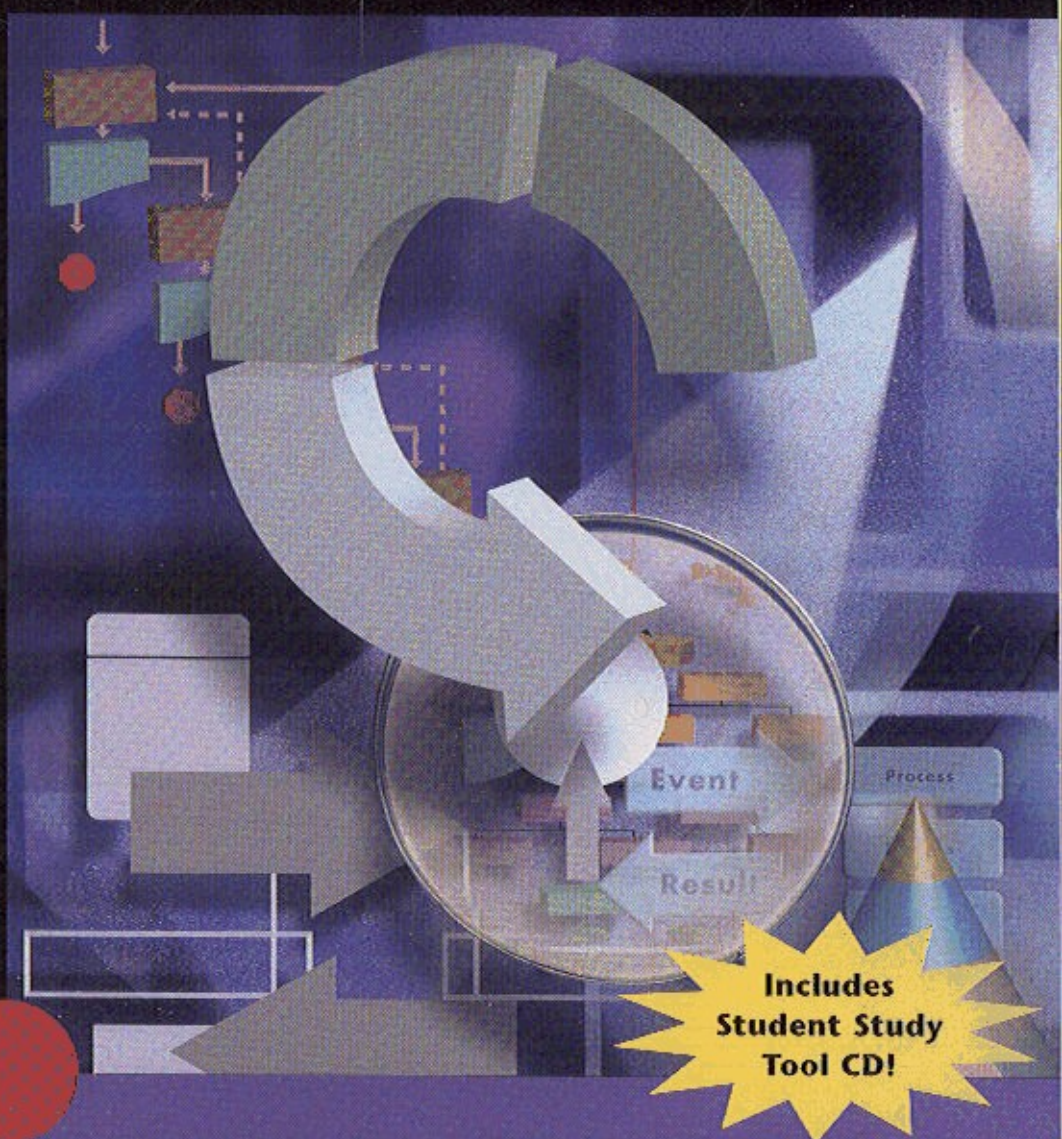
SHELLY CASHMAN SERIES®

Systems Analysis and Design

SIXTH EDITION

Shelly
Cashman
Rosenblatt



Includes Student Study Tool CD!

