

The Encyclopedia of Vitamin E

Edited by
V.R. Preedy and
R.R. Watson

Contents

Contributors	xi
Preface	xvii
Acknowledgements	xviii
Part I: Nomenclature and Biochemical, Physical and Chemical Aspects of Vitamin E-related Compounds	1
1. Overview of Antioxidant Activity of Vitamin E <i>M. Lucarini and G.F. Pedulli</i>	3
2. Vitamin E, Metabolism and Biological Activity of Metabolic Products <i>M.C. Polidori, H. Sies, W. Stahl and R. Brigelius-Flohé</i>	11
3. PMC – 2,2,5,7,8-Pentamethyl-chroman-6-ol and Related Model Compounds <i>T. Rosenau</i>	21
4. Recycling of Vitamin E by Natural Products: a Dietary Perspective <i>G.F. Pedulli and M. Lucarini</i>	44
5. Mössbauer Spectroscopy Studies of Tocopherol <i>K. Burda and O. Kruse</i>	53
6. Chemical Modifications of Alpha-Tocopherol <i>T. Rosenau</i>	69
7. Functions and Activities of Tocotrienols and Tocopherols <i>In Vitro</i> <i>B.Y. Rubin and S.L. Anderson</i>	96
8. An Overview of Free Radicals and Oxidative Stress: Setting the Scene <i>M.C.Y. Wong and H. Wiseman</i>	104
9. Tocopherol Composition of Plants and Their Regulation <i>H.-P. Mock</i>	112
10. Efficiency of Extracting Vitamin E from Plant Sources <i>G. Sacchetti and R. Bruni</i>	122
11. Commercial Extraction of Vitamin E from Food Sources <i>S.-Y. Quek, B.-S. Chu and B.S. Baharin</i>	140

12. Overview of Tocopherol Composition of Oils	153
<i>F. Khallouki, B. Spiegelhalder and R.W. Owen</i>	
13. Changes in Tocopherol Composition of Edible Oils after Extreme Heat Exposure (frying)	162
<i>M. Battino and J.L. Quiles</i>	
14. Analysis of Vitamin E by HPLC	172
<i>B.J. Burri</i>	
15. Capillary Electrochromatographic Analysis of Tocopherols	183
<i>S. Fanali</i>	
16. GC-MS and LC-MS/MS Techniques to Quantify Alpha-Tocopherol and Alpha-Tocopherolquinone: Applications to Biological and Food Matrices	190
<i>P. Mottier and P.A. Guy</i>	
17. Assay of Free Radical-generated Cholesterol Metabolites and Alpha-Tocopherol in Plasma and Tissues	201
<i>L. Iuliano, F. Micheletta, S. Natoli and U. Diczfalussy</i>	
18. Interactions of Vitamin E with Biomembrane Models: Binding to Dry and Water-containing Reversed Micelles	210
<i>A. Ruggirello and V. Turco Liveri</i>	
Part II: Dietary and Nutritional Influences and General Effects	219
19. Vitamin E Bioavailability	221
<i>M.G. Traber</i>	
20. Circulating Concentrations of Vitamin E in Populations	231
<i>E.S. Ford</i>	
21. The Relationship Between Tocotrienols and Tocopherols in the Diet	252
<i>K. Yamashita</i>	
22. The Relationship Between Alpha-Tocopherol and Selenium in the Diet	263
<i>M. De Cerqueira Cesar</i>	
23. The Relationship Between Alpha-Tocopherol, Selenium and Fish Oil in the Diet and Effects on the Heart and Liver	273
<i>J. Poirier and S. Kubow</i>	
24. Vitamin E Status in the Elderly	285
<i>M. Dehghan and A.T. Merchant</i>	
Part III: Cocktails, Antioxidant Mixtures and Novel Analogues	297
25. Efficacy of Tocopherol Mixtures Compared with Alpha-Tocopherol in Cardioprotection	299
<i>K. Sarkar, S. Parthasarthy, T.G.P. Saldeen and J.L. Mehta</i>	
26. Hyperlipidaemia and the Use of Tocopherol in Antioxidant Cocktails in Smokers	307
<i>J.C.-J. Chao</i>	
Part IV: General Physiological Systems, Metabolism and Metabolic Stress	315
27. Tissue Distribution of Alpha-Tocopherol in Oxidative Stress in Rats	317
<i>J. Antosiewicz, R.A. Olek and W. Ziolkowski</i>	

