PREFACE	xiii
ACKNOWLEDGEMENTS	xv
ABOUT THE AUTHORS	xvi
LIST OF PRINCIPAL ABBREVIATIONS	xvii
ILLUSTRATIONS CREDITS	xix
1 HEALTH AND SAFETY FOUNDATIONS	1
1.1 Introduction	1
1.2 Some basic definitions	2
1.3 The legal framework for health and safety	3
1.4 The legal system in England and Wales	4
1.5 The legal system in Scotland	5
1.6 European Courts	5
1.7 Sources of law (England and Wales)	6
1.8 Common law torts and duties	7
1.9 Levels of statutory duty	7
1.10 The influence of the European Union (EU) on health and safety	8
1.11 The Health and Safety at Work Act 1974	10
1.12 The Management of Health and Safety at Work Regulations 1999	13
1.13 The main legal instruments relating to construction work	13
1.14 Role and function of external agencies	14
1.15 The scope and definition of construction	15
1.16 The health and safety problem in the construction industry	15
1.17 Moral, legal and financial arguments for health and safety management	16
1.18 The framework for health and safety management	19
1.19 Practice NEBOSH questions for Chapter 1	21
2 POLICY	23
2.1 Introduction	23
2.2 Legal requirements	23
2.3 Key elements of a health and safety policy	24
2.4 Review of health and safety policy	25
2.5 Practice NEBOSH questions for Chapter 2	27
Appendix 2.1 – Health and Safety Policy checklist	27

3	ORGANIZING FOR HEALTH AND SAFETY	31
3.1	Introduction	31
3.2	Control	32
3.3	Employers' responsibilities	32
3.4	Employees' responsibilities	32
3.5	Organizational health and safety responsibilities	33
3.6	Role and functions of health and safety and other advisers	34
3.7	Persons in control of premises	35
3.8	Self-employed	36
3.9	The supply chain	36
3.10	Contractors	38
3.11	Joint occupation of premises	44
3.12	Cooperation with the workforce	45
3.13	Practice NEBOSH questions for Chapter 3	46
	Appendix 3.1 – Typical organizational responsibilities	47
	Appendix 3.2 – Checklist for supply chain health and safety management	49
4	PROMOTING A POSITIVE HEALTH AND SAFETY CULTURE	51
4.1	Introduction	51
4.2	Definition of a health and safety culture	51
4.3	Safety culture and safety performance	52
4.4	Human factors and their influence on safety performance	53
4.5	Human errors and violations	57
4.6	The development of a positive health and safety culture	60
4.7	Effective communication	61
4.8	Health and safety training	62
4.9	Internal influences	64
4.10	External influences	65
4.11	Practice NEBOSH questions for Chapter 4	67
5	RISK ASSESSMENT	69
5.1	Introduction	69
5.2	Legal aspects of risk assessment	69
5.3	Forms of risk assessment	70
5.4	Some definitions	70
5.5	The objectives of risk assessment	72
5.6	Accident categories	72
5.7	Health risks	72
5.8	The management of risk assessment	72
5.9	The risk assessment process	73
5.10	Risk control measures	74
5.11	Hierarchy of risk control	75
5.12	Prioritization of risk control	75
5.13	Record of risk assessment findings	75
5.14	Monitoring and review	75
5.15	Special cases	76
5.16	Practice NEBOSH questions for Chapter 5	77
	Appendix 5.1 – Hazard checklist	78
	Appendix 5.2 – Example of a risk assessment record	79
6	PRINCIPLES OF CONTROL	81
6.1	Introduction	81
6.2	Principles of prevention	81
6.3	Hierarchy of risk control	82

6.4	Controlling health risks	85
6.5	Safe systems of work	87
6.6	Lone workers	90
6.7	Permits to work	90
6.8	Emergency procedures	94
6.9	First aid at work	95
6.10	Practice NEBOSH questions for Chapter 6	98
	Appendix 6.1 – Fire notice	99
	Appendix 6.2 – Job safety analysis form	100
	Appendix 6.3 – Example of a safety method statement form	101
	Appendix 6.4 – Essential elements of a permit-to-work form	102
7	GENERAL SITE ISSUES – HAZARDS AND CONTROL	103
7.1	Introduction	103
7.2	General hazards and controls	104
7.3	Initial site assessment	106
7.4	Site controls	107
7.5	Provision of welfare facilities	110
7.6	Practice NEBOSH questions for Chapter 7	111
	Appendix 7.1 – A typical set of site rules	112
8	WORKING AT HEIGHT – HAZARDS AND CONTROL	115
8.1	Introduction	115
8.2	The Work at Height Regulations 2004 (WAHR)	115
8.3	Construction hazards and controls from working at height	117
8.4	Working above ground or where there is a risk of falling	121
8.5	Practice NEBOSH questions for Chapter 8	135
	Appendix 8.1 – Inspection report form	137
	Appendix 8.2 – Checklist of typical scaffolding faults	139
	Appendix 8.3 – A checklist for a safety inspection of scaffold	139
	Appendix 8.4 – Examples of safe systems of work used in roof work	140
9	EXCAVATION WORK AND CONFINED SPACES – HAZARDS AND CONTROL	141
9.1	Introduction	141
9.2	Excavations – hazards and control	141
9.3	Confined spaces	150
9.4	Practice NEBOSH questions for Chapter 9	154
	Appendix 9.1 – Inspection report for excavation	155
	Appendix 9.2 – An example of safe digging practice	157
	Appendix 9.3 – Typical excavation work risk assessment	158
	Appendix 9.4 – Typical confined spaces risk assessment	159
10	DEMOLITION – HAZARDS AND CONTROL	161
10.1	Introduction	161
10.2	Principal hazards of demolition work	162
10.3	Pre-demolition investigation and survey	162
10.4	Demolition method statement	163
10.5	Management of the demolition and general controls	165
10.6	Specific issues	166
10.7	Practice NEBOSH questions for Chapter 10	168
	Appendix 10.1 – Checklist for a safe system of work	169

