Table of Contents

1	Editable Poly Modeling	1
	Objectives	2
	Introduction	2
	Exercise: Bridging Edges	2
	Exercise: Pinching and Sliding Segments	6
	Exercise: Working with Selections	9
	Summary	12
2	Using the Unwrap UVW Modifier	13
	Objectives	14
	Introduction	14
	Exercise: Unwrap UVW Modifier — Unwrapping Arms	14
	Exercise: Unwrap UVW Modifier — Unwrapping the Remaining Body Parts	19
	Unwrapping the Legs	19
	Fixing the Arms	22
	Unwrapping the Head	22
	Unwrapping the Body	23
	Exercise: Removing Unwanted Stretching with the Relax Dialog	24
	Exercise: Pelt Mapping — Setting Edges and Faces	28
	Exercise: Pelt Mapping — Unwrapping the Geometry	31
	Exercise: Rendering UVW Templates	34
	Summary	35
3	DirectX Material	37
	Objectives	38
	Introduction	38
	Exercise: DirectX Material Improvements	38
	Summary	42
4	Hair	43
	Objectives	44
	Introduction	44
	Exercise: Adding Hair to the Gnome	44
	Exercise: Adjusting Hair Parameters	47
	Exercise: Styling Hair	50

	Exercise: Adding Volume	54
	Exercise: Adjusting the Hair Mesh for Rendering	57
	Exercise: Rendering Hair	60
	Summary	63
5	Cloth	65
	Objectives	66
	Introduction	66
	Exercise: Creating a Hat Pattern	66
	Exercise: Adding Seams with Garment Maker	71
	Exercise: Adding Cloth with a Cloth Modifier	74
	Exercise: Simulation—Placing the Hat on the Gnome	75
	Exercise: Assigning the Hat to the Gnome’s Head	82
	Exercise: Improving the Overall Effect	86
	Summary	89
6	Biped	91
	Objectives	92
	Introduction	92
	Exercise: Structural Improvements	92
	Exercise: Adapting Bones to a Mesh	95
	Biped	95
	Gnome Character	97
	Exercise: Adapting Mesh to Bones	99
	Exercise: Editing Motion Using Euler Curves	102
	Exercise: Bending and Twisting Bipeds	107
	Summary	110
7	Character Animation with Bones	111
	Introduction	112
	Objectives	112
	Exercise: Saving Animations	112
	Exercise: Loading Animations	115
	Exercise: Motion Mixer Integration	120
	Exercise: Motion Capture	125
	Exercise: Retargeting Animations	128
	Summary	134
8	Animation Controllers	135
	Objectives	136
	Introduction	136

	Exercise: Applying the Limit Controller.....	136
	Exercise: Setting a Controllers' Range to Infinity.....	141
	Summary.....	142
9	Skinning.....	143
	Objectives.....	144
	Introduction.....	144
	Exercise: Selecting Vertices.....	144
	Exercise: Using the Weight Tool.....	149
	Exercise: Additional Skinning Options.....	154
	Summary.....	161
10	Rendering.....	163
	Objectives.....	164
	Introduction.....	164
	Exercise: Scene States.....	164
	Rendering Scenes at Different Times of the Day.....	164
	Setting Up Geometry and Material Properties States.....	167
	Exercise: Batch Rendering.....	170
	Exercise: Radiosity Engine Improvements.....	173
	Exercise: Rendering 16-Bit TIFF Images.....	177
	Exercise: OpenEXR Support.....	179
	Exercise: Render To Texture with Ambient Occlusion.....	184
	Simulating Global Illumination.....	184
	Baking a Map into a Texture.....	186
	Summary.....	190
11	Project Management.....	191
	Objectives.....	192
	Introduction.....	192
	Exercise: Configuring File Paths.....	192
	Exercise: Using the Vault Explorer.....	196
	Exercise: XRef Basics.....	200
	Exercise: Using the XRef Objects Dialog.....	204
	Exercise: Working with XRef Materials.....	208
	Exercise: Nesting XRefs.....	212
	Summary.....	214
	Index.....	215