COMPLETE

SHELLY CASHMAN SERIES®

TABLE OF CONTENTS

Chapter 1

Introduction to Systems Analysis and Design

Objectives 2
Introduction 2
The Impact of Information Technology 4
The Future of IT 4
The Role of Systems Analysis and Design 4
Who Develops Information Systems? 5
Information System Components 5
Hardware 6
Software 6
Data 7
Processes 7
People 7
Understanding the Business 8
Business Profile 8
Business Models 8
New Kinds of Companies 9
Case in Point 1.1: Cloud Nine Financial Advisors 9
Impact of the Internet 9
B2C (Business-to-Consumer) 10
B2B (Business-to-Business) 10
Web-Based System Development 11
How Business Uses Information Systems 12
Enterprise Computing Systems 12
Transaction Processing Systems 12
Business Support Systems 13
Knowledge Management Systems 14
User Productivity Systems 14
Information Systems Integration 14
Information System Users and Their Needs 15
Top Managers 15
Middle Managers and Knowledge Workers 15
Supervisors and Team Leaders 16
Operational Employees 16
Systems Development Tools and Techniques 16
Modeling 16
Prototyping 17
Computer-Aided Systems Engineering (CASE) Tools 17
Systems Development Methods 18
Structured Analysis 18
Object-Oriented Analysis 19
Joint Application Development and Rapid Application Development 19
Other Development Strategies 20
The Systems Development Life Cycle 20
Systems Planning 21
Systems Analysis 22
Systems Design 22
Systems Implementation 22
Systems Operation, Support, and Security 22
Systems Development Guidelines 23
Planning 23
Involve the Users Throughout the Development Process 23
Listening Is Very Important 23
Create a Timetable with Major Milestones 23
Identify Interim Checkpoints 23
Remain Flexible 23
Develop Accurate Cost and Benefit Information 24
Information Technology Department 24
Application Development 24
Systems Support and Security 24
Case in Point 1.2: Global Hotels and Momma's Motels 25
User Support 25
Database Administration 25
Network Administration 25
Web Support 25
Case in Point 1.3: What Should Lisa Do? 26
The Systems Analyst Position 26
Responsibilities 26
Required Skills and Background 26
Certification 27
Career Opportunities 27
Case in Point 1.4: Just-in-Time Airfreight, Inc. 28
Chapter Summary 28
Key Terms and Phrases 30
Learn It Online 31
Case-Sim: SCR Associates 32
Chapter Exercises 33
Apply Your Knowledge 34
Case Studies 36
New Century Health Clinic 36
Personal Trainer, Inc. 37
Original Kayak Adventures 38
Chapter Capstone Case: SoftWear, Limited 40

PHASE 1: SYSTEMS PLANNING

Chapter 2

Analyzing the Business Case

Objectives 44
Introduction 44
Strategic Planning — A Framework for IT Systems Development 46
Strategic Planning Overview 46
From Strategic Plans to Business Results 47
Case in Point 2.1: Lo Carb Meals 49
A Business Example 49
The Role of the IT Department in Project Evaluation 49
The Future 50
Case in Point 2.2: Attaway Airlines, Part One 51
Information Systems Projects 51
Main Reasons for Systems Projects 51
Case in Point 2.3: Trent College 53
Factors that Affect Systems Projects 53
Internal Factors 54
External Factors 54
Project Management Tools 56
Risk Management 56

