

HANDBOOK OF

Media for
Clinical
Microbiology

SECOND EDITION

By

RONALD M. ATLAS
JAMES W. SNYDER

Taylor & Francis
Taylor & Francis Group

Table of Contents

Diagnostic Microbiology: Isolation and Identification of Pathogens.....	1	Alginate Utilization Medium.....	21
Isolation and Culture Procedures.....	1	Alkaline Peptone Agar.....	22
Media for the Isolation and Identification of Microorganisms from Clinical Specimens.....	2	Alkaline Peptone Salt Broth.....	22
References.....	4	Alkaline Peptone Water.....	22
A 3 Agar.....	5	Alkvisco Medium.....	22
A 3B Agar.....	5	Allantoin Agar.....	22
A 7 Agar.....	6	Allantoin Broth.....	23
A 7 Agar, Modified.....	7	ALOA Medium.....	23
A 7B Agar.....	7	ALP Basal Medium.....	24
A 8B Agar.....	8	Amies Modified Transport Medium with Charcoal.....	24
A 1 Broth.....	9	Amies Modified Transport Medium with Charcoal.....	25
Abeyta-Hunt Bark Agar.....	9	Amies Transport Medium without Charcoal.....	25
ABY Agar.....	10	AMO.1 Medium.....	25
AC Agar.....	10	Ampicillin Kanamycin Nutrient Agar.....	26
AC Broth.....	10	Ampicillin L Broth Medium.....	26
<i>Acanthamoeba</i> Medium.....	11	Ampicillin TY Salt Medium.....	27
ACC Medium.....	11	Amygdalin Medium.....	27
Acetamide Agar.....	11	Anaerobe Agar.....	27
Acetamide Broth.....	11	Anaerobe Agar.....	28
Acetamide Cetrinide Glycerol Mannitol Selective Medium.....	12	Anaerobe Medium.....	28
Acetamide Medium.....	12	Anaerobic Agar.....	28
Acetamide Medium.....	13	Anaerobic Agar.....	29
Acetate Differential Agar.....	13	Anaerobic Broth.....	29
<i>Acetobacteroides glycinophilus</i> Medium.....	13	Anaerobic CNA Agar.....	29
<i>Achromobacter</i> Choline Medium.....	14	Anaerobic Egg Yolk Agar.....	29
<i>Achromobacter</i> Choline Medium, Modified.....	14	Anaerobic Egg Yolk Agar.....	30
<i>Achromobacter</i> Medium.....	15	Anaerobic LKV Blood Agar.....	30
Acid Egg Medium.....	15	Anaerobic Oxalate Medium.....	31
Acid Tomato Broth.....	15	Anaerobic Trypticase™ Soy Agar with Calf Blood.....	32
Actidione® Agar.....	15	Anaerobic TVLS Medium.....	32
<i>Actinomyces</i> Agar.....	16	Andersen's Pork Pea Agar.....	32
<i>Actinomyces</i> Broth.....	16	Andrade's Carbohydrate Broth and Indicator.....	33
<i>Actinomyces</i> Isolation Agar.....	16	Andrade's Broth.....	33
Actinomycete Growth Medium.....	17	Anthraxis Chromogenic Agar.....	34
Activated Carbon Medium.....	17	Antibiotic Medium 1.....	34
AE Sporulation Medium, Modified.....	17	Antibiotic Medium 2.....	34
<i>Aeromonas</i> Differential Agar.....	18	Antibiotic Medium 3.....	34
<i>Aeromonas hydrophila</i> Medium.....	18	Antibiotic Medium 3 Plus.....	35
<i>Aeromonas</i> Medium.....	18	Antibiotic Medium 4.....	35
AFPA.....	19	Antibiotic Medium 5.....	35
AH5 Medium.....	19	Antibiotic Medium 6.....	35
AKI Medium.....	20	Antibiotic Medium 7.....	35
<i>Alcaligenes</i> Agar.....	20	Antibiotic Medium 8.....	36
<i>Alcaligenes</i> Medium.....	20	Antibiotic Medium 9.....	36
<i>Alcaligenes</i> N5 Medium.....	20	Antibiotic Medium 10.....	36
<i>Alcaligenes</i> NA YE Medium.....	21	Antibiotic Medium 11.....	36
<i>Alcaligenes</i> NB YE Agar.....	21	Antibiotic Medium 12.....	37
<i>Alcaligenes</i> NB YE Broth.....	21	Antibiotic Medium 13.....	37
<i>Alcaligenes</i> NB YE Medium.....	21	Antibiotic Medium 19.....	37
		Antibiotic Medium 20.....	37

