276 |
| One-to-One Relationships | 276 |
| One-to-Many Relationships | 277 |
| Many-to-Many Relationships | 278 |

| | |
|--|------------|
| Understanding Normalization | 280 |
| Problems with the Flat Table | 280 |
| First Normal Form | 281 |
| Second Normal Form | 281 |
| Third Normal Form | 282 |
| Following the Design Process | 283 |
| CHAPTER 16: Learning Basic SQL Commands | 287 |
| Learning the MySQL Data Types | 287 |
| Numeric Data Types | 288 |
| Date and Time Types | 289 |
| String Types | 290 |
| Learning the Table Creation Syntax | 291 |
| Using the INSERT Command | 292 |
| A Closer Look at INSERT | 292 |
| Using the SELECT Command | 294 |
| Ordering SELECT Results | 295 |
| Limiting Your Results | 296 |
| Using WHERE in Your Queries | 297 |
| Using Operators in WHERE Clauses | 297 |
| String Comparison Using LIKE | 298 |
| Selecting from Multiple Tables | 299 |
| Using JOIN | 301 |
| Using Subqueries | 303 |
| Using the UPDATE Command to Modify Records | 304 |
| Conditional UPDATES | 305 |
| Using Existing Column Values with UPDATE | 306 |
| Using the REPLACE Command | 307 |
| Using the DELETE Command | 308 |
| Conditional DELETE | 308 |
| Frequently Used String Functions in MySQL | 310 |
| Length and Concatenation Functions | 310 |
| Trimming and Padding Functions | 312 |

| | |
|--|------------|
| Location and Position Functions | 313 |
| Substring Functions | 314 |
| String Modification Functions | 315 |
| Using Date and Time Functions in MySQL | 316 |
| Working with Days | 317 |
| Working with Months and Years | 319 |
| Working with Weeks | 320 |
| Working with Hours, Minutes, and Seconds | 321 |
| Formatting Dates and Times with MySQL | 322 |
| Performing Date Arithmetic with MySQL | 324 |
| Special Functions and Conversion Features | 326 |
| CHAPTER 17: Using Transactions and Stored Procedures in MySQL | 333 |
| What Are Transactions? | 333 |
| Basic Syntax Used in Transactions | 334 |
| Working Example Using Transactions | 335 |
| What Are Stored Procedures? | 337 |
| Basic Syntax of Stored Procedures | 337 |
| CHAPTER 18: Interacting with MySQL Using PHP | 341 |
| MySQL Versus MySQLi Functions | 341 |
| Connecting to MySQL with PHP | 341 |
| Making a Connection | 342 |
| Executing Queries | 343 |
| Retrieving Error Messages | 344 |
| Working with MySQL Data | 345 |
| Inserting Data with PHP | 345 |
| Retrieving Data with PHP | 348 |
| Additional MySQL Functions in PHP | 350 |

Part V: Basic Projects

| | |
|---|------------|
| CHAPTER 19: Managing a Simple Mailing List | 355 |
| Developing the Subscription Mechanism | 355 |
| Creating the subscribers Table | 355 |
| Creating the Subscription Form | 356 |
| Developing the Mailing Mechanism | 362 |
| CHAPTER 20: Creating an Online Address Book | 367 |
| Planning and Creating the Database Tables | 367 |
| Creating a Menu | 370 |
| Creating the Record Addition Mechanism | 371 |
| Viewing Records | 376 |
| Creating the Record Deletion Mechanism | 382 |
| Adding Subentries to a Record | 383 |
| CHAPTER 21: Creating a Simple Discussion Forum | 391 |
| Designing the Database Tables | 391 |
| Creating the Input Forms and Scripts | 392 |
| Displaying the Topic List | 396 |
| Displaying the Posts in a Topic | 399 |
| Adding Posts to a Topic | 403 |
| CHAPTER 22: Creating an Online Storefront | 409 |
| <i>Planning and Creating the Database Tables</i> | 409 |
| Inserting Records into the store_categories Table | 411 |
| Inserting Records into the store_items Table | 411 |
| Inserting Records into the store_item_size Table | 412 |
| Inserting Records into the store_item_color Table | 413 |
| Displaying Categories of Items | 413 |
| Displaying Items | 416 |

