

HANDBOOK OF RESEARCH ON

# User Interface Design and Evaluation for Mobile Technology

Joanna Lumsden

Volume I

# Table of Contents

|                             |        |
|-----------------------------|--------|
| <b>Foreword</b> .....       | xxviii |
| <b>Preface</b> .....        | xxx    |
| <b>Acknowledgment</b> ..... | xxxiii |

## **Section I** **User Interface Design for Mobile Technologies**

|                                                                                                                                                                                             |     |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| <b>Chapter I</b><br>From Ethnography to Interface Design / <i>Jeni Paay</i> .....                                                                                                           | 1   |
| <b>Chapter II</b><br>Use of Experimental Ethno-Methods to Evaluate the User Experience with Mobile Interactive<br>Multimedia Systems / <i>Anxo Cereijo Roibás and Stephen Johnson</i> ..... | 16  |
| <b>Chapter III</b><br>Problems Rendezvousing: A Diary Study / <i>Martin Colbert</i> .....                                                                                                   | 35  |
| <b>Chapter IV</b><br>User Experience of Camera Phones in Social Contexts / <i>Hanna Stelmaszewska, Bob Fields,</i><br><i>and Ann Blandford</i> .....                                        | 55  |
| <b>Chapter V</b><br>Interaction Design for Personal Photo Management on a Mobile Device / <i>Hyowon Lee,</i><br><i>Cathal Gurrin, Gareth J.F. Jones, and Alan F. Smeaton</i> .....          | 69  |
| <b>Chapter VI</b><br>Understanding One-Handed Use of Mobile Devices / <i>Amy K. Karlson, Benjamin B. Bederson,</i><br><i>and Jose L. Contreras-Vidal</i> .....                              | 86  |
| <b>Chapter VII</b><br>User Acceptance of Mobile Services / <i>Eija Kaasinen</i> .....                                                                                                       | 102 |

## **Chapter VIII**

Transgenerational Designs in Mobile Technology / *Martina Ziefle and Susanne Bay*..... 122

## **Chapter IX**

Learning-Disabled Children: A Disregarded User Group / *Susanne Bay and Martina Ziefle*..... 142

## **Chapter X**

Human Factors Problems of Wearable Computers / *Chris Baber and James Knight* ..... 158

## **Chapter XI**

The Garment As Interface / *Sabine Seymour*..... 176

## **Chapter XII**

Context as a Necessity in Mobile Applications / *Eleni Christopoulou*..... 187

## **Chapter XIII**

Context-Awareness and Mobile Devices / *Anind K. Dey and Jonna Häkkinen*..... 205

## **Chapter XIV**

Designing and Evaluating In-Car User-Interfaces / *Gary Burnett*..... 218

## **Chapter XV**

Speech-Based UI Design for the Automobile / *Bent Schmidt-Nielsen, Bret Harsham, Bhiksha Raj, and Clifton Forlines* ..... 237

## **Chapter XVI**

Design for Mobile Learning in Museums / *Nikolaos Tselios, Ioanna Papadimitriou, Dimitrios Raptis, Nikoleta Yiannoutsou, Vassilis Komis, and Nikolaos Avouris* ..... 253

## **Chapter XVII**

Collaborative Learning in a Mobile Technology Supported Classroom / *Siu Cheung Kong* ..... 270

## **Chapter XVIII**

Design of an Adaptive Mobile Learning Management System / *Hyungsung Park, Young Kyun Baek, and David Gibson*..... 286

## **Chapter XIX**

Adaptive Interfaces in Mobile Environments: An Approach Based on Mobile Agents / *Nikola Mitrovic, Eduardo Mena, and Jose Alberto Royo* ..... 302

## **Chapter XX**

Intelligent User Interfaces for Mobile Computing / *Michael J. O'Grady and Gregory M.P. O'Hare*..... 318

## **Chapter XXI**

Tools for Rapidly Prototyping Mobile Interactions / *Yang Li, Scott Klemmer, and James A. Landay* ..... 330

## **Chapter XXII**

Modelling and Simulation of Mobile Mixed Systems / *Emmanuel Dubois, Wafaa Abou Moussa, Cédric Bach, and Nelly de Bonnefoy*..... 346

## **Chapter XXIII**

Engineering Emergent Ecologies of Interacting Artefacts / *Ioannis D. Zaharakis and Achilles D. Kameas*..... 364