Evaluation of Systems Requests 57
Systems Request Forms 57
Systems Review Committee 58
Overview of Feasibility 58
Operational Feasibility 59
Technical Feasibility 59
Economic Feasibility 60
Schedule Feasibility 61
Evaluating Feasibility 61
Setting Priorities 61
Factors that Affect Priority 62
Discretionary and Nondiscretionary Projects 62
Case in Point 2.4: Attaway Airlines, Part Two 63
Preliminary Investigation Overview 63
Interaction with Managers and Users 63
Planning the Preliminary Investigation 64
Step 1: Understand the Problem or Opportunity 65
Step 2: Define the Project Scope and Constraints 66
Step 3: Perform Fact-Finding 67
Step 4: Evaluate Feasibility 69
Step 5: Estimate Project Development Time and Cost 70
Step 6: Present Results and Recommendations to Management 70
Chapter Summary 71
Key Terms and Phrases 72
Learn It Online 73
Case-Sim: SCR Associates 74
Chapter Exercises 75
Apply Your Knowledge 76
Case Studies 78
New Century Health Clinic 78
Personal Trainer, Inc. 78
Action Office Products 79
Original Kayak Adventures 80
Town of Eden Bay 80
Chapter Capstone Case: SoftWear, Limited 83

PHASE 2: SYSTEMS ANALYSIS

Chapter 3

Requirements Modeling

Objectives 90
Introduction 90
Systems Analysis Phase Overview 92
Systems Analysis Activities 92
Systems Analysis Skills 93
Team-Oriented Methods and Techniques 93
Joint Application Development 93
User Involvement 93
JAD Participants and Roles 94
JAD Advantages and Disadvantages 95
Rapid Application Development 95
RAD Phases and Activities 96
RAD Objectives 96
RAD Advantages and Disadvantages 97
Case in Point 3.1: North Hills Consulting 98
Modeling Tools and Techniques 98
CASE Tools 98
Functional Decomposition Diagrams 98
Unified Modeling Language 99
System Requirements Checklist 101
Outputs 101
Inputs 102
Processes 102
Performance 102
Controls 102
Future Growth, Costs, and Benefits 103
Scalability 103
Total Cost of Ownership 103
Fact-Finding 104
Fact-Finding Overview 104
Who, What, Where, When, How, and Why? 105
The Zachman Framework 106
Interviews 107
Step 1: Determine the People to Interview 107
Step 2: Establish Objectives for the Interview 107
Step 3: Develop Interview Questions 108
Step 4: Prepare for the Interview 109
Step 5: Conduct the Interview 110
Step 6: Document the Interview 110
Step 7: Evaluate the Interview 111
Case in Point 3.2: Deep River College 111
Unsuccessful Interviews 111
Case in Point 3.3: FastPak Overnight Package System 112
Other Fact-Finding Techniques 112
Document Review 112
Observation 112
Questionnaires and Surveys 114
Sampling 115
Research 116
Interviews versus Questionnaires 118
Case in Point 3.4: CyberStuff 118
Documentation 119
The Need for Recording the Facts 119
Software Tools 119
Preview of Data and Process Modeling 122
Chapter Summary 122
Key Terms and Phrases 124
Learn It Online 125
Case-Sim: SCR Associates 126
Chapter Exercises 127
Apply Your Knowledge 128
Case Studies 130
New Century Health Clinic 130
Personal Trainer, Inc. 131
Baxter Community College 132
Town of Eden Bay 132
Chapter Capstone Case: SoftWear, Limited 133

Chapter 4
Data and Process Modeling

Objectives 146
Introduction 146
Overview of Data and Process Modeling Tools 148
Data Flow Diagrams 148
DFD Symbols 148
Creating a Set of DFDs 154
Draw a Context Diagram 155
Draw a Diagram 0 DFD 158
Draw the Lower-Level Diagrams 160
Case in Point 4.1: Big Ten University 163
Data Dictionary 167
Documenting the Data Elements 168
Documenting the Data Flows 169
Documenting the Data Stores 170
Documenting the Processes 171
Documenting the Entities 171
Documenting the Records 172
Data Dictionary Reports 172
Process Description Tools 173
Modular Design 173
Structured English 173
Decision Tables 175
Case in Point 4.2: Rock Solid Outfitters (Part 1) 177
Decision Trees 177
Case in Point 4.3: Rock Solid Outfitters (Part 2) 178
Logical Versus Physical Models 178
Sequence of Models 178
Four-Model Approach 178
Case in Point 4.4: Tip Top Staffing 179
Chapter Summary 179
Key Terms and Phrases 180
Learn It Online 181
Case-Sim: SCR Associates 182
Chapter Exercises 183
Apply Your Knowledge 184
Case Studies 130
New Century Health Clinic 186
Personal Trainer, Inc. 187
Chapter Capstone Case: SoftWear, Limited 188