28. Cellular Metabolism in Vitamin E Deficiency	327
<i>P. Fattoretti and C. Bertoni-Freddari</i>	
29. Role of Vitamin E and Vitamin C in Nuclear Factor-κB-Dependent Nitric Oxide Signalling	339
<i>J. Neuzil, P.K. Witting, A. Kontush and J. Headrick</i>	
30. Modification of the Activation of NF-κB by Vitamin E	353
<i>H.P. Glauert</i>	
31. Vitamin E and Cell Signalling	365
<i>F. Galli, M.C. Aisa, C. Annetti and A. Floridi</i>	
32. Vitamin E Supplementation in Diabetes Mellitus	381
<i>B. Manuel-y-Keenoy</i>	
33. Serum Alpha-Tocopherol and Insulin Therapy in Diabetes: Relationship to Retinol	399
<i>F. Granado-Lorencio and B. Olmedilla-Alonso</i>	
34. Lead-induced DNA Damage and Relationship with Vitamin E	409
<i>K. Wozniak</i>	
35. Alpha-Tocopherol and Surgical Stress	419
<i>J.J. Ochoa and A. Muñoz-Hoyos</i>	
36. Ischaemia-reperfusion Injury and Tocopherols	429
<i>G.E. Gondolessi</i>	
Part V: Brain, Neurological and Optical Systems	445
37. Vitamin E Cocktails and their Preventive Effects on the Retina in Type 1 Diabetes	447
<i>F. Franconi, M.A.S. Di Leo, G. Seghieri, P.P. Urgeghe, R. Coinu, P. Di Simplicio and G. Ghirlanda</i>	
38. Neuronal Damage, Cognitive Impairment and Alpha-Tocopherol	454
<i>K. Fukui and S. Urano</i>	
39. Vitamin E and Coenzyme Q₁₀ in Parkinson's Disease	461
<i>M. Ebadi and S. Sharma</i>	
40. Protective Effects of Alpha-Tocopherol on Nicotinic Acetylcholine Receptors in Alzheimer's Disease	472
<i>Z.-Z. Guan</i>	
41. Effects of Vitamin E on the Apoptotic Cascade: Studies in Neuronal Cells	480
<i>R. W. Gracy</i>	
42. Effects of Vitamin E on the Brain in Diabetes	487
<i>G. Baydas</i>	
Part VI: Reproductive Systems, Fetus and Infant	495
43. Alpha-Tocopherol and Male Fertility	497
<i>S. Azhar</i>	
44. Alpha-Tocopherol and Pre-eclampsia	509
<i>A. Ben-Haroush and J. Bar</i>	
45. Alpha-Tocopherol and Antioxidant Status in Premature Infants	515
<i>J.J. Ochoa and M.C. Ramirez-Tortosa</i>	

46. Alpha-Tocopherol in Infants and Relationship with the Mothers	524
<i>G. Baydas</i>	
47. Transfer of Vitamin E in Milk to the Newborn	530
<i>C. Lauridsen and S.K. Jensen</i>	
48. Improving Thin Endometrium by Combined Pentoxifylline–Tocopherol Treatment if Fibrosis is Present	539
<i>H. Letur-Konirsch and S. Delanian</i>	
Part VII: Musculo-skeletal Systems and Exercise	549
49. Vitamin E Uncouples Joint Destruction and Clinical Inflammation in a Transgenic Mouse Model of Rheumatoid Arthritis	551
<i>M. De Bandt</i>	
50. The Effect of Vitamin E on Post-exercise Fatigue	555
<i>S. Asha Devi</i>	
51. Post-contraction Damage to Muscle and Vitamin E	564
<i>D.R. Moore and S.M. Phillips</i>	
52. Muscle Damage after Running and Effects of a Vitamin E and C Cocktail	572
<i>B. Dawson and C. Goodman</i>	
Part VIII: Cardiovascular, Haematological and Pulmonary Systems	581
53. Alpha-Tocopherol and Vascular Endothelial Growth Factor	583
<i>L.C. Vona-Davis and D.W. McFadden</i>	
54. Alpha-Tocopherol and Adhesion Molecules in Endothelial Cells	592
<i>G.A. Ferns and D.A.J. Lamb</i>	
55. Overview of Vitamin E and Human Low-density Lipoprotein	608
<i>S. Badiou, M.-A. Carbonneau, M. Morena, E. Mas, C.L. Leger and J.-P. Cristol</i>	
56. Alpha-Tocopherol in Lipoprotein Apheresis	617
<i>V. Bláha, D. Solichová, M. Bláha, P. Ždánský and Z. Zadák</i>	
57. Smooth Muscle Cells and Alpha-Tocopherol	624
<i>J.-M. Zingg and A. Azzi</i>	
58. Vitamin E and Atherosclerosis	645
<i>T. Cyrus and D. Praticò</i>	
59. Vitamin E and Blood Pressure	655
<i>S. Vasdev, P. Singal and V. Gill</i>	
60. Vitamin E and Platelets	666
<i>S. Riondino, F.M. Pulcinelli and P.P. Gazzaniga</i>	
61. Vitamin E and the Lung: Uptake Mechanism and Function in Alveolar Type II Cells	674
<i>F. Guthmann and B. Rüstow</i>	
62. Smoking and Tocopherol Status	683
<i>R.T. Murphy</i>	

