

Reproductive Physiology of **Mammals**

From Farm to Field and Beyond

Keith K. Schillo

CONTENTS

	PREFACE	xii
	ACKNOWLEDGMENTS	xv
	ABOUT THE AUTHOR	xvi
	HOW TO USE THIS BOOK	xvi
Chapter 1	INTRODUCTION	1
	FOCUS OF THE BOOK	1
	REPRODUCTIVE PHYSIOLOGY AS A SCIENTIFIC DISCIPLINE	3
	A CONCEPTUAL FRAMEWORK FOR REPRODUCTIVE PHYSIOLOGY	5
	A GLOBAL CONTEXT FOR REPRODUCTIVE PHYSIOLOGY	6
	SUMMARY OF MAJOR CONCEPTS	15
	DISCUSSION	15
	REFERENCES	15
CHAPTER 2	LIFE, REPRODUCTION, AND SEX	17
	WHAT IS SEX?	17
	MITOSIS AND MEIOSIS	20
	WHY SEXUAL REPRODUCTION?	24
	SEXUAL REPRODUCTION IN MAMMALS	30
	SUMMARY OF MAJOR CONCEPTS	30
	DISCUSSION	31
	REFERENCES	31
CHAPTER 3	ORGANIZATION AND STRUCTURE OF MAMMALIAN REPRODUCTIVE SYSTEMS	32
	THE REPRODUCTIVE SYSTEMS OF MAMMALS	32
	REVIEW OF GROSS ANATOMY	35
	MICROSCOPIC ANATOMY	38
	ORGANIZATION OF ORGANS	48

SUMMARY OF MAJOR CONCEPTS	50
DISCUSSION	51
REFERENCES	51

CHAPTER 4

SEXUAL DIFFERENTIATION	52
OVERVIEW OF SEXUAL DIFFERENTIATION	52
CHROMOSOMAL SEX	54
OVERVIEW OF EMBRYONIC DEVELOPMENT: THE PIG AS A MODEL	56
DETAILS OF SEXUAL DIFFERENTIATION	62
SECONDARY SEX TRAITS AND SEXUAL BEHAVIOR	74
ANOMALIES OF SEXUAL DIFFERENTIATION	76
SUMMARY OF MAJOR CONCEPTS	81
DISCUSSION	81
REFERENCES	82

CHAPTER 5

FUNCTIONAL ANATOMY OF REPRODUCTIVE SYSTEMS: GENITAL ORGANS	83
OVERVIEW: REPRODUCTIVE TRACTS	83
GONADS	91
GENITAL DUCTS	102
SUSPENSION AND VASCULATURE OF THE INTERNAL GENITAL ORGANS	114
EXTERNAL GENITALIA	119
SUMMARY OF MAJOR CONCEPTS	123
DISCUSSION	124
REFERENCES	124

CHAPTER 6

FUNCTIONAL ANATOMY OF REPRODUCTIVE SYSTEMS: NEUROENDOCRINE SYSTEMS	125
OVERVIEW	125
ANATOMY OF THE BRAIN	129
ANATOMY OF THE HYPOTHALAMIC-PITUITARY AXIS	133
SUMMARY OF MAJOR CONCEPTS	140
DISCUSSION	141
REFERENCES	141

