**ABOUT THE AUTHORS vi**

**CONTRIBUTORS viii**

**PREFACE x**

**ACKNOWLEDGMENTS xvii**

## **UNIT 1**

### **CONTEMPORARY MATERNAL-NEWBORN NURSING**

#### **Chapter 1 Current Issues in Maternal-Newborn Nursing 2**

**Contemporary Childbirth 3**

**The Self-Care Movement 5**

**The Healthcare Environment 5**

**Culturally Competent Care 7**

**Professional Options in Maternal-Newborn Nursing Practice 7**

Collaborative Practice 8

Community-Based Nursing Care 9

**Legal and Ethical Considerations 9**

Scope of Practice 9

Nursing Negligence 10

Standards of Nursing Care 10

Clients' Rights 11

Ethical Decision Making 12

**Special Ethical Situations in Maternity Care 13**

Maternal-Fetal Conflict 13

Abortion 14

Fetal Research 14

Reproductive Assistance 14

Embryonic Stem Cell Research 15

Cord Blood Banking 16

Implications for Nursing Practice 16

**Statistical Data and Maternal-Infant Care 17**

Birth Rate 17

Infant Mortality 18

Maternal Mortality 19

Implications for Nursing Practice 19

**Evidence-Based Practice in Maternal-Child Nursing 20**

Nursing Research 20

Clinical Pathways and Nursing Care Plans 21

Evidence-Based Practice: An Example 21

#### **Chapter 2 Care of the Family in a Culturally Diverse Society 24**

**Defining Family 25**

Family Values 25

Family Power and Decision Making 25

Family Roles 25

Changes Affecting the Contemporary Family 26

**Types of Families 27**

Nuclear Family 27

Dual-Career/Dual-Earner Family 27

Childless Family 27

Extended Family 27

Extended Kin Network Family 27

Single-Parent Family 27

Stepparent Family 28

Binuclear Family 28

Nonmarital Heterosexual Cohabiting Family 28

Gay and Lesbian Families 29

**Contemporary Family Development Frameworks 29**

Model of the Childbearing Family 30

Model Incorporating the Unattached Young Adult 30

Model Incorporating Divorce and Remarriage 31

Model of the Lesbian or Gay Family 31

**Family Assessment 32**

Health History 32

Environmental Considerations 32

Family Assessment Tool 33

**Cultural Influences Affecting the Family 33**

Cultural Concepts 33

Acculturation 33

Impact of Culture on Family Structure 35

Cultural Influences on Childbearing and Childrearing 35

Cultural Diversity in Family Nursing Care 38

Culturally Influenced Responses 40

**Impact of Religion and Spirituality 43**

Diverse Meanings of Religion and Spirituality 43

Range of Religious Beliefs 43

Provision of Spiritually Sensitive Nursing Care 43

#### **Chapter 3 Complementary and Alternative Therapies 47**

**Evolution of Complementary and Alternative Therapies 48**

Historical Perspective 48

Resurgence of Complementary and Alternative Therapies 49

Growing Integration with Conventional Western Medicine 50

**Benefits and Risks of Complementary and Alternative Therapies 50**

Benefits 50  
Risks 51

**Types of Complementary and Alternative Therapies 52**

Complementary Therapeutic Systems 52  
Mind-Body Therapies 54  
Manipulative and Body-Based Therapies 56  
Nutritional and Herbal Therapies 58  
Sense Therapies 60  
Energy Therapies 60

**Nursing Care of the Childbearing Family Using Complementary Therapies 62**

Assessing a Client's Use of Complementary Therapies 63  
Incorporating Complementary Therapies into Maternal-Newborn Nursing Care 63

## **UNIT 2**

### **WOMEN'S HEALTH**

**Chapter 4 Women's Health Across the Lifespan 68**

**Community-Based Nursing Care 69**

The Nurse's Role in Addressing Issues of Women's Wellness and Sexuality 69  
Taking a Sexual History 70

**Menstruation 70**

Counseling the Premenstrual Girl about Menarche 71  
Educational Topics 71  
Associated Menstrual Conditions 72

