<i>Abbreviations</i>	ix
Introduction: Approaching Husserl	1
<b>Part 1 The Idea of Phenomenology: Psychology, Logic and Transcendental Philosophy</b>	
1 The Critique of Psychologism	9
Psychologism and its critics	9
Husserl's arguments against psychologism	11
Beyond psychologism: the 'mystery of cognition' and the project of phenomenology	17
2 Phenomenology and other 'Eidetic Sciences'	22
Sciences of fact and sciences of essence	22
Empirical and eidetic laws	24
Overcoming naturalistic prejudices	27
Kinds of eidetic science	30
Phenomenology as eidetic science of the 'Ur-region'	34
3 Phenomenology and Transcendental Philosophy	39
The mystery of cognition, scepticism and Husserl's transcendental turn	39
Kant and the idea of transcendental philosophy	42
Husserl and Kant	44
Reforming Kant's transcendental method	50
The Cartesian legacy in Husserl's transcendentalism: purified subjectivity, evidence and first philosophy	52
4 The Transcendental Reduction	57
What is the transcendental reduction?	58
The natural attitude and the natural world	59

## CONTENTS

The limits of naturalism and empiricism	62
The 'radical alteration' of the natural attitude	63
From psychological to transcendental consciousness	66
The annihilation of the world	69
Transcendental subjectivity as 'absolute substance'	71
 <b>Part 2 Phenomenological Topics</b>	
5 The Structure of Intentionality	79
The idea of intentionality	79
The critique of representationalism	80
Intentionality in the <i>Logical Investigations</i>	82
Noesis-noema terminology	84
Noematic and real objectivity	85
Husserl and the Kantian 'thing-in-itself'	89
Husserl's reinterpretation of thinghood	92
6 Intuition, Evidence and Truth	98
Intuition and evidence	98
Evidence as fulfilling intuition	100
The concept of truth	104
The principle of all principles	107
7 Categorical Intuition: Synthesis and Ideation	113
The problem of categorical intuition	113
The intuition of categorical forms (synthetic acts)	117
Ideative acts	121
8 Time-Consciousness	127
The horizonal structure of intentional experience	127
The constitution of temporal objects	130
The double intentionality of consciousness	134
Primary and secondary memory, and the constitution of objective time	135
Absolute consciousness and the problem of phenomenological reflection	137
9 The Ego and Selfhood	144
The transcendental or pure ego	144
The pure ego as subject pole	146
Habituality, conviction and self-conception	148
From the pure ego to the full human being	150
The psyche	151
The person	154

## CONTENTS

The interrelation between the various conceptions of the ego	157
10 Intersubjectivity	162
The problem of objectivity and transcendental intersubjectivity	163
Transcendental intersubjectivity	167
The problem of methodological solipsism and the experience of the other	170
The appresentation of the other	172
Implications of the relation to others	176
11 The Crisis of the Sciences and the Idea of the 'Lifeworld'	180
What is the crisis of the European sciences?	180
The origins of the contemporary crisis in the mathematization of nature	184
The limits of the natural-scientific attitude	187
The project of <i>The Crisis</i>	192
The idea of the lifeworld	194
 <i>Conclusion and Further Reading</i>	 198
<i>Index</i>	201
