

INTERNATIONAL EDITION

HUMAN ANATOMY

MARTINI/TIMMONS/TALLITSCH

# Contents

Preface xxi  
Visual Introduction xxiv  
Acknowledgments xxxi

## 1

### An Introduction To Anatomy 1

Microscopic Anatomy 2  
Gross Anatomy 3  
Other Perspectives on Anatomy 3  
Levels of Organization 4  
An Introduction to Organ Systems 6  
The Language of Anatomy 13  
■ **Superficial Anatomy** 13  
    Anatomical Landmarks 13  
    Anatomical Regions 14  
    Anatomical Directions 15  
■ **Sectional Anatomy** 16  
    Planes and Sections 16  
    Body Cavities 18

**CLINICAL NOTE** The Visible Human Project 18

**CLINICAL NOTE** Sectional Anatomy and Clinical Terminology 21

**RELATED CLINICAL TERMS** 23

**CI: Related Clinical Issues:** Disease, Pathology, and Diagnosis • Homeostasis and Disease • The Diagnosis of Disease • Signs and Symptoms • The Purpose of Diagnosis

## 2

### The Cell 26

The Study of Cells 27  
Cellular Anatomy 28  
■ **The Cell Membrane** 29  
    Membrane Permeability: Passive Processes 31  
    Membrane Permeability: Active Processes 31  
■ **The Cytoplasm** 34  
    The Cytosol 34  
    Organelles 34  
■ **Nonmembranous Organelles** 34  
    The Cytoskeleton 34  
    Microvilli 35  
    Centrioles, Cilia, and Flagella 35  
    Ribosomes 36  
■ **Membranous Organelles** 37  
    Mitochondria 37  
    The Nucleus 38

The Endoplasmic Reticulum 39  
The Golgi Apparatus 40  
Lysosomes 41  
Peroxisomes 41

■ **Membrane Flow** 41

**Intercellular Attachment** 42

**The Cell Life Cycle** 44

■ **Interphase** 44  
    DNA Replication 44

■ **Mitosis** 44

**CLINICAL NOTE** Cell Division and Cancer 45

**RELATED CLINICAL TERMS** 47

**CI: Related Clinical Issues:** The Nature of Pathogens • Methods of Microanatomy • Causes of Cancer

## 3

### The Tissue Level of Organization 50

**Epithelial Tissue** 51

**EMBRYOLOGY SUMMARY** Formation of Tissues 52

■ **Functions of Epithelial Tissue** 53

■ **Specializations of Epithelial Cells** 53

■ **Maintaining the Integrity of the Epithelium** 54

    Intercellular Connections 54

    Attachment to the Basal Lamina 54

    Epithelial Maintenance and Renewal 54

**EMBRYOLOGY SUMMARY** Development of Epithelia 55

■ **Classification of Epithelia** 56

    Squamous Epithelia 56

    Cuboidal Epithelia 57

    Transitional Epithelia 57

    Columnar Epithelia 57

■ **Glandular Epithelia** 57

    Types of Secretion 57

    Gland Structure 60

    Modes of Secretion 61

**Connective Tissues** 62

■ **Classification of Connective Tissues** 62

**EMBRYOLOGY SUMMARY** Origins of Connective Tissues 63

■ **Connective Tissue Proper** 64

    Cells of Connective Tissue Proper 64

    Connective Tissue Fibers 65

    Ground Substance 66

    Embryonic Tissues 66

    Loose Connective Tissues 66

    Dense Connective Tissues 68

■ **Fluid Connective Tissues** 68

- **Supporting Connective Tissues** 68
  - Cartilage 68
  - Bone 72
- Membranes** 73
  - **Mucous Membranes** 73
  - **Serous Membranes** 73
  - **The Cutaneous Membrane** 73
  - **Synovial Membranes** 73
- The Connective Tissue Framework of the Body** 74
- Muscle Tissue** 75
  - **Skeletal Muscle Tissue** 75
  - **Cardiac Muscle Tissue** 77
  - **Smooth Muscle Tissue** 77
- Neural Tissue** 77
- Tissues, Nutrition, and Aging** 77
- EMBRYOLOGY SUMMARY** The Development of Organ Systems 78
- CLINICAL NOTE** Tumor Formation and Growth 80
- RELATED CLINICAL TERMS** 81
- CI: Related Clinical Issues:** Infants and Brown Fat • Liposuction • Problems with Serous Membranes • Tissue Structure and Disease • Cancer Statistics, Classification, and Treatment

