## SECTION I: Equipment

|                                                                                                                                |     |
|--------------------------------------------------------------------------------------------------------------------------------|-----|
| <b>Chapter 1</b> Heat Treatment Equipment .....                                                                                | 3   |
| <i>George E. Totten, N. Gopinath, and David Pye</i>                                                                            |     |
| <b>Chapter 2</b> Design of Steel-Intensive Quench Processes .....                                                              | 193 |
| <i>Nikolai I. Kobasko, Wytal S. Morhuniuk, and Boris K. Ushakov</i>                                                            |     |
| <b>Chapter 3</b> Vacuum Heat Processing.....                                                                                   | 239 |
| <i>Bernd. Edenhofer, Jan W. Bouwman, and Daniel H. Herring</i>                                                                 |     |
| <b>Chapter 4</b> Induction Heat Treatment: Basic Principles,<br>Computation, Coil Construction, and Design Considerations..... | 277 |
| <i>Valery I. Rudnev, Raymond L. Cook, Don L. Loveless,<br/>and Micah R. Black</i>                                              |     |
| <b>Chapter 5</b> Induction Heat Treatment: Modern Power Supplies,<br>Load Matching, Process Control, and Monitoring.....       | 395 |
| <i>Don L. Loveless, Raymond L. Cook, and Valery I. Rudnev</i>                                                                  |     |
| <b>Chapter 6</b> Laser Surface Hardening.....                                                                                  | 435 |
| <i>Janez Grum</i>                                                                                                              |     |

## SECTION II: Testing

|                                                            |     |
|------------------------------------------------------------|-----|
| <b>Chapter 7</b> Metallurgical Property Testing.....       | 569 |
| <i>Xiwen Xie</i>                                           |     |
| <b>Chapter 8</b> Mechanical Property Testing Methods ..... | 641 |
| <i>D. Scott MacKenzie</i>                                  |     |
| <b>Index</b> .....                                         | 697 |
