LEARNING AND USING
GEOGRAPHIC
INFORMATION SYSTEMS

ARCGIS EDITION

— WILPEN L. GORR • KRISTEN S. KURLAND —

Contents

Preface	xi
Chapter 1 <i>Introducing GIS</i>	1
Introduction	1
Definition of GIS	4
Unique Capabilities of GIS	4
Map Layers	6
Vector-Based Map Layers	6
Raster Maps	8
Classification of Map Layers	9
Map Infrastructure	9
TIGER/Line Maps	9
FIPS Codes	10
Census Data	10
Yellow Pages Listings	10
Swimming Pool Case Study	10
Costs and Benefits of Public Swimming Pools	11
Criteria for Closing Swimming Pools	11
Introduction to ArcGIS	11
GIS Examples on the Web	22
Greenwood County, South Carolina, Web GIS Site	22
The San Francisco Prospector Web GIS Site	26
Chapter 1 Summary	32
Key Terms	33
Short-Answer Questions	35
Exercises	36
References	38
Chapter 2 <i>Navigating GIS</i>	39
Introduction	39
Map Navigation	40
Geographic Coordinates	41
Map Scale	43
Map Projections	44
ArcGIS for Map Navigation	46
ArcGIS for Map Projection	62
Chapter 2 Summary	70
Key Terms	70
Short-Answer Questions	72
Exercises	73
References	75
Chapter 3 <i>Getting Information from a GIS</i>	77
Introduction	78

Map Formats	79
Vector-Based Maps	79
Raster Maps	84
GIS Queries	86
Attribute Queries	86
Spatial Queries	88
Notes on the Swimming Pool Case	89
ArcGIS Queries	90
Open the Chapter 3-1.mdx Map Document	90
Make Selection Options	91
Use the Select Features Tool	91
Select Records	94
Execute Simple Queries Using Select By Attributes	96
Execute More Simple Queries Using Select By Attributes	97
Execute Select By Attributes AND Compound Queries	99
Execute Select By Attributes OR Compound Queries	101
Execute Select Points by Location Queries	102
Execute Select Polygons by Location Queries	105
Build a Square Graphic	107
Select Points by Graphic	110
Buffer Points	111
Buffer Map Layers	112
Permanently Project Pools to Remedy Buffer Problem	114
Create Multiple Ring Buffer Map Layers	115
Conduct Buffer Analysis	117
Chapter 3 Summary	121
Key Terms	122
Short-Answer Questions	123
Exercises	124
References	126
Chapter 4 <i>Designing Maps</i>	127
Introduction	127
Map Design	128
Graphic Hierarchy	129
Minimizing Ink	130
Color	130
Numeric Intervals	134
Point and Line Symbols	135
Map Layouts	135
Map Audiences	136
ArcGIS for Map Design	137
Create a New Map Document	137
Apply Line Symbols and Properties	139
Apply Point Symbols and Properties	141
Create Map Hyperlinks	143
Use Unique Symbols	145
Create Labels Based on Class	148
Use Size-Graduated Point Markers	149
Build a Custom Numeric Scale	150
Create a Choropleth Map	152
Use Size-Graduated Point Markers for Polygon Centroids	154
Create a Dot Density Map for Polygons	156

ArcGIS for Map Layouts	157
Set Up a Map Layout	157
Adjust Map Position and Create a Title	159
Create a Map Legend	160
Create a Map Graphic Scale	161
Export the Map Layout	161
Use a Map Layout in PowerPoint	161
Use a Map Layout in Word	162
Create a Second Data Frame	164
Show Zoomed Map Position and Dimensions with a Rectangle	166
Create an Overview Map Extent Rectangle	168
Chapter 4 Summary	170
Key Terms	171
Short-Answer Questions	173
Exercises	173
References	176
Chapter 5 <i>Finding GIS Resources</i>	177
Introduction	177
Free Resources on the Internet	179
U.S. Census Bureau Map Layers and Data	179
U.S. Census Bureau Data Web Site	180
ESRI WEB Sites	180
Additional GIS Data Web Sites	181
Data Table Formats	181
Table Joins	182
U.S. Census Bureau Web Site	182
Download Map Boundary Files	183
Download Summary File Tables	184
ESRI Website	186
Download Point Data	188
Download a Raster Map	191
Process Downloaded Files	192
Import an E00 File and ArcInfo Coverage	192
Convert an ArcInfo Coverage to a Shapefile	193
Use ArcCatalog File Utilities	194
Prepare a Census Data Table	195
Clean Up a Census Data Dictionary in Microsoft Excel	196
Prepare a Census Tract Primary Key in ArcMap	198
Create a New Attribute In ArcMap	199
Join a Data Table to a Map Layer	200
Add an XY Map to a Map Document	202
Personal Geodatabases	203
Create a Personal Geodatabase	204
Create a Map Display from a Personal Geodatabase	205
Chapter 5 Summary	207
Key Terms	208
Short-Answer Questions	208
Exercises	209
References	212
Chapter 6 <i>Building a GIS Study Area</i>	213
Introduction	214
Study Areas	215

Feature Extraction	215
Dissolving Polygons	218
Appending Map Layers	219
Scripts	219
ModelBuilder	220
Using ArcGIS for Building Study Areas	221
Chapter6-1.mxd Map Document	221
Advanced Geoprocessing Tools	236
Chapter6-4.mxd Map Document	236
Model Builder	241
Chapter6-6.mxd Map Document	241
Chapter 6 Summary	247
Key Terms	247
Short-Answer Questions	248
Exercises	249
Chapter 7 <i>Geocoding Your Data</i>	253
Introduction	253
Address Standards	254
Mapping Data with Polygon Identifiers	255
Problem Address Data	256
Geocoding	257
Reporting Matching Rates	259
Mapping Zip Code Data	259
Prepare the Map Document for Geocoding to Zip Codes	259
Geocoding Street Address Data with a Zip Code Zone	263
Prepare the Map Document for Geocoding to Streets with a Zip Code Zone	263
Geocoding Street Address Data with a Municipality Zone	272
Prepare the Map Document for Geocoding to Streets with a Municipality Zone	272
Chapter 7 Summary	280
Key Terms	281
Short-Answer Questions	281
Exercises	282
References	285
Chapter 8 <i>Digitizing Map Features</i>	287
Introduction	287
National Spatial Reference System	289
GPS	290
Digitizing	290
Raster-to-Vector Conversion	291
Heads-Up Digitizing in ArcGIS	291
Edit Point Features	291
Edit Line Features	296
Add Attribute Data to the Line Shapefile	300
Calculate Line Lengths	300
Edit Polygon Features	301
Chapter 8 Summary	310
Key Terms	310
Short-Answer Questions	311
Exercises	311
References	316

Chapter 9	<i>Working on GIS Projects</i>	317
Introduction		317
Project Management		318
Project Life Cycle		319
GIS Project Components		320
Project 1: Public Transportation: Supply and Demand Imbalances		321
Proposal		321
Process Log		322
Report		326
Project 2: Environment		328
Proposal		328
Process Log		330
Report		332
Chapter 9 Summary		335
Key Terms		335
Short-Answer Questions		336
Exercises		336
References		338
Appendix	<i>Installing the LearningAndUsingGIS Data Files and Obtaining the ArcGIS, ArcView Software</i>	339
Installing Data Files		339
Obtaining ArcGIS, ArcView Software		339
Index		341