**Nursing Care Management 74**

**Health Maintenance for Well Women 75**

Body Piercing, Tattoos, and Branding 75

**Menopause 77**

Perimenopause 77  
Psychologic Aspects 77  
Physical Aspects 78  
Premature Menopause 79  
Medical Therapy 79  
Complementary and Alternative Therapies 83

**Nursing Care Management 84**

**Chapter 5 Women's Health: Family Planning 88**

**Overview of Family Planning 89**

Demographics 89  
Choosing a Method of Contraception 89

**Fertility Awareness-Based Methods 89**

Basal Body Temperature Method 90  
Ovulation Method 90  
Calendar Rhythm Method 91  
Symptothermal Method 91  
Other Options 91

**Situational Contraceptives 91**

Abstinence 91  
Coitus Interruptus 91  
Douching 92

**Spermicide 92**

**Barrier Methods of Contraception 92**

Male Condom 92  
Female Condom 93  
Diaphragm 94  
Cervical Cap 95  
Vaginal Sponge 96  
Intrauterine Devices 96

**Hormonal Contraceptives 97**

Combination Estrogen-Progestin Approaches 97  
Long-Acting Progestin Contraceptives 100

**Postcoital Emergency Contraception 101**

**Operative Sterilization 101**

Vasectomy 101  
Tubal Ligation 101  
Nonoperative Sterilization 102

**Male Contraception 102**

**Nursing Care Management 103**

**Clinical Interruption of Pregnancy 103**

Medical Interruption of Pregnancy 105  
Surgical Interruption of Pregnancy 105

**Nursing Care Management 105**

**Chapter 6 Women's Health: Commonly Occurring Infections 109**

**Care of the Woman with a Lower Genital Tract Infection (Vaginitis) 110**

Bacterial Vaginosis 110  
Vulvovaginal Candidiasis 111

**Nursing Care Management 112**

**Care of the Woman with a Sexually Transmitted Infection 112**

Prevention of Sexually Transmitted Infections 113  
Trichomoniasis 113  
Chlamydial Infection 114  
Gonorrhea 115  
Herpes Genitalis 115

Syphilis	116
Human Papilloma Virus/Condylomata Acuminata	117
Pediculosis Pubis (Pubic or Crab Lice)	117
Scabies	118
Viral Hepatitis	118
Acquired Immunodeficiency Syndrome (AIDS)	119
<b>Nursing Care Management</b>	<b>119</b>
<b>Care of the Woman with an Upper Genital Tract Infection (Pelvic Inflammatory Disease)</b>	<b>119</b>
<b>Nursing Care Management</b>	<b>120</b>
<b>Care of the Woman with a Urinary Tract Infection</b>	<b>121</b>
Lower Urinary Tract Infection (Cystitis and Urethritis)	121
Upper Urinary Tract Infection (Pyelonephritis)	122
<b>Nursing Care Management</b>	<b>122</b>
<b>Chapter 7 Women's Health Problems</b>	<b>126</b>
<b>Care of the Woman with a Disorder of the Breast</b>	<b>127</b>
Screening Techniques for the Breasts	127
Malignant Breast Disease	132
Diagnosis	133
Clinical Therapy	133
Psychologic Adjustment	134
<b>Nursing Care Management</b>	<b>134</b>
<b>Care of the Woman During a Pelvic Examination</b>	<b>135</b>
Vulvar Self-Examination	136
<b>Care of the Woman with Vulvitis</b>	<b>138</b>
<b>Nursing Care Management</b>	<b>138</b>
<b>Care of the Woman with an Abnormal Finding During Pelvic Examination</b>	<b>138</b>
Vulvar Lesion	138
Cervicitis	139
Abnormal Pap Smear Results	139
Cervical Abnormalities	141
Evaluation of Abnormal Cytology	141
Surgical Treatment for Abnormal Cytology	142
<b>Care of the Woman with Toxic Shock Syndrome</b>	<b>142</b>
<b>Nursing Care Management</b>	<b>143</b>
Abnormal Uterine Bleeding	143
Ovarian (Adnexal) Masses	144
Uterine Masses	145
<b>Nursing Care Management</b>	<b>145</b>
<b>Care of the Woman with Endometriosis</b>	<b>145</b>
<b>Nursing Care Management</b>	<b>146</b>
<b>Care of the Woman with Polycystic Ovarian Syndrome</b>	<b>147</b>
Signs and Symptoms of PCOS	148
Diagnosis of PCOS	148
Clinical Therapy	149
Long-Term Implications	149
<b>Nursing Care Management</b>	<b>149</b>

