

Handbook of

**DAIRY
FOODS AND
NUTRITION**

Third Edition

Gregory D. Miller
Judith K. Jarvis
Lois D. McBean

NATIONAL DAIRY COUNCIL

Table of Contents

Chapter 1

The Importance of Milk and Milk Products in the Diet	1
1.1 Introduction	1
1.2 Nutrient Components of Milk and Milk Products	1
1.2.1 Energy	2
1.2.2 Protein	2
1.2.3 Carbohydrate	6
1.2.4 Fat	6
1.2.5 Vitamins	9
1.2.6 Minerals	12
1.3 Nutrient Contribution of Milk and Milk Products	15
1.3.1 Nutrient Contribution to the Food Supply	15
1.3.2 Dairy Food Intake Improves Nutrient Intake.....	15
1.4 Recommendations to Include Milk and Milk Products in the Diet	16
1.4.1 Dietary Recommendations	16
1.4.2 Intake of Milk and Milk Products throughout Life	17
1.4.3 Government Feeding Programs/Child Nutrition Programs	18
1.5 Protecting the Quality of Milk and Other Dairy Foods	20
1.5.1 Who Is Responsible for the Quality of Milk?	20
1.5.2 Pasteurized Milk Ordinance	20
1.5.3 Unintentional Microconstituents	20
1.5.4 Milk Treatments	21
1.5.5 Storage and Handling	22
1.6 Kinds of Milk and Milk Products	23
1.6.1 Consumption Trends.....	23
1.6.2 Wide Range of Milk and Milk Products	23
1.6.3 Flavored Milk	28
1.6.4 Cheese	32
1.6.5 Cultured and Culture-Containing Dairy Foods	37
1.6.6 Whey Products	39
1.7 Summary	42
References.....	44

Chapter 2

Dairy Foods and Cardiovascular Health	55
2.1 Introduction	55
2.2 Contribution of Milk and Milk Products to Fat, Saturated Fat, and Cholesterol Intake.....	58
2.3 Dairy Nutrients, Dairy Foods, and Coronary Heart Disease	58
2.3.1 Single Nutrients	58
2.3.1.1 Dietary Fatty Acids	58
2.3.1.2 Dietary Fat Quantity	64
2.3.1.3 Dietary Cholesterol	65
2.3.1.4 Protein	66
2.3.1.5 Calcium	67
2.3.2 Genetics	70

2.3.3	Dairy Foods	75
2.3.3.1	Milk and Culture-Containing Dairy Foods	75
2.3.3.2	Butter and Cheese	79
2.4	Efficacy and Safety of Low-Fat, Low-Saturated Fat Diets	80
2.4.1	Efficacy	80
2.4.2	Safety	83
2.4.3	Dietary Compliance	85
2.4.4	The Role of Various Dairy Foods in Meeting Dietary Guidelines for Fat Intake	85
2.5	Summary	86
	References.....	87

Chapter 3

	Dairy Foods and Hypertension.....	99
3.1	Introduction	99
3.2	Dietary Patterns Including Dairy Foods and Blood Pressure.....	102
3.3	Dairy Food Nutrients and Blood Pressure	106
3.3.1	Calcium, Dairy Foods, and Blood Pressure	107
3.3.1.1	Experimental Animal Studies	107
3.3.1.2	Epidemiological Studies	109
3.3.1.3	Clinical Studies	112
3.3.1.4	Determinants of a Hypotensive Response to Calcium	116
3.3.2	Potassium and Blood Pressure	119
3.3.2.1	Experimental Animal Studies	119
3.3.2.2	Epidemiological Studies	119
3.3.2.3	Clinical Studies	121
3.3.3	Magnesium and Blood Pressure	123
3.3.3.1	Experimental Animal Studies	123
3.3.3.2	Epidemiological Studies	123
3.3.3.3	Clinical Studies	125
3.3.4	Protein and Blood Pressure	126
3.4	Other Lifestyle Modifications	126
3.4.1	Weight Reduction.....	126
3.4.2	Dietary Sodium Reduction.....	127
3.5	Comprehensive Lifestyle Modifications and Blood Pressure: Putting It All Together	128
3.6	Summary	129
	References.....	131

