<b>Foreword</b> .....	xi
<b>Preface</b> .....	xv
<b>Acknowledgments</b> .....	xxiii
<b>The Author</b> .....	xxv
<b>1 Introduction</b> .....	<b>1</b>
1.1 Overview.....	1
1.1.1 IT and Business Focus.....	2
1.1.2 It Is More Than Technology.....	5
1.1.3 Globalization.....	7
1.1.4 Extended, Virtual, Real-Time, and Resilient.....	11
1.1.5 Narrowing the Gap between IT and Business.....	15
1.2 Reengineering Business Process Reengineering: Changing the Nature of Change.....	18
1.2.1 Built to Change.....	21
1.2.2 The Servant Leader.....	23
1.3 Service Oriented Enterprise.....	26
1.3.1 Governed by Enterprise Performance Management.....	28
1.3.2 Driven by Business Process Management.....	31
1.3.3 Founded on the Service Oriented Architecture.....	36
1.4 Can We Dream?.....	42
1.5 Conclusion.....	46
Notes.....	48
<b>2 Service Oriented Methodologies</b> .....	<b>51</b>
2.1 Introduction.....	51
2.1.1 Methodologies.....	52
2.1.2 Why Should We Analyze and Design?.....	56
2.1.3 Analysis and Design with a Twist of Service Orientation.....	57
2.2 Service Development Life Cycle.....	60
2.3 Enterprise Architectures.....	66
2.4 Model-Driven Architecture.....	72
2.4.1 Metamodels.....	75

2.5	Service Oriented Analysis and Design .....	77
2.5.1	Use Case .....	78
2.5.2	Service Messaging and Interactions .....	82
2.5.3	Activity Diagram.....	85
2.5.4	Sequence Diagrams .....	86
2.5.5	State Transition Diagrams.....	87
2.5.6	Component Diagrams.....	89
2.5.7	Class Diagram.....	90
2.6	SOA Methodology .....	93
2.6.1	Service Discovery.....	94
2.6.2	Iterative Methodology.....	95
2.6.2.1	Continuous Improvement Methodology for Service Providers .....	96
2.6.2.2	Continuous Improvements for Service Consumers .....	100
2.7	Maturity Model for SOA .....	101
2.7.1	Maturity Model for Service Oriented Enterprises .....	103
2.8	Summary .....	107
	Notes .....	108

### **3 Service Definition, Discovery, and Deployment.....111**

3.1	Introduction .....	111
3.2	Focusing on UDDI+WSDL+SOAP .....	114
3.3	Service Registries: UDDI .....	116
3.3.1	Beyond Search Engines .....	117
3.3.2	Enabling External and Internal Integration .....	118
3.3.3	UDDI in the Web Services Stack.....	119
3.3.4	Organization of UDDI Registries.....	120
3.3.5	UDDI Business Registry Operators .....	121
3.3.6	UDDI Elements .....	122
3.3.6.1	Business Entity.....	122
3.3.6.2	Business Service .....	124
3.3.6.3	Binding Templates.....	124
3.3.7	Classification Schemes .....	125
3.3.8	Business Identifiers .....	127
3.3.9	Accessing UDDI Registries through SOAP Exchanges .....	127
3.4	Service Description: WSDL .....	129
3.4.1	Client and Server Processes for WSDL .....	132
3.4.1.1	Service Provider Process .....	134
3.4.1.2	Service Requestor Process .....	136
3.4.2	<definitions> .....	138
3.4.3	<import> .....	138
3.4.4	<type>.....	139
3.4.5	<message>.....	139
3.4.6	<operation>.....	140
3.4.7	<portType>.....	141
3.4.8	Binding .....	141
3.4.9	SOAP binding.....	142

3.4.9.1	Styles .....	142
3.4.9.2	<soap:operation>.....	142
3.4.9.3	<soap:body>.....	143
3.4.9.4	SOAP Encoding .....	143
3.5	SOAP .....	144
3.5.1	Overview of SOAP Elements and Message Structure .....	149
3.5.2	HTTP: The Leading SOAP Protocol .....	150
3.5.3	SOAP Architecture .....	153
3.5.4	SOAP Elements .....	154
3.5.4.1	SOAP Envelope .....	154
3.5.4.2	SOAP Header.....	156
3.5.4.3	SOAP Body .....	157
3.5.4.4	SOAP Faults .....	157
3.6	Summary .....	158
	Notes .....	159
<b>4</b>	<b>Service Oriented Architectures .....</b>	<b>163</b>
4.1	Introduction .....	163
4.1.1	Service Stacks.....	165
4.1.2	Service Architecture .....	168
4.2	SOA and Web Services .....	172
4.2.1	Browser-Based and Browserless Access to Web Sites .....	174
4.3	Service Oriented Programming.....	176
4.3.1	What Are Services?.....	178
4.3.2	Service Requestors and Providers over Heterogeneous Platforms .....	182
4.3.3	Call Sequence in a Web Service Invocation .....	183
4.3.4	The SOAP Engine .....	186
4.4	SOA in Distributed Architectures.....	188
4.4.1	Distributed Brokered Service Integration .....	192
4.4.2	Distributed Transactions .....	194
4.4.2.1	Two-Phase Commit Protocol.....	195
4.4.2.2	Distributed Transactions and Web Services .....	196
4.5	Enterprise Service Bus.....	201
4.5.1	Java Business Integration .....	211
4.5.2	Service Component Architecture.....	215
4.5.2.1	SCDL.....	218
4.5.2.2	Service Data Objects .....	218
4.6	Summary .....	220
	Notes .....	221
<b>5</b>	<b>Business Process Management.....</b>	<b>223</b>
5.1	Overview .....	224
5.1.1	The Only Constant Is Change .....	225
5.1.2	BPM as a Platform (Software Product) Category .....	227
5.1.3	Three Types of Processes.....	229
5.2	Evolution of Business Process Management Suites .....	233
5.3	BPM Primer.....	238