Antibiotic Medium 21.....	37	Beef Infusion Agar	55
Antibiotic Sulfonamide Sensitivity Test Agar	38	Beef Infusion Broth	56
AOAC Lethen Broth	38	Beef Liver Medium for Anaerobes.....	56
Arenavirus Plaquing Medium	38	Bennett's Agar	56
Arginine Broth	39	Bennett's Agar with Maltose	56
Arginine Broth with NaCl.....	39	Bennett's Modified Agar Medium.....	56
Arginine Glucose Slants	39	BG Sulfa Agar	56
Armstrong Fusarium Medium	39	BHI with Glucose	57
Arylsulfatase Agar	39	BHI Glucose Medium.....	57
Ascospore Agar	40	BHI with Glycerol and Reducing Agents.....	57
ASM Medium	40	BHI Medium	58
Asparaginate Glycerol Agar	40	BHI/1 Medium.....	58
Asparagine Broth	40	BHI/2 Medium.....	58
<i>Aspergillus</i> Differential Medium	40	BHI/3 Medium.....	58
<i>Aspergillus</i> Medium.....	41	<i>Bifidobacterium</i> Medium.....	58
ATS Medium.....	41	BiGGY Agar.....	59
AV Agar with Vitamins.....	41	Bile Esculin Agar.....	59
Avian <i>Mycoplasma</i> Agar.....	42	Bile Esculin Agar with Kanamycin	60
Avian <i>Mycoplasma</i> Broth	42	Bile Esculin Azide Agar	60
Azide Blood Agar	43	Bile Oxalate Sorbose Broth	60
Azide Blood Agar with Crystal Violet.....	43	Bile Salts Brilliant Green Starch Agar.....	61
Azide Broth.....	44	Bile Salts Gelatin Agar	61
Azide Medium	44	BIN Medium.....	62
B Broth.....	44	Biosynth Chromogenic Medium	
<i>Bacillus cereus</i> Medium	44	for <i>Listeria monocytogenes</i>	62
<i>Bacillus cereus</i> Selective Agar Base.....	45	Biphasic Medium for Neisseria	62
<i>Bacillus</i> Medium.....	45	Bird Seed Agar	63
<i>Bacillus</i> Medium.....	46	Bismuth Sulfite Agar	63
<i>Bacteroides</i> Bile Esculin Agar.....	46	Bismuth Sulfite Agar Wilson and Blair	63
BAF Agar.....	47	Bismuth Sulfite Broth	64
BAGG Broth	47	BL Agar	64
Baird-Parker Agar.....	47	Blood Agar.....	64
Baird-Parker Agar, Supplemented.....	48	Blood Agar Base.....	65
Baird-Parker Medium	48	Blood Agar Base No. 2	65
Balamuth Medium	48	Blood Agar Base with Peptone	66
Basal Synthetic Medium	49	Blood Agar Base, Sheep	66
Basic Cultivation Medium	49	Blood Agar Base with Special Peptone.....	66
Basic Mineral Medium	49	Blood Agar, Diphasic	66
BC Motility Medium	49	Blood Agar, Diphasic Base Medium	67
BCM <i>Bacillus cereus</i> Group Plating Medium	49	Blood Agar with Low pH	67
BCM O157:H7(+) Plating Medium	50	Blood Agar No. 2.....	67
BCP D Agar	50	Blood Base Agar.....	67
BCP DCLS Agar.....	50	Blood Base Agar with Charcoal	67
BCYE Agar.....	50	Blood Base Agar with Horse Blood	68
BCYE Differential Agar	51	Blood Base Agar with	
BCYE Medium, Diphasic Blood Culture	51	Horse Blood, Fumarate and Formate	68
BCYE Selective Agar with CCVC	52	Blood Glucose Cystine Agar	68
BCYE Selective Agar with GPVA	52	BMPA- α Medium	68
BCYE Selective Agar with GVPC	53	BMPA- α Medium	69
BCYE Selective Agar with PAC.....	53	Bonner-Addicott Medium.....	69
BCYE Selective Agar with PAV	54	<i>Bordetella pertussis</i> Selective Medium	
BCYE α with Alb	54	with Bordet-Gengou Agar Base	69
BCYE α without L-Cysteine.....	54	<i>Bordetella pertussis</i> Selective Medium	
Beef Extract Agar	55	with Charcoal Agar Base.....	70
Beef Extract Broth	55	Bordet-Gengou Agar	70
Beef Extract Peptone Serum Medium	55	Bordet-Gengou Medium	71