Chapter 5
Development Strategies

Objectives 196
Introduction 196
Development Strategies Overview 198
The Impact of the Internet 198
Software as a Service 198
The Changing Software Marketplace 199
The Impact of the Internet on Systems Development 199
Outsourcing 201
The Growth of Outsourcing 201
Outsourcing Fees 202
Outsourcing Issues and Concerns 203
Offshore Outsourcing 204
Case in Point 5.1: Turnkey Services 205
In-House Software Development Options 205
Make or Buy Decision 205
Developing Software In-House 206
Purchasing a Software Package 207
Customizing a Software Package 208
Creating User Applications 209
Role of the Systems Analyst 210
Analyzing Cost and Benefits 211
Financial Analysis Tools 211
Case in Point 5.2: Sterling Associates 211
Cost-Benefit Analysis Checklist 212
The Software Acquisition Process 213
Step 1: Evaluate the Information System Requirements 213
Step 2: Identify Potential Vendors or Outsourcing Options 216
Step 3: Evaluate the Alternatives 218
Step 4: Perform Cost-Benefit Analysis 219
Step 5: Prepare a Recommendation 219
Step 6: Implement the Solution 220
Case in Point 5.3: Doug's Sporting Goods 220
Completion of Systems Analysis Tasks 221
System Requirements Document 221
Presentation to Management 221
The Transition to Systems Design 222
Preparing for Systems Design Tasks 222
The Relationship between Logical and Physical Design 223
Systems Design Guidelines 223
Systems Design Objectives 224
Case in Point 5.4: Downtown! 226
Design Trade-Offs 227
Prototyping 228
Prototyping Methods 228
Prototyping Tools 229
Limitations of Prototypes 230
Other Modeling Tools 230
Chapter Summary 231
Key Terms and Phrases 233
Learn It Online 234
Case-Sim: SCR Associates 235
Chapter Exercises 236
Apply Your Knowledge 237
Case Studies 239
New Century Health Clinic 239
Personal Trainer, Inc. 240
Cutting Edge 241
Chapter Capstone Case: SoftWear, Limited 242

PHASE 3: SYSTEMS DESIGN

Chapter 6

Output and User Interface Design

Objectives 246
Introduction 246
Output Design 248
Types of Output 248
Printed and Screen Output 251
Reports 251
User Involvement in Report Design 253
Report Design Principles 254
Report Design Issues 256
Designing Character-Based Reports 257
Case in Point 6.1: Lazy Eddie 257
Printing Volume and Time Requirements 258
Output Control and Security 260
User Interface Design 261
Evolution of the User Interface 261
Human-Computer Interaction 263
Case in Point 6.2: Casual Observer Software 265
Basic Principles of User-Centered Design 266
Guidelines for User Interface Design 268
User Interface Controls 273
Case in Point 6.3: Trustworthy Insurance Company 275
Input Design 276
Input and Data Entry Methods 276
Input Volume 278
Designing Data Entry Screens 279
Input Errors 280
Source Documents 282
Input Control 283
Case in Point 6.4: Boolean Toys 285
Chapter Summary 285
Key Terms and Phrases 287
Learn It Online 288
Case-Sim: SCR Associates 289
Chapter Exercises 290
Apply Your Knowledge 291
Case Studies 293
New Century Health Clinic 293
Personal Trainer, Inc. 293
Video Superstore 294
Chapter Capstone Case: SoftWear, Limited 295