## 4

### The Integumentary System 85

#### Integumentary Structure and Function 86

#### The Epidermis 87

- **Layers of the Epidermis** 87
  - Stratum Germinativum 87
  - Stratum Spinosum 88
  - Stratum Granulosum 88
  - Stratum Lucidum 88
  - Stratum Corneum 88

#### **CLINICAL NOTE** Transdermal Drug Administration 89

- **Thick and Thin Skin** 89
  - Epidermal Ridges 89
  - Skin Color 90

#### The Dermis 91

- **Dermal Organization** 91
  - Wrinkles, Stretch Marks, and Lines of Cleavage 92
- **Other Dermal Components** 92
  - The Blood Supply to the Skin 92
  - The Nerve Supply to the Skin 92

#### The Subcutaneous Layer 93

#### Accessory Structures 93

- **Hair Follicles and Hair** 93
  - Hair Production 94
  - Follicle Structure 94
  - Functions of Hair 94

- Types of Hairs 94
- Hair Color 94
- Growth and Replacement of Hair 94

#### ■ **Glands in the Skin** 96

- Sebaceous Glands 96

#### **CLINICAL NOTE** Acne and Seborrheic Dermatitis 97

- Sweat Glands 97

#### **EMBRYOLOGY SUMMARY** The Development of the Integumentary System 98

- Control of Glandular Secretions 100
- Other Integumentary Glands 100

#### ■ **Nails** 100

#### Local Control of Integumentary Function 101

#### **CLINICAL NOTE** Anthrax 101

#### Aging and the Integumentary System 102

#### **RELATED CLINICAL TERMS** 102

- CI: Related Clinical Issues:** Examination of the Skin • Disorders of Keratin Production • Drug Absorption through the Skin • Trauma to the Skin • Treatment of Skin Conditions • Synthetic Skin • Tumors in the Dermis • Baldness and Hirsutism • Folliculitis and Acne • Inflammation of the Skin • Complications of Inflammation • Burns and Grafts • Scar Tissue Formation • Synthetic Skin

## The Skeletal System

### Osseous Tissue and Skeletal Structure 106

#### Structure of Bone 107

- **Histological Organization of Mature Bone** 107
  - The Matrix of Bone 107
  - The Cells of Mature Bone 107

#### ■ **Compact and Spongy Bone** 108

- Structural Differences between Compact and Spongy Bone 108
- Functional Differences between Compact and Spongy Bone 110

#### ■ **The Periosteum and Endosteum** 111

#### **CLINICAL NOTE** Rickets 111

#### Bone Development and Growth 111

- **Intramembranous Ossification** 112
- **Endochondral Ossification** 113
  - Increasing the Length of a Developing Bone 114
  - Increasing the Diameter of a Developing Bone 115
- **Formation of the Blood and Lymphatic Supply** 118
- **Bone Innervation** 118
- **Factors Regulating Bone Growth** 118

#### Bone Maintenance, Repair, and Remodeling 119

- **Changes in Bone Shape** 119
- **Injury and Repair** 119
- **Aging and the Skeletal System** 119
- **Remodeling of Bone** 119

#### Anatomy of Skeletal Elements 120

- **Classification of Bones** 120

**CLINICAL NOTE** A Classification of Fractures 122■ **Bone Markings (Surface Features)** 122**Integration with Other Systems** 124**RELATED CLINICAL TERMS** 124

**CI: Related Clinical Issues:** The Dynamic Skeleton • Heterotopic Bone Formation • Congenital Disorders of the Skeleton • Classification of Skeletal Disorders • Symptoms of Bone and Joint Disorders • Examination of the Skeletal System • Stimulation of Bone Growth and Repair • Osteoporosis and Age-Related Skeletal Abnormalities