<i>Borrelia</i> Medium	71	Brilliant Green 2%-Bile Broth, Fluorocult®	84
Bouillon Medium	72	Brilliant Green Lactose Bile Broth	84
Bovine Albumin Tween 80 Medium, Ellinghausen and McCullough, Modified	72	Brilliant Green Phenol Red Agar	84
Bovine Albumin Tween 80	80	BROLACIN MUG Agar	84
Semisolid Medium, Ellinghausen and McCullough, Modified	72	Bromcresol Purple Broth	85
Bovine Serum Albumin Tween 80 Agar	73	Bromcresol Purple Dextrose Broth	85
Bovine Serum Albumin Tween 80 Broth	73	Bromthymol Blue Agar	85
Bovine Serum Albumin Tween 80 Soft Agar	74	Bromthymol Blue Broth	86
Brain Heart CC Agar	74	<i>Brucella</i> Agar	86
Brain Heart Infusion	74	<i>Brucella</i> Agar Base <i>Campylobacter</i> Medium	87
Brain Heart Infusion Agar	75	<i>Brucella</i> Agar with Vitamin K ₁	87
Brain Heart Infusion Agar 0.7%	75	<i>Brucella</i> Albimi Broth with 0.16% Agar	87
Brain Heart Infusion with 0.7% Agar	76	<i>Brucella</i> Albimi Broth with 0.16% Agar and 1% Glycine	87
Brain Heart Infusion Agar with Chloramphenicol	76	<i>Brucella</i> Albimi Broth with Formate and Fumarate	88
Brain Heart Infusion Agar with Kanamycin	76	<i>Brucella</i> Albimi Broth with Sheep Blood	88
Brain Heart Infusion Agar with Penicillin and Streptomycin	76	<i>Brucella</i> Albimi Medium, Semisolid	88
Brain Heart Infusion Agar with 10% Sheep Blood, Gentamicin, and Chloramphenicol	77	<i>Brucella</i> Anaerobic Blood Agar	88
Brain Heart Infusion Agar with Tween 80	77	<i>Brucella</i> Blood Agar with Hemin and Vitamin K ₁	89
Brain Heart Infusion with Agar, Yeast Extract, NaCl, Inactivated Horse Serum, and Penicillin	77	<i>Brucella</i> Blood Culture Broth	89
Brain Heart Infusion with Agar, Yeast Extract, Sucrose, Horse Serum, and Penicillin	78	<i>Brucella</i> Broth	89
Brain Heart Infusion with Agar, Yeast Extract, Sucrose, Inactivated Horse Serum, and Penicillin	78	<i>Brucella</i> Broth with Additives	90
Brain Heart Infusion Blood Agar	78	<i>Brucella</i> Broth with 0.16% Agar	90
Brain Heart Infusion Broth	79	<i>Brucella</i> Broth Base <i>Campylobacter</i> Medium	91
Brain Heart Infusion with Casein	79	<i>Brucella</i> Broth, Modified	91
Brain Heart Infusion Casein Starch	79	<i>Brucella</i> FBP Agar	91
Brain Heart Infusion with Cystine	79	<i>Brucella</i> FBP Broth	91
Brain Heart Infusion with Glucose and Horse Serum	80	<i>Brucella</i> Medium Base	92
Brain Heart Infusion with 5% NaCl	80	<i>Brucella</i> Medium, Selective	92
Brain Heart Infusion with PABA	80	<i>Brucella</i> Selective Medium	92
Brain Heart Infusion with PABA and Agar	80	<i>Brucella</i> Semisolid Medium with Cysteine	92
Brain Heart Infusion with Rabbit Serum	81	<i>Brucella</i> Semisolid Medium with Glycine	93
Brain Heart Infusion with 3% Sodium Chloride	81	<i>Brucella</i> Semisolid Medium with NaCl	93
Brain Heart Infusion Soil Extract Medium	81	<i>Brucella</i> Semisolid Medium with Nitrate	93
Brain Heart Infusion with Sucrose and Horse Serum	82	BSK Medium	94
Brain Liver Heart Semisolid Medium	82	BSK Medium, Modified	94
Brewer Anaerobic Agar	82	BSK Medium, Revised	95
Brewer Thioglycolate Medium	82	BTB Lactose Agar	96
Brewer Thioglycolate Medium, Modified	82	BTB Teepol® Agar	96
BRILA MUG Broth	83	BTU Medium	97
Brilliant Green Agar	83	Buffered Charcoal Yeast Extract Differential Agar	97
Brilliant Green Agar, Modified	83	Buffered Enrichment Broth	97
		Buffered Peptone Water	98
		<i>Burkholderia cepacia</i> Agar	98
		BYE Agar	98
		BYEB	99
		Caffeic Acid Ferric Citrate Test Medium	99
		Caffeine Medium	99
		CAL Agar	100
		CAL Broth	100

