

Parallel Combinatorial Optimization

Edited by El-Ghazali Talbi

CONTENTS

Preface	ix
Acknowledgments	xi
Contributors	xiii
1. Parallel Branch-and-Bound Algorithms	1
<i>T. Crainic, B. Lecun, C. Roucairol</i>	
2. Parallel Dynamic Programming	29
<i>F. Almeida, D. Gonzalez, I. Pelaez</i>	
3. Parallel Branch and Cut	53
<i>T. Ralphs</i>	
4. Parallel Semidefinite Programming and Combinatorial Optimization	103
<i>S. J. Benson</i>	
5. Parallel Resolution of the Satisfiability Problem: A Survey	123
<i>D. Singer</i>	
6. Parallel Metaheuristics: Algorithms and Frameworks	149
<i>N. Melab, E-G. Talbi, S. Cahon, E. Alba, G. Luque</i>	
7. Towards Parallel Design of Hybrids between Metaheuristics and Exact Methods	163
<i>M. Basseur, L. Jourdan, E-G. Talbi</i>	
8. Parallel Exact Methods for Multiobjective Combinatorial Optimization	187
<i>C. Dhaenens, J. Lemesre, N. Melab, M. Mezmaiz, E-G. Talbi</i>	
9. Parallel Primal-Dual Interior Point Methods for Semidefinite Programs	211
<i>M. Yamashita, K. Fujisawa, M. Fukuda, M. Kojima, K. Nakata</i>	
10. MW: A Software Framework for Combinatorial Optimization on Computational Grids	239
<i>W. Glankwamdee, T. Linderoth</i>	

viii CONTENTS

11. Constraint Logic Programming on Multiple Processors	263
<i>I. Sakellariou, I. Vlahavas</i>	
12. Application of Parallel Metaheuristics to Optimization Problems in Telecommunications and Bioinformatics	301
<i>S. L. Martins, C. Ribeiro, I. Rosseti</i>	
Index	327