63. Failure of Alpha-Tocopherol to Prevent Cigarette Smoke-induced Protein Oxidation: Comparison with Other Antioxidant Vitamins <i>K. Panda and I.B. Chatterjee</i>	690
64. Protective Effects of Alpha-Tocopherol in Pulmonary Fibrosis <i>J.W. Card and T.E. Massey</i>	700
65. Alpha-Tocopherol and Cystic Fibrosis <i>L.G. Wood, P.G. Gibson and M.L. Garg</i>	708
66. Hypoxia-induced Lung Damage and Alpha-Tocopherol <i>T. Minko</i>	719
Part IX: Skin	729
67. Overview of Alpha-Tocopherol and the Skin <i>J.M.L. White and E.M. Higgins</i>	731
68. The Skin and Vitamin E Cocktails <i>A.-K. Greul</i>	739
69. Relationship Between Alpha-Tocopherol and Glutathione in Keratinocytes <i>H. Masaki and H. Sakurai</i>	749
Part X: Liver, Kidney, Intestinal and Other Organ Systems	763
70. Alcoholic Liver Disease, Oxidative Stress and the Role of Tocopherol <i>C. Loguercio and A. Federico</i>	765
71. Liver Cirrhosis and Vitamin E Status <i>G. H. Koek, A. Bast and A. Driessen</i>	773
72. Inflammatory Bowel Disease and Oxidative Stress: Role of Vitamin E <i>J. P. Allard</i>	782
73. Vitamin E, Gastric Pathology and <i>Helicobacter pylori</i>: Causes and Relationships <i>B. Annibale and G. Capurso</i>	791
74. Does Oxidative Stress in Haemodialysis Patients Require an Overprotection with Vitamin E Supplementation? <i>J.-P. Cristol, S. Badiou, N. Terrier, A.-M. Dupuy, B. Canaud and M. Morena</i>	796
Part XI: Immune and Haematological Systems	805
75. Natural Forms of Vitamin E as Anti-Inflammatory and Anti-Cancer Agents: their Effect on Cyclo-oxygenase and Other Membrane-associated Enzymes <i>Q. Jiang</i>	807
76. Vitamin E and its Effects on Macrophages and Neutrophils <i>I. Politis and S. Fragou</i>	819
77. Vitamin E in Relation to Other Antioxidants in HIV Disease <i>C. Spada, G. L. Baggio and A. Treitinger</i>	826
78. Vitamin E and Hepatic Effects of Cyclosporins <i>S. Grub, C. Trendelenburg, J. Kapp-Schwoerer and A. Wolf</i>	836

79. Mycotoxins and Protection with Vitamin E <i>Z. W. Jaradat</i>	846
80. Alpha-Tocopherol and Expression of the CD95 Ligand <i>M. Li-Weber and P. H. Kramer</i>	855
Part XII: Cancer	863
81. Overview of Tocopherols in Cancer Chemoprevention <i>K. Krishnan, S. Campbell and W. L. Stone</i>	865
82. Chemical and Biological Properties of Tocopherols and their Relation to Cancer Incidence and Progression <i>Y. Tanaka and R. V. Cooney</i>	876
83. Cancer Progression and Alpha-Tocopherol in Relation to Other Antioxidants <i>G. Mantovani and C. Madeddu</i>	886
84. Chemoprevention and Vitamin E With or Without Selenium <i>A. A. Karagözüler</i>	894
85. Effects of Dietary Vitamin E on Mutatect Tumours <i>A. S. Haqqani, J. K. Sandhu and H. C. Birnboim</i>	904
86. Tocopherols and Lung Cancer <i>V. Cohen, S. Dawood and F. R. Khuri</i>	915
87. Gastrointestinal Cancers and Vitamin E <i>F. Kamangar</i>	922
88. Alpha-Tocopheryl Succinate Exhibits Potent Anticancer Activity: its Interaction with Ionizing Radiation and Chemotherapeutic Effects <i>K. N. Prasad and W. C. Cole</i>	931
Index	945
