

STATISTICS for People Who *(Think They)* HATE STATISTICS

The Excel[®] Edition

NEIL J. SALKIND

DETAILED CONTENTS

| | |
|--|--------------|
| A Note to the Student Why I Wrote this Book | xvi |
| Acknowledgments | xviii |

PART I

| | |
|---|----------|
| Yippee! I'm in Statistics | 1 |
| 1. Statistics or Sadistics? It's Up to You | 5 |
| Why Statistics? | 5 |
| And Why Excel? | 6 |
| A Five-Minute History of Statistics | 6 |
| Statistics: What It Is (and Isn't) | 8 |
| What Are Descriptive Statistics? | 9 |
| What Are Inferential Statistics? | 9 |
| In Other Words . . . | 10 |
| Tooling Around With the Analysis ToolPak | 11 |
| What Am I Doing in a Statistics Class? | 11 |
| Ten Ways to Use This Book | |
| (and Learn Statistics at the Same Time!) | 13 |
| About Those Icons | 15 |
| Key to Difficulty Icons | 16 |
| Key to "How Much Excel" Icons | 17 |
| Glossary | 17 |
| Summary | 17 |
| Time to Practice | 17 |
| 1a. All You Need to Know About Formulas and Functions | 19 |
| What's a Formula? | 19 |
| Creating a Formula | 20 |
| Operator, Operator—Get Me a Formula! | 22 |
| Beware the Parentheses | 22 |
| What's a Function? | 23 |
| Using a Function | 24 |
| Using Functions in Formulas | 29 |
| We're Taking Names: Naming Ranges | 30 |
| Using Ranges | 31 |

| | |
|---|----|
| Summary | 32 |
| Time to Practice | 32 |
| Answers to Practice Questions | 33 |
| 1b. All You Need to Know About Using the Amazing Data Analysis ToolPak | 35 |
| A Look at a Data Analysis Tool | 36 |
| Don't Have It? | 37 |

PART II

| | |
|---|-----------|
| Sigma Freud and Descriptive Statistics | 39 |
| 2. Computing and Understanding Averages: | |
| Means to an End | 41 |
| Computing the Mean | 42 |
| And Now . . . Using | |
| Excel's AVERAGE Function | 43 |
| Things to Remember | 45 |
| Computing a Weighted Mean | 46 |
| Computing the Median | 48 |
| And Now . . . Using Excel's MEDIAN Function | 50 |
| Things to Remember | 53 |
| Computing the Mode | 53 |
| And Now . . . Using Excel's MODE Function | 54 |
| Apple Pie à la Bimodal | 56 |
| Using the Amazing Analysis ToolPak to Compute Descriptive Statistics | 56 |
| Make the Analysis ToolPak Output Pretty | 60 |
| When to Use What | 61 |
| Summary | 62 |
| Time to Practice | 62 |
| Answers to Practice Questions | 63 |
| 3. Vive la Différence: Understanding Variability | 66 |
| Why Understanding Variability Is Important | 66 |
| Computing the Range | 67 |
| Computing the Standard Deviation | 68 |
| And Now . . . Using Excel's STDEV Function | 70 |
| Why $n - 1$? What's Wrong With Just n ? | 73 |
| What's the Big Deal? | 74 |
| Things to Remember | 75 |
| Computing the Variance | 75 |

