## PART I

### Basic Medical Microbiology

---

- Chapter 1 **Microbial Taxonomy, 2**  
 Classification, 2  
 Nomenclature, 2  
 Identification, 3
- Chapter 2 **Bacterial Genetics, Metabolism, and Structure, 5**  
 Bacterial Genetics, 5  
 Bacterial Metabolism, 17  
 Structure and Function of the Bacterial Cell, 21
- Chapter 3 **Host-Microorganism Interactions, 26**  
 The Encounter between Host and Microorganism, 26  
 Microorganism Colonization of Host Surfaces, 28  
 Microorganism Entry, Invasion, and Dissemination, 32  
 Outcome and Prevention of Infectious Diseases, 40

## PART II

### GENERAL PRINCIPLES IN CLINICAL MICROBIOLOGY

---

#### SECTION 1: SAFETY AND SPECIMEN MANAGEMENT

- Chapter 4 **Laboratory Safety, 45**  
 Chemical Safety, 47  
 Fire Safety, 48  
 Electrical Safety, 49  
 Handling of Compressed Gases, 49  
 Biosafety, 49  
 Exposure Control Plan, 51  
 Employee Education and Orientation, 51  
 Disposal of Hazardous Waste, 51  
 Standard Precautions, 52  
 Engineering Controls, 54

Classification of Biologic Agents Based on Hazard, 57  
 Mailing Biohazardous Materials, 58

- Chapter 5 **Specimen Management, 62**  
 General Concepts for Specimen Collection and Handling, 62  
 Specimen Workup, 76

#### SECTION 2: APPROACHES TO DIAGNOSIS OF INFECTIOUS DISEASES

- Chapter 6 **Role of Microscopy, 78**  
 Bright-Field (Light) Microscopy, 78  
 Phase Contrast Microscopy, 85  
 Fluorescent Microscopy, 86  
 Dark-Field Microscopy, 90  
 Electron Microscopy, 91
- Chapter 7 **Traditional Cultivation and Identification, 93**  
 Principles of Bacterial Cultivation, 93  
 Bacterial Cultivation, 103  
 Principles of Identification, 105  
 Principles of Phenotype-Based Identification Schemes, 113  
 Commercial Identification Systems, 117  
 Chromatography, 119
- Chapter 8 **Nucleic Acid–Based Analytic Methods for Microbial Identification and Characterization, 120**  
 Overview of Molecular Methods, 120
- Chapter 9 **Immunochemical Methods Used for Organism Detection, 147**  
 Production of Antibodies for Use in Laboratory Testing, 147  
 Principles of Immunochemical Methods Used for Organism Detection, 148