<b>Care of the Woman with Pelvic Relaxation</b>	<b>149</b>
Cystocele	149
Rectocele	149
Uterine Prolapse	150
<b>Care of the Woman Requiring Gynecologic Surgery</b>	<b>150</b>
Hysterectomy	150
Dilation and Curettage	152
Uterine Ablation	152
Salpingectomy	152
Oophorectomy	152
Vulvectomy	152
Pelvic Exenteration	152
<b>Nursing Care Management</b>	<b>152</b>
<b>Chapter 8 Women's Care: Social Issues</b>	<b>156</b>
<b>Social Issues Affecting Women Living in Poverty</b>	<b>157</b>
The Feminization of Poverty	157
Economic Effects of Divorce	158
Factors Contributing to Poverty in Working Women	158
Public Assistance	158
Homelessness	159
Effects of Poverty on Women's Health Care	160
<b>Social Issues Affecting Women in the Workplace</b>	<b>160</b>
Wage Discrepancy	161
Maternal and Paternal Leave Issues	162
Discrimination Against Pregnant Women	162
Child Care	163
Advocacy for Working Women	164
Environmental Hazards in the Workplace and at Home	164
<b>Social Issues Affecting Older Women</b>	<b>167</b>
Economic Vulnerability of Older Women	167
Elder Abuse	168
Implications of Aging for Women's Health and Health Care	168
<b>Social Issues Affecting Women with Disabilities</b>	<b>169</b>
Definitions of Disability	169
Types of Disabilities	169
Economic Vulnerability of Women with Disabilities	170
Violence Against People with Disabilities	170
Effects of Disability on Women's Health Care	170
<b>Social Issues Affecting Lesbian and Bisexual Women</b>	<b>170</b>
Employment Discrimination	170
Housing Discrimination	171
Parenting Issues	171
Social Barriers	172
Effects of Discrimination on Lesbian and Bisexual Women's Health Care	172
<b>Female Genital Mutilation (FGM)</b>	<b>173</b>
Origin and Demographics of FGM	173
Nature of the Procedure(s)	173

Health Implications 173  
Efforts to Eradicate FGM 173  
Responding Appropriately to Circumcised Women 174

## **Chapter 9 Violence Against Women 178**

### **Historical Factors Contributing to Violence Against Women 179**

#### **Domestic Violence 179**

Contributing Factors 180  
Common Myths about Battering and Women with Abusive Partners 181  
Cycle of Violence 182  
Characteristics of Batterers 182

#### **Nursing Care Management 182**

#### **Sexual Assault 189**

Common Myths about Rape 190  
Characteristics of Perpetrators 190  
Types of Rape 191  
Role of Drugs in Sexual Assault 191  
Rape Trauma Syndrome 191  
Rape as a Cause of Post-Traumatic Stress Disorder 192  
Physical Care of the Sexual Assault Survivor 193

#### **Nursing Care Management 195**

Prosecution of the Assailant 196  
Responding to Violence Against Women: Vicarious Trauma 197

## **UNIT 3**

### **HUMAN REPRODUCTION**

#### **Chapter 10 The Reproductive System 202**

##### **Embryonic Development of Reproductive Structures and Processes 203**

Ovaries and Testes 203  
Other Internal Structures 203  
External Structures 203

##### **Puberty 203**

Major Physical Changes 205  
Physiology of Onset 205

##### **Female Reproductive System 205**

External Genitals 205  
Female Internal Reproductive Organs 207  
Bony Pelvis 213  
Breasts 218