11	MOVEMENT OF PEOPLE AND VEHICLES – HAZARDS AND CONTROL	171
11.1	Introduction	171
11.2	Hazards to pedestrians	171
11.3	Control strategies for pedestrian hazards	173
11.4	Hazards to the general public and the associated controls in construction activities, including street works	176
11.5	Hazards in vehicle operations	178
11.6	<i>Control strategies for safe vehicle operations</i>	179
11.7	The management of vehicle movements	180
11.8	Hazards and controls of vehicles on construction sites	181
11.9	Managing occupational road safety	182
11.10	Practice NEBOSH questions for Chapter 11	187
12	WORK EQUIPMENT HAZARDS AND CONTROL	189
12.1	Introduction	189
12.2	Suitability of work equipment and CE marking	189
12.3	Use and maintenance of equipment with specific risks	191
12.4	Information, instruction and training	191
12.5	Maintenance and inspection	192
12.6	Operation and working environment	193
12.7	Users' and hirers' responsibilities	194
12.8	Hand-held tools	195
12.9	<i>Mechanical machinery hazards</i>	197
12.10	Mobile work equipment	199
12.11	<i>Non-mechanical machinery hazards</i>	201
12.12	Examples of machinery hazards	201
12.13	Practical safeguards	203
12.14	Other safety devices	206
12.15	Application of safeguards to the range of machines	207
12.16	Guard construction	214
12.17	Practice NEBOSH questions for Chapter 12	214
13	MANUAL AND MECHANICAL HANDLING HAZARDS AND CONTROL	215
13.1	Introduction	215
13.2	Manual handling hazards and injuries	215
13.3	Manual handling risk assessments	217
13.4	Types of mechanical handling and lifting equipment	220
13.5	Requirements for the statutory examination of lifting equipment	229
13.6	Practice NEBOSH questions for Chapter 13	229
	Appendix 13.1 – <i>Manual handling of loads assessment checklist</i>	231
	Appendix 13.2 – <i>A typical risk assessment for an excavator to be used for lifting</i>	234
	Appendix 13.3 – <i>A typical risk assessment for the use of lifting equipment</i>	235
14	ELECTRICAL HAZARDS AND CONTROL	237
14.1	Introduction	237
14.2	<i>Principles of electricity and some definitions</i>	237
14.3	Electrical hazards and injuries	239
14.4	General control measures for electrical hazards	244
14.5	The selection and suitability of equipment	245
14.6	Inspection and maintenance strategies	247
14.7	Portable electrical appliances testing	248
14.8	Protection against contact with live overhead power lines	251
14.9	Practice NEBOSH questions for Chapter 14	252

15	FIRE HAZARDS AND CONTROL	253
15.1	Introduction	253
15.2	The Regulatory Reform (Fire Safety) Order (RRFSO) – Requirements	254
15.3	Basic principles of fire	256
15.4	Methods of extinction	257
15.5	Classification of fire	258
15.6	Principles of heat transmission and fire spread	258
15.7	Common causes of fire and consequences	260
15.8	Fire risk assessment	261
15.9	Fire detection and warning	267
15.10	Means of escape in case of fire	268
15.11	Principles of fire protection in buildings	270
15.12	Provision of fire-fighting equipment	271
15.13	Maintenance and testing of fire-fighting equipment	272
15.14	Planning for an emergency and training staff	273
15.15	Fire procedures and people with a disability	273
15.16	Practice NEBOSH questions for Chapter 15	274
	Appendix 15.1 – Fire risk assessment as recommended in Fire Safety Guides	275
	Appendix 15.2 – Example form for recording significant findings as published in 2006	276
16	CHEMICAL AND BIOLOGICAL HEALTH HAZARDS AND CONTROL	277
16.1	Introduction	277
16.2	Forms of chemical agent	277
16.3	Forms of biological agent	278
16.4	Classification of hazardous substances and their associated health risks	278
16.5	Routes of entry to the human body	279
16.6	Health hazards of specific agents	283
16.7	Requirements of the COSHH Regulations	286
16.8	Details of a COSHH assessment	287
16.9	The control measures required under the COSHH Regulations	291
16.10	Health surveillance and personal hygiene	297
16.11	Maintenance and emergency controls	297
16.12	Control of asbestos	298
16.13	Environmental considerations	300
16.14	Practice NEBOSH questions for Chapter 16	302
17	PHYSICAL AND PSYCHOLOGICAL HEALTH HAZARDS AND CONTROL	305
17.1	Introduction	305
17.2	Task and workstation design	305
17.3	Work environment issues	313
17.4	Noise	314
17.5	Heat and radiation hazards	320
17.6	The causes and prevention of workplace stress	323
17.7	The causes and prevention of workplace violence	325
17.8	The effects of alcohol and drugs	328
17.9	Practice NEBOSH questions for Chapter 17	329
18	INCIDENT INVESTIGATION, RECORDING AND REPORTING	331
18.1	Introduction	331
18.2	Reasons for incident/accident investigation	332
18.3	Which incidents/accidents should be investigated?	333
18.4	Investigations and causes of incidents	334