- Chapter 28 *Vibrio, Aeromonas, Plesiomonas, and Chromobacterium*, 371  
 General Characteristics, 371  
 Epidemiology, 371  
 Pathogenesis and Spectrum of Disease, 371  
 Laboratory Diagnosis, 373  
 Antimicrobial Susceptibility Testing and Therapy, 378  
 Prevention, 378
- SECTION 9: GRAM-NEGATIVE BACILLI AND COCCOBACILLI (MACCONKEY-NEGATIVE, OXIDASE-POSITIVE)**
- Chapter 29 *Sphingomonas paucimobilis* and Similar Organisms, 380  
 General Considerations, 380  
 Epidemiology, Spectrum of Disease, and Antimicrobial Therapy, 380  
 Laboratory Diagnosis, 380  
 Prevention, 382
- Chapter 30 *Moraxella*, 384  
 General Characteristics, 384  
 Epidemiology, Spectrum of Disease, and Antimicrobial Therapy, 384  
 Laboratory Diagnosis, 384  
 Prevention, 387
- Chapter 31 *Eikenella* and Similar Organisms, 389  
 General Characteristics, 389  
 Epidemiology, Spectrum of Disease, and Antimicrobial Therapy, 389  
 Laboratory Diagnosis, 389  
 Prevention, 392
- Chapter 32 *Pasteurella* and Similar Organisms, 393  
 General Characteristics, 393  
 Epidemiology, Spectrum of Disease, and Antimicrobial Therapy, 393  
 Laboratory Diagnosis, 393  
 Prevention, 396
- Chapter 33 *Actinobacillus, Kingella, Cardiobacterium, Capnocytophaga, and Similar Organisms*, 397  
 General Characteristics, 397  
 Epidemiology, Spectrum of Disease, and Antimicrobial Therapy, 397
- Laboratory Diagnosis, 397  
 Prevention, 402
- SECTION 10: GRAM-NEGATIVE BACILLI AND COCCOBACILLI (MACCONKEY-NEGATIVE, OXIDASE-VARIABLE)**
- Chapter 34 *Haemophilus*, 403  
 General Characteristics, 403  
 Epidemiology, 403  
 Pathogenesis and Spectrum of Disease, 403  
 Laboratory Diagnosis, 403  
 Antimicrobial Susceptibility Testing and Therapy, 407  
 Prevention, 409
- SECTION 11: GRAM-NEGATIVE BACILLI THAT ARE OPTIMALLY RECOVERED ON SPECIAL MEDIA**
- Chapter 35 *Bartonella* and *Afipia*, 410  
*Bartonella*, 410  
*Afipia felis*, 414
- Chapter 36 *Campylobacter, Arcobacter, and Helicobacter*, 416  
*Campylobacter* and *Arcobacter*, 416  
*Helicobacter*, 421
- Chapter 37 *Legionella*, 424  
 General Characteristics, 424  
 Epidemiology and Pathogenesis, 424  
 Spectrum of Disease, 425  
 Laboratory Diagnosis, 426  
 Antimicrobial Susceptibility Testing and Therapy, 428  
 Prevention, 428
- Chapter 38 *Brucella*, 430  
 General Characteristics, 430  
 Epidemiology and Pathogenesis, 430  
 Spectrum of Disease, 431  
 Laboratory Diagnosis, 431  
 Antimicrobial Susceptibility Testing and Therapy, 433  
 Prevention, 433

- Chapter 39 ***Bordetella pertussis* and *Bordetella parapertussis*, 435**  
 General Characteristics, 435  
 Epidemiology and Pathogenesis, 435  
 Spectrum of Disease, 435  
 Laboratory Diagnosis, 436  
 Antimicrobial Susceptibility Testing and Therapy, 438  
 Prevention, 438
- Chapter 40 ***Francisella*, 440**  
 General Characteristics, 440  
 Epidemiology and Pathogenesis, 440  
 Spectrum of Disease, 440  
 Laboratory Diagnosis, 440  
 Antimicrobial Susceptibility Testing and Therapy, 442  
 Prevention, 442
- Chapter 41 ***Streptobacillus moniliformis* and *Spirillum minus*, 444**  
*Streptobacillus moniliformis*, 444  
*Spirillum minus*, 445
- SECTION 12: GRAM-NEGATIVE COCCI**
- Chapter 42 ***Neisseria* and *Moraxella catarrhalis*, 447**  
 General Characteristics, 447  
 Epidemiology, 447  
 Pathogenesis and Spectrum of Disease, 447  
 Laboratory Diagnosis, 447  
 Antimicrobial Susceptibility Testing and Therapy, 452  
 Prevention, 452
- SECTION 13: ANAEROBIC BACTERIOLOGY**
- Chapter 43 **Overview and General Considerations, 455**  
 General Characteristics, 455  
 Epidemiology, 455  
 Pathogenesis and Spectrum of Disease, 456  
 Specimen Collection and Transport, 457  
 Anaerobic Media, 459  
 Prevention, 461
- Chapter 44 **Laboratory Considerations, 463**  
 Macroscopic Examination of Specimens, 463  
 Direct Detection Methods, 463  
 Cultivation, 463  
 Approach to Identification, 466  
 Antimicrobial Susceptibility Testing and Therapy, 476
- SECTION 14: MYCOBACTERIA AND OTHER BACTERIA WITH UNUSUAL GROWTH REQUIREMENTS**
- Chapter 45 **Mycobacteria, 478**  
*Mycobacterium tuberculosis* Complex, 478  
 Nontuberculosis Mycobacteria, 481  
 Laboratory Diagnosis of Mycobacterial Infections, 486  
 Antimicrobial Susceptibility Testing and Therapy, 505  
 Prevention, 508
- Chapter 46 **Obligate Intracellular and Nonculturable Bacterial Agents, 510**  
*Chlamydia*, 510  
*Rickettsia*, *Orientia*, *Anaplasma*, and *Ehrlichia*, 518  
*Coxiella*, 521  
*Tropheryma whipplei*, 522  
*Calymatobacterium granulomatis*, 522
- Chapter 47 **Cell Wall–Deficient Bacteria: *Mycoplasma* and *Ureaplasma*, 525**  
 General Characteristics, 525  
 Epidemiology and Pathogenesis, 525  
 Spectrum of Disease, 526  
 Laboratory Diagnosis, 526  
 Susceptibility Testing and Therapy, 529  
 Prevention, 532
- Chapter 48 **The Spirochetes, 533**  
*Treponema*, 533  
*Borrelia*, 536  
*Leptospira*, 539