| | |
|---|-----|
| And Now . . . Using Excel's VAR Function | 76 |
| The Standard Deviation Versus the Variance | 77 |
| Using the Amazing Analysis ToolPak (AGAIN!) | 78 |
| Summary | 78 |
| Time to Practice | 78 |
| Answers to Practice Questions | 79 |
| 4. A Picture Really Is Worth a Thousand Words | 82 |
| Why Illustrate Data? | 82 |
| Ten Ways to a Great Figure (Eat Less and Exercise More?) | 83 |
| First Things First: | |
| Creating a Frequency Distribution | 84 |
| The Classiest of Intervals | 85 |
| The Plot Thickens: Creating a Histogram | 86 |
| The Tally-Ho Method | 88 |
| Using the Amazing Analysis ToolPak to Create a Histogram | 89 |
| The Next Step: A Frequency Polygon | 93 |
| Cumulating Frequencies | 94 |
| Fat and Skinny Frequency Distributions | 96 |
| Average Value | 96 |
| Variability | 96 |
| Skewness | 97 |
| Kurtosis | 98 |
| Excellent Charts | 100 |
| Your First Excel Chart: A Moment to Remember | 101 |
| Excellent Charts Part Deux: Making Charts Pretty | 104 |
| Other Cool Charts | 105 |
| Bar Charts | 106 |
| Line Charts | 106 |
| Pie Charts | 107 |
| Summary | 107 |
| Time to Practice | 108 |
| Answers to Practice Questions | 108 |
| 5. Ice Cream and Crime: | |
| Computing Correlation Coefficients | 110 |
| What Are Correlations All About? | 110 |
| Types of Correlation | |
| Coefficients: Flavor 1 and Flavor 2 | 111 |
| Things to Remember | 112 |
| Computing a Simple Correlation Coefficient | 114 |

| | |
|---|-----|
| And Now . . . Using Excel's CORREL Function | 116 |
| A Visual Picture of a Correlation: | |
| The Scatterplot | 117 |
| Using Excel to Create a Scatterplot | 121 |
| Bunches of Correlations: The Correlation Matrix | 122 |
| More Excel—Bunches of Correlations à la Excel | 123 |
| Using the Amazing Analysis ToolPak to | |
| Compute Correlations | 124 |
| Understanding What the Correlation | |
| Coefficient Means | 126 |
| Using-Your-Thumb Rule | 126 |
| A Determined Effort: Squaring the | |
| Correlation Coefficient | 127 |
| As More Ice Cream Is Eaten . . . the Crime Rate | |
| Goes Up (or Association Versus Causality) | 129 |
| Other Cool Correlations | 130 |
| Summary | 131 |
| Time to Practice | 132 |
| Answers to Practice Questions | 133 |

PART III

| | |
|--|------------|
| Taking Chances for Fun and Profit | 135 |
| 6. Hypotheticals and You: Testing Your Questions | 137 |
| So You Want to Be a Scientist . . . | 137 |
| Samples and Populations | 138 |
| The Null Hypothesis | 139 |
| The Purposes of the Null Hypothesis | 140 |
| The Research Hypothesis | 141 |
| The Nondirectional Research Hypothesis | 142 |
| The Directional Research Hypothesis | 143 |
| Some Differences Between the | |
| Null Hypothesis and the Research Hypothesis | 145 |
| What Makes a Good Hypothesis? | 146 |
| Summary | 149 |
| Time to Practice | 149 |
| Answers to Practice Questions | 149 |
| 7. Are Your Curves Normal? Probability and | |
| Why It Counts | 151 |
| Why Probability? | 151 |

| | |
|---|-----|
| The Normal Curve (a.k.a. the Bell-Shaped Curve) | 152 |
| Hey, That's Not Normal! | 153 |
| More Normal Curve 101 | 155 |
| Our Favorite Standard Score: The z Score | 159 |
| Using Excel to Compute z Scores | 161 |
| What z Scores Represent | 164 |
| What z Scores <i>Really</i> Represent | 168 |
| Hypothesis Testing and z Scores: The First Step | 169 |
| Summary | 170 |
| Time to Practice | 170 |
| Answers to Practice Questions | 171 |