**6****The Skeletal System**

Axial Division 127

**The Skull and Associated Bones** 129■ **Bones of the Cranium** 136

Occipital Bone 136

Parietal Bones 136

Frontal Bone 136

Temporal Bones 139

Sphenoid 141

Ethmoid 142

The Cranial Fossae 142

■ **Bones of the Face** 144

The Maxillae 144

The Palatine Bones 145

The Nasal Bones 145

The Inferior Nasal Conchae 145

The Zygomatic Bones 145

The Lacrimal Bones 145

The Vomer 145

The Mandible 146

■ **The Orbital and Nasal Complexes** 146

The Orbital Complex 146

The Nasal Complex 146

**CLINICAL NOTE** Sinus Problems 147■ **Hyoid Bone** 149**CLINICAL NOTE** Problems with Growth of the Skull 149**The Skulls of Infants, Children, and Adults** 150**EMBRYOLOGY SUMMARY** The Development of the Skull 152**The Vertebral Column** 156■ **Spinal Curves** 156■ **Vertebral Anatomy** 156

The Vertebral Body 157

The Vertebral Arch 157

The Articular Processes 159

Vertebral Articulation 159

■ **Vertebral Regions** 159

Cervical Vertebrae 159

Thoracic Vertebrae 160

Lumbar Vertebrae 162

The Sacrum 163

The Coccyx 164

**The Thoracic Cage** 164■ **The Ribs** 164**EMBRYOLOGY SUMMARY** Development of the Vertebral Column 166**CLINICAL NOTE** Cracked Ribs 168■ **The Sternum** 168**RELATED CLINICAL TERMS** 169

**CI: Related Clinical Issues:** Sinus Problems and Septal Defects • Kyphosis, Lordosis, and Scoliosis • Spina Bifida • The Thoracic Cage and Surgical Procedures

**7****The Skeletal System**

Appendicular Division 172

**The Pectoral Girdle and Upper Limb** 174■ **The Pectoral Girdle** 174

The Clavicle 174

The Scapula 174

■ **The Upper Limb** 177

The Humerus 177

The Ulna 177

The Radius 182

The Carpal Bones 182

The Metacarpal Bones and Phalanges 182

**EMBRYOLOGY SUMMARY** Development of the Appendicular Skeleton 184**The Pelvic Girdle and Lower Limb** 186■ **The Pelvic Girdle** 186

The Os Coxae 186

The Pelvis 187

■ **The Lower Limb** 193

The Femur 193

The Patella 196

The Tibia 196

The Fibula 196

The Tarsal Bones 196

The Metatarsal Bones and Phalanges 199

**Individual Variation in the Skeletal System** 200**RELATED CLINICAL TERMS** 202

**CI: Related Clinical Issues:** Problems with the Ankle and Foot

**8****The Skeletal System**

Articulations 205

**Classification of Joints** 206■ **Synarthroses (Immovable Joints)** 206■ **Amphiarthroses (Slightly Movable Joints)** 206■ **Diarthroses (Freely Movable Joints)** 206

