Introduction	xiii
Part I Development of the Five Principles for Safety Design in Construction	1
1 Principle One: Definition of a Hazard	7
2 Principle Two: The Standard of Care	11
3 Principle Three: Categories of Hazards	15
4 Principle Four: The Safe Design Hierarchy to Physically Control Hazards	21
5 Principle Five: Control the Hazard with the Appropriate Design Improvement or Appliance ..	25
6 Reliability: A Method to Evaluate Probable Safe Performance	31
Part II Examples of Engineering Control	39
7 Crane Hazards	41
Section 1 Two-Blocking	42
Section 2 Crane Upset from Overload	51
Section 3 Jib-Boom Stowage on Hydraulic Cranes	61
Section 4 Latticework Boom Disassembly	65

Section 5	Crane Operator Protection from Upset or Falling Objects	71
Section 6	Powerline Contact	78

8 Other Equipment Hazards 87

Section 1	Electronic-News-Gathering Van Powerline Contact ..	88
Section 2	Conveyors	92
Section 3	Skid-Steer Front-End Loader and Rough-Terrain Telescoping-Boom Forklift Side Upset	100
Section 4	Trucks	104
Section 5	Aerial Lifts	110
Section 6	Unsafe Restraint Systems	114
Section 7	Equipment Leasing	117

9 Universal Hazards 121

Section 1	Killer Hooks	122
Section 2	Blind Zones	130
Section 3	Dangerous Nuts, Bolts, Pins, and Other Connectors ..	138
Section 4	Unsafe Control Systems	144
Section 5	Guarding of Moving Parts	152
Section 6	Noisy Equipment and Machines	160
Section 7	Mold	171
Section 8	Dust	176
Section 9	Ventilation	184
Section 10	Pinch Points	186
Section 11	Compressed Gases	191
Section 12	Hazardous Secondary Voltages	199

10 Access Hazards 209

Section 1	Fall Prevention	209
Section 2	Fall Protection	219
Section 3	Falling Objects	229
Section 4	Ladders	236
Section 5	Dangerous Access to Equipment	244
Section 6	Traffic Control	252
Section 7	Haul Roads	256

11	Types of Construction Hazards	261
Section 1	Wood-Frame Construction	262
Section 2	Concrete Form Work	267
Section 3	Masonry Failures	272
Section 4	Tilt-Up	279
Section 5	Lift Slabs	281
Section 6	Steel Erection	285
Section 7	Trenching	295
Section 8	Tunneling	305
Section 9	Diving/Underwater Construction	309
12	Operation and Maintenance Hazards	313
Section 1	Fire Prevention	313
Section 2	Confined Spaces	324
Section 3	Lighting	336
Section 4	Toxic Fumes and Gases	340
Section 5	Wind and Flooding	348
Section 6	Sanitation	351
Part III	Mechanics of Inherently Safer Design	355
13	Including Safety into Design Planning	361
Section 1	Architectural Design Planning	362
Section 2	Equipment Design Planning	366
14	Including Safety into Construction Planning	369
Section 1	Construction Safety Planning	372
15	The Economics of Inherently Safer Design	377
	Index	381