##### **Female Reproductive Cycle 219**

Effects of Female Hormones 219  
Neurohormonal Basis of the Female Reproductive Cycle 221  
Menstrual Cycle 222

##### **Male Reproductive System 225**

External Genitals 225  
Internal Reproductive Organs 226

#### **Chapter 11 Conception and Fetal Development 231**

##### **Chromosomes 232**

##### **Cellular Division 232**

Mitosis 232  
Meiosis 234

##### **Gametogenesis 234**

Oogenesis 234  
Spermatogenesis 235

##### **The Process of Fertilization 235**

Preparation for Fertilization 236  
The Moment of Fertilization 236

##### **Preembryonic Stage 236**

Cellular Multiplication 237  
Implantation (Nidation) 238  
Cellular Differentiation 238

##### **Twins 241**

##### **Development and Functions of the Placenta 243**

Placental Circulation 244  
Placental Functions 245

##### **Development of the Fetal Circulatory System 246**

Fetal Heart 248

##### **Embryonic and Fetal Development 248**

Embryonic Stage 250  
Fetal Stage 252

##### **Factors Influencing Embryonic and Fetal Development 254**

#### **Chapter 12 Special Reproductive Concerns: Infertility and Genetics 258**

##### **Infertility 259**

Essential Components of Fertility 259  
Initial Investigation: Physical and Psychosocial Issues 260  
Assessment of the Woman's Fertility 260  
Assessment of the Man's Fertility 268  
Methods of Managing Infertility 269

##### **Nursing Care Management 277**

##### **Genetic Disorders 279**

Chromosomes and Chromosomal Analysis 279  
Modes of Inheritance 283  
Prenatal Diagnostic Tests 285  
Genetic Counseling 289