Synovial Fluid 207

Accessory Structures 208

Strength versus Mobility 208

**CLINICAL NOTE** Dislocation of a Synovial Joint 208**Articular Form and Function** 208

## ■ Describing Dynamic Motion 208

## ■ Types of Movements 209

Linear Motion (Gliding) 209

Angular Motion 209

Rotation 211

Special Movements 211

## ■ A Structural Classification of Synovial Joints 212

**Representative Articulations** 214

## ■ The Temporomandibular Joint 214

## ■ Intervertebral Articulations 214

The Intervertebral Discs 215

Intervertebral Ligaments 215

**CLINICAL NOTE** Problems with the Intervertebral Discs 216

Vertebral Movements 216

## ■ The Sternoclavicular Joint 217

## ■ The Shoulder Joint 217

Ligaments 217

Skeletal Muscles and Tendons 219

Bursae 219

**CLINICAL NOTE** Shoulder Injuries 219

## ■ The Elbow Joint 219

## ■ The Joints of the Wrist 219

Stability of the Wrist 219

## ■ The Joints of the Hand 221

## ■ The Hip Joint 223

The Articular Capsule 223

Stabilization of the Hip 223

## ■ The Knee Joint 225

The Articular Capsule 225

Supporting Ligaments 225

Locking of the Knee 225

## ■ The Joints of the Ankle and Foot 228

The Ankle Joint 228

Joints of the Foot 228

**Aging and Articulations** 230**Bones and Muscles** 230**RELATED CLINICAL TERMS** 230

**Related Clinical Issues:** Rheumatism, Arthritis, and Synovial Function • Diagnosing and Treating Intervertebral Disc Problems • Bursitis • Hip Fractures, Aging, and Arthritis • Knee Injuries • Arthroscopic Surgery and the Diagnosis of Joint Injuries • Problems with the Ankle and Foot

**9****The Muscular System**

Skeletal Muscle Tissue and Muscle Organization 235

Functions of Skeletal Muscle 236

Anatomy of Skeletal Muscles 236

## ■ Gross Anatomy 236

Connective Tissue of Muscle 236

Nerves and Blood Vessels 237

## ■ Microanatomy of Skeletal Muscle Fibers 238

Myofibrils and Myofilaments 238

Sarcomere Organization 238

**Muscle Contraction** 242

## ■ The Sliding Filament Theory 242

The Start of a Contraction 243

The End of a Contraction 244

## ■ The Neural Control of Muscle Fiber Contraction 244

**CLINICAL NOTE** Rigor Mortis 245

## ■ Muscle Contraction: A Summary 245

**Motor Units and Muscle Control** 246

## ■ Muscle Tone 246

## ■ Muscle Hypertrophy 246

## ■ Muscle Atrophy 246

**Types of Skeletal Muscle Fibers** 247

## ■ Distribution of Fast, Slow, and Intermediate Fibers 248

**The Organization of Skeletal Muscle Fibers** 248

## ■ Parallel Muscles 248

## ■ Convergent Muscles 248

## ■ Pennate Muscles 250

## ■ Circular Muscles 250

**Muscle Terminology** 250

## ■ Origins and Insertions 250

## ■ Actions 251

## ■ Names of Skeletal Muscles 251

**Levers: A Systems Design for Movement** 252

## ■ Classes of Levers 252

**Aging and the Muscular System** 253**RELATED CLINICAL TERMS** 253

**Ci: Related Clinical Issues:** Disruption of Normal Muscle Organization • The Muscular Dystrophies • Problems with the Control of Muscular Activity • Polio • Delayed-Onset Muscle Soreness