5.3.1	Business Process Modeling and Analysis .....	238
5.3.2	The Ubiquitous Activity (Task) .....	242
5.3.3	Participants .....	242
5.3.4	Process Data .....	244
5.3.5	Business Rules .....	245
5.3.5.1	Business Rules Driving Business Processes .....	249
5.3.6	Process Definitions .....	252
5.3.7	Enterprise Integration .....	257
5.3.8	Business-to-Business Integration .....	258
5.3.9	Orchestration and Choreography .....	258
5.3.10	Process Instances .....	260
5.3.11	Monitoring Performance of Processes .....	261
5.3.12	Process Portals .....	265
5.3.12.1	Portlets .....	266
5.3.12.2	Portals and Business Process Management .....	267
5.4	BPM Reference Architectures .....	269
5.4.1	The WfMC Reference Architecture .....	270
5.4.2	Doculabs' BPM Reference Architecture .....	272
5.5	BPM Methodologies .....	273
5.5.1	EPM, BPM Systems, and SOA/ESB .....	281
5.6	Business Process Standards .....	285
5.6.1	BPMN .....	287
5.6.2	XML Processing Description Language .....	292
5.6.3	Business Process Execution Language .....	293
5.6.3.1	WS-BPEL and WSDL .....	294
5.6.3.2	Process .....	295
5.6.3.3	Variables .....	299
5.6.3.4	Activities .....	299
5.6.3.5	Receive, Invoke, and Reply .....	301
5.6.3.6	Structured Activities .....	301
5.6.3.7	Correlation Sets .....	302
5.6.3.8	Scopes .....	303
5.6.3.9	Fault Handling .....	303
5.6.3.10	Compensation .....	303
5.6.4	WS-CDL .....	304
5.7	Summary .....	306
	Notes .....	307
<b>6</b>	<b>Service Quality and Management .....</b>	<b>309</b>
6.1	Introduction .....	310
6.2	Defining Quality of Service .....	311
6.2.1	QoS in Service Orientation .....	313
6.3	Services Performance and Benchmarking .....	316
6.3.1	Networking .....	316
6.3.2	XML .....	318
6.3.3	SOAP Performance .....	320
6.3.4	Multi-Tier Architecture .....	323

6.3.5	Internet Performance .....	325
6.3.6	Web Server Cluster.....	326
6.3.7	Application Servers .....	328
6.3.7.1	BPM Systems, ESBs, and Application Servers.....	329
6.3.7.2	Benchmarking Application Servers .....	329
6.3.7.3	Application Server Clustering and Scalability .....	331
6.3.8	Business Process Management Systems .....	332
6.3.9	Database Management Systems .....	334
6.4	Service Reliability.....	337
6.4.1	Reliable Messaging.....	338
6.4.2	WS-ReliableMessaging .....	338
6.4.3	WS-Reliability .....	339
6.5	Service Security.....	341
6.5.1	Security over HTTP .....	341
6.5.2	SOAP Intermediaries.....	342
6.5.3	OASIS and the World Wide Web Consortium Standards.....	343
6.5.4	XML Encryption.....	345
6.5.5	XML Signature .....	345
6.5.6	Security Assertion Markup Language.....	346
6.5.6.1	How SAML Works .....	346
6.5.7	WS-Security .....	348
6.6	Services Management .....	351
6.6.1	Service Oriented Management .....	352
6.6.2	System Management and Monitoring in Application Servers: JMX.....	353
6.6.3	Web Services Distributed Management .....	354
6.7	Summary .....	356
	Notes.....	357

**7 The Service Oriented Enterprise.....361**

7.1	Introduction .....	361
7.1.1	Technology Is the Enabler.....	362
7.2	Service Oriented Organization.....	366
7.3	Service Orientation by Example .....	369
7.4	Business Performance Measurement.....	371
7.4.1	Monitoring Business Processes .....	373
7.4.2	Business Intelligence .....	375
7.4.3	Business Activity Monitoring.....	378
7.4.4	Balanced Scorecard.....	380
7.4.5	Activity-Based Costing .....	383
7.4.6	Six Sigma .....	386
7.5	Solution Frameworks.....	390
7.6	Service Oriented Architecture: Intelligent Technology Integration.....	394
7.6.1	Looking Ahead: Intelligent Assembling of Services.....	395
7.7	Web 2.0? .....	397
7.8	Software as a Service.....	401
7.9	Dynamic Organization for an On-Demand Age .....	403

7.9.1 Intelligent Web Services.....	404
7.10 Narrowing the Gap between Business and IT.....	407
7.10.1 More on the Gap.....	408
7.11 Service Oriented Enterprises: What Is Most Important .....	410
Notes .....	411
<b>Selected Bibliography .....</b>	<b>413</b>
<b>Index.....</b>	<b>415</b>
