| <b>Abstract</b>   | <i>iii</i>    |
| <b>Content</b>  | <i>v</i>      |
| <b>List of Tables</b>   | <i>viii</i>   |
| <b>List of Figure</b>   | <i>ix</i>     |
| <br><b>Chaper 1</b>   | <br><b>1</b>  |
| 1.1 Introduction.....   | 1             |
| 1.2 Situation of Maternal and Child Health in Thailand .....            | 1             |
| 1.3 Background of the study.....  | 4             |
| 1.4 The Geography of Kanchanaburi province.....                         | 6             |
| <br><b>Chaper 2 Research Methodology</b>                                | <br><b>7</b>  |
| 2.1 Introduction.....   | 7             |
| 2.2 Aims and Objectives .....   | 9             |
| 2.3 Operational definitions.....  | 9             |
| 2.4 Data collection procedures.....                                     | 10            |
| 2.4.1 The questionnaire.....  | 11            |
| 2.4.2 Recruitment of interviewers.....                                  | 13            |
| 2.5 Preparation for the fieldwork.....                                  | 14            |
| 2.5.1 Pre-survey before fieldwork operation.....                        | 14            |
| 2.5.2 Household listing and name of eligible women.....                 | 15            |
| 2.5.3 Provision of mapping.....   | 15            |
| 2.6 Data collection.....  | 16            |
| 2.6.1 Research assistant.....   | 16            |
| 2.6.2 Interviewers.....   | 16            |
| 2.7 Data quality.....   | 16            |
| 2.8 Data analysis.....  | 17            |
| <br><b>Chaper 3 Research Results</b>                                    | <br><b>19</b> |
| 3.1 Selected background characteristics of women.....                   | 20            |
| 3.2 Antenatal care visit .....  | 22            |
| 3.3 Antenatal morbidities.....  | 29            |
| 3.3.1 Background characteristics and severe obstetric<br>morbidity..... | 29            |
| 3.3.2 Antenatal morbidities and care-seeking.....                       | 31            |
