

Authorized Self-Study Guide

Cisco IP Telephony (CIPT)

Second Edition

Foundation Learning for CCVP IP Telephony

Contents

	Foreword	xxvi
	Introduction	xxvii
Part I: Cisco CallManager Fundamentals	3	
Chapter 1	Introduction to Cisco Unified Communications and Cisco Unified CallManager	5
	Cisco Unified Communications	6
	Understanding Cisco Unified CallManager	7
	<i>Cisco Unified CallManager and IP Phone Interaction</i>	8
	<i>The Components of Cisco Unified CallManager</i>	10
	<i>Cisco Unified CallManager Servers</i>	11
	Summary	12
	Review Questions	12
Chapter 2	Cisco Unified CallManager Clustering and Deployment Options	17
	The Two Sides of the Cisco Unified CallManager Cluster	17
	<i>The SQL Database Cluster</i>	17
	<i>Intracluster Run-Time Data</i>	18
	Cluster Redundancy Designs	19
	<i>1:1 Redundancy Design</i>	19
	<i>2:1 Redundancy Design</i>	21
	Call-Processing Deployment Models	23
	<i>Single-Site Deployment</i>	23
	<i>Multisite Deployment with Centralized Call Processing</i>	25
	<i>Multisite Deployment with Distributed Call Processing</i>	27
	<i>Clustering over the IP WAN</i>	30
	Summary	31
	Review Questions	32
Chapter 3	Cisco Unified CallManager Installation and Upgrades	35
	Cisco Unified CallManager 4.x Clean Installation Process	35
	<i>Installation Disks</i>	35
	<i>Installation Configuration Data</i>	36
	<i>Sample Configuration Data Worksheet</i>	38
	<i>Postinstallation Procedures</i>	40
	<i>Activating Cisco Unified CallManager Services</i>	41
	Upgrading Prior Cisco Unified CallManager Versions	45
	Summary	47
	Review Questions	47

Part II: IPT Devices and Users 51**Chapter 4 Cisco IP Phones and Other User Devices 53**

- Cisco IP Phones 53
 - Entry-Level Cisco IP Phones 54*
 - Midrange and Upper-End Cisco IP Phones 56*
 - Additional Cisco IP Telephony Endpoints 59*
- IP Phone Startup Process 64
- Cisco IP Phone Codec Support 67
- Summary 68
- Review Questions 68

Chapter 5 Configuring Cisco Unified CallManager to Support IP Phones 73

- Configuring Intracluster IP Phone Communication 73
 - Removing DNS Reliance 73*
 - Configuring Device Pools 75*
 - Cisco Unified CallManager Group Configuration 79*
 - Date/Time Group Configuration 80*
 - Region Configuration 82*
 - Sofkey Template Configuration 83*
 - IP Phone Button Templates 84*
 - Putting It All Together 87*
- IP Phone Configuration 87
 - Manual IP Phone and Directory Number Configuration 87*
 - Automatic IP Phone Registration 90*
- Case Study: Device Pool Design 92
- Summary 95
- Review Questions 96

Chapter 6 Cisco IP Telephony Users 101

- Cisco CallManager User Database 101
- Cisco CallManager User Configuration 102
 - Adding a User 102*
 - Configuring Device Pools 104*
- User Logon and Device Configuration 105
 - CallManager User Options: Log On 105*
 - CallManager User Options: Welcome 106*
 - CallManager User Options: Call Forwarding 107*
 - CallManager User Options: Speed Dials 108*
 - CallManager User Options: IP Phone Services 110*
 - CallManager User Options: Personal Address Book and Fast Dial 111*
 - CallManager User Options: Message Waiting Lamp Policy 112*
 - CallManager User Options: Locale Settings 113*
- Summary 115
- Review Questions 115