## PART IV Parasitology

---

- Chapter 49 **Laboratory Methods for Diagnosis of Parasitic Infections, 543**
- General Characteristics, 544
  - Epidemiology, 544
  - Pathogenesis and Spectrum of Disease, 547
  - Laboratory Diagnosis, 558
  - Approach to Identification, 564
  - Organism Identification, 578
  - Antimicrobial Susceptibility Testing and Therapy, 613
  - Prevention, 615

## PART V Mycology

---

- Chapter 50 **Laboratory Methods in Basic Mycology, 629**
- Overview of Clinical Mycology, 629
  - General Features of the Fungi, 629
  - Taxonomy of the Fungi, 632
  - Practical Classification of the Fungi, 634
  - Virulence Factors of the Medically Important Fungi, 636
  - General Considerations for the Laboratory Diagnosis of Fungal Infections, 642
  - Extent of Identification of Fungi Recovered from Clinical Specimens, 645
  - General Considerations for the Identification of Molds, 653
  - General Morphologic Features of the Molds, 657
  - Hyaline, Pauciseptate Molds: The Zygomycetes, 660
  - Hyaline, Septate, Monomorphic Molds: The Dermatophytes, 662
  - Hyaline, Septate, Monomorphic Molds: The Opportunistic Mycoses, 669
  - Hyaline, Septate, Dimorphic Molds: Systemic Mycoses, 674
  - Septate, Dematiaceous Molds, 683
  - Pneumocystis jiroveci* (an Atypical Fungus), 695

- The Yeasts, 696
- Commercially Available Yeast Identification Systems, 702
- Conventional Yeast Identification Methods, 703
- Antimicrobial Susceptibility Testing and Therapy, 704
- Antifungal Susceptibility Testing, 709

## PART VI Virology

---

- Chapter 51 **Laboratory Methods in Basic Virology, 718**
- General Characteristics, 718
  - Viruses That Cause Human Diseases, 721
  - Laboratory Diagnosis of Viral Infection, 735
  - Prevention of Viral Infection, 767

## PART VII Diagnosis by Organ System

---

- Chapter 52 **Bloodstream Infections, 778**
- General Considerations, 778
  - Detection of Bacteremia, 784
  - Special Considerations for Other Relevant Organisms Isolated from Blood, 794
- Chapter 53 **Infections of the Lower Respiratory Tract, 798**
- General Considerations, 798
  - Diseases of the Lower Respiratory Tract, 801
  - Laboratory Diagnosis of Lower Respiratory Tract Infections, 807
- Chapter 54 **Upper Respiratory Tract Infections and Other Infections of the Oral Cavity and Neck, 814**
- Diseases of the Upper Respiratory Tract, Oral Cavity, and Neck, 814