PART IV

| | |
|--|------------|
| Significantly Different: Using Inferential Statistics | 173 |
| 8. Significantly Significant: What It Means for You and Me | 175 |
| The Concept of Significance | 175 |
| If Only We Were Perfect | 176 |
| The World's Most Important Table (for This Semester Only) | 178 |
| More About Table 8.1 | 179 |
| Back to Type I Errors | 180 |
| Significance Versus Meaningfulness | 182 |
| An Introduction to Inferential Statistics | 184 |
| How Inference Works | 184 |
| How to Select What Test to Use | 185 |
| Here's How to Use the Chart | 187 |
| An Introduction to Tests of Significance | 187 |
| How a Test of Significance Works: The Plan | 188 |
| Here's the Picture That's Worth a Thousand Words | 189 |
| Summary | 191 |
| Time to Practice | 191 |
| Answers to Practice Questions | 191 |
| 9. t (ea) for Two: | |
| Tests Between the Means of Different Groups | 192 |
| Introduction to the t Test for Independent Samples | 192 |
| The Path to Wisdom and Knowledge | 193 |
| Computing the Test Statistic | 195 |
| So How Do I Interpret $t_{(58)} = -.14, p > .05$? | 199 |
| And Now . . . Using Excel's TTEST Function | 200 |

| | |
|--|-----|
| Using the Amazing Data Analysis ToolPak to Compute the t Value | 202 |
| Special Effects: Are Those Differences for Real? | 205 |
| Computing and Understanding the Effect Size | 206 |
| A Very Cool Effect Size Calculator | 208 |
| Summary | 209 |
| Time to Practice | 209 |
| Answers to Practice Questions | 209 |
| 10. t (ea) for Two (Again): | |
| Tests Between the Means of Related Groups | 211 |
| Introduction to the t Test for Dependent Samples | 211 |
| The Path to Wisdom and Knowledge | 212 |
| Computing the Test Statistic | 214 |
| So How Do I Interpret $t_{(24)} = 2.45, p < .05$? | 217 |
| And Now . . . Using Excel's TTEST Function | 218 |
| Using the Amazing Data Analysis ToolPak to Compute the t Value | 220 |
| Summary | 223 |
| Time to Practice | 223 |
| Answers to Practice Questions | 224 |
| 11. Two Groups Too Many? Try Analysis of Variance | 225 |
| Introduction to Analysis of Variance | 225 |
| The Path to Wisdom and Knowledge | 226 |
| Different Flavors of ANOVA | 226 |
| Computing the F Test Statistic | 229 |
| So How Do I Interpret $F_{(2, 27)} = 8.80, p < .05$? | 236 |
| And Now . . . Using Excel's FDIST and FTEST Functions | 237 |
| Using the Amazing Data Analysis ToolPak to Compute the F Value | 237 |
| Summary | 240 |
| Time to Practice | 240 |
| Answers to Practice Questions | 242 |
| 12. Two Too Many Factors: Factorial Analysis of Variance: A Brief Introduction | 244 |
| Introduction to Factorial Analysis of Variance | 244 |
| Two Flavors of Factorial ANOVA | 245 |
| The Path to Wisdom and Knowledge | 246 |
| A New Flavor of ANOVA | 247 |

| | | |
|-----|---|-----|
| | The Main Event: Main Effects in Factorial ANOVA | 249 |
| | Even More Interesting: Interaction Effects | 251 |
| | Computing the ANOVA F Statistic | |
| | Using the Amazing Data Analysis ToolPak | 253 |
| | Summary | 257 |
| | Time to Practice | 257 |
| | Answers to Practice Questions | 257 |
| 13. | Cousins or Just Good Friends? Testing Relationships | |
| | Using the Correlation Coefficient | 259 |
| | Introduction to Testing the Correlation Coefficient | 259 |
| | The Path to Wisdom and Knowledge | 260 |
| | Computing the Test Statistic | 260 |
| | So How Do I Interpret $r_{(27)} = .393, p < .05$? | 265 |
| | Causes and Associations (Again!) | 266 |
| | Significance Versus | |
| | Meaningfulness (Again, Again!) | 267 |
| | Summary | 267 |
| | Time to Practice | 267 |
| | Answers to Practice Questions | 268 |
| 14. | Predicting Who'll Win the | |
| | Super Bowl: Using Linear Regression | 270 |
| | What Is Prediction All About? | 270 |
| | The Logic of Prediction | 271 |
| | Drawing the World's Best Line (for Your Data) | 275 |
| | And Now . . . Using Excel's SLOPE Function | 278 |
| | And Now . . . Using Excel's INTERCEPT | |
| | Function | 280 |
| | How Good Is Our Prediction? | 283 |
| | The More Predictors the Better? Maybe | 284 |
| | The Big Rule When It Comes | |
| | to Using Multiple Predictor Variables | 285 |
| | Summary | 286 |
| | Time to Practice | 286 |
| | Answers to Practice Questions | 287 |
| 15. | What to Do When You're Not Normal: | |
| | Chi-Square and Some Other Nonparametric Tests | 289 |
| | Introduction to Nonparametric Statistics | 289 |
| | Introduction to One-Sample Chi-Square | 290 |
| | Computing the Chi-Square Test Statistic | 291 |