Chapter 7	Cisco Bulk Administration Tool	119
	The Cisco Bulk Administration Tool	119
	<i>BAT Components</i>	120
	<i>BAT Installation</i>	121
	<i>Adding Cisco IP Phones Using BAT</i>	123
	<i>Using BAT Wizard Step 1: Choosing Devices</i>	123
	<i>Using BAT Wizard Step 2: Device Specifics</i>	124
	<i>Using BAT Wizard Step 3: Proceed with Task</i>	125
	<i>Adding Phones Step 1: Configuring BAT Templates</i>	126
	<i>Adding Phones Step 2: Creating CSV Files</i>	128
	<i>Adding Phones Step 3: Validating Phones</i>	131
	<i>Adding Phones Step 4: Inserting Phones</i>	132
	<i>Updating IP Phones Using BAT</i>	134
	Using the Tool for Auto-Registered Phone Support	136
	Summary	139
	Review Questions	139
Part III:	IPT Network Integration and Route Plan	143
Chapter 8	Cisco Catalyst Switches	145
	Catalyst Switch Role in IP Telephony	145
	Powering the Cisco IP Phone	146
	<i>Two Types of PoE Delivery</i>	146
	<i>PoE Device Detection</i>	147
	<i>Catalyst Family of PoE Switches</i>	148
	<i>Configuring PoE</i>	150
	<i>Verifying PoE</i>	151
	Data and Voice VLANs	152
	<i>Configuring and Verifying Dual VLANs Using the CatOS</i>	153
	<i>Configuring and Verifying Dual VLANs Using the NativeOS</i>	153
	Configuring Class of Service	155
	Summary	156
	Review Questions	157
Chapter 9	Configuring Cisco Gateways and Trunks	161
	Cisco Gateway Concepts	161
	<i>Analog and Digital Gateways</i>	161
	<i>Core Gateway Requirements</i>	162
	<i>Gateway Communication Overview</i>	163
	Configuring Access Gateways	164
	<i>H.323 Gateway Configuration</i>	165
	<i>Call Classification</i>	167
	<i>MGCP Gateway Configuration</i>	169
	<i>Non-IOS MGCP Gateway Configuration</i>	172

Cisco Trunk Concepts	174
Configuring Intercluster Trunks	176
SIP and Cisco CallManager	179
<i>SIP Components</i>	179
<i>CallManager SIP Integration and Configuration</i>	181
Summary	183
Review Questions	183

Chapter 10 Cisco Unified CallManager Route Plan Basics 187

External Call Routing	187
Route Plan Configuration Process	189
<i>Route Group Overview and Configuration</i>	189
<i>Route List Overview and Configuration</i>	192
<i>Route Pattern Concepts and Configuration</i>	194
<i>Route Pattern: Commonly Used Wildcards</i>	197
<i>Route Pattern Examples</i>	199
<i>Digit Analysis</i>	200
<i>Digit Collection</i>	201
<i>Closest Match Routing</i>	201
<i>Interdigit Timeout</i>	202
<i>Simple Route Plan Example</i>	204
Summary	205
Review Questions	205

Chapter 11 Cisco Unified CallManager Advanced Route Plans 209

Route Filters	209
<i>Route Filter Tags</i>	211
<i>Configuring Route Filters</i>	212
<i>Applying Route Filters</i>	214
<i>Practical Route Filter Example</i>	215
Discard Digit Instructions	217
Transformation Masks	219
<i>Calling-Party Transformations</i>	220
<i>Called-Party Transformations</i>	221
<i>Configuring Calling- and Called-Party Transformation Masks</i>	223
<i>Transformation Example</i>	224
Translation Patterns	226
<i>Translation Pattern Configuration</i>	226
<i>Practical Use of a Translation Pattern</i>	227
Route Plan Report	229
Summary	230
Review Questions	230