| | |
|--|------------|
| CHAPTER 23: Creating a Shopping Cart Mechanism | 421 |
| Planning and Creating the Database Tables | 421 |
| Integrating the Cart with Your Storefront | 423 |
| Adding Items to Your Cart | 426 |
| Viewing the Cart | 427 |
| Removing Items from Your Cart | 430 |
| Payment Methods and the Checkout Sequence | 431 |
| Creating the Checkout Form | 431 |
| Performing the Checkout Actions | 432 |
| CHAPTER 24: Creating a Simple Calendar | 435 |
| Building a Simple Display Calendar | 435 |
| Checking User Input | 435 |
| Building the HTML Form | 436 |
| Creating the Calendar Table | 438 |
| Adding Events to the Calendar | 441 |
| Creating a Calendar Library | 449 |
| CHAPTER 25: Restricting Access to Your Applications | 457 |
| Authentication Overview | 457 |
| Client Authentication | 458 |
| Apache Authentication Module Functionality | 459 |
| File-Based Authentication | 460 |
| Database File-Based Access Control | 462 |
| Using Apache for Access Control | 463 |
| Implementing Access Rules | 463 |
| Evaluating Access Rules | 465 |
| Combining Apache Access Methods | 466 |
| Limiting Access Based on HTTP Methods | 467 |
| Restricting Access Based on Cookie Values | 468 |
| Creating the Authorized Users Table | 468 |
| Creating the Login Form and Script | 469 |
| Testing for the auth Cookie | 472 |

| | |
|---|------------|
| CHAPTER 26: Logging and Monitoring Web Server Activity | 475 |
| Standard Apache Access Logging | 475 |
| Deciding What to Log | 475 |
| Logging Accesses to Files | 479 |
| Logging Accesses to a Program | 480 |
| Standard Apache Error Logging | 481 |
| Logging Errors to a File | 481 |
| Logging Errors to a Program | 481 |
| The syslog Daemon Argument | 481 |
| The LogLevel Directive | 482 |
| Managing Apache Logs | 482 |
| Resolving Hostnames | 483 |
| Log Rotation | 483 |
| Merging and Splitting Logs | 484 |
| Log Analysis | 484 |
| Monitoring Error Logs | 484 |
| Logging Custom Information to a Database | 485 |
| Creating the Database Table | 485 |
| Creating the PHP Code Snippet | 485 |
| Creating Sample Reports | 486 |
| CHAPTER 27: Application Localization | 491 |
| About Internationalization and Localization | 491 |
| About Character Sets | 492 |
| Environment Modifications | 493 |
| Configuration Changes to Apache | 493 |
| Configuration Changes to PHP | 494 |
| Configuration Changes to MySQL | 494 |
| Creating a Localized Page Structure | 494 |
| CHAPTER 28: Working with XML | 501 |
| What Is XML? | 501 |
| Basic XML Document Structure | 501 |

| | |
|--|-----|
| Accessing XML in PHP Using DOM Functions | 503 |
| Accessing XML in PHP Using SimpleXML Functions | 505 |

Part VI: Administration and Fine-tuning

| | |
|--|------------|
| CHAPTER 29: Apache Performance Tuning and Virtual Hosting | 513 |
| Scalability Issues | 513 |
| Operating System Limits | 513 |
| Performance-Related Apache Settings | 515 |
| Load Testing with ApacheBench | 517 |
| Proactive Performance Tuning | 519 |
| Mapping Files to Memory | 519 |
| Distributing the Load | 519 |
| Caching | 520 |
| Reduce Transmitted Data | 520 |
| Network Settings | 520 |
| Preventing Abuse | 521 |
| Robots | 521 |
| Implementing Virtual Hosting | 521 |
| IP-Based Virtual Hosting | 522 |
| Name-Based Virtual Hosts | 523 |
| Mass Virtual Hosting | 525 |
| CHAPTER 30: Setting Up a Secure Web Server | 529 |
| The Need for Security | 529 |
| The SSL Protocol | 529 |
| Addressing the Need for Confidentiality | 530 |
| Addressing the Need for Integrity | 531 |
| Addressing the Need for Authentication | 532 |
| Obtaining and Installing SSL Tools | 534 |
| OpenSSL | 535 |
| The mod_ssl Apache Module | 536 |

| | |
|---|------------|
| Managing Certificates | 537 |
| Creating a Key Pair | 537 |
| Creating a Certificate Signing Request | 538 |
| Creating a Self-Signed Certificate | 539 |
| SSL Configuration | 539 |
| Starting the Server | 540 |
| CHAPTER 31: Optimizing and Tuning MySQL | 543 |
| Building an Optimized Platform | 543 |
| Using the benchmark() Function | 544 |
| MySQL Startup Options | 545 |
| Key Startup Parameters | 546 |
| Optimizing Your Table Structure | 547 |
| Optimizing Your Queries | 547 |
| Using the FLUSH Command | 548 |
| Using the SHOW Command | 550 |
| Retrieving Information About Databases and Tables | 551 |
| Retrieving Table Structure Information | 552 |
| Retrieving System Status | 554 |
| CHAPTER 32: Software Upgrades | 559 |
| Staying in the Loop | 559 |
| When to Upgrade | 559 |
| Upgrading MySQL | 561 |
| Upgrading Apache | 561 |
| Modifying Apache Without Upgrading | 562 |
| Upgrading PHP | 562 |
| Using PECL and PEAR to Extend PHP | 563 |
| Index | 565 |