CHAPTER 7**PRINCIPLES OF REPRODUCTIVE ENDOCRINOLOGY****142**

HOMEOSTASIS 142

WHAT IS ENDOCRINOLOGY? 142

CLASSIFICATION OF REPRODUCTIVE HORMONES 146

OVERVIEW OF ENDOCRINE PHYSIOLOGY 148

ASSESSING A HORMONE'S EFFECTS 152

ACTIVITY OF HYDROPHILIC HORMONES 153

ACTIVITY OF HYDROPHOBIC HORMONES 156

REGULATION OF ENDOCRINE SYSTEMS 159

OVERVIEW OF THE ENDOCRINE SYSTEMS CONTROLLING REPRODUCTION 162

ASSESSING ENDOCRINE PHYSIOLOGY 163

SUMMARY OF MAJOR CONCEPTS 168

DISCUSSION 168

REFERENCES 169

CHAPTER 8**PUBERTY****170**

CHARACTERISTICS AND SIGNIFICANCE OF PUBERTY 170

THEORETICAL FRAMEWORK FOR PUBERTY 172

MECHANISMS CONTROLLING PUBERTY 178

TIMING OF PUBERTY ONSET 190

SUMMARY OF MAJOR CONCEPTS 190

DISCUSSION 191

REFERENCES 192

CHAPTER 9**DYNAMICS OF TESTICULAR FUNCTION
IN THE ADULT MALE****193**

MORPHOLOGY OF THE TESTIS 193

OVERVIEW OF TESTICULAR FUNCTIONS 195

ENDOCRINE REGULATION OF THE TESTES 196

SPERMATOGENESIS 200

SPERMATOGENIC CYCLE 207

SPERMATOGENIC WAVE 209

SUMMARY OF MAJOR CONCEPTS 212

DISCUSSION 213

REFERENCES 213

CHAPTER 10	DYNAMICS OF OVARIAN FUNCTION IN THE ADULT FEMALE: OVARIAN CYCLES	214
	THE OVARIAN CYCLE AND REPRODUCTIVE ACTIVITY OF FEMALES	214
	COMPARATIVE ANALYSIS OF OVARIAN CYCLES IN SEVERAL TYPES OF MAMMALS	221
	HORMONAL REGULATION OF OVARIAN CYCLES	238
	SUMMARY OF MAJOR CONCEPTS	239
	DISCUSSION	239
	REFERENCES	240
CHAPTER 11	DYNAMICS OF OVARIAN FUNCTION: FOLLICULOGENESIS, OOGENESIS, AND OVULATION	241
	OVERVIEW	241
	EARLY DEVELOPMENT OF THE OOCYTE AND FOLLICLE	241
	FOLLICULOGENESIS	243
	ENDOCRINE ACTIVITY OF FOLLICLES	253
	OOGENESIS	253
	OVULATION	256
	SUMMARY OF MAJOR CONCEPTS	261
	DISCUSSION	261
	REFERENCES	262
CHAPTER 12	DYNAMICS OF OVARIAN FUNCTION: THE CORPUS LUTEUM	263
	OVERVIEW	263
	GENERAL DESCRIPTION OF THE LUTEAL PHASE	265
	DEVELOPMENT OF THE CORPUS LUTEUM	268
	REGULATION OF THE CORPUS LUTEUM	270
	REGRESSION OF THE CORPUS LUTEUM	273
	SUMMARY OF MAIN CONCEPTS	280
	DISCUSSION	280
	REFERENCES	281
CHAPTER 13	SEXUAL BEHAVIOR	282
	BACKGROUND	282
	PATTERNS OF SEXUAL BEHAVIOR IN MAMMALS	285
	THEORETICAL FRAMEWORK FOR UNDERSTANDING SEXUAL BEHAVIOR	296
	PHYSIOLOGY OF SEXUAL BEHAVIOR	302

SUMMARY OF MAJOR CONCEPTS 314
DISCUSSION 314
REFERENCES 315

CHAPTER 14 ESTABLISHING PREGNANCY: FROM COITUS TO SYNGAMY 316

OVERVIEW OF PREGNANCY 316
TRANSPORT OF GAMETES AND ZYGOTES 316
GAMETE MATURATION 324
FERTILIZATION 327
TIMING OF COPULATION, OVULATION, AND FERTILITY 333
SUMMARY OF MAIN CONCEPTS 337
DISCUSSION 337
REFERENCES 338

CHAPTER 15 ESTABLISHING PREGNANCY: EMBRYOGENESIS, MATERNAL RECOGNITION OF PREGNANCY, IMPLANTATION, AND PLACENTATION 339

OVERVIEW OF EARLY PREGNANCY 339
EARLY EMBRYOGENESIS 339
PROGESTERONE IS ESSENTIAL FOR PREGNANCY 343
MATERNAL RECOGNITION OF PREGNANCY 344
SUPPRESSION OF THE MATERNAL IMMUNE SYSTEM 350
DEVELOPMENT OF THE PLACENTA 351
SUMMARY OF MAJOR CONCEPTS 362
DISCUSSION 362
REFERENCES 362

CHAPTER 16 PHYSIOLOGY OF PREGNANCY, PARTURITION, AND PUERPERIUM 364

OVERVIEW OF MAJOR CONCEPTS 364
CHANGES IN MATERNAL PHYSIOLOGY DURING PREGNANCY 364
PLACENTAL PHYSIOLOGY 368
PLACENTAL TRANSPORT 368
PARTURITION 374
POSTPARTUM PERIOD 382
SUMMARY OF MAJOR CONCEPTS 386
DISCUSSION 386
REFERENCES 387

CHAPTER 17

SEASONAL REGULATION OF REPRODUCTION

388

BACKGROUND 388

REPRODUCTIVE STRATEGIES AND THE ENVIRONMENT 388

ENVIRONMENTAL FACTORS UNDERLYING SEASONAL BREEDING 392

REGULATION OF SEASONAL BREEDING BY ENVIRONMENTAL CUES 398

NEUROENDOCRINE MECHANISMS MEDIATING THE EFFECTS OF ENVIRONMENT ON REPRODUCTION 402

SUMMARY OF MAJOR CONCEPTS 410

DISCUSSION 410

REFERENCES 411

CHAPTER 18

ETHICAL ISSUES IN REPRODUCTIVE PHYSIOLOGY

412

INTRODUCTION 412

WHAT IS ETHICS? 412

ETHICS AND SCIENCE 415

ETHICS AND THE HUMAN FETUS (ABORTION) 419

MORALITY AND NONHUMAN ANIMALS 425

ECOLOGICALLY BASED ETHICS 435

SUMMARY OF MAJOR CONCEPTS 440

DISCUSSION 440

REFERENCES 440
