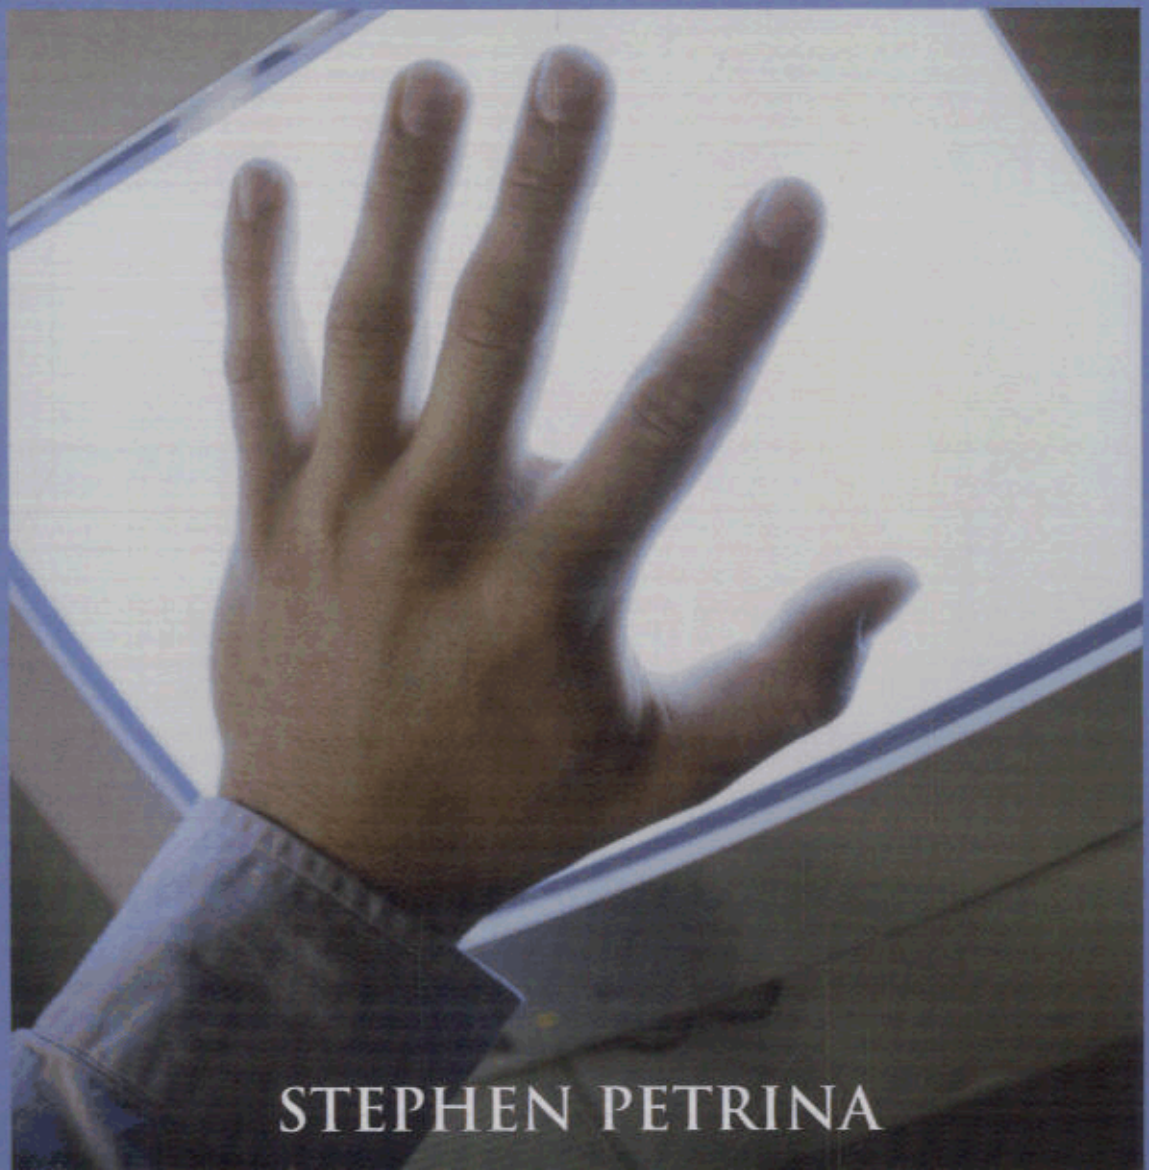
Advanced Teaching Methods FOR THE Technology Classroom