# UNIT 4

## PREGNANCY

### Chapter 13 Preparation for Parenthood 296

#### Preconception Counseling 297

Preconception Health Measures 298

Contraception 298

Conception 299

#### Childbearing Decisions 299

Care Provider 299

Birth Setting 301

Labor Support Person 301

Siblings at Birth 302

#### Classes for Family Members During Pregnancy 302

Early Classes: First Trimester 303

Later Classes: Second and Third Trimesters 303

Adolescent Parenting Classes 305

Breastfeeding Programs 305

Sibling Preparation: Adjustment to a Newborn 305

Classes for Grandparents 306

#### Education of the Family Having Cesarean Birth 306

Preparation for Cesarean Birth 306

Preparation for Repeat Cesarean Birth 306

Preparation for Parents Desiring Vaginal Birth after  
Cesarean Birth 306

#### Methods of Childbirth Preparation 307

Body-Conditioning Exercises 308

Relaxation Exercises 308

Breathing Techniques 310

Vocalization Techniques 311

### Chapter 14 Physical and Psychologic Changes of Pregnancy 314

#### Anatomy and Physiology of Pregnancy 315

Reproductive System 315

Breasts 316

Respiratory System 316

Cardiovascular System 316

Gastrointestinal System 317

Urinary Tract 317

Skin and Hair 318

Musculoskeletal System 318

Eyes 319

Central Nervous System 319

Metabolism 319

Endocrine System 320

#### Signs of Pregnancy 321

Subjective (Presumptive) Changes 321

Objective (Probable) Changes 322

Diagnostic (Positive) Changes 325

#### Psychologic Response of the Expectant Family to Pregnancy 325

Mother 327

Father 330

Siblings 331

Grandparents 333

#### Cultural Values and Pregnancy 333

### Chapter 15 Antepartal Nursing Assessment 337

#### Initial Client History 338

Definition of Terms 338

Client Profile 339

Obtaining Data 340

Prenatal High-Risk Screening 340

#### Initial Prenatal Assessment 344

Determination of Due Date 344

Uterine Assessment 351

Assessment of Fetal Development 352

Assessment of Pelvic Adequacy 353

Screening Tests 357

#### Subsequent Client History 357

#### Subsequent Prenatal Assessment 359

### Chapter 16 The Expectant Family: Needs and Care 367

#### Nursing Care During the Prenatal Period 368

Nursing Diagnosis 368

Nursing Plan and Implementation 368

#### Care of the Pregnant Woman's Family 369

Care of the Father 369

Care of Siblings and Other Family Members 369

#### Cultural Considerations in Pregnancy 370

#### Relief of the Common Discomforts of Pregnancy 372

First Trimester 372

Second and Third Trimesters 379

#### Promotion of Self-Care During Pregnancy 383

Fetal Activity Monitoring 383

Breast Care 383

Clothing 386

Bathing 387

Employment 387

Travel 387

Activity and Rest 387

Exercises to Prepare for Childbirth 389

Sexual Activity 391

Dental Care 392

Immunizations 392

Complementary and Alternative Therapy 392

Teratogenic Substances 392  
Evaluation 398

**Care of the Expectant Couple Over 35 398**  
Medical Risks 399  
Special Concerns of the Expectant Couple Over 35 399

**Nursing Care Management 400**

**Chapter 17 Adolescent Pregnancy 404**

**Overview of Adolescence 405**  
Physical Changes 405  
Psychosocial Development 405

**Factors Contributing to Adolescent Pregnancy 407**  
Socioeconomic and Cultural Factors 407  
High-Risk Behaviors 407  
Psychosocial Factors 408  
International Perspective 408

**Risks to the Adolescent Mother 409**  
Physiologic Risks 409  
Psychologic Risks 409  
Sociologic Risks 411  
Risks for Her Child 411

**Partners of Adolescent Mothers 411**

**Reactions of Family and Social Supports to Adolescent Pregnancy 412**

**Nursing Care Management 412**

**Prevention of Adolescent Pregnancy 416**

**Chapter 18 Maternal Nutrition 420**

**Maternal Weight 421**  
Pregnancy Weight 421  
Maternal Weight Gain 421

**Nutritional Requirements 424**  
Calories 424  
Carbohydrates 426  
Protein 426  
Fat 426  
Minerals 427  
Vitamins 428  
Fluid 431

**Vegetarianism 431**

**Factors Influencing Nutrition 431**  
Common Discomforts of Pregnancy 432  
Use of Artificial Sweeteners 432  
Mercury in Fish 432  
Salmonella and Listeria Infection 433  
Lactase Deficiency (Lactose Intolerance) 433  
Cultural, Ethnic, and Religious Influences 433  
Psychosocial Factors 434  
Eating Disorders 434  
Pica 435

**Nutritional Care of the Pregnant Adolescent 435**  
Specific Nutrient Concerns 435  
Dietary Patterns 437  
Counseling Issues 437

**Postpartum Nutrition 437**  
Postpartal Nutritional Status 437  
Nutritional Care of Formula-Feeding Mothers 437  
Nutritional Care of Breastfeeding Mothers 438  
Counseling Issues 438

**Nursing Care Management 438**

**Chapter 19 Pregnancy at Risk: Pregestational Problems 444**

**Care of the Woman Practicing Substance Abuse 445**  
Substances Commonly Abused During Pregnancy 446  
Clinical Therapy 449

**Nursing Care Management 449**

**Care of the Woman with Diabetes Mellitus 450**  
Normal Glucose Homeostasis 450  
Carbohydrate Metabolism in Normal Pregnancy 450  
Pathophysiology of Diabetes Mellitus 450  
Classification of Diabetes Mellitus 450  
Influence of Pregnancy on Diabetes 451  
Influence of Diabetes on Pregnancy Outcome 451  
Clinical Therapy 452  
Antepartal Management of Diabetes 454  
Intrapartal Management of Diabetes Mellitus 455  
Postpartal Management of Diabetes Mellitus 455

**Nursing Care Management 456**

**Care of the Woman with Anemia 461**  
Iron Deficiency Anemia 461

**Nursing Care Management 462**  
Folic Acid Deficiency Anemia 462

**Nursing Care Management 463**  
Sickle Cell Anemia 463

**Nursing Care Management 464**  
Thalassemia 464

**Nursing Care Management 465**

**Care of the Woman with Acquired Immunodeficiency Syndrome (AIDS) 465**  
Pathophysiology of HIV/AIDS 465  
Maternal Risks 465  
Fetal-Neonatal Risks 466  
Clinical Therapy 466