**10****The Muscular System**

Axial Musculature 257

**The Axial Musculature** 258

## ■ Muscles of the Head and Neck 259

Muscles of Facial Expression 260

Extra-ocular Muscles 262

Muscles of Mastication 264

Muscles of the Tongue 265

**CLINICAL NOTE** What's New? 265

Muscles of the Pharynx 265

Anterior Muscles of the Neck 267

## ■ Muscles of the Vertebral Column 269

The Superficial Layer 269

The Intermediate Layer 269

The Deep Layer 270

Spinal Flexors 270

## ■ Oblique and Rectus Muscles 272

The Diaphragm 273

## ■ Muscles of the Pelvic Floor 275

### RELATED CLINICAL TERMS 277

### EMBRYOLOGY SUMMARY Development of the Muscular System 278

**CI: Related Clinical Issues:** Hemias

# 11

## The Muscular System

Appendicular Musculature 282

Muscles of the Pectoral Girdle and Upper Limbs 283

### ■ Muscles That Position the Pectoral Girdle 284

### ■ Muscles That Move the Arm 287

### ■ Muscles That Move the Forearm and Hand 289

### ■ Muscles That Move the Hand and Fingers 292

**CLINICAL NOTE** Carpal Tunnel Syndrome 293

Muscles of the Pelvic Girdle and Lower Limbs 298

### ■ Muscles That Move the Thigh 298

### ■ Muscles That Move the Leg 300

### ■ Muscles That Move the Foot and Toes 305

Fascia, Muscle Layers, and Compartments 313

### ■ Compartments of the Upper Limb 313

### ■ Compartments of the Lower Limb 315

**CLINICAL NOTE** Compartment Syndrome 317

### RELATED CLINICAL TERMS 318

**CI: Related Clinical Issues:** Sports Injuries • Intramuscular Injections

# 12

## Surface Anatomy 321

Regional Approach to Surface Anatomy 322

### ■ The Head and Neck 322

### ■ The Thorax 324

The Anterior Thorax 324

The Back and Shoulder Regions 324

### ■ The Abdomen 325

### ■ The Upper Limb 326

### ■ The Arm, Forearm, and Wrist 327

### ■ The Pelvis and Lower Limb 328

### ■ The Leg and Foot 329

# 13

## The Nervous System

Neural Tissue 330

An Overview of the Nervous System 331

Cellular Organization in Neural Tissue 332

### ■ Neuroglia 334

Neuroglia of the CNS 334

Neuroglia of the PNS 336

### ■ Neurons 337

**EMBRYOLOGY SUMMARY** Introduction to the Development of the Nervous System 339

Neuron Classification 340

Neural Regeneration 342

The Nerve Impulse 343

Synaptic Communication 344

### ■ Chemical Synapses 344

### ■ Electrical Synapses 345

Neuron Organization and Processing 345

Anatomical Organization of the Nervous System 346

### RELATED CLINICAL TERMS 347

**CI: Related Clinical Issues:** The Symptoms of Neurological Disorders • The Neurological Examination • Headaches • Axoplasmic Transport and Disease • Demyelination Disorders • Growth and Myelination of the Nervous System

# 14

## The Nervous System

The Spinal Cord and Spinal Nerves 351

Gross Anatomy of the Spinal Cord 352

Spinal Meninges 352

### ■ The Dura Mater 352

### ■ The Arachnoid Mater 352

### ■ The Pia Mater 355

**CLINICAL NOTE** Spinal Taps and Myelography 356

Sectional Anatomy of the Spinal Cord 356

### ■ Organization of Gray Matter 358

### ■ Organization of White Matter 358

**CLINICAL NOTE** Spinal Cord Injuries 358

Spinal Nerves 359

### ■ Peripheral Distribution of Spinal Nerves 359

### ■ Nerve Plexuses 360

**EMBRYOLOGY SUMMARY** Development of the Spinal Cord and Spinal Nerves 362

The Cervical Plexus 364

The Brachial Plexus 365

The Lumbar and Sacral Plexuses 368

## Reflexes 371

## ■ Classification of Reflexes 372

## ■ Spinal Reflexes 373

## ■ Higher Centers and Integration of Reflexes 373

## RELATED CLINICAL TERMS 374

**CI: Related Clinical Issues:** Spinal Meningitis • Spinal Anesthesia • Damage to Spinal Tracts • Technology and Motor Paralysis • Damage and Repair of Peripheral Nerves • Peripheral Neuropathies • Shingles and Hansen's Disease • Reflexes and Diagnostic Testing

