Introduction xiii

- Setting the context xv
- The research hierarchy xv
- Overview of contents xvii

Part 1 Starting the research process 1

1 Major research paradigms 5

- Introduction 5
- Positivist research 6
- Postpositivism 9
- Interpretivist research 11
- Qualitative or quantitative methodology? 13
- Qualitative research design 14
- Quantitative research design 17
- Criteria for judging research 18
- Establishing trustworthiness in qualitative research 20
- Establishing rigour in quantitative research 21
- Summary 22
- Practical exercise 22
- Suggested further reading 23

2 Reviewing literature 25

- Introduction 25
- Information searching and retrieval 26
- Evaluation 28
- Critical analysis 29
- Synthesizing the research: developing a theoretical framework 32
- Summary 35
- Practical exercise 36
- Suggested further reading 37

3 Defining the research 39

- Introduction 39
- Designing a conceptual framework 40
- The research hypothesis 41
- Research aims and objectives 44
- Summary 47
- Practical exercise 47
- Suggested further reading 48

4 The research proposal 49

- Why write a proposal? 49
- Structure of a research proposal 50
- The proposal as a research framework 56
- Summary 57
- Practical exercise 57
- Suggested further reading 58

5 Sampling 59

- Why sample? 59
- Population and sample 60
- Probability sampling 61
- Purposive sampling 64
- Summary 66
- Practical exercise 67
- Suggested further reading 69

6 Ethics in research 71

- Introduction 71
- Gaining access to the field 72
- Informed consent 74
- Anonymity or confidentiality? 77
- Protecting participants 77
- Ethics online 78
- Summary 79
- Practical exercise 79
- Suggested further reading 80

Part 2 Research methods 81

7 Case studies 85

- Introduction 85
- Phases in case study research 87
- Summary 93

- Practical exercise 94
- Suggested further reading 94

8 Surveys 95

- Introduction 95
- Descriptive surveys 96
- Explanatory surveys 97
- The survey process 97
- Summary 100
- Practical exercise 101
- Suggested further reading 102

9 Experimental research 103

- Introduction 103
- The nature of causality 104
- The true experiment 105
- Quasi-experimental design: the 'effects study' 107
- Summary 109
- Practical exercise 109
- Suggested further reading 109

10 Ethnography 111

- Introduction 111
- Components of ethnographic study 113
- Virtual ethnography 120
- Ethics in ethnography 121
- Summary 121
- Practical exercise 122
- Suggested further reading 123

11 Delphi study 125

- Introduction 125
- The Delphi process 126
- Rules of a Delphi study 128
- Modifying a Delphi study 129
- Delphi studies and new technologies 129
- Summary 130
- Practical exercise 131
- Suggested further reading 131

12 Action research 133

- Introduction 133
- The action research cycle 134

- Trustworthiness in action research 138
- Action research as reflective practice 140
- Summary 140
- Practical exercise 141
- Suggested further reading 141

13 Historical research 143

- Introduction 143
- The research process 145
- Summary 152
- Practical exercise 152
- Suggested further reading 153

14 Grounded theory: method or analysis? 155

- Introduction 155
- Defining grounded theory 156
- Summary 162
- Practical exercise 163
- Suggested further reading 163

Part 3 Data collection techniques 165

15 Interviews 171

- Introduction 171
- What is the purpose of an interview? 172
- The seven stages of the interview process 172
- Online interviewing 179
- Summary 181
- Practical exercise 181
- Suggested further reading 182

16 Questionnaires 183

- Introduction 183
- Designing questionnaires 184
- Developing questions 186
- Scale items 187
- Forms of questionnaire 198
- Summary 199
- Practical exercise 200
- Suggested further reading 200

17 Observation 201

- Introduction 201
- The role of the observer 202

- Recording what you see; going in with signposts 207
- Summary 207
- Practical exercise 208
- Suggested further reading 209

18 Diaries 211

- Introduction 211
- The purpose of diaries in research 212
- Participant diaries 212
- The researcher's log 214
- Structure and recording 215
- Summary 216
- Practical exercise 217
- Suggested further reading 217

19 Focus groups 219

- Introduction 219
- The purpose of a focus group 219
- Organizing a focus group 221
- Online focus groups 222
- Summary 224
- Practical exercise 224
- Suggested further reading 225

20 Usability testing 227

- Introduction 227
- User tests 227
- Cognitive walkthroughs 229
- Heuristic evaluation 231
- Summary 233
- Practical exercise 234
- Suggested further reading 234

Part 4 Data analysis and research presentation 235

21 Qualitative analysis 239

- Introduction 239
- Phenomenological strategies 240
- Ethnographic methods 240
- Narrative and discourse analysis 241
- Constant comparative analysis 241
- Memo writing 245
- Presenting qualitative findings 245
- Summary 249

- Practical exercise 249
- Suggested further reading 249

22 Quantitative analysis 251

- Introduction 251
- Levels of measurement 252
- Frequency distribution 253
- Cross-tabulation 254
- Measure of central tendency 256
- Measures of dispersion 259
- Correlation 261
- Displaying data 261
- Testing for statistical significance 267
- Summary 270
- Practical exercise 271
- Suggested further reading 275

23 An overview of software for analysis 277

- Introduction 277
- Quantitative analysis 277
- Qualitative analysis 279
- Summary 281
- Suggested further reading 281

24 Presenting the research 283

- Introduction 283
- Planning the final report 284
- Form and structure 284
- Summary 288
- Suggested further reading 288

Part 5 Glossary and references 289

Glossary of research terms 291