**Nursing Care Management 467**

**Care of the Woman with Heart Disease 471**  
Congenital Heart Defects 471  
Rheumatic Heart Disease 471  
Marfan Syndrome 471  
Peripartum Cardiomyopathy 471

- Eisenmenger Syndrome 471
- Mitral Valve Prolapse 471
- Clinical Therapy 472
- Nursing Care Management 472**
- Other Medical Conditions and Pregnancy 474**
- Chapter 20 Pregnancy at Risk: Gestational Onset 480**
- Care of the Woman at Risk Because of Bleeding During Pregnancy 481**
  - General Principles of Nursing Intervention 481
  - Spontaneous Abortion (Miscarriage) 481
- Nursing Care Management 483**
  - Ectopic Pregnancy 484
- Nursing Care Management 486**
  - Gestational Trophoblastic Disease 486
- Nursing Care Management 488**
  - Placenta Previa 489
  - Abruptio Placentae 489
- Care of the Woman with an Incompetent Cervix 489**
- Care of the Woman with Hyperemesis Gravidarum 491**
  - Clinical Therapy 491
- Nursing Care Management 492**
- Care of the Woman with Premature Rupture of Membranes 492**
  - Maternal Risks 493
  - Fetal-Neonatal Risks 493
  - Clinical Therapy 493
- Nursing Care Management 494**
- Care of the Woman at Risk Due to Preterm Labor 496**
  - Maternal Risks 496
  - Fetal-Neonatal Risks 496
  - Clinical Therapy 496
- Nursing Care Management 501**
- Care of the Woman with a Hypertensive Disorder 504**
  - Preeclampsia and Eclampsia 504
- Nursing Care Management 511**
  - Chronic Hypertension 519
  - Chronic Hypertension with Superimposed Preeclampsia 520
  - Gestational Hypertension 520
- Care of the Woman at Risk for Rh Alloimmunization 520**
  - Fetal-Neonatal Risks 521
  - Clinical Therapy 522
- Nursing Care Management 523**
- Care of the Woman at Risk Due to ABO Incompatibility 524**
- Care of the Woman Requiring Surgery During Pregnancy 526**
  - Clinical Therapy 526
- Nursing Care Management 526**
- Care of the Woman Suffering Trauma from an Accident 527**
  - Clinical Therapy 527
- Nursing Care Management 528**
- Care of the Battered Pregnant Woman 529**
- Care of the Woman with a Perinatal Infection Affecting the Fetus 529**
  - Toxoplasmosis 529
- Nursing Care Management 530**
  - Rubella 530
- Nursing Care Management 531**
  - Cytomegalovirus 531
  - Herpes Simplex Virus 532
- Nursing Care Management 532**
  - Group B Streptococcal Infection 533
  - Human B19 Parvovirus 534
- Other Infections in Pregnancy 534**
- Chapter 21 Assessment of Fetal Well-Being 541**
- Psychologic Reactions to Antenatal Testing 542**
- Nursing Care Management 542**
- Ultrasound 543**
  - Extent of Ultrasound Exams 544
  - Methods of Ultrasound Scanning 544
  - Safety of Ultrasound 545
  - Who Should Perform Ultrasound Examinations? 545
- Nursing Care Management 546**
- Assessment of Fetal Well-Being in the First Trimester 546**
  - Viability 546
  - Gestational Age 547
  - Nuchal Translucency Testing 548
- Assessment of Fetal Well-Being in the Second Trimester 548**
  - Fetal Life 549
  - Fetal Number 549
  - Fetal Presentation 549
  - Fetal Anatomy Survey 549
  - Gestational Age and Growth 549
  - Amniotic Fluid Volume 549
  - Placenta Location 550
  - Survey of Uterine Anatomy 551
- Assessment of Fetal Well-Being in the Third Trimester 551**
  - Conditions Warranting Fetal Surveillance 551
  - Fetal Movement Assessment 551
  - Nonstress Test 552
- Nursing Care Management 555**
  - Vibroacoustic Stimulation 555
  - Contraction Stress Test 556

