

# problem-orientated clinical microbiology and infection

**SECOND EDITION**

Hilary Humphreys  
William L. Irving

# Contents

N.B. Throughout the book undergraduate material is presented in blue; postgraduate material in red. **UG** indicates cases which contain predominantly undergraduate material (but may also contain postgraduate material). **PG** indicates cases which are primarily aimed at postgraduates (but also contain material which will be useful to undergraduates). See 'How to use this book' on p. *xv* for more information.

**How to use this book** *xv*

**List of abbreviations** *xvii*

## SECTION 1
