CLINICAL MALIGNANT HEMATOLOGY

CONTENTS

THE COLOR INSERT CAN BE FOUND BETWEEN PAGES 554 AND 555

Contributors	xiii
Preface	xxi
Acknowledgments	xxii

PART I LEUKEMIA

SECTION 1 ACUTE MYELOID LEUKEMIA

1. Epidemiology, Risk Factors, and Classification	1
<i>Leonard T. Heffner Jr.</i>	
2. Molecular Biology, Pathology, and Cytogenetics of Acute Myeloid Leukemia	9
<i>Krzysztof Mrózek, Claudia D. Baldus, and Clara D. Bloomfield</i>	
3. Clinical Features and Making the Diagnosis	25
<i>Anjali S. Advani and Karl S. Theil</i>	
4. Treatment for Acute Myeloid Leukemia in Patients Under Age 60	41
<i>Richard M. Stone</i>	
5. Treatment Approach to Acute Myeloid Leukemia in Older Adults	51
<i>Mikkael A. Sekeres</i>	
6. Treatment Approach to Acute Promyelocytic Leukemia	63
<i>James L. Slack</i>	
7. Approaches to Treatment of Secondary Acute Myeloid Leukemia and Advanced Myelodysplasia	73
<i>Elihu Estey</i>	
8. Definition of Remission, Prognosis, and Follow-up	83
<i>Mikkael A. Sekeres and Matt E. Kalaycio</i>	
9. Treatment of Relapsed or Refractory Acute Myeloid Leukemia and New Frontiers in Acute Myeloid Leukemia Therapy	91
<i>Frederick R. Appelbaum</i>	

SECTION 2 ACUTE LYMPHOBLASTIC LEUKEMIA

10. Epidemiology, Risk Factors, and Classification	103
<i>Joseph O. Moore</i>	
11. Molecular Biology, Pathology, and Cytogenetics of Acute Lymphoblastic Leukemia	111
<i>Meir Wetzler, Krzysztof Mrózek, and Clara D. Bloomfield</i>	
12. Clinical Features and Making the Diagnosis	121
<i>Ronald M. Sobecks</i>	
13. Treatment Approach to Adult Acute Lymphoblastic Leukemia	127
<i>Elizabeth S. Rich, Cara A. Rosenbaum, and Wendy Stock</i>	
14. Definition of Remission, Prognosis, and Follow-up	143
<i>Meir Wetzler</i>	
15. Treatment of Relapsed or Refractory Acute Lymphoblastic Leukemia and New Frontiers in Therapy	151
<i>Nicole Lamanna and Mark A. Weiss</i>	

SECTION 3 CHRONIC MYELOGENOUS LEUKEMIA

16. Epidemiology, Risk Factors, and Classification of Chronic Myeloid Leukemia	159
<i>Tariq I. Mughal and John M. Goldman</i>	
17. Molecular Biology, Pathology, and Cytogenetics	163
<i>Michael Deininger</i>	
18. Treatment Approach to Chronic-Phase Chronic Myelogenous Leukemia	177
<i>Jorge E. Cortes</i>	
19. Treatment Approach to Accelerated-Phase or Blast-Crisis Chronic Myelogenous Leukemia	189
<i>Eric J. Feldman</i>	

20. Definition of Remission, Prognosis, and Follow-up 195
Matt E. Kalaycio and Ilka Warshawsky
21. New Frontiers in the Treatment of Relapsed or Refractory Chronic Myelogenous Leukemia 203
Seema Gupta, Javier Pinilla-Ibarz, Peter Maslak, and David A. Scheinberg

SECTION 4 CHRONIC LYMPHOCYTIC LEUKEMIA

22. Molecular Biology, Pathology, and Cytogenetics of Chronic Lymphocytic Leukemia 213
Martin J.S. Dyer and Randy D. Gascoyne
23. Clinical Features and Making the Diagnosis 225
William G. Wierda, Joan H. Admirand, and Susan M. O'Brien
24. Indications for Treatment and Treatment Approach for Chronic Lymphocytic Leukemia 235
Kanti R. Rai and Bhoomi Mehrotra
25. Response Criteria, Prognosis, and Follow-Up in Chronic Lymphocytic Leukemia 239
Emili Montserrat
26. Treatment of Chronic Lymphocytic Leukemia 245
Matt E. Kalaycio
27. Aggressive Transformation and Paraneoplastic Complications of Chronic Lymphocytic Leukemia 251
Terry J. Hamblin