**Nursing Care Management 560**

- Amniotic Fluid Index 560
- Biophysical Profile 560
- Modified Biophysical Profile 561
- Doppler Flow Studies 561
- Evaluation of Placental Maturity 561
- Estimation of Fetal Weight 562

**Other Diagnostic Tests 563**

- Maternal Serum Alpha-Fetoprotein (MSAFP) 564
- Amniocentesis 564
- Procedure for Performing Amniocentesis 565

**Nursing Care Management 568**

- Chorionic Villus Sampling 568

**Nursing Care Management 570**

- Cordocentesis 570

**Nursing Care Management 571**

- Fetal Fibronectin 571
- Evaluation of Fetal Lung Maturity 571

**Nursing Care Management 572**

- Immune System and Other Blood Values 595
- Pain 596

**Fetal Response to Labor 598**

- Heart Rate Changes 598
- Acid-Base Status in Labor 598
- Hemodynamic Changes 599
- Behavioral States 599
- Fetal Sensation 599

**Chapter 23 Intrapartal Nursing Assessment 602****Maternal Assessment 603**

- Prenatal Record 603
- Historical Data 603
- Intrapartal High-Risk Screening 606
- Intrapartal Physical and Psychosociocultural Assessment 606
- Evaluating Labor Progress 613

**Fetal Assessment 618**

- Determination of Fetal Position and Presentation 618
- Auscultation of Fetal Heart Rate 621

**Electronic Fetal Monitoring 624**

- Indications for Electronic Fetal Monitoring 624
- External Monitoring 624
- Internal Monitoring 626
- Telemetry 626

**Fetal Heart Rate Patterns 627**

- Baseline Rate 627
- Baseline Variability 630
- Fetal Heart Rate Changes 630
- Evaluation of Tracings 635

**Indirect Methods of Fetal Assessment 638**

- Scalp Stimulation 639
- Cord Blood Analysis at Birth 639

**Chapter 24 The Family in Childbirth: Needs and Care 643****Nursing Diagnosis During Labor and Birth 644****Nursing Care During Admission 644**

- Establishing a Positive Relationship 644
- Labor Assessment 649
- Collecting Laboratory Data 649
- Social Assessment 650
- Documentation of Admission 650

**Nursing Care During the First Stage of Labor 650**

- Integration of Family Expectations 651
- Integration of Cultural Beliefs 651
- Provision of Care in the First Stage 653
- Promotion of Comfort in the First Stage 656

**Nursing Care During the Second Stage of Labor 661**

- Provision of Care in the Second Stage 661
- Promotion of Comfort in the Second Stage 664
- Assisting the Couple and Physician or CNM During Birth 664

**UNIT 5****BIRTH****Chapter 22 Processes and Stages of Labor and Birth 576****Critical Factors in Labor 577**

- Birth Passageway 577
- Birth Passenger (Fetus) 577
- Relationship of Maternal Pelvis and Presenting Part 581
- Physiologic Forces of Labor 584
- Psychosocial Considerations 584

**Physiology of Labor 585**

- Possible Causes of Labor Onset 585
- Myometrial Activity 586
- Musculature Changes in the Pelvic Floor 586
- Premonitory Signs of Labor 586