Chapter 4

	Dairy Foods and Cancer.....	141
4.1	Introduction	141
4.1.1	Dietary Fat and Cancer Risk	141
4.1.1.1	Dietary Fat and Colon Cancer.....	141
4.1.1.2	Dietary Fat and Breast Cancer	142
4.1.1.3	Dietary Fat and Prostate Cancer	143
4.2	Dairy Foods, Calcium, Vitamin D, and Prevention of Colon Cancer	143
4.2.1	Epidemiological Studies.....	143
4.2.2	Animal Studies	149
4.2.3	<i>In Vitro</i> Studies.....	154
4.2.4	Clinical Trials	155

4.3	Dairy Foods and Breast Cancer	160
4.4	Dairy Foods and Prostate Cancer	161
4.5	Dairy-Food Cultures and Cancer.....	163
4.6	Other Protective Components in Dairy Foods	164
4.6.1	Conjugated Linoleic Acid	164
4.6.2	Sphingolipids	166
4.6.3	Butyric Acid	167
4.6.4	Milk Proteins	167
4.7	Summary	168
	References.....	170

Chapter 5

	Dairy Foods and Bone Health	181
5.1	Introduction	181
5.2	Bone Basics	182
5.3	Risk Factors for Osteoporosis	185
5.4	Calcium, Dairy Products, and Bone Health	188
5.4.1	Dietary Recommendations and Consumption	188
5.4.2	Prevention of Osteoporosis.....	192
5.4.2.1	Childhood and Adolescence	194
5.4.2.2	Adulthood	202
5.4.3	Treatment of Osteoporosis	215
5.5	Vitamin D and Bone Health	215
5.6	Protein and Bone Health	220
5.7	Additional Nutrients and Bone Health	222
5.8	The Dairy Advantage	224
5.8.1	Foods Naturally Containing Calcium.....	224
5.8.2	Calcium-Fortified Foods.....	227
5.8.3	Supplements	229
5.9	Summary	230
	References.....	231

Chapter 6

	Dairy Foods and Oral Health	245
6.1	Introduction	245
6.2	Dental Caries and Tooth Enamel Erosion	246
6.2.1	Animal Studies	248
6.2.2	Human Studies	250
6.2.2.1	Plaque pH.....	250
6.2.2.2	Demineralization/Remineralization Studies	252
6.2.2.3	Epidemiological and Clinical Studies	252
6.2.3	Caries Protective Components in Dairy Foods	253
6.2.4	Chocolate Milk	256
6.2.5	Early Childhood Caries	257
6.2.6	Fluoridation.....	258
6.3	Periodontal Disease	258
6.4	Summary	260
	References.....	261

Chapter 7

Dairy Foods and a Healthy Weight	267
7.1 Introduction	267
7.2 Dairy Products and a Healthy Weight in Adults.....	268
7.2.1 Observational Studies	268
7.2.2 Secondary Analyses of Studies.....	272
7.2.3 Randomized Clinical Trials	273
7.2.3.1 Weight Loss and Body Composition Studies	273
7.2.3.2 Substrate Oxidation/Energy Expenditure Studies	278
7.3 Experimental Animal Studies	280
7.4 Potential Mechanisms	283
7.5 Dairy Products and Weight/Body Composition in Children and Adolescents.....	287
7.5.1 Observational Studies	287
7.5.2 Clinical Trials	290
7.6 Summary	291
References.....	294

Chapter 8

Lactose Digestion	299
8.1 Introduction	299
8.2 Physiology of Lactose Digestion.....	300
8.2.1 Course of Development of Lactase	301
8.2.2 Decline of Lactase Expression	302
8.2.3 Molecular Regulation	302
8.2.4 Types of Lactase Deficiency	303
8.2.5 Lactose Maldigestion	306
8.3 Symptoms	306
8.4 Diagnosis	307
8.5 Relationship between Lactose Maldigestion, Intolerance, and Milk Intolerance	309
8.5.1 Dose Dependence	309
8.5.2 Milk Intolerance	310
8.5.3 Subjective Factors Affecting Tolerance	312
8.5.4 Lactose Tolerance during Pregnancy	313
8.6 Long-Term Consequences of Lactose Maldigestion	314
8.6.1 Lactose Digestion and Calcium/Nutrient Absorption	314
8.6.2 Effect on Milk Consumption and Nutritional Status	315
8.6.3 Risk of Osteoporosis/Chronic Disease	317
8.7 Strategies for Dietary Management of Primary Lactose Maldigestion	319
8.7.1 Amount of Lactose	319
8.7.2 Type of Dairy Food	320
8.7.3 Fermented Milk Products	321
8.7.4 Unfermented Milk with Bacterial Cultures	323
8.7.5 Enzyme Preparations.....	324
8.7.6 Colonic Adaptation	325
8.8 Treatment of Malnutrition/Diarrheal Disease in Children	327
8.9 Recommendations for Feeding Programs	328
8.9.1 International	328
8.9.2 United States	328
8.10 Future Research Needs	329

