

PHILIP K.C. TSE

Multimedia Information Storage and Retrieval

Techniques and Technologies

Multimedia Information Storage and Retrieval: Techniques and Technologies

Table of Contents

Foreword.....	ix
Preface.....	xii
Acknowledgment.....	xxiii

Section I: Background

Chapter I	
Introduction.....	1

Chapter II	
Multimedia Information.....	5
<i>Introduction.....</i>	<i>5</i>
<i>Multimedia Data.....</i>	<i>5</i>
<i>Multimedia Applications.....</i>	<i>7</i>
<i>Data Representations.....</i>	<i>13</i>
<i>Multimedia Access Streams.....</i>	<i>26</i>
<i>Chapter Summary.....</i>	<i>32</i>
<i>References.....</i>	<i>32</i>

Chapter III
Storage System Architectures33
Introduction..... 33
Server Architectures..... 34
Input/Output Processors 40
Storage Devices 43
Disk Performance 49
Disk Array..... 57
Chapter Summary 59
References 60

Chapter IV
Data Compression Techniques and Standards.....61
Introduction..... 61
Compression Model 62
Text Compression..... 63
Image Compression..... 77
Video Compression..... 82
Chapter Summary 84
References 86

Section IIa:
Data Placement on Disks

Chapter V
Statistical Placement on Disks92
Introduction..... 92
Frequency Based Placement..... 93
Bandwidth Based Placement..... 97
Chapter Summary 99
References 99

Chapter VI
Striping on Disks101
Introduction..... 101
Simple Striping..... 102
Staggered Striping..... 104
Pseudorandom Placement..... 107
Chapter Summary 112
References 112

Chapter VII

Replication Placement on Disks.....	114
<i>Introduction.....</i>	<i>114</i>
<i>Replication to Increase Availability.....</i>	<i>115</i>
<i>Replication to Reduce Network Load</i>	<i>117</i>
<i>Replication to Reduce Start-Up Latency.....</i>	<i>118</i>
<i>Replication to Avoid Disk Multitasking</i>	<i>118</i>
<i>Replication to Maintain Balance of Space and Load</i>	<i>120</i>
<i>Chapter Summary</i>	<i>126</i>
<i>References</i>	<i>127</i>

Chapter VIII

Constraint Allocation on Disks	129
<i>Introduction.....</i>	<i>129</i>
<i>Phase Based Constraint Allocation</i>	<i>130</i>
<i>Region Based Constraint Allocation.....</i>	<i>133</i>
<i>Chapter Summary</i>	<i>138</i>
<i>References</i>	<i>139</i>

Section IIb:

Data Placement on Hierarchical Storage Systems

Chapter IX

Tertiary Storage Devices	145
<i>Introduction.....</i>	<i>145</i>
<i>Magnetic Tapes</i>	<i>146</i>
<i>Optical Disks.....</i>	<i>149</i>
<i>Optical Tapes</i>	<i>150</i>
<i>Robotic Tape Library</i>	<i>151</i>
<i>Performance of the Tertiary Storage Devices.....</i>	<i>153</i>
<i>Chapter Summary</i>	<i>154</i>
<i>References</i>	<i>155</i>

Chapter X

Contiguous Placement on Hierarchical Storage Systems.....	156
<i>Introduction.....</i>	<i>156</i>
<i>Contiguous Placement</i>	<i>157</i>
<i>Log Structured Placement.....</i>	<i>158</i>
<i>Chapter Summary</i>	<i>160</i>
<i>References</i>	<i>160</i>

Chapter XI

Statistical Placement on Hierarchical Storage Systems	161
<i>Introduction.....</i>	<i>161</i>
<i>Frequency Based Placement.....</i>	<i>162</i>
<i>Discussion.....</i>	<i>164</i>
<i>Chapter Summary.....</i>	<i>165</i>
<i>References.....</i>	<i>166</i>

Chapter XII

Striping on Hierarchical Storage Systems	167
<i>Introduction.....</i>	<i>167</i>
<i>Parallel Tape Striping.....</i>	<i>168</i>
<i>Performance of Parallel Tape Striping.....</i>	<i>170</i>
<i>Triangular Placement.....</i>	<i>175</i>
<i>Performance of Triangular Placement.....</i>	<i>180</i>
<i>Chapter Summary.....</i>	<i>186</i>
<i>References.....</i>	<i>186</i>

