# Mechatronics for Safety, Security and Dependability in a New Era

---

---

Eiji Arai and Tatsuo Arai

---

## TABLE OF CONTENTS

Skill-Assist and Its Related Safety-Oriented Technology Yamada, Y.	1
From RoboCup to RoboCity CoRE Asada, M.	5
<b>Welfare</b>	
Evaluation of Operability of an Electric Cart Handle without the Bending Motion of Wrists Inoue, Y., Kurata, J., Uchiyama, H.	9
Quantification of Dynamic Walking Stability of Elderly by Using Nonlinear Time-Series Analysis and Simple Accelerometry Ohtaki, Y., Arif, M., Suzuki, A., Fujita, K., Nagatomi, R., Inooka, H.	13
Development of a Welfare Robot Based on RECS Concept -Task of Setting a Meal on the Table- Yamaguchi, T., Kawano, H., Takano, M., Aoyagi, S.	19
Development of a Mobility Aid for the Visually Impaired Using a Haptic Force Generator Ikeda, T., Matsuda, H., Shiota, Y., Sakamoto, K., Shimizu, Y.	23
Study of the Design Method of an Ankle-Foot-Orthosis Mine, Y., Takashima, T., Fujimoto, H.	27
Expected Main Features and Business Model of Healthcare Partner Robot Based on the Market Analysis Kabe, A.	31
Evaluation of Human Motor Characteristics in Driving a Wheelchair with Hand-Rims Ohta, Y., Uchiyama, H., Kurata, J.	37
Dynamic Modeling for Attendant Propelling Wheelchairs Suzuki, T., Uchiyama, H., Kurata, J.	43

Development of a Non-Powered Lift for Wheelchair Uses -Mechanism to Transmit Rotation of Wheels by Many Rollers-	47
Kobayashi, Y., Seki, H., Kamiya, Y., Hikizu, M., Maekawa, M., Chaya, Y., Kurahashi, Y.	
Guidance of Electric Wheelchair by the Lead Type Operating Device with Detecting Relative Position to Assistance Dog	53
Uemoto, T., Uchiyama, H., Kurata, J.	

## **Tele-Operation**

Development of Master-Slave Robotic System for Laparoscopic Surgery	57
Suzuki, T., Aoki, E., Kobayashi, E., Tsuji, T., Konishi, K., Hashizume, M., Sakuma, I.	

## **Workers in Manufacturing Systems**

Workplace Tasks Design Support System by Using Computer Mannequin	63
Mitsuyuki, K., Ono, T., Matsumoto, Y., Fukuda, Y., Arai, E.	

Simulation and Evaluation of Factory Works Using Musculoskeletal Human Body Model	67
Sato, T., Arisawa, H.	

Development of Measuring Device for Lower Leg Swelling during Standing Work Tasks	73
Kawano, T., Mizuno, T.	

## **Deformable Object Manipulation**

Spreading of Clothes by Robot Arms Using Tracing Method	77
Salleh, K., Seki, H., Kamiya, Y., Hikizu, M.	

Indirect Simultaneous Positioning of Deformable Objects without Physical Parameters or Time-Derivatives	81
Hirai, S.	

Planning of Knotting Manipulation	87
Wakamatsu, H., Kato, T., Tsumaya, A., Arai, E., Hirai, S.	

## **Planning**

Analyzing and Evaluating Robot Motion Algorithm for Sweeping Task 93  
 Saito, Y., Ezawa, M., Fukumoto, Y., Ogata, H., Torige, A.

Method for Solving Inverse Kinematics of Redundant Robot under 97  
 Restraint by Obstacles  
 Kawamoto, J., Tashiro, K., Takano, M., Aoyagi, S.

## **CAD/CAM**

Expression of Theoretical Design Information and Intention 103  
 Transmitting Architecture  
 Takeuchi, K., Tsumaya, A., Wakamatsu, H., Arai, E.

Detection of Uncut Regions in Pocket Machining 109  
 Seo, M., Kim, H., Onosato, M.

Flexible Process Planning System Considering Design Intentions 113  
 and Disturbance in Production Process  
 Han, G., Koike, M., Wakamatsu, H., Tsumaya, A., Shirase, K., Arai, E.

A Study on Calculation Methods of Environmental Burden for NC 119  
 Program Diagnosis  
 Narita, H., Norihisa, T., Chen, L., Fujimoto, H., Hasebe, T.

## **Assembly/Disassembly**

Assembly System by Using Prototype of Active Flexible Fixture 125  
 Yamaguchi, T., Higuchi, M., Nagai, K.

Assembly Sequence Planning Using K-Nearest-Neighbor Rule 129  
 Murayama, T., Eguchi, T., Oba, F.

Proposal of Ubiquitous Disassembly System for Realizing Reuse 133  
 and Recycling in Cooperative Distributed Facilities  
 Tateno, T., Kondoh, S.