Chapter 12	Configuring Hunt Groups and Call Coverage	235
	Call Distribution Components	235
	<i>Line Groups</i>	236
	<i>Call-Distribution Algorithms</i>	237
	<i>Hunt Options</i>	238
	<i>Call Distribution Scenarios: Top-Down Example</i>	239
	<i>Hunting and Forwarding</i>	240
	Configuring Line Groups, Hunt Lists, and Hunt Pilots	241
	<i>Configuring Line Groups</i>	242
	<i>Configuring Hunt Lists</i>	243
	<i>Configuring Hunt Pilots</i>	245
	Summary	247
	Review Questions	247
Chapter 13	Implementing Telephony Call Restrictions and Control	253
	Class of Service Overview	253
	Partitions and Calling Search Spaces Overview	254
	<i>Calling Search Spaces Applied to Gateways and Intercluster Trunks</i>	256
	<i>Partition Configuration</i>	256
	<i>Calling Search Space Configuration</i>	258
	Time-of-Day Routing Overview	260
	<i>Time Periods</i>	260
	<i>Time Schedule</i>	261
	<i>Time-of-Day Routing Effect on Users</i>	262
	Configuring Time-of-Day Routing	262
	<i>Configuring Time Periods</i>	263
	<i>Configuring Time Schedules</i>	265
	<i>Applying Time Schedules</i>	266
	Time-of-Day Routing Usage Scenario	268
	Summary	270
	Review Questions	270
Chapter 14	Implementing Multiple-Site Deployments	275
	Call Admission Control	275
	<i>Locations-Based Call Admission Control</i>	276
	<i>Configuring Location-Based Call Admission Control</i>	278
	<i>AAR Overview</i>	280
	<i>Configuring AAR</i>	282
	<i>Gatekeeper-Based Call Admission Control</i>	288
	<i>Gatekeeper Communication</i>	289
	<i>Gatekeeper-Based Call Admission Control Configuration</i>	293
	Survivable Remote Site Telephony	296
	<i>SRST Router Configuration</i>	298
	<i>SRST Reference Configuration</i>	300
	Summary	301
	Review Questions	302

Part IV: VoIP Features 307**Chapter 15 Media Resources 309**

- Introduction to Media Resources 309
- Conference Bridge Resources 310
 - Conference Bridge Hardware 311*
 - Conference Bridge Hardware CallManager Configuration 315*
- Media Termination Point Resources 316
 - MTP Configuration 318*
- Annunciator Resources 319
 - Annunciator Configuration 320*
- Transcoder Resources 321
 - Transcoder Configuration 323*
- Music on Hold Resources 324
 - Creating Audio Source Files 326*
 - Configuring MoH 327*
 - Step 1: Configure the Audio Translator 327*
 - Step 2: Configure the MoH Server 329*
 - Step 3: Add and Configure Audio Source Files 330*
 - Step 4: Set MoH Servicewide Settings 331*
 - Step 5: Find and Configure the Fixed Audio Source 332*
 - Step 6: Assigning Audio Source IDs 334*
- Media Resource Management 335
 - Media Resource Design 335*
 - Media Resource Groups 336*
 - Media Resource Group Configuration 337*
 - Media Resource Group List Configuration 338*
 - Assigning Media Resource Group Lists 339*
 - MRGL Design Strategy: Grouping Resources by Type 340*
 - MRGL Design Strategy: Grouping Resources by Location 340*
- Summary 342
- Review Questions 342

Chapter 16 Configuring User Features, Part 1 347

- Basic IP Phone Features 347
 - Speed Dial and Abbreviated Dial Configuration 348*
 - Auto Answer Configuration 349*
 - Call Forward and Configurable Call Forward Display Configuration 349*
- Softkey Templates 351
 - Adding Softkey Templates 352*
 - Modifying Softkey Availability and Positioning 353*
 - Assigning Softkey Templates to Devices 354*
 - Deleting Softkey Templates 355*
- Enhanced IP Phone Features 355
 - Multiple Calls per Line Appearance 355*
 - Direct Transfer 357*