## **Section II**

### **Novel Interaction Techniques for Mobile Technologies**

## **Chapter XXIV**

The Design Space of Ubiquitous Mobile Input / *Rafael Ballagas, Michael Rohs, Jennifer G. Sheridan, and Jan Borchers*..... 386

## **Chapter XXV**

Text Entry/ *Mark David Dunlop and Michelle Montgomery Masters*..... 408

## **Chapter XXVI**

Improving Stroke-Based Input of Chinese Characters / *Min Lin, Andrew Sears, Steven Herbst, and Yanfang Liu*..... 426

## **Chapter XXVII**

Voice-Enabled User Interfaces for Mobile Devices / *Louise E. Moser and P. M. Melliar-Smith*..... 446

## **Chapter XXVIII**

Speech-Centric Multimodal User Interface Design in Mobile Technology / *Dong Yu and Li Deng*..... 461

## **Chapter XXIX**

Model-Based Target Sonification in Small Screen Devices: Perception and Action / *Parisa Eslambolchilar, Andrew Crossan, Roderick Murray-Smith, Sara Dalziel-Job, and Frank Pollick*..... 478

## **Chapter XXX**

Unobtrusive Movement Interaction for Mobile Devices / *Panu Korpipää, Jukka Linjama, Juha Kela, and Tapani Rantakokko*..... 507

## **Chapter XXXI**

EMG for Subtle, Intimate Interfaces / *Enrico Costanza, Samuel A. Inverso, Rebecca Allen, and Pattie Maes*..... 524

|                                                                                                                      |     |
|----------------------------------------------------------------------------------------------------------------------|-----|
| <b>Chapter XXXII</b>                                                                                                 |     |
| Mobile Camera-Based User Interaction / <i>Tolga Capin and Antonio Haro</i> .....                                     | 543 |
| <b>Chapter XXXIII</b>                                                                                                |     |
| 3-D Visualization on Mobile Devices / <i>Andrea Sanna and Fabrizio Lamberti</i> .....                                | 558 |
| <b>Chapter XXXIV</b>                                                                                                 |     |
| Navigation Support for Exploring Starfield Displays on Personal Digital Assistants /<br><i>Thorsten Buring</i> ..... | 576 |
| <b>Chapter XXXV</b>                                                                                                  |     |
| Projected Displays of Mobile Devices for Collaboration / <i>Masanori Sugimoto</i> .....                              | 594 |

### Section III Assistive Mobile Technologies

|                                                                                                                                                                                                |     |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| <b>Chapter XXXVI</b>                                                                                                                                                                           |     |
| Designing Mobile Technologies for Individuals with Disabilities / <i>Rock Leung and<br/>Joanna Lumsden</i> .....                                                                               | 609 |
| <b>Chapter XXXVII</b>                                                                                                                                                                          |     |
| Mobile Design for Older Adults / <i>Katie A. Siek</i> .....                                                                                                                                    | 624 |
| <b>Chapter XXXVIII</b>                                                                                                                                                                         |     |
| Designing Mobile Applications to Support Mental Health Interventions / <i>Mark Matthews,<br/>Gavin Doherty, David Coyle, and John Sharry</i> .....                                             | 635 |
| <b>Chapter XXXIX</b>                                                                                                                                                                           |     |
| Widely Usable User Interfaces on Mobile Devices with RFID / <i>Francesco Bellotti,<br/>Riccardo Berta, Alessandro De Gloria, and Massimiliano Margarone</i> .....                              | 657 |
| <b>Chapter XL</b>                                                                                                                                                                              |     |
| Toward a Novel Human Interface for Conceptualizing Spatial Information in Non-speech Audio /<br><i>Shiguo Nomura, Takayuki Shiose, Hiroshi Kawakami, Osamu Katai, and Keiji Yamanaka</i> ..... | 673 |
| <b>Chapter XLI</b>                                                                                                                                                                             |     |
| A Navigational Aid for Blind Pedestrians Designed with User- and Activity-Centered<br>Approaches / <i>Florence Gaunet and Xavier Briffault</i> .....                                           | 693 |
| <b>Chapter XLII</b>                                                                                                                                                                            |     |
| Trends in Adaptive Interface Design for Smart Wheelchairs / <i>Julio Abascal, Borja Bonail,<br/>Daniel Cagigas, Nestor Garay, and Luis Gardeazabal</i> .....                                   | 711 |