## Sensors & Actuators

- Development of a Micro Tactile Sensor Utilizing Piezoresistors  
and Characterization of Its Performance 139  
Izutani, J., Maeda, Y., Aoyagi, S.

- Development of Sensors Based on the Fixed Stewart Platform 145  
Irie, K., Kurata, J., Uchiyama, H.

- Microfabrication of a Parylene Suspended Structure and Investigation  
of Its Resonant Frequency 149  
Yoshikawa, D., Aoyagi, S., Tai, Y.C.

## Machining

- Direct Prediction of Cutting Error in Finish Endmilling Based  
on Sequence-Free Algorithm 153  
Kaneko, J., Teramoto, K., Horio, K., Takeuchi, Y.

- Development of Curved Hole Machining Method -Size Reduction  
of Hole Diameter- 157  
Nakajima, T., Ishida, T., Kita, M., Teramoto, K., Takeuchi, Y.

- Microchannel Array Creation by Means of Ultraprecision Machining 163  
Andou, F., Yamamoto, A., Kawai, T., Ohmori, H., Ishida, T.,  
Takeuchi, Y.

- Automation of Chamfering by an Industrial Robot (Development  
of Positioning System to Cope with Dimensional Error) 169  
Tanaka, H., Asakawa, N., Kiyoshige, T., Hirao, M.

## Human Behavior Analysis

- Interactive Behavioral Design between Autonomous Behavioral  
Criteria Learning System and Human 173  
An, M., Taura, T.

- Human Behavior Based Obstacle Avoidance for Human-Robot  
Cooperative Transportation 177  
Aiyama, Y., Ishiwatari, Y., Seki, T.

Evaluation Methods for Driving Performance Using a Driving Simulator under the Condition of Drunk Driving or Talking Driving with a Cell Phone Azuma, Y., Kawano, T., Moriwaki, T.	181
Computational Model and Algorithm of Human Planning Fujimoto, H., Vladimirov, B., Mochiyama, H.	185
<b>Humanoids</b>	
Safety Design for Small Biped-Walking Home-Entertainment Robot SDR-4XII Iribe, M., Moridaira, T., Fukushima, T., Kuroki, Y.	189
<b>Scheduling</b>	
A Study on a Real-Time Scheduling of Holonic Manufacturing System -Coordination Among Holons Based on Multi-Objective Optimization Problem- Iwamura, K., Seki, Y., Tanimizu, Y., Sugimura, N.	195
A Study on Integration of Process Planning and Scheduling System for Holonic Manufacturing System -Scheduler Driven Modification of Process Plans- Shrestha, R., Takemoto, T., Sugimura, N.	201
Genetic Algorithm Based Reactive Scheduling in Manufacturing System -Advanced Crossover Method for Tardiness Minimization Problems- Sakaguchi, T., Tanimizu, Y., Harada, K., Iwamura, K., Sugimura, N.	207
A Basic Study on Cost Based Scheduling Sashio, K., Fujii, S., Kaihara, T.	213
<b>Vision</b>	
Search and Pose Recognition of Industrial Components Using Curvature of Optimized Edge Pixels Goto, K., Saitoh, F.	219

Vision-Based Navigation of an Outdoor Mobile Robot Using a Rough Map Yun, J., Miura, J., Shirai, Y.	223
Teaching a Mobile Robot to Take Elevators Iwase, K., Miura, J., Shirai, Y.	229
Generated Image Feature Based Selective Attention Mechanism by Visuo-Motor Learning Minato, T., Asada, M.	235
Precise Micro Robot Bio Cell Manipulation Based on the Microscopic Image Recognition Misaki, D., Naoto, C., Usuda, T., Fichiwaki, O., Aoyama, H.	241
<b>New Services &amp; Decision Making in Manufacturing</b>	
Service Explorer -A Tool for Service Design- Shimomura, Y., Sakao, T., Hara, T., Arai, T., Tomiyama, T.	247
A Framework for Service Engineering Based on Hierarchical Colored Petri Nets Tian, G., Miura, T., Hara, T., Shimomura, Y., Arai, T.	253
Observables of Opposites Alternatives in Decision Making Yagi, J., Arai, E., Matsumoto, S.	257
<b>Manufacturing Systems</b>	
Enhanced Distributed-Simulation Using ORiN and HLA Inukai, T., Hibino, H., Fukuda, Y.	261
Object-Oriented Embedded System Development Method for Easy and Fast Prototyping Vallius, T., Haverinen, J., Röning, J.	265
Integrated Construction Process Management System Takata, M., Arai, E., Yagi, J.	271
A Robotized System for Prototype Manufacturing of Castings and Billets Sallinen, M., Sirviö, M.	277

