

SECOND EDITION

COGNITIVE PSYCHOLOGY

APPLYING THE SCIENCE OF THE MIND

GREGORY ROBINSON-RIEGLER
BRIDGET ROBINSON-RIEGLER

Contents

Preface xi

Chapter 1

An Introduction to Cognition 1

What Is Cognition? 1

- The Omnipresence of Cognitive Processes 2 ■ An Interdisciplinary Perspective 5
- Stop and Review! 6

Psychology B. C. (Before Cognitive Psychology) 6

- Psychophysics 7 ■ Structuralism: The Contents of Mental Experience 9
- Functionalism: The Functions of Mental Experience 10 ■ Behaviorism: The Rejection of Mental Experience 10 ■ Laying the Foundation for Cognitive Psychology 12
- Stop and Review! 14

The Emergence of Cognitive Psychology 15

- S-R Explanations: Seriously wRong? 15 ■ Technological Influences 21
- Stop and Review! 23

Psychology A. D. (After the Decline of Behaviorism) 23

- Behaviorism Reconsidered 24 ■ Information Processing: A Computer Metaphor for Cognition 24 ■ Connectionism: A Brain Metaphor for Cognition 25
- Alternative Approaches to Cognitive Psychology 29 ■ Stop and Review! 31

Research Themes 31

Glossary 32

Chapter 2

Research Methods in Cognition 34

Descriptive Research 35

- Naturalistic Observation 35 ■ Case Studies 36 ■ Self-Report 37
- Stop and Review! 38

Experimental Research 38

- The Importance of the Computer 39 ■ What Happens in an Experiment? 39
- The Advantages and Disadvantages of an Experiment 40 ■ Stop and Review! 41

The Cognitive Psychology Experiment 41

- How Can We See Thinking?: The Dependent Variable 41 ■ What Variables Influence Cognition?: The Independent Variable 43 ■ Confounding Variables 46 ■ Assigning Subjects to Conditions 46 ■ Stop and Review! 49

The Factorial Design 49

- Analyzing and Presenting Results 51 ■ A Sample Experiment 54 ■ Stop and Review! 56

Cognitive Neuroscience: Investigating Mind and Brain 57

- An Overview of the Nervous System 57 ■ The Tools of Cognitive Neuroscience 61
- Stop and Review! 70

Glossary 70

Chapter 3

Basics of Perception and Awareness 73

Basic Issues in Perception 73

- Sensation and Perception 74 ■ Bottom-Up and Top-Down Processing 74
- Stop and Review! 76

The Basic Tasks of Visual Perception 77

- Perceptual Organizational Processes 77 ■ Stop and Review! 84

Multisensory Interaction and Integration 84

- Synesthesia 85 ■ Comparing the Senses 86 ■ Perception and Action 90
- Stop and Review! 94

Consciousness 94

- Varieties of Consciousness 95 ■ Subliminal Perception 100 ■ Stop and Review! 105

Perceptual Processing and Attention 106

- Visual Attention 106 ■ Auditory Attention 110 ■ Stop and Review! 116

Glossary 116

Chapter 4

Attending to and Manipulating Information 119

Selection and Division: The Strategic Nature of Attention 119

Control of Selective Attention 120 ■ Dividing Attention 121 ■ Stop and Review! 129

Automaticity 129

Characteristics of Automatic Processes 130 ■ Accounts of Automaticity 130
■ Costs of Automaticity 132 ■ Stop and Review! 136

Processing in Immediate Memory 137

The Information-Processing Approach to Memory 137 ■ Short-Term Memory 138
■ Stop and Review! 147

A Modular Approach to STM: Working Memory 147

The Articulatory Loop 148 ■ The Visuo-Spatial Sketchpad 151 ■ The Episodic Buffer 153 ■ Central Executive 153 ■ Working Memory and the Brain 156
■ The Working Memory Model Reconsidered 157 ■ Stop and Review! 158

Glossary 158

Chapter 5

Identification and Classification 160

Identification and Classification: An Overview 160

Identification: Recognizing from the Bottom Up and from the Top Down 161
■ Concepts and Categories: The Database for Recognition 162
■ Stop and Review! 163

Object Recognition 163

Effects of Orientation and Perspective 164 ■ Effects of Context 166
■ Theories of Visual Object Recognition 168 ■ Nonvisual Recognition 173
■ Stop and Review! 176

Recognizing Faces 177

Face Inversion 177 ■ Configural Processing 180 ■ So, Is Face Recognition Special? 181
■ Self-Recognition 184 ■ Stop and Review! 186

Concepts and Categories 186

Types of Categories ("Categories" as a Category) 188 ■ Functions of Concepts 189
■ Approaches to Concept Representation 190 ■ Stop and Review! 203

Glossary 203

Chapter 6

Encoding and Retrieval Processes in Long-Term Memory 205

Fundamental Issues and Distinctions 206

Short-Term vs. Long-Term Memory 206 ■ Types of Long-Term Memory 207 ■ A Descriptive Framework: Encoding, Storage, and Retrieval 209 ■ Stop and Review! 210

Encoding Processes in Explicit Long-Term Remembering 211

Attention and Repetition 211 ■ Rehearsal 213 ■ Remembering Actions 221
■ Stop and Review! 224

Retrieval Processes in Long-Term Memory 225

Availability and Accessibility 225 ■ Encoding Specificity 226
■ Retrieval: An Effective Encoding Strategy? 232 ■ Encoding, Retrieval, and Hemispheric Asymmetry 233 ■ Stop and Review! 234

