Constanze Clarke

Automotive Production Systems and Standardisation

**From Ford
to the Case of Mercedes-Benz**

Physica-Verlag
A Springer Company

Contents

1 Introduction	1
1.1 Theoretical perspective and literature.....	3
1.1.1 Standardisation and the labour process debate.....	4
1.2 Aspects of standardisation	6
1.2.1 The trend towards a standardisation of standards.....	6
1.2.2 De facto and formal standards.....	7
1.2.3 Standard setters and institutionalisation.....	8
1.2.4 Globalisation: driving force for the institutionalisation of standards.	10
1.2.5 Standardisation and certification systems	11
1.3 Production systems	12
1.3.1 The industrial sociology debate on production systems.....	13
1.3.2 Production systems, standardisation and the theory of organisational learning.....	15
1.3.3 Standardisation between control and learning: Adler and Cole versus Berggren	17
1.4 Research methods and approach.....	18
1.4.1 Literature and documentary review.....	18
1.4.2 The case study approach	19
1.4.3 Observational and survey research.....	20
1.5 Chapter outline	21
2 The evolution of standardisation.....	25
2.1 Introduction	25
2.2 Germany: the historical roots of quality standards	27
2.3 The USA: interchangeable parts and mass production	30
2.4 The rise of quality management in Japan	35
2.5 Quality management in Germany	37
2.6 The historical rise of standard setting institutions	40
2.6.1 National standards setting bodies (NSBs)	41
2.6.2 Institutionalisation of international standards – the International Standards Organization (ISO)	46
2.7 The institutionalisation of international standards for quality systems.....	47
2.7.1 Historical evolution of the ISO 9000	48
2.7.2 ISO 9000 – a standardised quality management system	50
2.7.3 The evolution of the ISO technical standard (TS) 16949	53
2.7.4 VDA 6.X series	53
2.7.5 QS 9000	56

2.7.6 The key differences between the ISO 9000, VDA 6.1 and QS 9000	56
2.7.7 Towards a holistic view of quality – from ISO 9000 to the Total Quality Management System (TQM) of the European Foundation of Quality Management (EFQM).	57
2.7.8 Audits.....	60
2.7.9 The cost and benefits of certification	63
2.8 Critical appreciation	65
3 The history of production systems in the automotive industry	71
3.1 Introduction	71
3.2 The end of craft production	72
3.3 Taylorism and standardisation.....	74
3.3.1 Historical background	75
3.3.2 Forms and functions of standardisation in Taylorism	75
3.4 Ford's mass production: the foundation of modern production systems....	78
3.4.1 Standards in mass production	79
3.4.2 Standardisation beyond the shop floor	84
3.5 The Toyota Production System (TPS).....	88
3.5.1 Historical background	89
3.5.2 The evolution of the Toyota Production System in the 1980s and 1990s.....	94
3.5.3 The forms and functions of standardisation in the TPS	99
3.6 The reflective production system of Volvo Uddevalla	111
3.6.1 Creating the reflective production system at Uddevalla.....	111
3.6.2 The role and function of standardisation in the reflective production system	113
3.7 The current trend: standardised production systems.....	119
4 The case of the Mercedes Benz Production System	127
4.1 Introduction	127
4.2 Case study focus, approach and structure	128
4.3 Case study background	129
4.4 Pre-merger production organisation at Mercedes-Benz	131
4.5 Pre-merger production organisation at Chrysler.....	134
4.6 The DaimlerChrysler Operating Model.....	135
4.7 The Mercedes-Benz Production System.....	139
4.7.1 The MPS organisation: central – plant and centre level structures ..	141
4.7.2 The MPS: central organisation.....	141
4.7.3 MPS: plant level organisation	142
4.7.4 The MPS: centre level organisation	143
4.8 Implementing the MPS: the cascade training	145
4.9 The MPS-audit	149
4.9.1 Auditors and the audit procedure	151
4.9.2 MPS-audit observations	153
4.9.3 The effectiveness of audits: theory versus practice	158

4.10 The structure and content of the MPS	159
4.10.1 The MPS tools.....	161
4.11 The Mercedes-Benz Production System and REFA-methods	165
4.12 The Mercedes-Benz Production System and the Toyota Production System	169
5 The results of implementing the Mercedes-Benz Production System.....	173
5.1 Introduction	173
5.2 Research scope and methodology.....	174
5.3 Statistics.....	177
5.4 The MPS questionnaire design and content.....	178
5.5 Significances.....	181
5.5.1 The general trend of results at Production Centre Z.....	181
5.5.2 Sub-centre results.....	191
5.6 Analysis and interpretation	197
6 Conclusion.....	203
6.1 Research questions revisited.....	203
6.2 The driving forces of standardisation	204
6.3 The evolution of production systems in the automotive industry	206
6.4 Changing forms and functions of standardisation in production systems	209
6.5 The effects of standardisation on the actors on the shop floor.....	211
6.6 Outlook	214
Appendix	217
Glossary of terms, symbols and abbreviations	221
Bibliography	225
