

# SEEDS FOR THE FUTURE

The Impact of Genetically Modified  
Crops on the Environment

Jennifer A. Thomson

# Contents

	<b>Foreword</b>	<b>v</b>
	<b>Acknowledgements</b>	<b>xi</b>
	<b>Introduction</b>	<b>xiii</b>
	Worldwide status of genetically modified crops	xvii
	References	xviii
<b>1</b>	<b>Classical plant breeding and genetically modified crops</b>	<b>1</b>
	Aids to plant breeding: mutations, jumping genes and horizontal gene transfer	2
	Genetic modification of plants	3
	Summary	4
	References	4
<b>2</b>	<b>Insect-resistant crops</b>	<b>7</b>
	Cotton	8
	Environmental impacts of Bt cotton	13
	Is Bt cotton safe?	17
	Maize	20
	Bt crops in the pipeline	32
	Summary	33
	References	33
<b>3</b>	<b>Herbicide-tolerant crops</b>	<b>39</b>
	Economic impacts of herbicide-tolerant crops	41
	Environmental impacts of herbicide-tolerant crops	42
	Herbicide-tolerant oilseed rape in Scotland – a farm-scale evaluation trial	47
	The effect of herbicide-tolerant crops in developing countries	48
	Summary	50
	References	51

<b>4</b>	<b>Virus-resistant and drought-tolerant crops</b>	<b>53</b>
	Virus-resistant papaya	54
	Virus-resistant potatoes	55
	Virus-resistant maize	56
	Virus-resistant cassava	56
	Environmental impact of resistance to viruses	57
	Drought-tolerant crops	58
	Summary	61
	References	61
<b>5</b>	<b>Effects on biodiversity</b>	<b>65</b>
	Genetic, species and ecosystem diversity	66
	Loss of biodiversity and why worry?	68
	The impacts of agriculture on biodiversity	69
	The Cartagena Protocol on Biosafety	73
	Summary	75
	References	75
<b>6</b>	<b>Crops behaving badly: pollen spread, its prevention and coexistence of GM crops with conventional varieties</b>	<b>79</b>
	Gene flow in oilseed rape, sunflowers, rice and potatoes	82
	Gene flow in Mexican maize	84
	Gene flow from genetically modified herbicide-tolerant crops	86
	Coexistence of genetically modified and non-genetically modified crops	87
	Genetically modified crop coexistence and economic consequences	90
	Coexistence and liability	93
	Preventing and managing gene flow	93
	Summary	96
	References	96
<b>7</b>	<b>When plants don't come from their parents – horizontal gene transfer</b>	<b>101</b>
	Availability of DNA	102
	Uptake of DNA	102
	Establishment and expression of the transferred DNA in the recipient	103
	Summary	105
	References	105

<b>8</b>	<b>Biosafety regulatory, trade and legal issues</b>	<b>109</b>
	Regulating transgenic crops	109
	A strong regulatory system	114
	Regulating transgenic crops sensibly	115
	Trade issues	117
	Intellectual property issues	119
	Summary	120
	References	120
<b>9</b>	<b>Future watch</b>	<b>123</b>
	Insect-resistant crops	123
	Drugs in crops	125
	Plants that clean up the environment	129
	Transgenic plants resistant to other pests	130
	Genetically modified crops and hunger relief in developing countries	130
	Nutritionally enhanced transgenic crops	134
	Summary	140
	References	141
	<b>Glossary</b>	<b>145</b>
	<b>Index</b>	<b>151</b>
