

PROCEEDINGS OF THE
FIRST THAILAND SYMPOSIUM ON

ROCK MECHANICS

K. Fuenkajorn
N. Phien-wej

EDITORS

Table of contents

Preface	V
Committee	VII
Advisory committee	VII
Sponsors of the Symposium	IX

Keynote lectures

Integration of rock mechanics and geology when designing the Udon South sylvinitic mine <i>K. Crosby</i>	3
Ground control management plan and risk management of open cut excavations <i>K. Grohs</i>	23
Roles and practice of rock mechanics in Thailand <i>N. Phienvej</i>	57
Lessons (never) learnt from rock slope stability in irrigation projects <i>T. Harnpattananpanich</i>	67

Technical papers

Influence of water content on and relationship between strength and creep behaviors of soft rock – experimental characterization <i>P. Jongpradist & H. Horii</i>	79
Real-time blocks visualization at tunnel face by using cutting forces <i>C. Leelasukseree</i>	93

Mechanical properties of Maha Sarakham salt as affected by inclusions <i>T. Kensakoo, D. Phueakphum & K. Fuenkajorn</i>	103
A prediction method for time-dependent land subsidence area over room-and-pillar mining <i>N. Phien-wej & T. Suwanishwong</i>	119
Estimation of triaxial compressive strength of rocks using modified point load testing <i>P. Tepnarong</i>	143
Slake durability index and strength testing of some rocks in Thailand <i>T. Sri-in & K. Fuenkajorn</i>	145
End effect on strength and stiffness of Maha Sarakham siltstone specimens <i>D. Phueakphum & T. Sri-in</i>	161
Stress-path dependency of rock salt <i>M. Jandakaew</i>	171
Force analysis on supporting structure in foundation excavation <i>C. Xiuwen, L. Yuanfang & Q. Ying</i>	189
Prediction of joint shear strength of ten rock types using field-identified parameters <i>R. Kemthong & K. Fuenkajorn</i>	195
Preliminary study of geomechanical performance of Maha Sarakham salt for nuclear waste repository <i>K. Klayvimut, K. Wetchasat & K. Fuenkajorn</i>	211
Simulation of rock slope failure using physical model <i>P. Pangpetch & K. Fuenkajorn</i>	227
Design process for sealing of boreholes in rock mass <i>K. Fuenkajorn</i>	245
Application of combination of bench and chamber blasting for stones pit in Zeya reservoir <i>H. Zhou & S. Yue</i>	253
Results of drilling to study occurrence of salt cavities and salt subsidence Ban Nonsabaeng and Ban Nong Kwang, Sakhon Nakhon <i>P. Jenkunawat</i>	257

Application of geostatistical simulation to petroleum reservoir characterization <i>J. Srisuriyon & S. Pumjan</i>	275
Verifications of rock slope rating (RSR) and slope mass rating (SMR) systems <i>S. Kamutchat, T. Sri-in & K. Fuenkajorn</i>	285
The use of ultrasonic and seismic waves to evaluate engineering properties of weathered sandstones <i>L. Wannakao, P. Wannakao, W. Youngme & I. Rasuwan</i>	299
Subsidence models in salt production area <i>L. Wannakao & C. Walsri</i>	311
Author index	323
