Selected References	22
Appendix Table 1.A1: Futures and Options Trading Volume (Number of Contracts:) 2001	23

CHAPTER 2 FUTURES AND OPTIONS MARKET MECHANICS 50

The Futures Contract	50
The Options Contract	63
The Clearinghouse	67
Margin Deposits	68
Volume and Open Interest	70
Options Versus Futures	71
Why Speculate in Futures and Options Contracts?	74
Summary	76
Discussion Questions	77
Selected References	77
Appendix Table 2.A1: Futures Contract Symbols	77

CHAPTER 3 COMMODITIES 83

Futures Contract Price Patterns Over Time	84
Prices Between Time Periods for a Storable Commodity	85
<i>Inventory Supply</i>	87
<i>Inventory Demand</i>	87

Storage Costs	87
Temporal Prices Within a Single Production Period	89
<i>Inverted Carrying Charge Markets and Normal Backwardation</i>	91
Theories of Intertemporal Prices: Storable Commodities	92
<i>Theory of the Price of Storage</i>	95
<i>The Formal Theory of the Price of Storage</i>	96
Supply of Storage	101
Implications of the Theory	102
Intertemporal Prices of Nonstorable Commodities	103
The Basis	104
Basis and International Trade	113
Price Relationships Across Product Forms	114
Summary	115
Discussion Questions	116
Selected References	117
Appendix: Example of Price Linkages Associated with Commodity Processing	118

CHAPTER 4 FINANCIALS 121

Currencies	121
Globalization	124
How Are Exchange Rates Determined?	125
Currency Futures and Options	130
Debt Instruments	131
The Term Structure of Interest Rates and the Yield Curve	135
<i>T-Bond Futures</i>	138
<i>Eurodollar Futures</i>	140
<i>Financial Swaps</i>	143
Equity Instruments	144
<i>Spread Trading</i>	147
Summary	148
Discussion Questions	149
Selected Web Sites	149
Selected References	150

CHAPTER 5 FUNDAMENTAL ANALYSIS 151

Efficiency of Futures Markets	153
Fundamental Approach to Price Analysis	157
Commodities	159
<i>Weather Patterns</i>	160
<i>Input Costs</i>	163
<i>Government Policy</i>	163
<i>Seasonal Price Patterns</i>	165
Financials	168
<i>Purchasing Power Parity and Exchange Rate Forecasts</i>	169
Evaluating the Fundamental Data: Further Examples	173

<i>Elasticities</i>	173
<i>Cycles</i>	176
<i>Correlation</i>	178
<i>A Case Study of the Asian Financial Crisis and Impacts on U.S. Commodity Exports</i>	178
Sources of Information	181
<i>Commodities</i>	181
<i>Financials</i>	182
<i>Futures and Options Exchanges</i>	183
<i>Newspapers and Magazines</i>	184
<i>Brokerage Houses</i>	184
Summary	184
Discussion Questions	185
Selected References	185

CHAPTER 6 TECHNICAL ANALYSIS 187

The Chartist Logic	188
Patterns on Price Charts	190
Bar Chart Price Patterns	193
Point-and-Figure Chart Price Patterns	198
Trend-Following Methods	198
Character-of-Market Analysis	200
Structural Theories	204
Elliott Wave Theory	205
Trading Systems	206
To Chart or Not to Chart	208
Commodity Pools and Program Trading	210
Summary	211
Discussion Questions	211
Selected References	212

CHAPTER 7 HEDGING 214

Traditional View of Hedging	215
<i>Hedging Categories</i>	216
<i>Examples of Hedging Basics</i>	218
<i>Choice of Market and Futures Month</i>	221
<i>Arbitrage and Operational Hedges: Importance of Basis Changes</i>	223
<i>Anticipatory Hedge and Production Risk</i>	231
Hedging with Financial Futures	232
<i>Hedging Exchange Rates: An Application</i>	232
<i>Hedging Bonds: An Application</i>	234
Hedging: A Portfolio Explanation	235
<i>Optimal Hedge Ratio</i>	236
<i>Hedging with Futures Versus Options</i>	239
Summary	240
Discussion Questions	241
Selected References	241

CHAPTER 8 OPTIONS MARKETS 243

- What Is an Option on Futures? 245
- Option Payoffs 248
- Option Pricing Structure 253
- Market Pricing of Options 256
- Option Traders 258
