Preface to the First Edition

vii

PART I: BASIC COMPLEX ANALYSIS

1. A Bird's Eye View of the Complex Plane	1
1.1 Introduction	1
1.2 Mathematical Logic	2
1.3 Development of the Complex Number System and Its Algebra	5
1.4 Arithmetic of the Complex Numbers	9
1.5 Geometry of the Complex Plane	11
1.6 Extended Complex Plane and the Stereographic Projection	17
1.7 Topology of the Complex Plane	19
1.8 One-Point Compactification and the Riemann Sphere	31
1.9 Analysis in the Complex Domain	35
1.10 Sequences and Series	51
<i>Solved Exercises</i>	56
<i>Exercises</i>	64
<i>Notes</i>	65
<i>References</i>	65
2. Elementary Properties of Analytic Functions	66
2.1 Introduction to the Concept of an Analytic Function	66
2.2 Power Series	76
2.3 Linear Fractional Transformations	81
2.4 Exponential and Trigonometric Functions	87
<i>Solved Exercises</i>	92
<i>Exercises</i>	103
<i>Notes</i>	104
<i>References</i>	104
3. Conformal Mappings	105
3.1 Definition and Properties of Conformal Mappings	105
3.2 Elementary Conformal Mappings	114
3.3 Physical Applications of Conformal Mappings	125

3.4	Single-Valued Branches for Multi-Valued Functions	127
3.5	Elementary Riemann Surfaces	130
	<i>Solved Exercises</i>	143
	<i>Exercises</i>	148
	<i>Notes</i>	149
	<i>References</i>	150

PART II: COMPLEX INTEGRATION

4.	Complex Integral Calculus	152
4.1	Basic Definition and Properties of Complex Integration	152
4.2	Cauchy's Theorems	158
4.3	General form of Cauchy's Theorem	172
4.4	Cauchy's Integral Formula and Its Applications	182
4.5	Singularities	204
4.6	Calculus of Residues	220
4.7	Computation of Integrals	232
4.8	Harmonic Functions	264
	<i>Solved Exercises</i>	283
	<i>Exercises</i>	322
	<i>Notes</i>	326
	<i>References</i>	331

PART III: SPECIAL TOPICS IN COMPLEX ANALYSIS

5.	Riemann Mapping Theorem	333
5.1	Riemann Mapping Theorem and Boundary Behaviour	333
5.2	Schwarz-Christoffel Formula	349
5.3	Conformal Mappings of Doubly Connected Regions and Regions of Finite Connectivity	356
5.4	Simply Connectedness and Equivalent Conditions	365
5.5	Analytic Automorphisms of Regions in the Complex Plane	371
5.6	Univalent Functions Defined on the Open Unit Disc	383
5.7	A Brief History of the Bieberbach Conjecture and Its Solution	403
	<i>Solved Exercises</i>	409
	<i>Exercises</i>	416
	<i>Notes</i>	417
	<i>References</i>	420
	Solved Exercises	409
	Index	421
