Preface

vii

1. Introduction

1

Aldol condensation; Knoevenagel Condensation; Michael Addition; Addition-Elimination reactions; Mannich reaction; Benzoin Condensation; Dieckmann-Condensation; Reformatsky reaction; Wurtz reaction; Wittig reaction; Sulfur ylides; Synthesis of Oxiranes; Synthesis of Cyclopropane; Synthesis of Aziridines; Synthesis of Azitidine; Electrophilic Aromatic Substitution; Aromatic Nucleophilic Substitutions; Rearrangements; Cannizzaro reaction; Etherification and de-Etherification; Oppenauer Oxidation and Meerwein-Ponndrof-Verley reduction; Organometallic reagents; Preparation of Esters and Amides; Protection (blocking) and Deprotection (de-blocking) of functional groups; Fischer-Indole Synthesis; Hantzsch Pyridine Synthesis; Hantzsch Synthesis of Pyrrole; Knorr Pyrrole Synthesis; Skraup Synthesis of quinolines; Dehydrogenation by high potential quinones like Chloranil and DQO; Heck reaction

2. Neuroleptics

36

Phenothiazines; Thioxanthenes; Butyrophenones; Dibenzazepines; Indole derivatives; Diphenylbutylpiperidines and related compounds; Benzamides; Benzoquinolizines

3. Anxiolytics

55

Benzodiazepines; Diphenylmethanes; Propanediol carbamates; Azaspirodecanediones

4. Hypnotics and Sedatives

62

Barbiturates; Benzodiazepines; Carbamates; Piperidinediones

5. Local Anesthetics

65

Benzoic acid derivatives; Anilides; Aminobenzoic acid derivatives; Miscellaneous agents

6. Antihypertensive agents

77

Drugs acting at or near post-ganglionic nerve endings; Adrenergic neuron blocking agents; Drugs acting directly on smooth muscles; Centrally acting sympathomimetic agents; β -Adrenergic blocking agents; Miscellaneous Hypotensive Drugs

| | |
|--|------------|
| 7. Antilipidemic agents | 91 |
| Clofibrate; Clofenpyride; Clofibrade; Etofibrate; Etofilline Clofibrate; Pyridoxine Clofibrate; Pirifibrate; Simfibrate; Tiafibrate; Timofibrate; Lifibrate; Ciprofibrate; Benzafibrate; Gemfibrozil; Probucol; Nicotinic acid; D-thyroxine; Liothyronine; L-triiodothyronine; Thyromedan; Fluvastatin | |
| 8. Anti-coagulants; Coagulants and Anti-platelet agents | 98 |
| Anti-coagulants | |
| Coumarin derivatives; 1,3-Indandione derivatives | |
| Coagulants | |
| Carbazochrome Salicylate; Negatol | |
| Antiplatelet agents | |
| Acetylsalicylic acid; Sulfinpyrazone; Dipyridamole | |
| 9. Hypoglycemic agents | 104 |
| Sulfonyl ureas | |
| 10. Diuretics | 108 |
| Mercurials; Phenoxy acetic acid derivatives; Pteridines and Pyrazinoyl-guanidines; Anti-hormone diuretics; Sulfonamides; Benzothiadiazines (a) 1,2,4-Benzothiadiazine; (b) 3,4-dihydro 2H-1,2,4-Benzothiadiazines Quinazoline derivatives; Sulfamyl benzoic acid derivatives and related compounds | |
| 11. Non Steroidal Anti-inflammatory Drugs (NSAIDs) | 122 |
| Salicylic acid derivatives; Aniline and <i>p</i> -Aminophenol derivatives; 5-Pyrazolone derivatives; 3,5-Pyrazolidinedione derivatives; <i>N</i> -Arylanthranilic acid (Fenamates); Aryl and Heteroaryl acetic acid derivatives; Pyrroleacetic acid derivatives; 2-Phenylpropionic acid derivatives; Naphthylacetic acid derivatives; Miscellaneous agents | |
| 12. Antihistaminic agents | 140 |
| H₁ Antagonists | |
| Aminoalkyl ether derivatives; Ethylenediamine derivatives; Propylamine derivatives; Phenothiazine derivatives; Piperazine derivatives; Miscellaneous agents | |
| H₂ Antagonists | |
| 13. Antimalarials | 157 |
| Cinchona alkaloid; 4-Aminoquinolines; 9-Aminoacridines; 8-Aminoquinolines; Pyrimidines; Biguanides; Sulfones | |
| 14. Anti-viral agents | 169 |
| Agents interfering with viral nucleic acid replication; Agents interfering with viral nucleic acid replication; Agents affecting translation on cell ribosomes | |
| 15. Antifungal agents | 174 |
| Synthetic antifungal agents; Antifungal Antibiotics | |
| 16. Antiprotozoal agents | 180 |
| 17. Anthelmintics | 183 |

| | |
|---|------------|
| 18. Antitubercular agents | 192 |
| 19. Antineoplastic agents | 195 |
| Alkylating agents; Antimetabolites; DNA-Intercalating agents | |
| 20. Sulfonamides | 206 |
| Highly absorbed Sulfonamides; Poorly absorbed Sulfonamide (for intestinal infections); Sulfonamide for topical use | |
| 21. Antibiotics | 214 |
| Natural penicillins; Semisynthetic penicillins; Cephalosporins; Tetracyclines; Antibiotics derived from aminoacids; Quinolone or Fluroquinolone antibacterials | |
| 22. Steroids | 240 |
| Testosterone; Progesterone; Conversions of estrogens; Ethinylestradiol; Mestranol; Diethylstilbestrol; Dienestrol; Chlorotrianisene; Hexestrol; Glucocorticoids | |
| 23. Vitamins | 255 |
| Lipid soluble vitamins; Water soluble vitamins | |
| 24. Index | 266 |