8.11 Conclusion	329
Glossary of Terms	329
References.....	331

Chapter 9

Contribution of Dairy Foods to Health throughout the Life Cycle.....	339
9.1 Introduction	339
9.2 Infancy	339
9.2.1 Characteristics.....	339
9.2.2 Recommendations for Feeding.....	339
9.2.2.1 Standard Cow's Milk-Based Formulas	340
9.2.2.2 Cow's Milk	340
9.2.2.3 Cow's Milk Allergy.....	342
9.2.3 Introduction of Solid Foods	343
9.2.4 Vitamin D and Rickets	343
9.3 Toddler and Preschool Years	344
9.3.1 Characteristics.....	344
9.3.2 Contribution of Milk Group Foods	345
9.3.3 Calcium/Dairy Recommendations and Consumption	345
9.3.4 Strategies to Improve Intake	347
9.3.4.1 Snacks	347
9.3.4.2 Parental Role Modeling.....	348
9.3.5 Nutritional Concerns.....	348
9.3.5.1 Eating Away from Home	348
9.3.5.2 Low-Fat Diets	348
9.3.5.3 Excessive Fruit Juice Consumption	349
9.3.5.4 Lead Toxicity.....	349
9.4 School-Aged Child	350
9.4.1 Characteristics.....	350
9.4.2 Importance of Milk Group Foods	350
9.4.2.1 Bone Growth and Fracture Prevention	350
9.4.2.2 Prevention of Dental Caries	352
9.4.2.3 Achieving Nutrient Adequacy.....	353
9.4.3 Strategies to Improve Dairy Consumption	353
9.4.3.1 Parental Role Modeling.....	355
9.4.3.2 School Meals	356
9.4.3.3 Flavored Milk	358
9.5 Adolescence.....	359
9.5.1 Characteristics.....	359
9.5.2 Importance of Adequate Dairy Food/Calcium Intake	360
9.5.2.1 Peak Bone Mass	360
9.5.2.2 Nutritional Status.....	361
9.5.3 Dairy Food/Calcium Recommendations and Consumption	362
9.5.4 Issues Affecting Dairy Consumption	362
9.5.4.1 Lack of Knowledge	362
9.5.4.2 Eating Away from Home	363
9.5.4.3 Image	363
9.5.4.4 Substituting Other Beverages for Milk.....	363
9.5.4.5 Body Image/Weight Concerns	365
9.5.5 Groups at Risk for Low Consumption of Dairy Foods	366

9.5.5.1	Vegetarians	366
9.5.5.2	Pregnant Teens	366
9.5.6	Strategies to Improve Consumption.....	367
9.6	Adults.....	368
9.6.1	Characteristics.....	368
9.6.2	Dairy Food/Calcium Recommendations and Consumption	368
9.6.3	Milk Group Foods and the Reduction of Chronic Disease Risk.....	369
9.6.3.1	Osteoporosis.....	369
9.6.3.2	Hypertension	370
9.6.3.3	Cancer	371
9.6.3.4	Overweight/Obesity.....	372
9.6.4	Special Needs of Women.....	373
9.6.4.1	Pregnancy and Lactation	373
9.6.4.2	Premenstrual Syndrome (PMS).....	376
9.6.4.3	Other Potential Health Benefits.....	376
9.6.5	Strategies to Improve Intake of Dairy Foods.....	376
9.7	Older Adults.....	378
9.7.1	Characteristics	378
9.7.2	Milk Group Foods and the Reduction of Chronic Disease Risk	379
9.7.2.1	Osteoporosis	379
9.7.2.2	Hypertension	383
9.7.2.3	Cancer.....	383
9.7.2.4	Overweight/Obesity	383
9.7.3	Strategies to Improve Intake of Dairy Foods.....	383
9.8	Conclusion	386
	References.....	386
	Index.....	401