SECTION 5 HAIRY CELL LEUKEMIA

28. Epidemiology, Risk Factors, and Classification of Hairy Cell Leukemia 265
Diane M. BuchBarker
29. Molecular Biology, Pathology, and Cytogenetics in Hairy Cell Leukemia 269
Mirko Zuzel and John C. Cawley
30. Clinical Features and Making the Diagnosis of HCL 277
Olga Frankfurt, Martin S. Tallman, and LoAnn C. Peterson
31. Indications for Treatment and Initial Treatment Approach to Hairy Cell Leukemia 285
Alan Saven, Andrew P. Hampshire and Lyudmila Bazhenova
32. Definition of Remission, Prognosis, and Follow-up in Hairy Cell Leukemia 295
Eric H. Kraut

33. Treatment of Relapsed or Refractory Hairy Cell Leukemia and New Frontiers in Hairy Cell Leukemia Therapy 301
Robert J. Kreitman

SECTION 6 SPECIAL TOPICS IN LEUKEMIA

34. Management of Fever and Neutropenia in Leukemia 311
Robin K. Avery
35. Autologous Stem Cell Transplantation for Leukemia 321
Alexander E. Perl, Selina M. Luger, and Edward A. Stadtmauer
36. Allogeneic Hematopoietic Stem Cell Transplantation for the Acute Leukemias in Adults 337
Corey Cutler and Joseph H. Antin
37. Transplantation in Chronic Leukemia 355
Thomas S. Lin and Edward A. Copelan

PART II MYELOYDYSPLASTIC SYNDROMES AND MYELOPROLIFERATIVE DISEASES

SECTION 1 MYELOYDYSPLASTIC SYNDROMES

38. Myelodysplastic Syndromes: Molecular Biology, Pathology, and Cytogenetics 367
Rami Komrokji and John M. Bennett
39. Clinical Features and Making the Diagnosis of Myelodysplastic Syndromes 377
Lewis R. Silverman
40. Treatment Approach to Early Myelodysplastic Syndromes 385
Virginia M. Klimek and Stephen D. Nimer
41. Aplastic Anemia and Stem Cell Failure 397
Jaroslav P. Maciejewski
42. Allogeneic Stem Cell Transplantation for Myelodysplastic Syndrome and Aplastic Anemia 415
Vikram Mathews and John F. DiPersio
43. Definition of Response, Prognosis, and Follow-up of Myelodysplastic Syndromes 425
Miguel A. Sanz and Guillermo F. Sanz
44. Treatment of Relapsed or Refractory Myelodysplastic Syndromes and New Frontiers in Myelodysplastic Syndrome Therapy 435
Huma Qawi, Naomi Galili, and Azra Raza

SECTION 2 CHRONIC MYELOPROLIFERATIVE DISEASES

45. Epidemiology, Risk Factors, and Classification	445
<i>Hanspreet Kaur, Deepjot Singh, and Alan Lichtin</i>	
46. Molecular Biology, Pathology, and Cytogenetics	449
<i>Claire N. Harrison</i>	
47. Clinical Features and Making the Diagnosis	461
<i>Richard T. Silver</i>	
48. Treatment Approach to Polycythemia Vera and Essential Thrombocythemia	469
<i>Steven M. Fruchtmann and Celia L. Grosskreutz</i>	
49. Approach to Chronic Idiopathic Myelofibrosis (with Extramedullary Hematopoiesis)	475
<i>Ruben A. Mesa and Ayalew Tefferi</i>	
50. Management of Chronic Myelomonocytic Leukemia and Other Rare Myeloproliferative Disorders	487
<i>Miloslav Beran</i>	

