Preface vii

Introduction xiii

SECTION 1

ROCK SLOPE DESIGN CONSIDERATIONS 1

- CHAPTER 1** Large-Scale Slope Designs—A Review of the State of the Art **3**
E. Hoek, K.H. Rippere, and P.F. Stacey
- CHAPTER 2** Collecting and Using Geologic Structure Data for Slope Design **11**
David E. Nicholas and Danny B. Sims
- CHAPTER 3** Designing Catch Benches and Interramp Slopes **27**
Thomas M. Ryan and Paul R. Pryor
- CHAPTER 4** Managing and Analyzing Overall Pit Slopes **39**
Richard D. Call, Paul F. Cicchini, Thomas M. Ryan, and Ross C. Barkley
- CHAPTER 5** A Slope Height Versus Slope Angle Database **47**
Jonny Sjöberg
- CHAPTER 6** Rock-Mass Properties for Surface Mines **59**
Evert Hoek and Antonio Karzulovic
- CHAPTER 7** Failure Mechanisms for High Slopes in Hard Rock **71**
Jonny Sjöberg
- CHAPTER 8** Time-Dependent Movements of Open-Pit Slopes **81**
Zavis M. Zavodni
- CHAPTER 9** The Role and Mitigation of Groundwater in Slope Stability **89**
Lee C. Atkinson
- CHAPTER 10** The Influence of Seismic Events on Slope Stability **97**
Charles E. Glass
- CHAPTER 11** Coupled Geomechanic-Hydrologic Approach to Slope Stability Based on Finite Elements **107**
William G. Pariseau
- CHAPTER 12** Practical Slope-Stability Analysis Using Finite-Difference Codes **115**
Loren Lorig and Pedro Varona
- CHAPTER 13** Blast Designs to Protect Pit Walls **125**
Timothy N. Hagan and Brad Bulow
- CHAPTER 14** Use of Blast Timing to Improve Slope Stability **131**
Claude Cunningham
- CHAPTER 15** Large-Diameter and Deep-Hole Presplitting Techniques for Safe Wall Stability **135**
Rodney Burke

SECTION 2**CASE STUDIES IN ROCK SLOPE STABILITY 139**

- CHAPTER 16** The Role of the Geotechnical Group in an Open Pit: Chuquicamata Mine, Chile **141**
Germán Flores and Antonio Karzulovic
- CHAPTER 17** Slope Stability at Escondida Mine **153**
Cristián Valdivia and Loren Lorig
- CHAPTER 18** Slope Stability at Collahuasi **163**
Graham Swan and Ricardo S. Sepulveda
- CHAPTER 19** The Sur Sur Mine of Codelco's Andina Division **171**
Reinaldo Apablaza, Emilio Farías, Ricardo Morales, Jaime Díaz, and Antonio Karzulovic
- CHAPTER 20** Design, Implementation, and Assessment of Open-Pit Slopes at Palabora over the Last 20 Years **177**
Alan Stewart, Fanie Wessels, and Susan Bird
- CHAPTER 21** Slope Stability at Aznalcóllar **183**
Jonny Sjöberg, John C. Sharp, and David J. Malorey
- CHAPTER 22** Slope Stability at Aitik **203**
Jonny Sjöberg and Urban Norström
- CHAPTER 23** Practical Rock-Slope Engineering Designs at Barrick Goldstrike **213**
Nick D. Rose and Robert P. Sharon
- CHAPTER 24** Slope Stability and Operational Control at Barrick Goldstrike **219**
Robert Sharon
- CHAPTER 25** Pit Slope Design at Orapa Mine **227**
J. Jakubec, P.J. Terbrugge, A.R. Guest, and F. Ramsden
- CHAPTER 26** Slope Stability Assessment at the Main Cresson Mine **239**
M. Pierce, T. Brandshaug, and M. Ward
- CHAPTER 27** Analysis of Stability Loss in Open-Pit Slopes and Assessment Principles for Hard, Tectonically Stressed Rock Masses **251**
Anatoly A. Kozyrev, Sergei P. Reshetnyak, Victor A. Maltsev, and Vadim V. Rybin
- CHAPTER 28** Coal Mine Highwall Stability **257**
Ben L. Seegmiller

SECTION 3**STABILITY OF WASTE ROCK EMBANKMENTS 265**

- CHAPTER 29** Site Selection, Characterization, and Assessment **267**
P. Mark Hawley
- CHAPTER 30** Assessment of Embankment Parameters **275**
David J. Williams
- CHAPTER 31** The Mechanism Controlling Angle-of-Repouse Stability in Waste Rock Embankments **285**
David B. Campbell
- CHAPTER 32** Embankment Hydrology-Storage Water Controls **293**
Gary R.E. Beckstead, John Slater, Neil van der Gugten, and Andrzej Slawinski
- CHAPTER 33** Embankment Hydrology and Unsaturated Flow in Waste Rock **305**
G. Ward Wilson
- CHAPTER 34** Operation and Monitoring Considerations from a British Columbia Mountain Terrain Perspective **311**
Tim Eaton
- CHAPTER 35** Reclamation and Surface Stabilization **323**
René A. Renteria

- CHAPTER 36** Observational Engineering for Open-Pit Geotechnics: A Case Study of Predictions Versus Performance for the Stability of a High Overburden Embankment over a Soft/Deep Soil Foundation at PT Freeport Indonesia's Grasberg Open-Pit Mine **329**
W. Kevin Walker and Mark J. Johnson
- CHAPTER 37** Construction and Operation of a Major Mined-Rock Disposal Facility at Elkview Coal Corporation, British Columbia **345**
Brent K. Zeitz
- CHAPTER 38** Steepened Spoil Slopes at Bridger Coal Company **351**
William L. Gerhard
- CHAPTER 39** Design Objectives for Mine Waste Rock Disposal Facilities at Phosphate Mines in Southeastern Idaho **361**
Brian Buck

SECTION 4 TAILINGS AND HEAP LEACHING 363

- CHAPTER 40** Tailings Dam Stability: Essential Ingredients for Success **365**
Michael Davies, Todd Martin, and Peter Lighthall
- CHAPTER 41** A Database of Quantitative Risks in Tailing Management **379**
Dr. F. Oboni and Dr. I. Bruce
- CHAPTER 42** Management and Operational Background to Three Tailings Dam Failures in South Africa **383**
Geoffrey Blight
- CHAPTER 43** Tailings Basin Water Management **391**
Donald E. Welch
- CHAPTER 44** The Gold Ridge Mine Tailings Storage Facility: An Australian Case History **399**
Mike Gowan and Glen Fergus
- CHAPTER 45** Stability Analysis of a Waste Rock Dump of Great Height Founded over a Tailings Impoundment in a High Seismicity Area **405**
Ramón Verdugo, Carlos Andrade, Sergio Barrera, and José Lara
- CHAPTER 46** Stability Issues Related to Tailing Storage and Heap Leach Facilities **411**
Donald R. East and Julio E. Valera
- CHAPTER 47** Case Study: Stability Analysis of the Cresson Valley Leach Facility (Cripple Creek and Victor Gold Mining Company) **419**
John F. Lupo and Terry Mandziak
- CHAPTER 48** Radomiro Tomic Secondary Heap Leach Facility **427**
Carlos Andrade, Edgar Bard O, Hugo Garrido, and José Campaña
- CHAPTER 49** Influence of the Direction of Ore Placement on the Stability of Ore Heaps on Geomembrane-Lined Pads **435**
M.E. Smith and J.P. Giroud

Index **439**