<i>Call Join</i>	358
<i>Immediate Divert to Voice Mail</i>	358
<i>Call Park</i>	359
<i>Call Pickup and Group Call Pickup</i>	360
<i>Other Group Call Pickup</i>	361
<i>Call Pickup Configuration</i>	361
<i>AutoCall Pickup</i>	362
<i>Cisco Call Back</i>	364
Barge and Privacy	365
<i>Configuring Barge</i>	366
<i>Configuring Privacy</i>	367
IP Phone Services	368
<i>Configuring IP Phone Services</i>	369
<i>Services Phone Display Examples</i>	372
Summary	373
Review Questions	373
Chapter 17	Configuring User Features, Part 2
Cisco CallManager Extension Mobility	377
<i>Extension Mobility Example</i>	377
<i>Configuring Extension Mobility</i>	378
<i>Cisco CallManager Extension Mobility Service Parameters</i>	381
<i>Configuring a Default Device Profile</i>	382
<i>Configuring User Device Profiles</i>	383
<i>Associating Users with Device Profiles</i>	384
<i>Creating the Extension Mobility Service</i>	386
<i>Updating Cisco IP Phones to Add Extension Mobility Support</i>	387
Client Matter Codes and Forced Authentication Codes	389
<i>FAC Concepts</i>	389
<i>CMC Concepts</i>	391
<i>FAC and CMC Configuration</i>	392
<i>Creating CMC Codes</i>	392
<i>Creating FAC Codes</i>	393
<i>Enabling Route Patterns for FAC and CMC</i>	394
Call Display Restrictions	395
<i>Understanding Calling Line ID Presentation</i>	396
<i>Understanding Connected Line ID Presentation</i>	397
<i>Understanding Ignore Presentation Indicators</i>	397
<i>Configuring Caller ID Restrictions</i>	398
Malicious Call Identification	399
<i>Configuring MCID</i>	399
<i>Configuring CallManager to Support CDRs</i>	400
<i>Configuring MCID Alarms</i>	401
<i>Adding the MCID Softkey</i>	402

	Multilevel Precedence and Preemption	403
	Summary	405
	Review Questions	405
Chapter 18	Configuring Cisco Unified CallManager Attendant Console	409
	Introduction to Cisco CallManager Attendant Console	409
	<i>Terms and Definitions</i>	411
	<i>The Telephony Call Dispatcher and Attendant Console Directory</i>	411
	<i>Cisco Telephony Call Dispatcher</i>	411
	<i>Cisco CallManager Attendant Console Directory</i>	412
	<i>Pilot Points and Hunt Groups</i>	413
	Call Routing and Call Queuing	414
	<i>Call Routing</i>	414
	<i>Call Queuing</i>	415
	Server and Administration Configuration	416
	<i>Adding Attendant Console Users</i>	416
	<i>Adding the “ac” User</i>	417
	<i>Pilot Point Configuration</i>	419
	<i>Hunt Group Configuration</i>	420
	<i>Activating Cisco TCD and CTIManager Services</i>	423
	<i>Using the Attendant Console Configuration Tool</i>	424
	<i>Installing and Configuring the Attendant Console Client</i>	425
	Cisco Attendant Console Features	426
	<i>Attendant Console GUI: Call Control</i>	428
	<i>Attendant Console GUI: Custom Speed Dials</i>	429
	<i>Attendant Console GUI: Directory Lookup</i>	430
	<i>Attendant Console GUI: Parked Calls</i>	430
	<i>Attendant Console GUI: Broadcast Calls</i>	431
	Summary	432
	Review Questions	432
Chapter 19	Configuring Cisco IP Manager Assistant	437
	Cisco IP Manager Assistant Overview	437
	<i>Cisco IPMA with Proxy-Line Support</i>	438
	<i>Cisco IPMA with Shared-Line Support</i>	438
	Cisco IP Manager Assistant Architecture	439
	Configuring Cisco IPMA for Shared-Line Support	440
	<i>IPMA Step 1: Activating the Cisco IPMA Service</i>	441
	<i>IPMA Step 2: Configuring Service Parameters</i>	442
	<i>IPMA Step 3: Restarting the Cisco IPMA Service</i>	444
	<i>IPMA Step 4: Configuring Managers and Assistants</i>	444
	<i>IPMA Step 5: Configuring Call Divert Target</i>	449
	<i>IPMA Step 6: Installing the IPMA Assistant Console</i>	450
	Summary	453
	Review Questions	453