STEPHEN PETRINA

Advanced Teaching Methods for the Technology Classroom

Table of Contents

Preface ix

Section I
Analyzing and Designing Technology-Based Instruction

Chapter I
Communicating and Planning for Instruction 1
Introduction 1
Characteristics of an Effective Teacher 2
Communication 3
Audience Analysis 4
Preparation 5
Feedback 9
Reflection 10
Presentation Media and Communication Technology 11
Demonstrations 14
Lesson Plans 17
Projection and Reflective Practice 24
References 24

Chapter II
Organizing Knowledge for Instruction 26
Introduction 26
Intelligence 27
Knowledge 29
Cognitive Skills: Reasoning 31
Procedural Knowledge: Know How 34
Propositional Knowledge: Know Why, What, When, Who, and Where 36
Integrating Knowledge 37
Organizing Knowledge for Instruction 38
Procedural Knowledge: Procedure Sheets 39
Propositional Knowledge: Images 42
Technological Literary Dispatch 54
References 56

Chapter III
Feelings, Values, Ethics, and Skills 58
Introduction 58
Technology and Emotions 59
Emotional Labor 63
Emotional Intelligence 65
Technology, Emotions, and Skills 66
Technology, Values, and Skills 69
Models of Moral Development 73
Technology and Ethics 75
Skill Acquisition 80
Enhancing Skill Acquisition 86
Projection and Reflective Practice 88
References 89

Chapter IV
Instructional Methods and Learning Styles 91
Introduction 91
Instructional Systems 92
Teaching Methods 93
Controversial Issues 99
Debriefing 108
Research Methods 108
Teaching Styles 112
Personality Types 113
Learning Styles 115
References 121

Chapter V
Creativity and Ingenuity, Design, and Problem-Solving 123
Introduction 123
Creativity, Imagination, and Ingenuity 124
Design 127
Design Briefs 147
References 153

Section II
Analyzing and Designing Technology-Based Curriculum

Chapter VI
Learning Theory, Technology and Practice 154
Introduction 154
Head, Heart, Hand, and Feet 155
Feeling and Knowing Issue from Doing 157
Dewey's Theory of Experience 162
Kolb's Theory of Experience 163
Dale's Cone of Experience 165
Modes of Learning with Technology 168
Learning Theories 172
Behaviorism 173
Piaget and Cognitive Development 174
Constructivism 175
Situated Cognition 176
Activity Theory 179
Distributed Cognition 180
References 184

Chapter VII
Justifying Technology Studies 186
Introduction 186
Significance of Technology 188
Technological Literacy 190
Technological Capability 193
Critical Technological Literacy 196
Gender Equity 199
Character Values 203
Integration 205
Employability Skills 207
Tech Prep and Technical Trades 210

Appropriate Technology and Ecodesign 212
Craft, Design, and Engineering 214
Projection and Reflective Practice 218
References 219

Chapter VIII
Technology Content, Process, and Standards 223
Introduction 223
Technology Content 224
Technology Content and Standards 225
Technology Content, Standards, and Benchmarks 231
Task Analysis 235
Processes as Content 238
Imperatives of Technology Content 248
References 249

Chapter IX
Curriculum and Instructional Design 251
Introduction 251
Curriculum Design and Theory 252
Instructional Design and Theory 256
Normative Units 267
Modules 270
Delivery Systems 271
Course Design: Putting it all Together 272
Example 1 273
Copyright for C&I and Academic Freedom 274
Projection and Reflective Practice 276
References 276

Section III
Implementing and Evaluating Curriculum and Instruction

Chapter X
Assessment and Evaluation 280
Introduction 280
Assessment in Technology Studies 281
Projects 283
Authentic Assessment 285
Portfolio Assessment 287
Performance Assessment 289
Criterion-Referenced Assessment and Rubrics 290

Problem-Solving 295
Tests and Measurements 297
Grade Inflation 312
Questionnaires and Scales of Technological Literacy 313
Evaluation 315
Projection and Reflective Practice 319
References 320

Chapter XI
Classroom Management, Facilities Design and Safety 322
Introduction 322
Components of Professional Practice 323
Code of Ethics 324
Managing Students and Facilities in Technology Studies 325
Setting the Tone 328
Humor 330
Gender, Sexuality, and Diversity 333
Critical Incidents of Behavior 340
Classroom Incivilities 342
Violence, Bullying, and Hazing 343
At-Risk Special Needs Students 345
Learning Disabilities 349
Assistive Technology 350
Safety 352
Liability 355
Class Size 357
Facilities Design and Management 358
Facility Evaluation 365
Ergonomics of Labs and Workshops 365
Budgets and Inventories 366
Projection and Reflective Practice 368
References 369

Glossary 373

About the Author 390