18.5	Legal recording and reporting requirements	336
18.6	Typical examples of incidents within the construction industry	338
18.7	Internal systems for collecting and analysing incident data	338
18.8	Compensation and insurance issues	340
18.9	Practice NEBOSH questions for Chapter 18	340
	Appendix 18.1 – Injury report form	342
	Appendix 18.2 – Information for insurance/compensation claims	344
19	MONITORING REVIEW AND AUDIT	347
19.1	Introduction	347
19.2	<i>The traditional approach to measuring health and safety performance</i>	347
19.3	Why measure performance?	348
19.4	What to measure	349
19.5	Measuring failure – reactive monitoring	350
19.6	Proactive monitoring – how to measure performance	350
19.7	Who should monitor performance?	353
19.8	Frequency of monitoring and inspections	353
19.9	Report writing	353
19.10	Review and audit	355
19.11	Practice NEBOSH questions for Chapter 19	358
	Appendix 19.1 – Workplace inspection exercises	359
	Appendix 19.2 – Checklist of items to be covered in a construction site inspection	360
20	SUMMARY OF THE MAIN LEGAL REQUIREMENTS	365
20.1	Introduction	365
20.2	The legal framework	365
20.3	List of Acts and Regulations summarized	366
20.4	Health and Safety at Work etc Act (HSW Act) 1974	368
20.5	Environmental Protection Act 1990	370
20.6	The New Roads and Street Works Act 1991	375
20.7	Control of Asbestos at Work Regulations 2002	378
20.8	Asbestos (Licensing) Regulations 1983 as amended in 1998	384
20.9	Draft Control of Asbestos Regulations 2006	386
20.10	Chemicals (Hazard Information and Packaging for Supply) Regulations 2002	394
20.11	Confined Spaces Regulations 1997	397
20.12	Construction (Design and Management) (CDM) Regulations 1994 and Amendment Regulations 2000	399
20.13	Draft Construction (Design and Management) Regulations 2006	404
20.14	Construction (Head Protection) Regulations 1989	411
20.15	Construction (Health, Safety and Welfare) (CHSW) Regulations 1996	411
20.16	Health and Safety (Consultation with Employees) Regulations 1996	415
20.17	Control of Substances Hazardous to Health Regulations (COSHH) 2002 and 2005 Amendment	416
20.18	Dangerous Substances and Explosive Atmospheres Regulations (DSEAR) 2002	420
20.19	Health and Safety (Display Screen Equipment) Regulations 1992	423
20.20	Electricity at Work Regulations 1989	425
20.21	Employers' Liability (Compulsory Insurance) Act 1969 and Regulations 1998	427
20.22	Regulatory Reform (Fire Safety) Order 2005	429
20.23	Health and Safety (First Aid) Regulations 1981	437

20.24	Health and Safety (Information for Employees) Regulations 1989	438
20.25	Ionising Radiation Regulations 1999	438
20.26	Control of Lead at Work Regulations 2002	440
20.27	Lifting Operations and Lifting Equipment Regulations 1998	442
20.28	Management of Health and Safety at Work Regulations 1999	446
20.29	Manual Handling Operations Regulations (MHO) 1992	448
20.30	Control of Noise at Work Regulations 2005	451
20.31	Personal Protective Equipment at Work Regulations 1992	455
20.32	Provision and Use of Work Equipment Regulations 1998 (except part IV)	457
20.33	The Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 1995	462
20.34	Safety Representatives and Safety Committees Regulations 1977	464
20.35	Health and Safety (Safety Signs and Signals) Regulations 1996	465
20.36	Supply of Machinery (Safety) Regulations 1992	468
20.37	Control of Vibration at Work Regulations 2005	471
20.38	Workplace (Health, Safety and Welfare) Regulations 1992	473
20.39	Work at Height Regulations 2005	476
20.40	Other relevant regulations in brief	480
21	STUDY SKILLS	485
21.1	Introduction	485
21.2	Finding a place to study	485
21.3	Planning for study	485
21.4	Blocked thinking	486
21.5	Taking notes	486
21.6	Reading for study	486
21.7	Revision	486
21.8	Organizing information	487
21.9	How does memory work?	487
21.10	How to deal with exams	489
21.11	The examiners' reports	490
21.12	Conclusion	491
21.13	References	491
	INDEX	493