<i>Calymmatobacterium granulomatis</i>	
Semidefined Medium	100
CAMG Broth	100
Campy THIO Medium	100
<i>Campylobacter</i> Agar	101
<i>Campylobacter</i> Agar with 5	
Antimicrobics and 10% Sheep Blood	101
<i>Campylobacter</i> Agar, Blaser's	101
<i>Campylobacter</i> Agar, Skirrow's	102
<i>Campylobacter</i> Blood-Free Agar	
Base Modified	102
<i>Campylobacter</i> Blood-Free	
Selective Agar	102
<i>Campylobacter</i> Charcoal	
Differential Agar	103
<i>Campylobacter</i> Enrichment Broth	103
<i>Campylobacter</i> Enrichment Broth	104
<i>Campylobacter fecalis</i> Medium	105
<i>Campylobacter fetus</i> Medium	105
<i>Campylobacter fetus</i> Medium	106
<i>Campylobacter fetus</i> Selective Medium	106
<i>Campylobacter</i> Isolation Agar A	106
<i>Campylobacter</i> Isolation Agar B	107
<i>Campylobacter</i> Medium	107
<i>Campylobacter mucosalis</i> Medium	107
<i>Campylobacter rectus</i> Medium	108
<i>Campylobacter</i> Selective	
Medium, Blaser-Wang	108
<i>Campylobacter</i> Selective	
Medium, Blaser-Wang	109
<i>Campylobacter</i> Selective	
Medium, Butzler's	109
<i>Campylobacter</i> Selective	
Medium, Karmali's	110
<i>Campylobacter</i> Selective Medium,	
Preston's	110
<i>Campylobacter sputorum</i>	
Subspecies <i>bubulus</i> Medium	110
<i>Campylobacter sputorum</i>	
Subspecies <i>mucosalis</i> Medium	111
<i>Campylobacter</i> Thioglycolate	
Medium with 5 Antimicrobics	111
<i>Candida</i> BCG Agar Base	111
<i>Candida</i> Isolation Agar	112
<i>Capnocytophaga</i> Medium	112
<i>Capnocytophaga</i> II Medium	112
Carbohydrate Fermentation Broth	112
Carbon Assimilation Medium	113
Carbon Assimilation Medium,	
Auxanographic Method for Yeast	
Identification	113
Carbon Utilization Test	114
<i>Cardiobacterium hominis</i> Medium	114
Carnitine Chloride Medium	114
Carrot Potato Dextrose Agar	115
Cary and Blair Transport Medium	115
Cary and Blair	
Transport Medium, Modified	115
Casamino Acids Yeast	
Extract Lincomycin Medium	116
Casamino Acids Yeast	
Extract Salts Broth, Gorbach	116
Casein Agar	116
Casein Yeast Extract Glucose Agar	116
Casein Yeast Extract Glucose Broth	117
Casman Agar Base	117
Casman Agar Base with Rabbit Blood	117
CASO MUG Agar	117
CCY Modified Medium	118
CDC Anaerobe Blood Agar	118
CDC Anaerobe Blood Agar	
with Kanamycin and Vancomycin	118
CDC Anaerobe Blood Agar	
with Phenylethyl Alcohol	119
CDC Anaerobe Laked Blood Agar	
with Kanamycin and Vancomycin	119
Cefiximine Rhamnose Sorbitol	
MacConkey Agar	120
Cefsulodin Irgasan Novobiocin Agar	120
Cell Growth Medium	121
Cellobiose Polymyxin	
B Colistin Agar, Modified	122
Cellobiose Polymyxin Colistin Agar	123
Cereal Agar	123
Cetrimide Agar, Non-USP	123
Cetrimide Agar, USP	123
CF Assay Medium	123
CFAT Medium	124
CGY Agar	124
CH 1 Medium	124
Chapman Stone Agar	125
Charcoal Agar	125
Charcoal Agar with Horse Blood	125
Charcoal Agar with Horse Blood	
and Cepalexin	125
Charcoal Blood Medium	126
<i>Chlamydia</i> Growth Medium	126
<i>Chlamydia</i> Isolation Medium	127
Chlamydospore Agar	127
Chloramphenicol Ampicillin LB Medium	127
Chloramphenicol Erythromycin LB Medium	128
Chloramphenicol L Broth Medium No. 1	128
Chloramphenicol L Broth Medium No. 2	128
Chloramphenicol L Broth Medium No. 3	129
Chloramphenicol LB Medium No. 1	129
Chloramphenicol LB Medium No. 2	129
CHO Medium Base	129
Chocolate Agar	129
Chocolate Agar	130
Chocolate Agar, Enriched	130

