

Natural Growth Inhibitors and Phytohormones in Plants and Environment

Valentine I. Kefeli and Maria V. Kalevitch

A stylized illustration of a plant with large, rounded, teardrop-shaped leaves. The leaves are layered, with some in the foreground being a darker green and others in the background being a lighter, teal-blue color. The overall style is minimalist and modern.

CONTENTS

PREFACE	V
ACKNOWLEDGMENT	VII
INTRODUCTION	IX
CHAPTER 1.....	1
SYSTEM OF GROWTH AND DEVELOPMENT REGULATION IN THE PLANT.....	1
1.1 PROPERTIES OF NATURAL HORMONES.....	1
1.1.1 <i>Auxins</i>	1
1.1.2 <i>Gibberellins</i>	2
1.1.3. <i>Cytokinins</i>	5
1.2 PROPERTIES OF NATURAL INHIBITORS.....	8
1.2.1 <i>Ethylene</i>	8
1.2.2 <i>Abscisic acid and phenolic inhibitors</i>	9
1.2.3 <i>Biosynthesis of Phytohormones and Natural Growth Inhibitors</i>	13
CHAPTER 2.....	19
NATURAL GROWTH INHIBITORS AND PHYTOHORMONES UNDER THE CONTROL OF THE PLANT'S GENOME.....	19
2.1 GENOME - GROWTH REGULATORS.	19
2.2 PHOTOSYNTHETIC CHANGES DURING GENOME MUTATION.	27
2.3 PHOTOMORPHOGENESIS AND LIGHT EFFECT ON PHYTOHORMONES	29
2.4 LIGHT AND FUNCTIONS OF PHENOLIC COMPOUNDS IN PHOTOMORPHOGENESIS	32
2.5. LIGHT AND HORMONES.	36
2.6 NATURAL GROWTH REGULATORS AND FUNCTIONS OF CHLOROPLASTS.	41
CHAPTER 3.....	49
NATURAL INHIBITORS AND PHYTOHORMONES DURING LEAVES GROWTH AND DEVELOPMENT.....	49
3.1 CHLOROPHYLL BIOSYNTHESIS IN THE GREEN CHLOROPLASTS.....	49
3.2. PHYTOHORMONES AND INHIBITORS IN MUTANTS.....	55
3.3. PHENOLICS IN CHLOROPLASTS.	59
CHAPTER 4.....	65
NATURAL GROWTH INHIBITORS AND PHYTOHORMONES IN THE PROCESS OF CELLS AND ORGANS ELONGATION	65

4.1 THE ROLE OF PHYTOHORMONES AND NATURAL INHIBITORS IN GROWTH OF ABOVEGROUND ORGANS OF PLANTS.	67
CHAPTER 5.....	81
PHENOLIC INHIBITORS AND ABSCISIC ACID DURING DORMANCY. ..	81
5.1 NATURAL INHIBITORS, AUXINS AND PLANT'S DORMANCY.....	82
5.2 ROLE OF NATURAL GROWTH INHIBITORS DURING PLANT'S DORMANCY.	87
5.3 FUNCTIONS OF PHYTOHORMONES AND GROWTH INHIBITORS DURING DORMANCY TERMINATION.....	89
5.4. NATURAL GROWTH INHIBITORS AND SEEDS GERMINATION.....	96
CHAPTER 6.....	105
CATABOLISM OF NATURAL GROWTH INHIBITORS IN THE PLANT AND IN THE ABSCISED LEAVES	105
6.1 TRANSFORMATIONS OF NATURAL GROWTH INHIBITORS.	105
6.2 DYNAMICS OF DECOMPOSITION OF ISOSALIPURPOSIDE ARID PHLORIDZIN BY PLANT TISSUES.....	106
6.3 DECOMPOSITION PRODUCTS OF ISOSALIPURPOSIDE AND PHLORIDZIN.....	108
6.4 BIOLOGICAL ACTIVITY OF PHLORIDZIN AND ITS AGLYCONE PHLORETIN	109
6.5 ETHYLENE EVOLUTION AND ABSCISIC ACID CONTENT IN CITRUS PLANTS.	113
6.6 INTACT AND ABSCISED LEAVES AND THEIR PROPERTIES.	117
CHAPTER 7.....	121
NATURAL GROWTH INHIBITORS AS ALLELOPATHOGENS AND BOTANICAL HERBICIDES	121
CHAPTER 8.....	135
NATURAL GROWTH INHIBITORS AND STRESS CONDITIONS.....	135
8.1 GENERAL ASPECTS OF STRESS EFFECTS.	135
8.2 LOW TEMPERATURE EFFECTS.	136
8.3 LIGHT AS A FACTOR OF ONTOGENY AND STRESS.	141
8.3.1 <i>Exogenous and endogenous systems of photomorphogenesis and phototropism in plants.</i>	141
8.3.2 <i>Photoreceptors.</i>	141
8.3.3 <i>Light and phototropism.</i>	143
8.3.4 <i>Inhibiting effects of light intensity</i>	146
8.3.5 <i>Plant Height</i>	148
8.3.6 <i>Surface Area of Leaflets and Stipules</i>	148
8.3.7 <i>Specific Leaf Weight (SLW)</i>	151
8.3.8 <i>Daily Dry Weight Gain</i>	152
8.3.9 <i>Growth regulators and light deficiency</i>	157
8.3.10 <i>UV-light as stress factor</i>	162

8.3.11 Light and ethylene production	169
8.3.12 UV-B light and ABA-ethylene ratio	173
CHAPTER 9.....	181
NATURAL GROWTH INHIBITORS AND PHYTOHORMONES IN THE INTACT PLANTS AND ISOLATED CELLS, ORGANS AND TISSUES	181
9.1 CALLUS PRODUCTION BY WILD-TYPE AND TRANSGENIC REGENERANTS	197
9.2 PROLIFERATION OF SUBCULTURED CALLI	197
CHAPTER 10.....	213
NATURAL GROWTH INHIBITORS AND BIOTESTS	213
10.1 ACTION OF METABOLIC INHIBITORS AND ANTIBIOTICS ON GROWTH IN BIO- ASSAYS	214
10.2 COMPARISON OF THE EFFECTS OF NATURAL GROWTH INHIBITORS, ANTIBIOTICS AND SOME SOLVENTS ON GROWTH OF COLEOPTILE SEGMENTS AND ROOT FORMATION IN PHASEOLUS CUTTINGS	225
10.3 COMPARISON OF THE EFFECTS OF NATURAL AND SYNTHETIC GROWTH INHIBITORS ON VARIOUS GROWTH FORMS.....	230
10.4 EFFECT OF NATURAL INHIBITORS ON PHYTOHORMONE ACTIVITY AND ON SOME METABOLIC PROCESSES IN PLANTS	237
10.5 BIO-ASSAY METHODS	243
10.5.1 Cell expansion tests	243
10.5.2 Cell division tests.....	245
10.5.3 Complex tests	247
10.6 ANALYSIS OF INTERACTION OF GROWTH REGULATORS.....	248
CONCLUSION	261