Part V: IPT Security 457**Chapter 20 Securing the Windows Operating System 459**

- Threats Targeting the Operating System 459
 - Lowering the Threats in Windows Operating System* 460
- Security and Hot Fix Policy 461
- Operating System Hardening 463
 - IP Telephony Operating System Security Scripts* 464
 - File-Sharing Considerations* 467
- Antivirus Protection 467
- Cisco Security Agent 468
 - Cisco Security Headless Agent* 469
 - Cisco Security Managed Agent* 469
 - CSA Supported Applications* 470
 - CSA Protection* 471
 - CSA Guidelines* 471
- Administrator Password Policy 472
 - Account and Password Considerations* 474
- Common Windows Exploits 475
- Security Taboos 476
- Summary 478
- Review Questions 479

Chapter 21 Securing Cisco Unified CallManager Administration 483

- Threats Targeting Remote Administration 483
- Securing CallManager Communications Using HTTPS 483
 - HTTPS Certificates* 484
 - Accessing CallManager When Using Self-Signed Certificates* 485
- Multilevel Administration 487
 - Enabling MLA* 488
 - MLA Functional Groups* 489
 - MLA User Groups* 490
 - Assigning MLA Access Privileges* 491
 - Creating New MLA Functional and User Groups* 492
- Summary 499
- Review Questions 500

Chapter 22 Preventing Toll Fraud 503

- Toll Fraud Exploits 503
- Preventing Call Forward and Voice-Mail Toll Fraud Using Calling Search Spaces 505
- Blocking Commonly Exploited Area Codes 507
- Using Time-of-Day Routing 509
- Using FAC and CMC 510

	Restricting External Transfers	511
	<i>Defining OnNet and OffNet</i>	512
	<i>Configuring Call Transfer Restrictions</i>	514
	<i>Call Transfer Restriction Example</i>	515
	Dropping Conference Calls	516
	Summary	517
	Review Questions	518
Chapter 23	Hardening the IP Phone	523
	Threats Targeting Endpoints	523
	Blocking Endpoint Attacks	525
	<i>Stopping Rogue Images from Entering IP Phones</i>	525
	<i>Disabling Phone Settings in Cisco CallManager Administration</i>	526
	<i>Disabling PC Port and Settings Access</i>	526
	<i>Disabling IP Phone Web Access</i>	527
	<i>Ignoring Gratuitous ARP</i>	528
	<i>Disabling Voice VLAN Access</i>	529
	<i>Enabling IP Phone Encryption and Authentication</i>	530
	Summary	531
	Review Questions	531
Chapter 24	Understanding Cryptographic Fundamentals	535
	What Is Cryptography?	535
	<i>Authentication and Encryption</i>	537
	Symmetric Encryption	538
	<i>Symmetric Encryption Example: AES</i>	539
	Asymmetric Encryption	540
	<i>Symmetric Encryption Example: RSA</i>	541
	Hash Functions	541
	Digital Signatures	544
	<i>Digital Signatures and RSA</i>	545
	Summary	546
	Review Questions	547
Chapter 25	Understanding the Public Key Infrastructure	551
	The Need for a PKI	551
	<i>Key Exchange in Symmetric Cryptography</i>	551
	<i>Key Exchange Protected by Asymmetric Encryption</i>	552
	<i>The Pitfall of Asymmetric Key Exchange</i>	553
	PKI as a Trusted Third-Party Protocol	553
	PKI Entities	556
	<i>X.509v3 Certificates</i>	557
	<i>Self-Signed Certificates</i>	558
	PKI Enrollment	559
	<i>Man-in-the-Middle PKI Enrollment Attack</i>	560
	<i>Secure PKI Enrollment</i>	560

PKI Revocation and Key Storage	561
<i>PKI Revocation Methods</i>	562
<i>Key Storage</i>	562
<i>Smart Cards and Smart Tokens</i>	563
PKI Example	563
<i>PKI and SSL/TLS</i>	563
<i>Web Server Certificate Exchange</i>	564
Summary	568
Review Questions	568

Chapter 26 Understanding Cisco IP Telephony Authentication and Encryption Fundamentals 573