Chocolate Agar, Enriched.....	131	<i>Clostridium</i> Medium.....	148
Chocolate Agar- <i>Bartonella</i> C-29.....	131	<i>Clostridium</i> Medium.....	149
Chocolate II Agar.....	132	<i>Clostridium novyi</i> Blood Agar.....	149
Chocolate II Agar with		<i>Clostridium perfringens</i> Agar, OPSP.....	150
Hemoglobin and IsoVitaleX.....	132	<i>Clostridium</i> Selective Agar.....	150
Chocolate Tellurite Agar.....	132	CM3 Medium.....	150
Cholera Medium TCBS.....	133	CN Screen Medium.....	151
Cholic Acid Medium.....	133	Coagulase Agar Base.....	151
Cholera Medium TCBS.....	133	Coagulase Mannitol Agar.....	151
Chopped Meat Agar.....	134	COBA.....	151
Chopped Meat Broth.....	134	Coletsos Medium.....	152
Chopped Meat Broth with Carbohydrates.....	134	Coletsos Selective Medium.....	152
Chopped Meat Broth		Coliform Agar, Chromocult®.....	153
with Formate and Fumarate.....	134	Coliform Agar ES, Chromocult.....	153
Chopped Meat Broth with Vitamin K ₁	135	Columbia Agar.....	154
Chopped Meat Carbohydrate Medium.....	135	Columbia Blood Agar.....	154
Chopped Meat Glucose Agar.....	136	Columbia Blood Agar Base.....	154
Chopped Meat Glucose Broth.....	136	Columbia Blood Agar	
Chopped Meat Glucose Medium.....	136	Base with Horse Blood.....	155
Chopped Meat Medium.....	136	Columbia Blood Agar Base	
Chopped Meat Medium with Formate		with Horse Blood and Charcoal.....	155
and Fumarate.....	137	Columbia Broth.....	155
Chopped Meat Medium, Modified.....	137	Columbia Broth.....	156
Chopped Meat Medium, Modified		Columbia CNA Agar.....	156
with Formate and Fumarate.....	138	Columbia CNA Agar, Modified with	
Christensen Agar.....	139	Sheep Blood.....	157
Christensen Citrate Agar.....	139	Complex Medium.....	157
Christensen Citrate Agar, Modified.....	139	Congo Red Acid Morpholinepropanesulfonic	
Christensen Citrate Sulfide Medium.....	139	Acid Pigmentation Agar.....	157
Christensen's Urea Agar.....	140	Congo Red Agar.....	157
CHROMagar <i>Candida</i>	140	Congo Red Agar.....	158
CHROMagar <i>E. coli</i>	140	Congo Red BHI Agarose Medium.....	158
CHROMagar ECC.....	140	Congo Red BHI Agarose Medium.....	159
CHROMagar <i>Listeria</i>	141	Congo Red Magnesium Oxalate Agar.....	159
CHROMagar O157.....	141	Conradi Drigalski Agar.....	160
CHROMagar Orientation.....	141	Converse Liquid Medium, Levine Modification.....	160
CHROMagar <i>Salmonella</i>	141	Cooke Rose Bengal Agar.....	160
CHROMagar <i>Staph. aureus</i>	141	Cooked Meat Medium.....	160
CHROMagar <i>Vibrio</i>	141	Cooked Meat Medium.....	161
Chromogenic <i>Candida</i> Agar.....	142	Cooked Meat Medium with	
Chromogenic <i>Listeria</i> Agar.....	142	Glucose, Hemin, and Vitamin K.....	161
Chromogenic MRSA Agar.....	142	Cooked Meat Medium, Modified.....	162
Chromogenic <i>Salmonella</i> Esterase Agar.....	143	Cooked Meat Medium with Peptone	
Chromogenic Substrate Broth.....	143	and Yeast Extract.....	162
Chromogenic Urinary Tract		Cornmeal Agar.....	162
Infection (UTI) Medium.....	143	Cornmeal Agar with Strep100 and Tet100.....	162
Chromogenic UTI Medium, Clear.....	144	Cornmeal Yeast Glucose Agar.....	163
CIN Agar.....	144	CREA.....	163
Citrate Medium, Koser's Modified.....	144	Creatinine Agar.....	163
CLED Agar.....	145	Creatinine Medium.....	163
CLED Agar with Andrade Indicator.....	145	CreDm1 Medium.....	164
Clostridia Medium.....	145	Crystal Violet Agar.....	164
<i>Clostridium botulinum</i> Isolation Agar.....	145	Crystal Violet Azide Esculin Agar.....	165
<i>Clostridium difficile</i> Agar.....	146	Crystal Violet Esculin Agar.....	165
<i>Clostridium</i> Medium.....	147	CT Agar.....	165