Memory and Consciousness 235

Remembering and Knowing 235 ■ Implicit Memory 236 ■ Stop and Review! 244

Glossary 245

Chapter 7

Memory Distortions 247

The Sins of Memory 248

Stop and Review! 251

Eyewitness Memory 251

Encoding and Storage Factors 252 ■ Retrieval Factors 257 ■ Witness Factors 262
■ An Applied Triumph 263 ■ Stop and Review! 264

Illusory Memories 265

Simple Events 265 ■ Complex Events 269 ■ A Constructive Memory Framework 273 ■ Social Influences and Constructive Remembering 276 ■ Stop and Review! 278

The Recovered Memory Controversy 278

Can We Completely Forget and Recover Traumatic Events? 280 ■ Can False Memories for Traumatic Events Be Created? 282 ■ What Constitutes Valid Evidence? 285
■ The APA's Position on Recovered Memory 286 ■ Stop and Review! 287

Glossary 287

Chapter 8

Remembering the Personal Past 289

Everyday Memory 290

Neisser's Challenge: Ecological Validity and Memory Research 290

■ Stop and Review! 292

Autobiographical Memory: Basic Issues and Methodology 293

Memories vs. Facts 293 ■ Methods of Investigation 295 ■ Stop and Review! 296

The Autobiographical Memory Retention Function 297

Childhood Amnesia 298 ■ The Reminiscence Bump 304 ■ Forgetting 307

■ Stop and Review! 308

Factors Affecting Retrieval of Autobiographical Memories 309

Encoding Specificity in Autobiographical Memory 309 ■ Retrieval Cues for Autobiographical Memory 311 ■ The Self-Memory System 313 ■ Involuntary Autobiographical

Memories 317 ■ Stop and Review! 319

Emotion and Autobiographical Memory 320

Flashbulb Memories 321 ■ Effects of Mood on Remembered Events 326

■ Stop and Review! 327

Conclusion: Functions of Autobiographical Memory 328

Communicative Function 328 ■ Emotional Function 328 ■ Directive Function 328

■ Stop and Review! 329

Glossary 330

Chapter 9

Knowledge Representation and Retrieval 331

Representing and Retrieving Words and Associates 332

Word Representation and Retrieval: The Mental Lexicon 333 ■ Models of Word

Recognition 334 ■ Words Connecting with Words: Semantic Networks 344

■ Stop and Review! 361

Representing and Retrieving Everyday Knowledge 362

Knowledge Learned through Formal Instruction 363 ■ People's Names 367 ■ Songs 370

■ Stop and Review! 372

Analog Representation 373

The Study of Visual Imagery 373 ■ The Imagery Debate 377 ■ Stop and Review! 380

Glossary 380

Chapter 10

Language 382

Language: Basic Principles 383

Words and Rules 383 ■ Design Features of Language 384 ■ Is Language Modular? 386
■ Levels of Analysis 387 ■ Stop and Review! 387

Speech and Spoken Word Recognition 388

Phonology 388 ■ Morphology 396 ■ Stop and Review! 402

Reading and Visual Word Recognition 402

Eye Movements 403 ■ Visual Word Recognition 406 ■ Stop and Review! 409

From Words to Sentences: Syntax and Semantics 409

Transformational Grammar 410 ■ Sentence Parsing 412 ■ Language: Learned or Innate? 419 ■ Stop and Review! 421

Language Production 422

Stages in Language Production 422 ■ Stop and Review! 428

Language in Nonhumans 428

Language Training Projects 430 ■ What Makes Language Special? 434
■ Stop and Review! 435

Glossary 435

Chapter 11

Problem Solving 439

What Is a Problem? 440

Well-Defined and Ill-Defined Problems 440 ■ Routine and Nonroutine Problems 440

■ Problem-Solving Research: Some Methodological Challenges 441 ■ Stop and Review! 444

Approaches to the Study of Problem Solving 444

Behaviorism: Problem Solving as Associative Learning 444 ■ Gestalt Psychology: Problem Solving as Insight 446 ■ Cognitive Psychology: Problem Solving as Information

Processing 447 ■ Stop and Review! 448

Problem Representation 449

Rigidity in Representation 450 ■ Stereotypes as a Threat to Problem Representation 454

■ Stop and Review! 456

Problem Solution 457

Algorithms 457 ■ Heuristics 457 ■ Stop and Review! 464

Experts: Masters of Representation and Solution 465

Expert Advantages 466 ■ Expert Disadvantages: Costs of Expertise 467 ■ Stop and Review! 468

Insight and Creativity 469

Insight 470 ■ Creativity 476 ■ Creativity, Insight, and the Brain 479 ■ Stop and Review! 482

Glossary 482

Chapter 12

Reasoning, Judgment, and Decision Making 485

Complex Thinking: Reasoning, Judgment, and Decision Making 486

The Focus on Errors 487 ■ Stop and Review! 489

Reasoning 489

Deductive Reasoning 489 ■ Inductive Reasoning 497 ■ Stop and Review! 501

Judgment 502

Basing Judgments on Memory: The Availability Heuristic 503 ■ Basing Judgments on Similarity: The Representativeness Heuristic 509 ■ Basing Judgments on Initial Estimates: The Anchoring-and-Adjustment Heuristic 514 ■ Biased Evaluation of Our Judgments 517
■ Stop and Review! 521

Decision Making 522

Expected Utility: A Normative Approach 523 ■ Prospect Theory: A Descriptive Approach 525
■ Stop and Review! 530
