Preface to the Second Edition vii

## 1. Overview of Viruses and Virus Infection

Introduction 1  
Classification of Viruses 6  
An Overview of the Replication Cycle of Viruses 7  
Effects of Virus Infection on the Host Cell 29  
Epidemiology: The Spread of Viruses from Person to Person 31  
Further Reading 32

## 2. The Structure of Viruses

Introduction 35  
Helical Symmetry 35  
Icosahedral Symmetry 36  
Nonenveloped Viruses with More Complicated  
Structural Features 45  
Enveloped Viruses 45  
Assembly of Virions 58  
Stability of Virions 61  
Further Reading 62

## 3. Plus-Strand RNA Viruses

Introduction 63  
Family *Picornaviridae* 63  
Family *Caliciviridae* 83  
Family *Hepeviridae* 86  
Family *Astroviridae* 87  
Family *Togaviridae* 89  
Family *Flaviviridae* 106  
Family *Coronaviridae* 124  
Family *Arteriviridae* 128  
Family *Roniviridae* 130  
The Plus-Strand RNA Viruses of Plants 130

Origin and Evolution of Plus-Strand RNA Viruses 132  
Further Reading 134

## 4. Minus-Strand RNA Viruses

Introduction 137  
Overview of the Minus-Strand RNA Viruses 137  
Family *Rhabdoviridae* 141  
Family *Paramyxoviridae* 147  
Family *Filoviridae* 158  
Family *Bornaviridae* 161  
Family *Orthomyxoviridae* 162  
Family *Bunyaviridae* 175  
Family *Arenaviridae* 183  
Evolution of Minus-Strand RNA Viruses 188  
Further Reading 189

## 5. Viruses That Contain Double-Stranded RNA: Family *Reoviridae*

Introduction 193  
Overview of the Family *Reoviridae* 193  
Further Reading 209

## 6. Viruses Whose Life Cycle Uses Reverse Transcriptase

Introduction 211  
Family *Retroviridae* 212  
Family *Hepadnaviridae* 249  
Further Reading 258

## 7. DNA-Containing Viruses

Introduction 261  
Family *Poxviridae* 263

Family <i>Herpesviridae</i>	276
Replication of Herpesviruses	282
Family <i>Adenoviridae</i>	295
Family <i>Polyomaviridae</i>	302
Family <i>Papillomaviridae</i>	308
Family <i>Parvoviridae</i>	314
Torque Teno Virus: A Newly Described	
Human Virus	320
Further Reading	322

## 8. Emerging and Reemerging Viral Diseases

Bat-Associated Viruses	325
Viruses Associated with Birds	331
Viruses Associated with Primates	336
Viruses Associated with Rodents	341
Further Reading	342

## 9. Subviral Agents

Introduction	345
Defective Interfering Viruses	345
Satellites and Satellite Viruses	348
Viroids and Virusoids	349
Hepatitis $\delta$	350
Prions and Prion Diseases	357

Prions of Yeast	367
Further Reading	368

## 10. Host Defenses against Viral Infection and Viral Counterdefenses

Introduction	369
Adaptive Immune System	369
Innate Immune System	389
Viral Counterdefenses	405
Interactions of Viruses with their Hosts	418
Further Reading	419

## 11. Gene Therapy

Introduction	423
Virus Vector Systems	423
Use of Viruses As Expression Vectors	432
Gene Therapy	437
Further Reading	446

## Appendix

References Used for Figures and Tables	449
Index	461