| | | |
|-----|---|-----|
| | So How Do I Interpret $\chi^2_{(2)} = 20.6, p < .05$? | 295 |
| | And Now . . . Using Excel's CHIDIST Function | 295 |
| | Other Nonparametric Tests You Should Know About | 296 |
| | Summary | 296 |
| | Time to Practice | 298 |
| | Answers to Practice Questions | 298 |
| 16. | Just the Truth: An Introduction to Understanding Reliability and Validity | 300 |
| | An Introduction to Reliability and Validity | 300 |
| | What's Up With This Measurement Stuff? | 301 |
| | All About Measurement Scales | 302 |
| | A Rose by Any Other Name: | |
| | The Nominal Level of Measurement | 303 |
| | Any Order Is Fine With Me: | |
| | The Ordinal Level of Measurement | 303 |
| | 1 + 1 = 2: The Interval Level of Measurement | 303 |
| | Can Anyone Have Nothing of Anything? The Ratio Level of Measurement | 304 |
| | In Sum . . . | 304 |
| | Reliability—Doing It Again Until You Get It Right | 305 |
| | Test Scores—Truth or Dare | 305 |
| | Observed Score = True Score + Error Score | 306 |
| | Different Types of Reliability | 307 |
| | How Big Is Big? | |
| | Interpreting Reliability Coefficients | 313 |
| | Just One More Thing | 314 |
| | Validity—Whoa! What Is the Truth? | 314 |
| | Different Types of Validity | 315 |
| | A Last, Friendly Word | 318 |
| | Validity and Reliability: Really Close Cousins | 319 |
| | Time to Practice | 320 |
| | Answers to Practice Questions | 320 |
| 17. | Some Other (Important) Statistical Procedures You Should Know About | 321 |
| | Multivariate Analysis of Variance | 321 |
| | Repeated Measures Analysis of Variance | 322 |
| | Analysis of Covariance | 323 |
| | Multiple Regression | 323 |
| | Factor Analysis | 324 |
| | Path Analysis | 325 |
| | Structural Equation Modeling | 325 |
| | Summary | 326 |

| | |
|---|-----|
| 18. A Statistical Software Sampler | 327 |
| Selecting the Perfect Statistics Software | 328 |
| What's Out There | 329 |
| The Free Stuff | 330 |
| Time to Pay | 332 |
| Summary | 335 |

PART V

Ten Things You'll Want to Know and Remember 337

| | |
|--|-----|
| 19. The Ten (or More) Best Internet Sites for Statistics Stuff | 339 |
| Tons and Tons of Resources | 339 |
| Calculators Galore! | 340 |
| Who's Who and What's Happened | 341 |
| It's All Here | 341 |
| HyperStat | 341 |
| Data? You Want Data? | 342 |
| More and More and More and More Resources | 343 |
| Plain, But Fun | 343 |
| How About Studying Statistics in Stockholm? | 343 |
| Online Statistical Teaching Materials | 344 |
| More and More and More Stuff | 344 |
| 20. The Ten Commandments of Data Collection | 345 |

Appendix A: Excel-erate Your Learning: All You Need to Know About Excel 350

Appendix B: Tables 356

Appendix C: The Data Sets 371

Glossary 380