Threats Targeting the IP Telephony System	573
How CallManager Protects Against Threats	574
<i>Secure Signaling and Media Transfer</i>	574
<i>Authentication of Phone Images</i>	575
<i>Authentication of Phone Configuration Files</i>	576
PKI Topologies in Cisco IP Telephony	576
<i>Self-Signed Certificates PKI Topology</i>	577
<i>Manufacturing Installed Certificates PKI Topology</i>	577
<i>Locally Significant Certificates PKI Topology</i>	578
<i>Independent, Separated PKI Topology</i>	579
<i>CTL Client</i>	580
<i>CTL Client Application</i>	581
<i>CTL Verification on the IP Phone</i>	582
<i>Initial Deployment Issue</i>	582
PKI Enrollment in Cisco IP Telephony	583
<i>CAPF Acting as a CA</i>	583
<i>CAPF Acting as a Proxy to an External CA</i>	584
Keys and Certificate Storage in Cisco IP Telephony	585
Authentication and Integrity	585
<i>Certificate Exchange in TLS</i>	586
<i>Server-to-Phone Authentication</i>	586
<i>Phone-to-Server Authentication</i>	587
<i>TLS SHA-1 Session Key Exchange</i>	588
Encryption	588
<i>TLS AES Encryption</i>	589
<i>SRTP Media Encryption</i>	589
<i>SRTP Packet Format</i>	590
<i>Secure Call Flow Summary</i>	591
Summary	591
Review Questions	592

Chapter 27 Configuring Cisco IP Telephony Authentication and Encryption 597

- Authentication and Encryption Configuration Overview 597
- Enabling Services Required for Security 599
- Using the CTL Client 600
 - Installing the CTL Client* 600
- Working with Locally Significant Certificates 602
 - Issuing a Phone Certificate Using an Authentication String* 605
 - Issuing a Phone Certificate Using the CAPF* 607
- Configuring the Device Security Mode 607
- Negotiating Device Security Mode 608
- Generating a CAPF Report 609
- Summary 611
- Review Questions 612

Part VI: IP Video 617**Chapter 28** Introducing IP Video Telephony 619

- IP Video Telephony Solution Components 619
- Video Call Concepts 621
 - Cisco CallManager Involvement in Video Calls* 621
 - Video Call Flow* 622
 - Video Codecs Supported by Cisco CallManager* 623
- Video Protocols Supported in Cisco CallManager 624
 - SCCP Video Call Characteristics* 626
 - H.323 Video Call Characteristics* 627
 - SCCP and H.323 in Cisco CallManager* 628
- Bandwidth Management 628
 - Video Call Bandwidth Requirement* 629
 - Calculating the Total Bandwidth* 630
 - Actual Bandwidth Used Per Video Call* 630
 - Call Admission Control in Cisco CallManager* 631
- Call Admission Control Within a Cluster 632
 - Region Configuration* 634
 - Location Configuration* 635
 - Call Admission Control Example* 637
 - Retry Video Call as Audio* 638
- Call Admission Control Between Clusters 640
 - Gatekeeper Call Admission Control Options* 641
 - Gatekeeper Call Admission Control Example* 642
- Summary 643
- Review Questions 644

Chapter 29 Configuring Cisco VT Advantage 647

- Cisco VT Advantage Overview 647
 - Cisco VT Advantage Components* 647
 - Cisco VT Advantage Supported Standards* 648
 - Protocols Used by Cisco VT Advantage* 649
- How Calls Work with Cisco VT Advantage 651
 - Cisco VT Advantage Video Modes* 652
- Configuring Cisco CallManager for Video 653
 - Call-Routing Considerations* 654
 - VT Advantage Deployment Tool* 655
- Configuring Cisco IP Phones for Cisco VT Advantage 657
 - Verifying Phone Loads* 657
 - Configuring IP Phones to Support Video* 658
 - Verification of Phone Configuration* 661
- Installing Cisco VT Advantage on a Client 661
 - Cisco VT Advantage Hardware and Software Requirements* 661
 - Cisco VT Advantage Installation Preparation Checklist* 662
 - Installing Cisco VT Advantage* 663
 - Cisco VT Advantage Installation Verification* 665
- Summary 667
- Review Questions 668