Diagnosis of Upper Respiratory Tract Infections, 818  
Diagnosis of Infections in the Oral Cavity and Neck, 820

- Chapter 55 **Meningitis and Other Infections of the Central Nervous System, 822**  
General Considerations, 822  
Laboratory Diagnosis of Central Nervous System Infections, 827
- Chapter 56 **Infections of the Eyes, Ears, and Sinuses, 832**  
Eyes, 832  
Ears, 837  
Sinuses, 839
- Chapter 57 **Infections of the Urinary Tract, 842**  
General Considerations, 842  
Infections of the Urinary Tract, 842  
Laboratory Diagnosis of Urinary Tract Infections, 846
- Chapter 58 **Genital Tract Infections, 856**  
General Considerations, 856  
Genital Tract Infections, 856  
Laboratory Diagnosis of Genital Tract Infections, 863
- Chapter 59 **Gastrointestinal Tract Infections, 873**  
General Considerations, 873  
Gastroenteritis, 873  
Other Infections of the Gastrointestinal Tract, 883  
Laboratory Diagnosis of Gastrointestinal Tract Infections, 885
- Chapter 60 **Skin, Soft Tissue, and Wound Infections, 891**  
General Considerations, 891  
Skin and Soft Tissue Infections, 891  
Laboratory Diagnostic Procedures, 900
- Chapter 61 **Normally Sterile Body Fluids, Bone and Bone Marrow, and Solid Tissues, 904**  
Specimens from Sterile Body Sites, 904  
Laboratory Diagnostic Procedures, 909

## PART VIII

### Clinical Laboratory Management

---

- Chapter 62 **Laboratory Physical Design, Management, and Organization, 915**  
Space Requirements and Organization of Work Flow, 915  
Regulation of the Microbiology Laboratory, 918  
Selection of Diagnostic Tests, 921  
Cost Accounting, 924  
Budgeting, 926  
Inventory Control, 926  
Interviewing and Hiring Employees, 927  
Organization of the Microbiology Laboratory, 928  
Design of Laboratory Handbook for Clinical Staff, 929  
Design of Laboratory Requisition Form, 929  
Design of Laboratory Workcard, 930  
Design of Laboratory Report Form, 930  
Writing a Procedure Manual, 930  
Production of Statistical Reports, 932
- Chapter 63 **Quality in the Clinical Microbiology Laboratory, 934**  
QC Program, 934  
Specimen Collection and Transport, 934  
Standard Operating Procedure Manual (SOPM), 935  
Personnel, 935  
Reference Laboratories, 935  
Patient Reports, 935  
Proficiency Testing (PT), 935  
Performance Checks, 938  
Antimicrobial Susceptibility Tests, 938  
Maintenance of QC Records, 939  
Maintenance of Reference QC Stocks, 939  
QA Program, 940  
Q-Probes, 940  
In-House QA Audits, 940  
Conducting a QA Audit, 943  
Continuous Daily Monitoring, 943

**Chapter 64 Infection Control, 945**  
Incidence of Nosocomial Infections, 945  
Types of Nosocomial Infections, 945  
Emergence of Antibiotic-Resistant Microorganisms, 946  
Hospital Infection Control Programs, 947  
Role of the Microbiology Laboratory, 947  
Characterizing Strains Involved in an Outbreak, 948  
Preventing Nosocomial Infections, 948  
Surveillance Cultures, 950

**Chapter 65 Sentinel Laboratory Response to Bioterrorism, 953**  
General Considerations, 953  
Government Laws and Regulations, 953  
Laboratory Response Network, 954

**Appendix: Answers to Case Studies, 958**

**Glossary, 973**