## **UNIT 6**

### **THE NEWBORN**

**Chapter 28 Physiologic Responses of the Newborn to Birth 792**

**Respiratory Adaptations 793**

Intrauterine Factors Supporting Respiratory Function 793

Initiation of Breathing 793

Factors Opposing the First Breath	796
Cardiopulmonary Physiology	796
Oxygen Transport	797
Maintaining Respiratory Function	797
Characteristics of Newborn Respiration	798
<b>Cardiovascular Adaptations</b>	<b>798</b>
Fetal-Newborn Transitional Physiology	798
Characteristics of Cardiac Function	799
<b>Hematopoietic Adaptations</b>	<b>801</b>
<b>Temperature Regulation</b>	<b>802</b>
Heat Loss	804
Heat Production (Thermogenesis)	805
Response to Heat	806
<b>Hepatic Adaptations</b>	<b>806</b>
Iron Storage and Red Blood Cell Production	806
Carbohydrate Metabolism	806
Conjugation of Bilirubin	806
Physiologic Jaundice	807
Breastfeeding Jaundice and Breast Milk Jaundice	808
Coagulation	809
<b>Gastrointestinal Adaptations</b>	<b>809</b>
Digestion and Absorption	810
<b>Urinary Adaptations</b>	<b>811</b>
Kidney Development and Function	811
Characteristics of Newborn Urinary Function	811
<b>Immunologic Adaptations</b>	<b>811</b>
<b>Neurologic and Sensory/Perceptual Functioning</b>	<b>812</b>
Intrauterine Factors Influencing Newborn Behavior	812
Characteristics of Newborn Neurologic Function	812
Periods of Reactivity	813
Behavioral States of the Newborn	813
Behavioral and Sensory Capacities of the Newborn	814
<b>Chapter 29 Nursing Assessment of the Newborn</b>	<b>818</b>
<b>Timing of Newborn Assessments</b>	<b>819</b>
<b>Estimation of Gestational Age</b>	<b>819</b>
Assessment of Physical Maturity Characteristics	820
Assessment of Neuromuscular Maturity Characteristics	825
<b>Physical Assessment</b>	<b>829</b>
General Appearance	829
Weight and Measurements	829
Temperature	830
Skin Characteristics	831
Birthmarks	832
Head	833
Hair	835
Face	835
Eyes	836
Nose	836
Mouth	836

Ears	837
Neck	838
Chest	838
Cry	838
Respiration	838
Heart	839
Abdomen	840
Umbilical Cord	841
Genitals	841
Anus	842
Extremities	842
Back	843
Assessment of Neurologic Status	843
Newborn Physical Assessment Guide	846
Newborn Behavioral Assessment	846

## **Chapter 30 The Normal Newborn: Needs and Care 862**

### **Nursing Care During Admission and the First Four Hours of Life 863**

Nursing Assessment and Diagnosis	863
Nursing Plan and Implementation	863
Evaluation	872

### **Nursing Management of the Newborn Following Transition 872**

Nursing Diagnosis	872
Nursing Plan and Implementation	872
Evaluation	878

### **Nursing Management in Preparation for Discharge 878**

Nursing Assessment and Diagnosis	879
Planning and Implementation	879
Evaluation	887

## **Chapter 31 Newborn Nutrition 890**

### **Nutritional Needs and Milk Composition 891**

Dietary Reference Intakes	891
Growth	891
Fluid	892
Energy	893
Fats	893
Carbohydrates	893
Protein	894
Vitamins, Minerals, and Trace Elements	894
Specialty Formula	895
After the First Year	896

### **Choice of Feeding: Breast versus Bottle 896**

The Evolution of Formula	896
Advantages of Breast Milk	897
Potential Disadvantages and Contraindications to Breastfeeding	900

**The Feeding Process 902**

Breast Milk Production 902

Timing of Newborn Feedings 904

Client Education: Feeding Technique 906

**Community-Based Nursing Care 917**

Promotion of Successful Infant Feeding 917

Cultural Considerations in Infant Feeding 919

Complementary and Alternative Practices 920

**Nutritional Assessment 921****Chapter 32 The Newborn at Risk: Conditions Present at Birth 928****Identification of At-Risk Newborns 929****Care of the Small-for-Gestational-Age/Intrauterine****Growth Restriction Newborn 930**

Factors Contributing to Intrauterine Growth Restriction 931

Patterns of IUGR 932

Common Complications of the SGA Newborn 932

Clinical Therapy 933

**Nursing Care Management 933****Care of the Large-for-Gestational-Age Newborn 938**

Common Complications of the LGA Newborn 938