Chapter 7

Data Design

Objectives 302
Introduction 302
Data Design Concepts 304
Data Structures 304
Overview of File Processing 305
Overview of Database Systems 306
Database Tradeoffs 307
DBMS Components 308
Interfaces for Users, Database Administrators, and Related Systems 309
Data Manipulation Language 309
Schema 309
Physical Data Repository 310
Web-Based Database Design 310
Characteristics of Web-Based Design 311
Internet Terminology 311
Connecting a Database to the Web 312
Data Security 313
Data Design Terminology 313
Definitions 313
Key Fields 314
Referential Integrity 316
Entity-Relationship Diagrams 317
Drawing an ERD 318
Types of Relationships 318
Cardinality 320
Case in Point 7.1: TopText Publishing 322
Normalization 322
Standard Notation Format 323
Repeating Groups and Unnormalized Designs 323
First Normal Form 324
Second Normal Form 325
Third Normal Form 327
A Normalization Example 329
Case in Point 7.2: CyberToys 331
Using Codes During Data Design 333
Overview of Codes 333
Types of Codes 334
Developing a Code 335
Case in Point 7.3: DotCom Tools 337
Steps in Database Design 337
Database Models 338
Relational Databases 338
Object-Oriented Databases 340
Data Storage and Access 341
Strategic Tools for Data Storage and Access 341
Logical and Physical Storage 343
Data Storage Formats 344
Selecting a Data Storage Format 345
Date Fields 346
Case in Point 7.4: SoccerMom 347
Data Control 347
Chapter Summary 348
Key Terms and Phrases 350
Learn It Online 351
Case-Sim: SCR Associates 352
Chapter Exercises 353
Apply Your Knowledge 354
Case Studies 356
New Century Health Clinic 356
Personal Trainer, Inc. 356
FastFlight Airlines 357
Chapter Capstone Case: SoftWear, Limited 358

Chapter 8
System Architecture

Objectives 362
Introduction 362
System Architecture Checklist 364
Enterprise Resource Planning 364
Case in Point 8.1: ABC Systems 365
Initial Cost and TCO 366
Scalability 367
Web Integration 367
Legacy System Interface Requirements 367
Processing Options 368
Security Issues 368
Planning the Architecture 368
Servers 369
Clients 370
Client/Server Architecture 371
Overview 371
Client/Server Design Styles 373
Types of Clients: Fat and Thin 374
Client/Server Tiers 374
Middleware 375
Cost-Benefit Issues 375
Client/Server Performance Issues 376
Internet-Based Architecture 379
Developing E-Commerce Solutions In-House 379
Case in Point 8.2: Small Potatoes, Inc. 381
Packaged Solutions and E-Commerce Service Providers 381
Corporate Portals 382
Processing Methods 384
Online Processing 384
Batch Processing 385
Case in Point 8.3: R/Way Trucking Company 385
Combined Online and Batch Processing 386
Network Models 387
The OSI Reference Model 387
Network Modeling Tools 387
Network Topology 388
Network Protocols and Licensing Issues 390
Wireless Networks 391
Case in Point 8.4: Spider IT Services 392
System Management and Support 392
Performance Management 392
Fault Management, Backup, and Disaster Recovery 392
Systems Design Completion 396
System Design Specification 396
User Approval 397
Presentations 398
Chapter Summary 399
Key Terms and Phrases 401
Learn It Online 402
Case-Sim: SCR Associates 403
Chapter Exercises 404
Apply Your Knowledge 405
Case Studies 407
New Century Health Clinic 407
Personal Trainer, Inc. 407
Chapter Capstone Case: SoftWear, Limited 409