# 15

## The Nervous System

## The Brain and Cranial Nerves 378

## An Introduction to the Organization of the Brain 379

## ■ Embryology of the Brain 379

## ■ Major Regions and Landmarks 379

The Cerebrum 379

The Diencephalon 379

The Mesencephalon 381

The Pons and Cerebellum 381

The Medulla Oblongata 381

## ■ Gray Matter and White Matter Organization 381

## ■ The Ventricles of the Brain 381

## Protection and Support of the Brain 381

## ■ The Cranial Meninges 381

The Dura Mater 384

The Arachnoid Mater 384

The Pia Mater 384

## CLINICAL NOTE Epidural and Subdural Hemorrhages 384

## ■ The Blood–Brain Barrier 384

## ■ Cerebrospinal Fluid 386

Formation of CSF 386

Circulation of CSF 386

## ■ The Blood Supply to the Brain 387

## The Cerebrum 387

## CLINICAL NOTE Hydrocephalus 388

## ■ The Cerebral Hemispheres 388

The Cerebral Lobes 388

*Motor and Sensory Areas of the Cerebral Cortex* 391

Association Areas 391

Integrative Centers 391

## ■ The Central White Matter 392

## ■ The Basal Nuclei 392

Functions of the Basal Nuclei 395

## ■ The Limbic System 395

## The Diencephalon 397

## ■ The Epithalamus 397

## ■ The Thalamus 397

Functions of Thalamic Nuclei 398

## ■ The Hypothalamus 398

Functions of the Hypothalamus 398

## The Mesencephalon 400

## CLINICAL NOTE The Substantia Nigra and Parkinson's Disease 400

## The Pons 403

## The Cerebellum 403

## The Medulla Oblongata 405

## Cranial Nerves 406

## ■ The Olfactory Nerve (N I) 408

## ■ The Optic Nerve (N II) 409

## ■ The Oculomotor Nerve (N III) 410

## ■ The Trochlear Nerve (N IV) 410

## ■ The Trigeminal Nerve (N V) 411

## CLINICAL NOTE Tic Douloureux 412

## ■ The Abducens Nerve (N VI) 412

## ■ The Facial Nerve (N VII) 412

## CLINICAL NOTE Bell's Palsy 413

## ■ The Vestibulocochlear Nerve (N VIII) 413

## ■ The Glossopharyngeal Nerve (N IX) 414

## ■ The Vagus Nerve (N X) 414

## ■ The Accessory Nerve (N XI) 415

## ■ The Hypoglossal Nerve (N XII) 416

## ■ A Summary of Cranial Nerve Branches and Functions 416

## CLINICAL NOTE Cranial Reflexes 416

## EMBRYOLOGY SUMMARY Development of the Brain and Cranial Nerves 418

## RELATED CLINICAL TERMS 420

**CI: Related Clinical Issues:** Traumatic Brain Injuries • Seizures and Epilepsies • Cerebellar Dysfunction • Analysis of Gait and Balance • Cranial Nerve Tests

# 16

## The Nervous System

## Pathways and Higher-Order Functions 425

## Sensory and Motor Pathways 426

## ■ Sensory Pathways 426

The Posterior Column Pathway 426

The Spinothalamic Pathway 429

The Spinocerebellar Pathway 429

## ■ Motor Pathways 430

The Corticospinal Pathway 431

## CLINICAL NOTE Cerebral Palsy 432

Medial and Lateral Pathways 432

The Basal Nuclei and Cerebellum 433

## ■ Levels of Somatic Motor Control 434

## CLINICAL NOTE Anencephaly 434

- Higher-Order Functions** 436
- **Integrative Regions of the Cerebral Cortex** 436
    - The General Interpretive Area 436
    - The Speech Center 437
    - The Prefrontal Cortex 437
    - Brodman Areas and Cortical Function 437
  - **Hemispheric Specialization** 437
- CLINICAL NOTE** Disconnection Syndrome 438
- **Memory** 438
- CLINICAL NOTE** Damage to the Integrative Centers 438
- **Consciousness: The Reticular Activating System** 439
- CLINICAL NOTE** Levels of Consciousness 439
- Aging and the Nervous System** 440
- CLINICAL NOTE** Cerebrovascular Diseases 440
- RELATED CLINICAL TERMS** 441
- CI: Related Clinical Issues:** Amyotrophic Lateral Sclerosis • Tay-Sachs Disease • Huntington's Disease

## 17

### The Nervous System

Autonomic Division 444

#### A Comparison of the Somatic and Autonomic Nervous Systems 446

- **Subdivisions of the ANS** 446
  - Sympathetic (Thoracolumbar) Division 446
  - Parasympathetic (Craniosacral) Division 446
  - Innervation Patterns 446

#### The Sympathetic Division 447

- **The Sympathetic Chain Ganglia** 448
  - Functions of the Sympathetic Chain 450
  - Anatomy of the Sympathetic Chain 450
- **Collateral Ganglia** 450
  - Functions of the Collateral Ganglia 450
  - Anatomy of the Collateral Ganglia 450
- **The Adrenal Medullae** 450
- **Effects of Sympathetic Stimulation** 450
- **Sympathetic Activation and Neurotransmitter Release** 452
- **Membrane Receptors and Sympathetic Function** 453
  - Alpha and Beta Receptors 453
  - Sympathetic Stimulation and ACh 453
- **A Summary of the Sympathetic Division** 453