Towards Human-Profile Based Operations in Advanced Factory Governance Systems: Contemporary Challenges for Socio-Technical Systems Design? Eijnatten, F.M.V., Goossenaerts, J.B.M.	281
Relation Diagram Based Process Optimization of Production Preparation Process for Oversea Factory Sato, S., Inamori, Y., Nakano, M., Suzuki, T., Miyajima, N.	287
Cyber Concurrent Manufacturing Integrated with Process Engineering and 3D-CG Simulation -Product Design, Production System Design, and Workstation System Design as a Case Study on Curtain Wall Construction Work- Tamaki, K.	293
<b>Wireless Communication</b>	
Wireless Data Transfer Applied on Hydraulic Servo Karhu, O.I., Virvalo, T., Kivikoski, M.	297
The Challenges on the Development of Mobile Controlled RFID System Soini, M., Sydanheimo, L., Kivikoski, M.	301
Wireless Communication with Bluetooth Hearing Protector Oinonen, M., Myllymäki, P., Ritamäki, M., Kivikoski, M.	305
Development of Local Positioning System Using Bluetooth Hirota, T., Tanaka, S., Iwasaki, T., Hosaka, H., Sasaki, K., Enomoto, M., Ando, H.	309
Analysis of Multiple Object Identification with Passive RFID Penttilä, K., Sydänheimo, L., Kivikoski, M.	313
Modeling Electromagnetic Wave Propagation in Paper Reel for UHF RFID System Development Keskilammi, M., Sydänheimo, L., Kivikoski, M.	317
Effect of Conductive Material in Objects on Identification with Passive RFID Technology: A Case Study of Cigarette Cartons Ukkonen, L., Soini, M., Engels, D., Sydänheimo, L., Kivikoski, M.	323

**Control**

Current Limiter Complicates the Dynamic Characteristics of Servo Motor Serikitkankul, P., Seki, H., Hikizu, M., Kamiya, Y.	329
Active Suspension System with High-Speed ON/OFF Valve (Application of Preview Control with Adaptive Digital Filter) Yamada, H., Muto, T.	333
Embedded Distributed Sub Control System Based on Hybrid Controller Lammila, M., Virvalo, T., Lehto, E.	339
Active Noise Cancellation Hearing Protector with Improved Usability Oinonen, M., Raittinen, H., Kivikoski, M.	343
Suppressing Mechanical Vibrations in a PMLSM Using Feedforward Compensation and State Estimates Hirvonen, M., Handroos, H.	347

Characterization, Modeling and Simulation of Magnetorheological Damper Behavior under Triangular Excitation Cortés-Ramírez, J.A., Villarreal-González, L.S., Martínez-Martínez, M.	353
--	-----

**Measuring & Monitoring**

Soft-Sensor Based Tree Diameter Measuring Hölttä, V.	359
Study On-Machine Work Piece Measurement on 5-Axis Controlled Machining Center Nakamura, S., Ihara, Y.	365
A New Methodology to Evaluate Error Space in CMM by Sequential Two Points Method He, W.M., Sato, H., Umeda, K., Sone, T., Tani, Y., Sagara, M., Matsuzaki, H.	371
Pressure Monitoring System of Gland Packing for a Control Valve Wada, M., Naito, M., Hosaka, H., Hirota, T., Okutsu, R., Izumi, K.	377

## Application

Fabrication of a Micro Needle Made of Biodegradable Polymer Material Aoki, T., Izumi, H., Aoyagi, S.	381
An Effective State-Space Construction Method for Reinforcement Learning of Multi-Link Mobile Robots Nunobiki, M., Okuda, K., Maeda, S.	385
Circularly Polarised Rectenna for Enhanced Dual-Band Short-Range Wireless Power Transmission Heikkinen, J., Kivikoski, M.	389
Conductive Fibres in Smart Clothing Applications Hännikäinen, J., Järvinen, T., Vuorela, T., Vähäkuopus, K., Vanhala, J.	395
Design of Low-Clearance Motion Platform for Driving Simulators Mohellebi, H., Espié S., Kheddar, A., Arioui, H., Amouri, A.	401
High Performance Low Cost Stereo Projector System for Virtual Reality Kosola, H., Palovuori, K.	405
Analytical and Experimental Modeling of Intra-Body Communication Circuit Terauchi, Y., Hachisuka, K., Sasaki, K., Kishi, Y., Hirota, T., Hosaka, H., Fujii, K., Ito, K.	409
Design of Multi Sensor Units for Searching Inside of Rubble Inoue, K., Yamamoto, M., Takubo, T., Mae, Y., Arai, T.	415
Mechatronics Design and Development towards a Heavy-Duty Waterhydraulic Welding/Cutting Robot Wu, H., Handroos, H., Pessi, P.	421
Qutie-Modular Methods for Building Complex Mechatronic Systems Tikanmäki, A., Vallius, T., Röning, J.	427
Link Length Control Using Dynamics for Parallel Mechanism with Adjustable Link Parameters Tanaka, W., Arai, T., Inoue, K., Takubo, T., Mae, Y., Koseki, Y.	431

A Proposal of the Multimedia Archive System with Watermark Index  
for Prevention of Disasters

Maehara, F., Tanno, Y.

435
