Nanomaterials – Toxicity, Health and Environmental Issues

Contents

	Preface XII
	List of Authors XVI
1	Toxicity 1
1	Biotoxicity of Metal Oxide Nanoparticles 3
	Amanda M. Fond and Gerald J. Meyer
1.1	Introduction 3
1.2	Nanoparticles in the Environment 5
1.3	How Nanoparticles are Introduced into Mammalian Systems
1.4	Health Threats 8
1.5	Nanomaterials and Biotoxicity 9
1.5.1	Iron Oxide 9
1.5.2	Titanium Dioxide 13
1.5.2.1	Dark Studies 14
1.5.2.2	UV Irradiation Studies 18
1.5.3	Other Metal Oxides 25
1.6	Conclusions 28
	Acknowledgment 29
	References 29
2	Ecotoxicity of Engineered Nanomaterials 35
	Eva Oberdörster, Patricia McClellan-Green, and Mary Haasch
2.1	Introduction 35
2.2	Water 38
2.3	Air 42
2.4	Soils 42
2.5	Weathering 43
2.6	Biomarkers 44
2.7	Conclusions 46
	References 47

Nanomaterials – Toxicity, Health and Environmental Issues. Edited by Challa S. S. R. Kumar Copyright © 2006 WILEY-VCH Verlag GmbH & Co. KGaA, Weinheim ISBN: 3-527-31385-0

H	Health 51
3	Possible Health Impact of Nanomaterials 53
	Peter H. M. Hoet, Irene Brüske-Hohlfeld, and Oleg V. Salata
3.1	Introduction 53
3.2	Sources of Nanoparticles 53
3.3	Epidemiological Evidence 54
3.4	Entry Routes into the Human Body 56
3.4.1	Lung 57
3.4.1.1	Inhalation, Deposition and Pulmonary Clearing of Insoluble Solids 57
3.4.1.2	Biopersistence of Inhaled Solid Material 59
3.4.1.3	Systemic Translocation of Inhaled Particles 60
3.4.2	Intestinal Tract 61
3.4.2.1	Deposition and Translocation 61
3.4.2.2	Intestinal Translocation and Disease 62
3.4.3	Skin 62
3.4.3.1	Deposition and Penetration through the Skin 62
3.4.3.2	Irritation of Skin 64
3.5	What Makes Nanoparticles Dangerous? 64
3.5.1	Particle Size - Surface and Body Distribution 65
3.5.1.1	Effect of Size 65
3.5.1.2	Effect of Surface Charges 65
3.5.2	Nanoparticles, Thrombosis and Lung Inflammation 67
3.5.2.1	Prothrombotic Effect 67
3.5.2.2	Oxidative Stress, Inflammation and Endotoxins 68
3.5.3	Nanoparticles and Cellular Uptake 69
3.5.4	Nanoparticles and the Blood-Brain Barrier 69
3.6	Summary and Discussion 69
3.7	What Can be Done? 71
	References 72
4	Dosimetry, Epidemiology and Toxicology of Nanoparticles 81
	Wolfgang G. Kreyling, Manuela Semmler-Behnke, and Winfried Möller
4.1	Introduction 81
4.1.1	Overview 81
4.1.2	General Background 81
4.1.3	Epidemiological Evidence for Health Effect Associations
	with Ambient Particulate Matter 83
4.1.4	Toxicological Evidence for Ambient Particulate Matter Induced Adverse
	Health Effects 84
4.2	Inhaled Nanoparticle Dosimetry 85
4.2.1	Particle Measures 85
4.2.2	Deposition of Ultrafine Particles in the Respiratory System 86
4.2.3	Fate of Particles in the Lungs 87
4.2.3.1	Soluble Particle Compounds 87

4.2.3.2	Slowly Dissolving and Insoluble Particles Deposited on the Airway Wall 87
4.2.3.3	Slowly Dissolving and Insoluble Particles Deposited in the Alveolar
	Region 87
4.2.3.4	Macrophage-mediated Particle Transport 88
4.2.4	Translocation of Ultrafine Particles into Systemic Circulation 88
4.2.4.1	Studies of Systemic Particle Translocation in Humans 88
4.2.4.2	Studies of Systemic Particle Translocation in Animals 89
4.3	Toxicological Plausibility of Health Effects Caused by Nanoparticles 93
4.3.1	Pulmonary Inflammation Induced by Ultrafine Particles 94
4.3.2	Systemic Inflammation and other Responses 95
4.3.3	Relevant Parameters in Nanoparticle Toxicology 96
4.3.3.1	Number Concentration and Surface Area 96
4.3.3.2	Particle Shape (Fibers and Nanotubes) 97
4.3.3.3	Transition Metals 98
4.3.3.4	Organic Compounds 99
4.3.3.5	Extrapolation of Health Effects Observed in Animals towards
	Human 100
4.4	Integrated Concept of Risk Assessment of Nanoparticles 101
	References 103