PHASE 4: SYSTEMS IMPLEMENTATION

Chapter 9
Systems Implementation

Objectives 414
Introduction 414
Software Quality Assurance 416
Software Engineering 416
International Organization for Standardization (ISO) 417
Overview of Application Development 419
Creation of the System Design 419
Application Development Steps 419
Project Management 420
Structured Application Development 420
Structure Charts 420
Cohesion and Coupling 421
Structure Chart Examples 423
Drawing a Structure Chart 424
Other Structured Development Tools 427
Object-Oriented Application Development 428
Object-Oriented Application Development Compared to Structured Development 428
Implementation of Object-Oriented Designs 429
Coding 429
Programming Environments 429
Generating Code 430
Testing the System 430
Case in Point 9.1: Your Move, Inc. 431
Unit Testing 431
Integration Testing 432
System Testing 432
Case in Point 9.2: WebTest, Inc. 434
Documentation 434
Program Documentation 434
System Documentation 434
Operations Documentation 435
User Documentation 436
Management Approval 440
System Installation and Evaluation 440
Operational and Test Environments 440
Training 441
Training Plan 442
Vendor Training 443
Outside Training Resources 443
In-House Training 444
Data Conversion 447
Data Conversion Strategies 447
Data Conversion Security and Controls 447
System Changeover 447
Direct Cutover 448
Parallel Operation 448
Pilot Operation 449
Phased Operation 449
Case in Point 9.3: Global Cooling 450
Post-Implementation Tasks 450
Post-Implementation Evaluation 450
Case in Point 9.4: Yorktown Industries 453
Final Report to Management 453

Chapter Summary 453
Key Terms and Phrases 456
Learn It Online 457
Case-Sim: SCR Associates 458
Chapter Exercises 459
Apply Your Knowledge 460
Case Studies 462
New Century Health Clinic 462
Personal Trainer, Inc. 462
Fanciful Crystal 463
Chapter Capstone Case: SoftWear, Limited 464

PHASE 5: SYSTEMS OPERATION, SUPPORT, AND SECURITY

Chapter 10
Systems Operation, Support, and Security

Objectives 472
Introduction 472
Overview of Systems Support and Maintenance 474
User Support Activities 474
User Training 474
Help Desks 474
Online Chat Support 475
Maintenance Activities 476
Corrective Maintenance 478
Adaptive Maintenance 479
Perfective Maintenance 479
Preventive Maintenance 480
Case in Point 10.1: Outback Outsourcing, Inc. 481
Managing System Support 481
Maintenance Team 481
Case in Point 10.2: Brightside Insurance, Inc. 483
Managing Maintenance Requests 483
Establishing Priorities 485
Configuration Management 485
Maintenance Releases 485
Version Control 487
Baselines 488
Managing System Performance 488
Performance and Workload Measurement 489
Capacity Planning 490
System Maintenance Tools 492
System Security 494
Physical Security 494
Case in Point 10.3: Outer Banks County 496
Network Security 497
Application Security 499
File Security 500
User Security 501
Case in Point 10.4: Chain Link Consulting, Inc. 503
Backup and Disaster Recovery 503
System Obsolescence 504
Facing the Future: Challenges and Opportunities 505
Predictions 505
Strategic Planning for IT Professionals 506
IT Credentials and Certification 507
Chapter Summary 508
Key Terms and Phrases 510
Learn It Online 511
Case-Sim: SCR Associates 512
Chapter Exercises 513
Apply Your Knowledge 514
Case Studies 516
New Century Health Clinic 516
Personal Trainer, Inc. 516
Tarheel Industries 517
Mills Imports 518
Chapter Capstone Case: SoftWear, Limited 519

THE SYSTEMS ANALYST'S TOOLKIT

Toolkit 1
Communication Tools

Objectives 522
Introduction 522
Successful Communication Strategies 524
Why, Who, What, When, and How 524
Cultural Context 524
Know Your Subject 525
Written Communications 525
Writing Style and Readability 525
E-Mail, Memos, and Letters 526
Reports 528
Oral Communications 531
Define the Audience 531
Define the Objectives 531
Organize the Presentation 531
Define Any Technical Terms 531
Prepare Presentation Aids 532
Practice 533
The Presentation 534
Toolkit Summary 535
Key Terms and Phrases 535
Toolkit Exercises 536

Toolkit 2
CASE Tools

Objectives 538
Introduction 538
Overview of CASE Tools 540
CASE Tools History 540
The Marketplace for CASE Tools 540
CASE Terms and Concepts 542
Repository 542
Individual Tools 542

