SUNLIGHT to ELECTRICITY
USING SOLAR CELLS

CONTENTS

Preface 6

1 Introduction 7

2 Quantum physics, semiconductors and solar cells 13

3 The story so far: a history of photovoltaics 22

4 Technological evolution: the thick and the thin 31

5 How can solar cells be used? 43

6 Photovoltaics on the family home 54

7 Architectural photovoltaics 64

8 Energy for the developing world 72

9 Power for the future 85

Glossary 87

Useful contacts 89

Index 91