#### The Parasympathetic Division 454

- **Organization and Anatomy of the Parasympathetic Division** 454
- **General Functions of the Parasympathetic Division** 456
- **Parasympathetic Activation and Neurotransmitter Release** 456
  - Membrane Receptors and Responses 456
- **A Summary of the Parasympathetic Division** 456

#### Relationships between the Sympathetic and Parasympathetic Divisions 457

- **Anatomy of Dual Innervation** 457
- **A Comparison of the Sympathetic and Parasympathetic Divisions** 458

#### Integration and Control of Autonomic Functions 459

- **Visceral Reflexes** 459
- CLINICAL NOTE** Diabetic Neuropathy and the ANS 459
- **Higher Levels of Autonomic Control** 461

#### RELATED CLINICAL TERMS 461

**CI: Related Clinical Issues:** Hypersensitivity and Sympathetic Function • Biofeedback

## 18

### The Nervous System

General and Special Senses 466

#### Receptors 467

- **Interpretation of Sensory Information** 467
- **Central Processing and Adaptation** 467
- **Sensory Limitations** 468

#### The General Senses 468

- **Nociceptors** 468
- **Thermoreceptors** 469
- **Mechanoreceptors** 469
  - Tactile Receptors 469
  - Baroreceptors 471
  - Proprioceptors 471
- **Chemoreceptors** 471

#### Olfaction (Smell) 472

- **Olfactory Receptors** 472
- **Olfactory Pathways** 472
- **Olfactory Discrimination** 473

#### Gustation (Taste) 473

- **Gustatory Receptors** 473
- **Gustatory Pathways** 474
- **Gustatory Discrimination** 474

#### Equilibrium and Hearing 475

- **The External Ear** 475
- **The Middle Ear** 475
  - The Auditory Ossicles 476

#### CLINICAL NOTE Otitis Media and Mastoiditis 478

- **The Inner Ear** 478
  - The Vestibular Complex and Equilibrium 479

#### CLINICAL NOTE Nystagmus 479

- **Hearing** 482
  - The Cochlea 482
  - Sound Detection 483

#### CLINICAL NOTE Hearing Loss 483

- **Auditory Pathways** 486

**Vision** 487■ **Accessory Structures of the Eye** 487

Eyelids 487

The Lacrimal Apparatus 488

■ **The Eye** 488

The Fibrous Tunic 490

**CLINICAL NOTE** Conjunctivitis 491

The Vascular Tunic 491

**CLINICAL NOTE** Corneal Transplants 492

The Neural Tunic 492

The Chambers of the Eye 492

The Lens 494

**CLINICAL NOTE** Glaucoma 494■ **Visual Pathways** 494

Cortical Integration 495

The Brain Stem and Visual Processing 495

**CLINICAL NOTE** Cataracts 495**EMBRYOLOGY SUMMARY** Development of Special Sense Organs 497**RELATED CLINICAL TERMS** 499**CI: Related Clinical Issues:** The Control of Pain

- Assessment of Tactile Sensitivities • *Otitis Media and Mastoiditis*
- Vertigo, Motion Sickness, and Ménière's Disease • Hearing Deficits

 19**The Endocrine System** 503

## An Overview of the Endocrine System 504

■ **The Hypothalamus and Endocrine Regulation** 505**The Pituitary Gland** 505■ **The Posterior Lobe of the Pituitary Gland** 507■ **The Anterior Lobe of the Pituitary Gland** 507

The Hypophyseal Portal System 508

Hormones of the Anterior Lobe 508

**The Thyroid Gland** 509■ **Thyroid Follicles and Thyroid Hormones** 509■ **The C Cells of the Thyroid Gland** 509**The Parathyroid Glands** 511**The Thymus** 511**The Adrenal Glands** 512■ **The Adrenal Cortex** 512

The Zona Glomerulosa 512

The Zona Fasciculata 513

The Zona Reticularis 513