PART III LYMPHOMA

SECTION 1 NON-HODGKIN'S LYMPHOMA

51. The Classification of Non-Hodgkin's Lymphoma	503
<i>P.G. Isaacson</i>	
52. Pathology and Molecular Genetics of Non-Hodgkin's Lymphoma	513
<i>James R. Cook and Eric D. Hsi</i>	
53. Treatment Approach to Follicular Lymphomas	531
<i>Bruce D. Cheson</i>	
54. Treatment Approach to Diffuse Large B-Cell Lymphomas	543
<i>Sonali M. Smith and Koen van Besien</i>	
55. Treatment Approach to Mantle Cell Lymphoma	555
<i>Ellie Guardino, Kristen N. Ganjoo, and Ranjana Advani</i>	
56. Treatment Approach to High-Grade Non-Hodgkin's Lymphomas	565
<i>John W. Sweetenham</i>	
57. Treatment Approach to Marginal Zone and MALT Lymphomas	577
<i>Emanuele Zucca</i>	

58. Treatment Approach to Primary Central Nervous System Lymphomas	589
<i>Tamara N. Shenkier and Joseph M. Connors</i>	
59. Treatment Approach to Cutaneous Lymphomas	601
<i>Christiane Querfeld, Timothy M. Kuzel, Joan Guitart, and Steven T. Rosen</i>	
60. Mature T-Cell Non-Hodgkin's Lymphoma: Diagnosis and Therapy	613
<i>Nam H. Dang and Fredrick Hagemeister</i>	
61. Treatment Approach to HIV-Related Lymphomas	631
<i>Mark Bower</i>	
62. Posttransplant Lymphoproliferative Disorders	645
<i>Terrance Comeau and Thomas Shea</i>	
63. Treatment Approach to Adult T-Cell Lymphoma/Leukemia	657
<i>Karen W.L. Yee and Francis J. Giles</i>	
64. Autologous Hematopoietic Cell Transplantation for Non-Hodgkin's Lymphoma	671
<i>Ginna G. Laport and Robert S. Negrin</i>	
65. Allogeneic Hematopoietic Stem Cell Transplantation for Non-Hodgkin's Lymphoma	689
<i>Hillard M. Lazarus</i>	
66. Definition of Remission, Prognosis, and Follow-up in Follicular Lymphoma and Diffuse Large B-Cell Lymphoma	701
<i>John W. Sweetenham</i>	
67. Treatment of Transformed Non-Hodgkin's Lymphoma	711
<i>Philip J. Bierman</i>	
68. New Frontiers in Non-Hodgkin's Lymphoma Therapy	723
<i>Eric Winer, Sridar Pal, and Francine Foss</i>	

SECTION 2 HODGKIN'S LYMPHOMA	
69. Hodgkin's Lymphoma: Epidemiology and Risk Factors	733
<i>Brian J. Bolwell</i>	
70. Prognostic Factors in Hodgkin's Lymphoma	739
<i>Michel Henry-Amar</i>	
71. Classification, Pathology, and Molecular Genetics of Hodgkin's Lymphoma	751
<i>James R. Cook and Eric D. Hsi</i>	
72. Clinical Features and Making the Diagnosis	759
<i>Kristie A. Blum and Pierluigi Porcu</i>	

73. Treatment Approach to Classical Hodgkin's Lymphoma <i>Brian J. Bolwell and Toni K. Choueiri</i>	767	86. Definition of Remission, Prognosis, and Follow-up <i>S. Vincent Rajkumar and Angela Dispenzieri</i>	913
74. Treatment Approach to Nodular Lymphocyte-Predominant Hodgkin's Lymphoma <i>Brad Pohlman</i>	783	87. Treatment of Relapsed or Refractory Multiple Myeloma and New Frontiers in Multiple Myeloma Therapy <i>Manmeet Ahluwalia and Mohamad A. Hussein</i>	927
75. Autologous Stem Cell Transplantation for Hodgkin's Lymphoma <i>Craig Moskowitz and Daniel Persky</i>	793		
76. Hodgkin's Lymphoma: Follow-up Care <i>Omer N. Koç</i>	801		
77. Treatment of Relapsed or Refractory Hodgkin's Lymphoma and New Frontiers in Hodgkin's Lymphoma Therapy <i>Angelo M. Carella, Angela Congiu, Sandro Nati, and Ercole Brusamolino</i>	807		