Chapter XIII

Constraint Allocation on Hierarchical Storage Systems	187
<i>Introduction.....</i>	<i>187</i>
<i>Interleaved Contiguous Placement.....</i>	<i>188</i>
<i>Concurrent Striping.....</i>	<i>198</i>
<i>Performance Analysis.....</i>	<i>203</i>
<i>Chapter Summary.....</i>	<i>205</i>
<i>References.....</i>	<i>205</i>

Section III: Disk Scheduling Methods

Chapter XIV

Scheduling Methods for Disk Requests.....	212
<i>Introduction.....</i>	<i>212</i>
<i>First-In-First-Out Method.....</i>	<i>213</i>
<i>The SCAN Algorithm.....</i>	<i>214</i>
<i>Chapter Summary.....</i>	<i>223</i>
<i>References.....</i>	<i>223</i>

Chapter XV
Feasibility Conditions of Concurrent Streams.....224
Introduction..... 224
Feasibility Condition for a Storage Device to Accept New Streams ... 228
Feasibility of Homogeneous Streams..... 230
Feasibility Condition of Heterogeneous Streams..... 233
Feasibility of Heterogeneous Streams over Multiple Storage Devices 236
Chapter Summary 239
References..... 240

Chapter XVI
Scheduling Methods for Request Streams241
Introduction..... 241
Earliest Deadline First Scheduling..... 242
The SCAN-EDF Scheduling Method..... 243
Group Sweeping Scheduling..... 249
Chapter Summary 256
References..... 257

Section IV:
Data Migration

Chapter XVII
Staging Methods.....263
Introduction..... 263
Staging Method..... 264
Performance of the Staging Method..... 267
Chapter Summary 270
References..... 271

Chapter XVIII
Time Slicing Method.....272
Introduction..... 272
Time Slicing Method..... 273
Performance..... 275
Chapter Summary 278
References..... 279

Chapter XIX

Normal Pipelining	280
<i>Introduction.....</i>	<i>280</i>
<i>The Normal Pipelining Method</i>	<i>281</i>
<i>Chapter Summary</i>	<i>288</i>
<i>References</i>	<i>288</i>

Chapter XX

Space Efficient Pipelining.....	289
<i>Introduction.....</i>	<i>289</i>
<i>The Basic Space Efficient Pipelining Algorithm.....</i>	<i>290</i>
<i>Circular Buffer Size and Start-Up Latency.....</i>	<i>295</i>
<i>Buffer Replacement Policies</i>	<i>296</i>
<i>Chapter Summary</i>	<i>298</i>
<i>References</i>	<i>298</i>

Chapter XXI

Segmented Pipelining.....	299
<i>Introduction.....</i>	<i>299</i>
<i>Segmented Pipelining.....</i>	<i>300</i>
<i>Analysis of Segmented Pipelining.....</i>	<i>302</i>
<i>Performance of Segmented Pipelining.....</i>	<i>315</i>
<i>Discussion.....</i>	<i>316</i>
<i>Chapter Summary</i>	<i>318</i>
<i>References</i>	<i>319</i>

Section V: Cache Replacement Policy

Chapter XXII

Memory Caching Methods.....	325
<i>Introduction.....</i>	<i>325</i>
<i>The Least Recently Used Method.....</i>	<i>328</i>
<i>Object Access Patterns.....</i>	<i>330</i>
<i>The Least Frequently Used Method.....</i>	<i>332</i>
<i>The LRU-Min Method.....</i>	<i>333</i>
<i>The Greedy Dual Size Method</i>	<i>335</i>
<i>The Least Unified Value Method.....</i>	<i>336</i>
<i>The Mix Method.....</i>	<i>337</i>

<i>Chapter Summary</i>	338
<i>References</i>	339
<i>Exercises</i>	340

Chapter XXIII

Stream Dependent Caching	341
<i>Introduction.....</i>	341
<i>The Resident Leader Method.....</i>	343
<i>Variable Length Segmentation.....</i>	346
<i>The Video Staging Method.....</i>	349
<i>The Hotspot Caching Method.....</i>	352
<i>Interval Caching</i>	354
<i>Layered Based Caching.....</i>	357
<i>The Cost Based Method for Wireless Networks.....</i>	362
<i>Chapter Summary</i>	365
<i>References</i>	366

Chapter XXIV

Cooperative Web Caching.....	368
<i>Introduction.....</i>	368
<i>Hierarchical Web Caches.....</i>	370
<i>Front and Rear Partitioning</i>	372
<i>Directory Based Cooperation</i>	374
<i>Hash Based Cooperation</i>	377
<i>The Multiple Hotspot Caching Method.....</i>	378
<i>Chapter Summary</i>	381
<i>References</i>	381