## Section IV

### Evaluation Techniques for Mobile Technologies

#### Chapter XLIII

Evaluating Mobile Human-Computer Interaction / *Chris Baber* ..... 731

#### Chapter XLIV

Usability Evaluation Methods for Mobile Applications / *Regina Bernhaupt, Kristijan Mihalic, and Marianna Obrist*..... 745

#### Chapter XLV

Evaluating Context-Aware Mobile Interfaces for Professionals / *Jan Willem Streefkerk, Myra P. van Esch-Bussemakers, Mark A. Neerincx, and Rosemarijn Looije* ..... 759

#### Chapter XLVI

Appropriating Heuristic Evaluation Methods for Mobile Computing / *Enrico Bertini, Tiziana Catarci, Alan Dix, Silvia Gabrielli, Stephen Kimani, and Giuseppe Santucci* ..... 780

#### Chapter XLVII

Using Wizard of Oz to Evaluate Mobile Applications / *Janet C. Read*..... 802

#### Chapter XLVIII

Cognitive Models as Usability Testing Tools / *Vanja Kljajevic*..... 814

#### Chapter XLIX

Assessing Human Mobile Computing Performance by Fitt's Law / *Thomas Alexander, Christopher Schlick, Alexander Sievert, and Dieter Leyk* ..... 830

#### Chapter L

Multilayered Approach to Evaluate Mobile User Interfaces / *Maria de Fátima Queiroz Vieira Turnell, José Eustáquio Rangel de Queiroz, and Danilo de Sousa Ferreira* ..... 847

#### Chapter LI

Theory and Application of the Privacy Regulation Model / *Jaakko T. Lehtikainen*..... 863

#### Chapter LII

Framework and Model of Usability Factors of Mobile Phones / *Dong-Han Ham, Jeongyun Heo, Peter Fossick, William Wong, Sanghyun Park, Chiwon Song, and Mike Bradley*..... 877

#### Chapter LIII

Will Laboratory Test Results be Valid in Mobile Contexts? / *Anne Kaikkonen, Aki Kekäläinen, Mikael Cankar, Titti Kallio, and Anu Kankainen*..... 897

#### Chapter LIV

Mobile Evaluations in a Lab Environment / *Murray Crease and Robert Longworth*..... 910

## **Chapter LV**

Instrumented Usability Analysis for Mobile Devices / *Andrew Crossan, Roderick Murray-Smith, Stephen Brewster, and Bojan Musizza* ..... 927

## **Chapter LVI**

Three Eye Movement Studies of Mobile Readability / *Gustav Öquist* ..... 945

## **Chapter LVII**

Did You See That? / *Murray Crease and Joanna Lumsden*..... 972

## **Chapter LVIII**

A Field Laboratory for Evaluating in Situ / *Rune T. Høegh, Jesper Kjeldskov, Mikael B. Skov, and Jan Stage*..... 982

## **Chapter LIX**

Field Evaluation of Collaborative Mobile Applications / *Adrian Stoica, Georgios Fiotakis, Dimitrios Raptis, Ioanna Papadimitriou, Vassilis Komis, and Nikolaos Avouris*..... 997

## **Section V Case Studies**

## **Chapter LX**

UI Design for Mobile Technology in a Closed Environment / *Kate Oakley, Gitte Lindgaard, Peter Kroeger, John Miller, Earl Bryenton, and Paul Hébert*, ..... 1015

## **Chapter LXI**

Designing a Ubiquitous Audio-Based Memory Aid / *Shwetak N. Patel, Khai N. Truong, Gillian R. Hayes, Giovanni Iachello, Julie A. Kientz, and Gregory D. Abowd*..... 1031

## **Chapter LXII**

Visualisation of Meeting Records on Mobile Devices / *Saturnino Luz and Masood Masoodian*..... 1049

## **Chapter LXIII**

A Proposed Tool for Mobile Collaborative Reading / *Jason T. Black and Lois Wright Hawkes* ..... 1068

## **Chapter LXIV**

Evaluating Learner Satisfaction in a Multiplatform E-Learning System / *Tiong T. Goh, Kinshuk, and Nian-Shing Chen*..... 1079