Integrated Development Environments 546
Examples of Integrated Development Environments 546
Pros and Cons of Integrated Development Tools 546
CASE Tool Examples 547
Visible Analyst 547
System Architect 548
Rational Software 550
Future Trends 551
New Features 552
The Emerging Role of Object-Oriented Analysis and Design 554
Toolkit Summary 555
Key Terms and Phrases 556
Toolkit Exercises 557

Toolkit 3
Financial Analysis Tools

Objectives 558
Introduction 558
Describing Costs and Benefits 560
Cost Classifications 561
Managing Information Systems Costs and Charges 562
Benefit Classifications 563
Cost-Benefit Analysis 563
Payback Analysis 564
Using a Spreadsheet to Compute Payback Analysis 566
Return on Investment Analysis 567
Using a Spreadsheet to Compute ROI 569
Present Value Analysis 569
Using a Spreadsheet to Calculate Present Value 571
Toolkit Summary 573
Key Terms and Phrases 575
Toolkit Exercises 576

Toolkit 4
Project Management Tools

Objectives 578
Introduction 578
Project Management Overview 580
Project Planning 580
Identifying Tasks 581
Estimating Task Completion Time and Cost 582
Factors Affecting Time and Cost Estimates 583
Overview of Project Scheduling 584
Project Scheduling with Gantt Charts 584
Project Scheduling with PERT/CPM Charts 585
Overview of PERT/CPM 585
PERT/CPM Chart Format 586
Task Patterns 587
Complex Task Patterns 587
A PERT/CPM Example with Five Tasks 588
Critical Path 589
Transforming a Task List into a PERT/CPM Chart 590
Comparing Gantt Charts and PERT/CPM 592
Project Monitoring and Controlling 592
Monitoring and Control Techniques 593
Maintaining a Schedule 593
Project Reporting 593
Project Status Meetings 594
Project Status Reports 594
Project Management Software 594
Project Management Example Using Microsoft Project 595
Software Change Control 596
Keys to Project Success 597
Business Issues 598
Budget Issues 598
Schedule Issues 598
Successful Project Management 598
Toolkit Summary 599
Key Terms and Phrases 601
Toolkit Exercises 602

Toolkit 5
Object-Oriented Tools

Objectives 604
Introduction 604
Object-Oriented Terms and Concepts 606
Overview of O-O Analysis 606
Objects 606
Attributes 609
Methods 609
Messages 610
Classes 611
Relationships Among Objects and Classes 614
Object Relationship Diagram 614
Object Modeling with the Unified Modeling Language 615
Use Case Modeling 615
Use Case Diagrams 617
Class Diagrams 618
Sequence Diagrams 619
State Transition Diagrams 620
Activity Diagrams 621
CASE Tools 621
Organizing the Object Model 622
Toolkit Summary 622
Key Terms and Phrases 624
Toolkit Exercises 625

Toolkit 6
Internet Resource Tools

Objectives 626
Introduction 626
Overview 628
Some Characteristics of the Internet 628
Summary of Internet Resources and Tools 629

Formulating an Internet Research Strategy 629
Evaluate Your Information Requirements 630
Match Your Information Requirement to the Proper Tool 630
Assess the Quality of the Results 630
Download the Results and Perform a Virus Scan 631

Search Engines 631
Search Engine Basics 632
Search Techniques 633
Advanced Search Techniques 633
A Search Checklist 636

Subject Directories 636
A Subject Directory Example 636
Advantages and Disadvantages of Subject Directories 636

The Invisible Web 637
Invisible Web Examples 638
Navigation Tools for the Invisible Web 638

Internet Communication Resources 640
Newsgroups 641
Newsletters 642
Mailing Lists 642
Web-Based Discussion Groups 643
Chat Rooms 644
Instant Messaging 644

Information Technology Community Resources 647
Corporate Resources 647
Government Resources 648
Professional Resources 648
Online Learning Resources 648

Toolkit Summary 651

Key Terms and Phrases 652

Toolkit Exercises 653

Index 655