CTA Agar.....	166	Dorset Egg Medium.....	181
CTA Medium.....	166	DTC Agar.....	181
CTA Medium with Yeast Extract and Rabbit Serum.....	166	DTM Agar.....	182
CTLM Medium.....	166	Dulaney Slants.....	182
CVA Medium.....	167	Duncan-Strong Sporulation Medium, Modified..	182
Cycloserine Cefoxitin Egg Yolk Fructose Agar ..	167	Dunkelberg Carbohydrate Medium, Modified	182
CYE Agar.....	167	Dunkelberg Maintenance Medium.....	183
CYE Agar, Buffered.....	168	Dunkelberg Semisolid Carbohydrate Fermentation Medium.....	183
Cystine Heart Agar.....	168	<i>E. coli</i> O157:H7 MUG Agar.....	183
Cystine Heart Agar with Rabbit Blood.....	169	Eagle Medium.....	183
Cystine Tellurite Blood Agar.....	169	Eagle Medium.....	184
Czapek Dox Agar, Modified.....	169	Eagle Medium.....	185
Czapek Dox Broth.....	170	Eagle Medium, Modified.....	185
Czapek Dox Liquid Medium, Modified.....	170	Eagle's Minimal Essential Medium with Earle's Salts and Nonessential Amino Acids..	186
Czapek Solution Agar.....	170	Earle's Balanced Salts, Phenol Red-Free.....	187
Czapek Yeast Extract Agar.....	170	EB Motility Medium.....	187
DCLS Agar.....	171	EC Broth.....	187
Decarboxylase Base, Møller.....	171	EC Broth with MUG.....	187
Decarboxylase Medium Base, Falkow.....	171	EC Medium, Modified with Novobiocin.....	187
Decarboxylase Medium, Ornithine Modified.....	171	ECD MUG Agar.....	188
Demi-Fraser Broth.....	172	Egg Yolk Agar.....	188
Deoxycholate Agar.....	172	Egg Yolk Agar, Modified.....	188
Deoxycholate Citrate Agar.....	172	Egg Yolk Emulsion.....	189
Deoxycholate Citrate Agar.....	173	Egg Yolk Emulsion, 50%.....	189
Deoxycholate Citrate Agar, Hynes.....	173	Egg-yolk Tellurite Emulsion 20%.....	189
Deoxycholate Lactose Agar.....	173	Eijkman Lactose Medium.....	189
Dermasel Agar Base.....	174	EMB Agar.....	190
Dermatophyte Test Medium Base.....	174	EMB Agar Base.....	190
DEV Lactose Peptone MUG Broth.....	174	EMB Agar, Modified.....	190
Dextrose Agar.....	174	Endo Agar.....	190
Dextrose Agar.....	175	Endo Agar.....	191
Dextrose Ascitic Fluid Semisolid Agar.....	175	Endo Agar, LES.....	191
Dextrose Broth.....	175	Endo Broth.....	192
Dextrose Proteose No. 3 Agar.....	175	Enriched Nutrient Broth.....	192
Dextrose Starch Agar.....	176	Enrichment Broth for <i>Aeromonas hydrophila</i>	192
Diagnostic Sensitivity Test Agar.....	176	<i>Entamoeba</i> Medium.....	192
Diamonds Medium, Modified.....	177	Enteric Fermentation Base.....	193
Diethyl Phosphonate Agar.....	177	<i>Enterobacter</i> Medium.....	193
Differential Agar Medium A8 for <i>Ureaplasma urealyticum</i>	177	Enterococci Broth, Chromocult.....	193
Dilute Peptone Water.....	178	Enterococcosel™ Agar.....	194
Dilute Potato Medium.....	178	Enterococcosel Broth.....	194
Diphasic Blood Agar Base Medium.....	178	<i>Enterococcus</i> Agar.....	194
Diphasic Blood Agar Medium with 10% Blood.....	178	<i>Enterococcus faecium</i> Medium.....	195
Diphasic Blood Agar Medium with 30% Blood.....	179	Erythritol Agar.....	195
Diphasic Medium for <i>Amoeba</i>	179	Erythritol Broth.....	195
Dixon Agar.....	180	Esculin Agar.....	195
DNase Agar.....	180	Esculin Agar, Modified CDC.....	195
DNase Medium.....	180	Esculin Broth.....	195
DNase Test Agar.....	181	Esculin Iron Agar.....	196
DNase Test Agar with Methyl Green.....	181	Esculin Mannitol Agar.....	196
DNase Test Agar with Toluidine Blue.....	181	ETGPA.....	196
		Ethyl Violet Azide Broth.....	197
		<i>Eubacterium</i> Medium.....	198