Part VII: IPT Management 671**Chapter 30 Introducing Database Tools and Cisco Unified CallManager Serviceability 673**

- Database Management Tools 673
 - Database Management Tools Overview* 674
 - Microsoft SQL Server 2000 Enterprise Manager* 674
 - DBLHelper* 677
- Cisco CallManager Serviceability Overview 678
 - Serviceability Components* 678
 - Alarm* 679
 - Trace* 680
 - Tools* 681
 - Application* 683
 - Help* 684
 - Control Center* 684
 - Service Activation* 686
- Tools Overview 688
- Summary 690
- Review Questions 691

Chapter 31 Monitoring Performance 695

- Performance Counters 695
 - Performance Analysis* 696
- Microsoft Event Viewer 697
- Microsoft Performance Monitor 699
 - Microsoft Performance Monitor Report View* 699
 - Microsoft Performance Monitor Graph and Histogram View* 700
 - Microsoft Windows Task Manager* 702
- Real-Time Monitoring Tool Overview 702
 - Real-Time Monitoring Tool Configuration Profiles* 704
 - Using the Real-Time Monitoring Tool Effectively* 705
 - Viewing Call Activity* 706
 - Using Device Search* 707
 - Visiting Alert Central* 707
- Summary 708
- Review Questions 709

Chapter 32 Configuring Alarms and Traces 713

- Alarm Overview 713
- Alarm Configuration 714
 - Configuring Alarms* 715
 - Configuring Alarms for Java Applications* 716
 - Alarm Details* 717
- Trace Configuration 719
 - Types of Traces* 720
 - Trace Configuration and Analysis Overview* 720
 - Trace Configuration* 721
 - Enabling Clusterwide Trace Settings* 723
- Trace Analysis 725
- Trace Collection 728
 - The Trace Collection Tool* 729
- Bulk Trace Analysis 730
 - Bulk Trace Analysis Features* 730
 - Using Bulk Trace Analysis* 731
- Additional Trace Tools 732
- Summary 733
- Review Questions 733

Chapter 33 Configuring CAR 737

- CAR Overview 737
 - CDRs and CMRs* 737
 - CAR Users* 739
 - CAR Report Types and User Levels* 740
- CAR Configuration 740

<i>Initial Configuration</i>	741
<i>CAR System Parameter Menu Configuration</i>	742
<i>Administration Rights and Mail Parameters</i>	743
<i>Dial Plan Configuration</i>	744
<i>Gateway and System Preferences</i>	746
Report Scheduling	748
<i>Managing the CDR Load</i>	749
<i>Configuring the Schedulers</i>	750
System Database Configuration	752
<i>CDR and CAR Database Alerts</i>	753
<i>Database Purges</i>	754
User Report Configuration	756
<i>Viewing the Report</i>	757
<i>Sending the Report</i>	757
Summary	758
Review Questions	759
Chapter 34 Using Additional Management and Monitoring Tools	763
Remote Management Tools	763
<i>CiscoWorks ITEM Overview</i>	763
<i>Simple Network Management Protocol</i>	764
<i>SNMP Basics</i>	765
<i>SNMP Configuration on Cisco CallManager</i>	766
<i>Syslog Overview</i>	769
<i>Syslog Configuration in Cisco CallManager</i>	769
Dependency Records	771
<i>Enabling Dependency Records</i>	771
<i>Accessing Dependency Records</i>	772
Password Changer Tool	774
<i>Using the Password Changer Tool</i>	775
Cisco Dialed Number Analyzer	776
<i>Installing Cisco Dialed Number Analyzer</i>	777
<i>Using the Cisco Dialed Number Analyzer</i>	778
Quality Report Tool	780
<i>Activating the QRT Softkey</i>	781
<i>Viewing QRT Logs</i>	782
Summary	785
Review Questions	786
Part VIII: Appendix	789
Appendix A Answers to Review Questions	791
Index	832