SECTION 3 SPECIAL TOPICS IN LYMPHOMA

78. Epidemiology of Second Malignancies Following Lymphoma Therapy and Screening Recommendations <i>Jonathan W. Friedberg and Andrea K. Ng</i>	815
79. The Appropriate Use of PET and Gallium Scans in Lymphoma <i>Rebecca Elstrom</i>	823

PART IV MULTIPLE MYELOMA AND RELATED DISORDERS

SECTION 1 MULTIPLE MYELOMA

80. Epidemiology and Risk Factors of Multiple Myeloma: Insights Into Incidence and Etiology <i>Ashraf Badros</i>	833	92. Principles of Hematopoietic Stem Cell Transplantation to Treat Hematologic Malignancies <i>Michael R. Bishop</i>	975
81. Molecular Biology, Pathology, and Cytogenetics <i>Silvia Ling, Lynda Campbell, Phoebe Joy Ho, John Gibson, and Douglas E. Joshua</i>	847	93. Principles of HLA Matching and the National Marrow Donor Program <i>Edward J. Ball</i>	985
82. Clinical Features and Making the Diagnosis of Multiple Myeloma <i>Yi-Hsiang Chen</i>	859	94. Stem Cell Mobilization <i>Auayporn Nademanee</i>	1001
83. Initial Treatment Approach to Multiple Myeloma <i>Jeffrey A. Zonder</i>	873	95. Stem Cell Transplantation for Solid Tumors and Nonmalignant Conditions <i>E. Randolph Broun</i>	1013
84. Treatment of Multiple Myeloma <i>Robert A. Kyle and S. Vincent Rajkumar</i>	889	96. Nonmyeloablative Conditioning Regimen for Allogeneic Hematopoietic Cell Transplantation <i>Frédéric Baron, Marie-Thérèse Little, and Rainer Storb</i>	1025
85. Allogeneic Stem Cell Transplantation for Multiple Myeloma <i>Edwin P. Alyea</i>	901	97. Umbilical Cord Blood Transplantation <i>Ian Horkheimer and Nelson Chao</i>	1039
		98. Graft-Versus-Host Disease: New Perspectives on Pathobiology and Therapy <i>Thomas R. Spitzer and Robert Sackstein</i>	1051
		99. Infectious Complications Following Stem Cell Transplantation <i>David L. Longworth</i>	1063

SECTION 2 SPECIAL TOPICS IN MULTIPLE MYELOMA

88. Hyperviscosity Syndrome <i>Marcel N. Menke and Steve P. Treon</i>	937
89. Monoclonal Gammopathy of Undetermined Significance <i>Shaji Kumar, Philip R. Greipp</i>	943
90. Amyloidosis <i>Madhav V. Dhodapkar</i>	955
91. Treatment of Complications in Multiple Myeloma <i>Paul Masci</i>	963

PART V STEM CELL TRANSPLANTATION

- 100. Noninfectious Complications of Stem Cell Transplantation** 1077
Scott I. Bearman

PART VI. SPECIAL TOPICS IN NEOPLASTIC HEMATOLOGY

- 101. Pharmacology of Traditional Agents Used to Treat Hematologic Malignancies** 1089
Jennifer L. Shamp
- 102. Biological Response Modifying Agents in the Treatment of Hematologic Malignancies** 1105
Christopher J. Lowe and Jennifer Fisher Lowe
- 103. Pharmacology of Monoclonal Antibodies** 1115
Jennifer L. Shamp
- 104. Blood Product Transfusions in the Hematologic Malignancies** 1127
Ronald E. Dorn

- 105. Growth Factor Support in the Hematologic Malignancies** 1139
George Somlo

- 106. Treatment Approach to Pregnant Women** 1147
Revathi Suppiah, Joanna Brell, and Matt E. Kalaycio

- 107. Tumor Lysis Syndrome, Disseminated Intravascular Coagulopathy, and Other Non-Infectious Complications of Leukemia and Lymphoma** 1159
Rajesh Kukunoor and Mikkael A. Sekeres

- 108. Fertility Issues in the Hematologic Malignancies** 1171
Ashok Agarwal and Tamer M. Said

- 109. Palliation of Symptoms Associated with Hematologic Malignancies** 1179
Mellar P. Davis

- Index** 1191