Fastidious Anaerobe Agar	198	GC Agar with Ampicillin	214
Fastidious Anaerobe Agar, Alternative Selective..	198	GC Agar with Ampicillin and Gentamicin	215
Fastidious Anaerobe Agar, Alternative Selective with Neomycin, Vancomycin, and Josamycin	199	GC Agar with Ampicillin and Tetracycline	215
Fastidious Anaerobe Agar, Selective	199	GC Agar with Chloramphenicol, Tetracycline, and Ampicillin	216
Fastidious Anaerobe Agar, Selective with Neomycin and Vancomycin.....	200	GC Agar with Defined Supplements	217
Fay and Barry Medium	200	GC Agar with Penicillin G	217
FDA Agar	201	GC Agar with Supplement A	218
FDA Broth	201	GC Agar with Supplement A and with VCN Inhibitor.....	219
Fecal Coliform Agar, Modified	201	GC Agar with Supplement A and with VCTN Inhibitor.....	219
Fermentation Broth	201	GC Agar with Supplement B	220
Fermentation Medium.....	202	GC Medium, New York City Formulation	221
F-G Agar	202	GCII Agar	221
F-G Agar with Selenium	202	GCII Agar	222
F-G Broth.....	203	GC-Lect™ Agar	222
FGTC Agar.....	203	GC Medium with Chloramphenicol	223
Fildes Enrichment Agar	204	GCA Agar with Thiamine	223
Fish Peptone Agar.....	204	Gelatin Agar.....	224
Fish Peptone Broth.....	204	Gelatin Infusion Broth	224
Five g Agar	205	Gelatin Medium.....	225
Fletcher Medium.....	205	Gelatin Metronidazole Cadmium Medium	225
Fletcher Medium with Fluorouracil.....	205	Gelatin Phosphate Salt Agar	225
Fletcher's Semisolid Medium	205	Gelatin Phosphate Salt Broth.....	226
FLN Medium	205	Gelatin Salt Agar	226
Fluid Sabouraud Medium	206	Gelatinase Test Medium	226
Fluid Thioglycolate Agar.....	206	Gluconate Peptone Broth.....	226
Fluid Thioglycolate Agar with Calcium Carbonate	206	Glucose Nutrient Agar.....	226
Fluid Thioglycolate Medium	206	Glucose Phosphate Broth.....	227
Fluid Thioglycolate Medium with Beef Extract.....	207	Glucose Salt Teepol Broth.....	227
Fluid Thioglycolate Medium without Glucose or E _n Indicator	207	Glucose Salts Medium.....	227
Fluid Thioglycolate Medium with K Agar	207	Glutarate Medium	227
Fluid Thioglycolate Medium with Rabbit Serum.....	207	Glycerol Agar	228
Fluorocult <i>E. coli</i> 0157:H7 Agar	208	Glycerol Asparagine Meat Agar.....	228
FN Medium.....	208	GN Broth, Hajna.....	228
Folic Acid Agar	208	Gonococcus Medium	229
Formate Fumarate Medium	209	GP Agar	229
FRAG Agar.....	209	GPHF Agar	229
<i>Francisella tularensis</i> Isolation Medium	210	Granada Medium	229
Freezing Medium.....	210	Group A Selective Strep Agar with Sheep Blood	230
G Medium	210	H Agar	230
GAM Agar	211	H Broth	231
GAM Semisolid	211	H Diphasic Medium.....	232
<i>Gardnerella vaginalis</i> Selective Medium	211	<i>Haemophilus ducreyi</i> Medium.....	233

TPEY Agar	432	Sheep Blood and Vacnomycin	449
TPGY Medium	433	Trypticase Soy Agar Yeast Extract	449
Trace Elements Solution HO-LE	433	Trypticase Soy Broth with 10mM Glucose	449
Transgrow Medium	433	Trypticase Soy Broth without Glucose	450
Transgrow Medium	434	Trypticase Soy Broth with 1.5% NaCl	450
Transgrow Medium with Trimethoprim	434	Trypticase Soy Broth with Sheep Blood	450
Transgrow Medium without Trimethoprim	435	Trypticase Soy Broth with Tobramycin	450
Transport Medium	435	Trypticase Soy Broth with Tween 80	450
Transport Medium Stuart	436	Trypticase Soy Broth with Yeast Extract	451
<i>Treponema</i> Isolation Medium	436	Trypticase Tellurite Agar Base	451
<i>Treponema</i> Medium	437	Tryptone Bile Glucuronide Agar, Harlequin	451
<i>Treponema</i> Medium	438	Tryptone Bile X-glucuronide Agar, Chromocult	451
<i>Treponema</i> Medium	439	Tryptone Phosphate Broth	452
<i>Treponema</i> Medium	440	Tryptone Soya Agar	452
<i>Treponema</i> Medium 1	440	Tryptone Soya Broth	452
<i>Treponema</i> Medium 2	440	Tryptone Soya Broth with 0.1% Tween 80	452
<i>Treponema</i> Medium 3	440	Tryptone Water Broth	452
<i>Treponema</i> Medium, Prereduced	441	Tryptone Yeast Extract Agar	452
<i>Trichomonas</i> Medium	441	Tryptone Yeast Extract Agar 1	453
<i>Trichomonas</i> Medium No. 2	441	Tryptophan 1% Solution	453
<i>Trichomonas</i> Selective Medium	442	Tryptose Agar	453
Trichose TM Broth, Modified	442	Tryptose Agar with Citrate	453
Trimethylamine <i>N</i> -Oxide Medium	443	Tryptose Agar with Sheep Blood	453
Triple Sugar Iron Agar	443	Tryptose Agar with Thiamine	454
Trypaflavin Nalidixic Acid Serum Agar	443	Tryptose Blood Agar	454
Trypanosome Medium	444	Tryptose Blood Agar Base with Yeast Extract	454
Tryptic Digest Broth	444	Tryptose Broth	454
Tryptic Nitrate Medium	444	Tryptose Broth with Citrate	455
Tryptic Soy Agar with Sodium Chloride	444	Tryptose Cycloserine Dextrose Agar	455
Tryptic Soy Fast Green Agar	445	Tryptose Phosphate Agar	455
Trypticase Agar Base	445	Tryptose Phosphate Broth	455
Trypticase Agar Base with Carbohydrate	445	Tryptose Phosphate Broth, Modified	455
Trypticase Novobiocin Broth	445	Tryptose Sulfite Cycloserine Agar	456
Trypticase Peptone Glucose		Tryptose Sulfite Cycloserine Agar	
Yeast Extract Broth	445	with Polymyxin and Kanamycin	456
Trypticase Peptone Glucose		Tryptose Sulfite Cycloserine Agar	
Yeast Extract Broth, Buffered	446	without Egg Yolk	456
Trypticase Peptone Glucose		TSC Agar, Fluorocult	457
Yeast Extract Broth with Trypsin	446	TSN Agar	457
Trypticase Soy Agar	446		

