<i>Dedication</i>	ix
<i>About the Authors</i>	ix
<i>Foreword</i>	xii
<i>Preface</i>	xiii
1 Introduction and Overview	3
Introduction	3
What Is an Agricultural Health and Safety Professional?	7
Training of an Agricultural Health Practitioner and Agricultural Health and Safety Specialist	8
Demographics of the Agricultural Work Force	12
Breakdown of the Production Agricultural Work Force and Types of Farms	12
Other Occupations Exposed to the Agricultural Environment	15
General Health Status of the Agricultural Population	15
Occupational Health Status of the Agricultural Work Force	16
Occupational Injury and Illness Statistics	17
Specific Occupational Health and Safety Risks and Conditions	18
Agricultural Health and Safety Organizations	21
Megatrends in Agriculture and Health—Safety Implications	22
Summary	25
2 Special Risk Populations in Agricultural Communities	29
Introduction	29
Women	29
Youth	34
Elderly	40
Migrant and Seasonal Farm Workers	45
Anabaptists	51
3 Agricultural Respiratory Diseases	65
Section 1: Overview	65
Section 2: Agricultural Structures and Respiratory Hazards	67
Section 3: Agricultural Dusts	78
Section 4: Confined Animal Feeding Operations (CAFOs) and the Respiratory Disease Hazards	95
Section 5: Oxides of Nitrogen (“Silo Gas”)	108
Section 6: Applied Agricultural Chemicals	112
Section 7: Zoonotic Infections Causing Respiratory Disease	114
Section 8: General Preventive Measures	114
Section 9: Measurement of Agricultural Dusts and Gases	117
Section 10: Personal Respiratory Protective Equipment	121

4	Agricultural Skin Diseases Introduction 145 Contact Dermatitis 145 Infectious Dermatitis 151 Arthropod-Induced Dermatitis 152 Sunlight-Induced Dermatoses 155 Skin Disorders Related to Heat, Cold, and Humidity 157	145
5	Cancer in Agricultural Populations Introduction 161 General Description of Cancer Rates in the Farm Population 161 Protective and Risk Factors and Mechanisms of Causation 164 Details of Epidemiology and Agricultural Risk Factors for Specific Cancer Types 166 Cancer in Special Agricultural Populations 168 Social Medicine Aspects of Cancers in Farmers 170 Prevention of Cancer in Farm Populations 170	161
6	Health Effects of Agricultural Pesticides Introduction 173 Definition of Pesticides 173 History 174 Frequency of Pesticide Poisonings 174 How Workers Are Exposed to Pesticides 175 Insecticides: Classes and Toxic Mechanisms 178 Classes and Toxic Mechanisms of Herbicides 182 Diagnosis and Treatment of Insecticide Poisoning 185 Diagnosis and Treatment of Herbicide Poisonings 186 Classes and Toxic Mechanisms of Fumigants 190 Treatment of Fumigant Poisonings 191 General Strategies for Prevention of Pesticide Poisoning 193 Summary 196	173
7	General Environmental Hazards in Agriculture Introduction 199 Water Quality 200 Sources and Substances of Water Pollution from Agricultural Operations 202 Environmental Health Effects of Water Pollution 207 Air Quality 210 Animal Feeding Operations 221 Environmental Health Issues 222 Community Health Issues 223	199
8	Musculoskeletal Diseases in Agriculture Introduction 231 Definitions 231 Work-Related Disorders 232 Epidemiology 232 Chronic Pain Conditions 232 Injuries of the Neck 235 Injuries of the Spine 237 Injuries of the Shoulder 242	231

	Injuries of the Elbow, Wrist, and Hand	244
	Injuries of the Hip	248
	Injuries of the Knee, Ankle, and Foot	250
	General Disorders, Infections, and Reactive Arthritis	253
9	Physical Factors Affecting Health in Agriculture	263
	Noise and Hearing Loss	263
	Vibration and Injuries Related to Vibration	269
	Disorders Due to Heat and Cold	272
	Climate and Physical and Mental Capability	276
10	Psychosocial Conditions in Agriculture	281
	Introduction and Overview	281
	Stress and Stress-Related Health Disorders	282
	Alcohol-Related Health Problems	294
	Suicides and Suicide Prevention	295
11	Acute Agricultural Injuries	303
	Introduction	303
	Agricultural Injury Statistics and Epidemiology	303
	Medical Considerations of Acute Agricultural Injuries	315
	First on the Scene/First Aid—General	316
	First Responders and Emergency Medical Treatment, Rescue/Extrication, and Transport	318
	Emergency Room—General	320
	Primary Care—General	320
	Secondary/Tertiary Care—General	321
	Rehabilitation—General	321
	Hazards and Injuries	322
	Summary	337
12	Veterinary Biological and Therapeutic Occupational Hazards	341
	Introduction	341
	Veterinary Biologicals	342
	Antibiotics	344
	Hormones Used for Growth Promotion	351
	Hormones Used in Veterinary Obstetrics	352
	Other Veterinary Pharmaceuticals	352
	Control and Prevention	353
13	Zoonotic Diseases: An Overview	357
	Introduction	357
	Classification of Zoonotic Infections	358
14	Prevention of Illness and Injury in Agricultural Populations	381
	Introduction	381
	The Farm Worker	382
	Types of Prevention Strategies	383
	Summary	407