Tween 80 Hydrolysis Broth	458	Wallerstein Medium	475
Tween 80 Hydrolysis Medium	458	Wickerham Broth	475
TY Medium	459	Wickerham Broth	476
TY Salt Medium	459	Wickerham Broth with Raffinose	476
TYGS Medium	459	Wilkins-Chalgren Agar	476
TYI-S-33 Medium	459	Wilkins-Chalgren Anaerobe Agar	477
TYM Basal Medium, Modified 1	460	Wilkins-Chalgren Anaerobe Agar with GN Supplement	477
TYM Basal Medium, Modified 2	460	Wilkins-Chalgren Anaerobe Agar with NS Supplement	477
TYM Basal Medium, Modified 4	460	Wilkins-Chalgren Anaerobe Broth	478
U Agar Plates	461	Wilson Blair Base	478
U Broth	461	Winge Agar	478
U9 Broth	462	Wolin-Bevis Medium	479
U9 Broth with Amphotericin B	463	Worfel-Ferguson Agar	479
U9B Broth	463	Xanthine Agar	479
U9C Broth	464	XL Agar Base	479
Urea Agar	464	XL Agar Base	480
Urea Agar Base	465	XLD Agar	480
Urea Broth 10B for <i>Ureaplasma urealyticum</i>	465	Xylose Lactose Tergitol 4	480
Urea Broth Base	466	Xylose Sodium Deoxycholate Citrate Agar	481
Urea R Broth	466	Y1 Adrenal Cell Growth Medium	481
Urea Semisolid Medium	466	Y1 Adrenal Cell Growth Medium	482
Urea Test Broth	467	Yeast Extract Agar	482
Urease Test Broth	467	Yeast Extract Agar	483
UVM <i>Listeria</i> Enrichment Broth	468	Yeast Extract Sodium Lactate Medium	483
UVM Modified <i>Listeria</i> Enrichment Broth	468	Yeast Extract Sucrose Agar	483
V Agar	468	Yeast Fermentation Medium	483
V-8™ Agar	468	Yeast Glucose Agar	484
V-8 Agar	469	Yeastrel Agar	484
Veal Infusion Agar	469	YEPD Medium	484
Veal Infusion Broth	469	<i>Yersinia</i> Selective Agar Base	484
Veal Infusion Broth with Horse Serum	469	YI-S Medium	485
<i>Veillonella</i> Agar	469	YPC Medium	485
<i>Veillonella</i> Medium	470	YPNC Medium	485
<i>Veillonella</i> Medium, DSM	470	Agars	487
<i>Veillonella</i> Selective Medium	470	Peptones	487
<i>Vibrio</i> Agar	470	Meat and Plant Extracts	488
<i>Vibrio parahaemolyticus</i> Sucrose Agar	471	Growth Factors	489
Violet Peptone Bile Lactose Broth	471	Selective Components	491
Viral Transport Medium	471	pH Buffers	494
Vitamin B ₆ Blood Agar	471	Differential Components	494
Vitamin B ₆ Blood Agar with Pyridoxal-HCl	472	Preparation of Media	494
VL Agar with Blood	472	Autoclaving	494
VL Medium	472	Tyndallization	495
Vogel and Johnson Agar	472	Inspissation	495
VP Medium	473	Filtration	495
VRB Agar, Fluorocult	473	Caution about Hazardous Components	495
VRB MUG Agar	473	Index	497
VRE Agar	473		
VRE Agar	474		
VRE Broth	474		
Wagatsuma Agar	475
