

Water Environment Research Foundation

Wastewater Treatment and Reuse

FINAL  
REPORT

Small-Scale Constructed  
Wetland Treatment Systems  
Feasibility, Design Criteria, and O&M Requirements

# TABLE OF CONTENTS

|  |            |
|--|------------|
| Acknowledgments.....   | iii        |
| Abstract and Benefits.....   | v          |
| List of Tables .....   | ix         |
| List of Figures .....  | xii        |
| List of Acronyms .....   | xvii       |
| Executive Summary .....  | ES-1       |
| <br>   |            |
| <b>1.0      Introduction.....</b>  | <b>1-1</b> |
| 1.1     Wastewater Management.....   | 1-2        |
| 1.2     Historical Use of Wetlands for Sewage Treatment.....   | 1-7        |
| 1.3     Types of Constructed Wetlands .....  | 1-9        |
| 1.4     Summary .....  | 1-13       |
| <br>   |            |
| <b>2.0      Wastewater .....</b>   | <b>2-1</b> |
| 2.1     Components of Sewage.....  | 2-2        |
| 2.2     Types of Collection Systems .....  | 2-5        |
| 2.3     Determination of Design Flows .....  | 2-5        |
| 2.4     Pathogens .....  | 2-12       |
| 2.5     Summary and Standardized Design Values.....  | 2-14       |
| <br>   |            |
| <b>3.0      Use, Distribution, and Performance of<br/>Small-Scale Wetland Treatment Systems.....</b> | <b>3-1</b> |
| 3.1     Types of Wetland Treatment Systems at the Small-Scale Level.....                             | 3-2        |
| 3.2     Application of Small-Scale Wetland Treatment Systems.....                                    | 3-2        |
| 3.3     Geographic Distribution of Small-Scale Treatment Wetlands .....                              | 3-3        |
| 3.4     Distribution of Small-Scale Treatment Wetlands by Size and Flow .....                        | 3-4        |
| 3.5     Biochemical Oxygen Demand (BOD) Performance.....   | 3-6        |
| 3.6     Total Suspended Solids (TSS) Performance.....  | 3-7        |
| 3.7     Total Kjeldahl Nitrogen (TKN) Performance .....  | 3-8        |
| 3.8     Total Phosphorus (TP) Performance .....  | 3-9        |
| 3.9     Summary .....  | 3-9        |
| <br>   |            |
| <b>4.0      Wetland Treatment Processes .....</b>  | <b>4-1</b> |
| 4.1     Water Balance .....  | 4-1        |
| 4.2     Frictional Losses .....  | 4-4        |
| 4.3     Dispersion and Short-Circuiting .....  | 4-10       |
| 4.4     Organic Matter Degradation .....   | 4-14       |
| 4.5     Suspended Solids Removal.....  | 4-19       |
| 4.6     Nitrogen Transformations .....   | 4-21       |
| 4.7     Phosphorus Cycling .....   | 4-27       |
| 4.8     Nutrient Uptake by Wetland Vegetation.....   | 4-29       |
| 4.9     Sulfur Cycling .....   | 4-30       |
| 4.10    Pathogen Reduction .....   | 4-30       |
| 4.11    Water Temperature .....  | 4-32       |
| 4.12    Summary .....  | 4-43       |

|             |   |       |
|-------------|---|-------|
| <b>5.0</b>  | <b>How Free Water Surface (FWS) Wetlands Work .....</b>             | 5-1   |
| 5.1         | Removal Mechanisms in FWS Wetlands .....                            | 5-2   |
| 5.2         | FWS Wetland Compartments .....                                      | 5-5   |
| 5.3         | Role of Plants in FWS Wetlands .....                                | 5-7   |
| 5.4         | Oxygen Transfer in FWS Wetlands.....                                | 5-10  |
| 5.5         | Summary .....   | 5-12  |
| <b>6.0</b>  | <b>Design of FWS Wetland Treatment Systems .....</b>                | 6-1   |
| 6.1         | Pretreatment .....  | 6-1   |
| 6.2         | FWS Wetland Sizing for Pollutant Reduction.....                     | 6-1   |
| 6.3         | Hydraulic Design of FWS Wetlands.....                               | 6-10  |
| 6.4         | Internal Configuration of FWS Wetlands .....                        | 6-13  |
| 6.5         | Summary .....   | 6-18  |
| <b>7.0</b>  | <b>How Vegetated Submerged Bed (VSB) Wetlands Work .....</b>        | 7-1   |
| 7.1         | History of VSB Technology Development.....                          | 7-1   |
| 7.2         | Removal Mechanisms in VSB Wetlands.....                             | 7-10  |
| 7.3         | VSB Wetland Compartments.....                                       | 7-12  |
| 7.4         | Role of Plants in VSB Wetlands .....                                | 7-14  |
| 7.5         | Oxygen Transfer in VSB Wetlands .....                               | 7-19  |
| 7.6         | Summary .....   | 7-20  |
| <b>8.0</b>  | <b>Design of VSB Wetland Treatment Systems .....</b>                | 8-1   |
| 8.1         | Pretreatment .....  | 8-1   |
| 8.2         | VSB Wetland Sizing for Pollutant Reduction .....                    | 8-2   |
| 8.3         | Hydraulic Design of VSB Wetlands .....                              | 8-12  |
| 8.4         | Internal Configuration of VSB Wetlands .....                        | 8-24  |
| 8.5         | Summary .....   | 8-26  |
| <b>9.0</b>  | <b>Wetland Plants .....</b>   | 9-1   |
| 9.1         | Wetland Plant Hydrology .....                                       | 9-2   |
| 9.2         | Plant Selection for FWS Wetlands .....                              | 9-5   |
| 9.3         | Plant Selection for VSB Wetlands .....                              | 9-12  |
| 9.4         | Weeds.....  | 9-22  |
| 9.5         | Wetland Planting Stock.....   | 9-22  |
| 9.6         | Planting Wetland Vegetation .....                                   | 9-25  |
| 9.7         | Successful Plant Establishment.....                                 | 9-26  |
| 9.8         | Summary .....   | 9-28  |
| <b>10.0</b> | <b>Operation and Maintenance of Wetland Treatment Systems .....</b> | 10-1  |
| 10.1        | Operation and Maintenance of FWS Wetlands .....                     | 10-1  |
| 10.2        | Operation and Maintenance of VSB Wetlands.....                      | 10-8  |
| 10.3        | Monitoring and Permit Compliance.....                               | 10-14 |
| 10.4        | Summary .....   | 10-17 |
| <b>11.0</b> | <b>Cost of Wetland Treatment Systems.....</b>                       | 11-1  |
| 11.1        | Regional Markets and Economies of Scale .....                       | 11-1  |

|  |   |             |
|--|---|-------------|
| 11.2   | Basic Cost Components .....                                   | 11-2        |
| 11.3   | Capital Costs .....   | 11-14       |
| 11.4   | Operation and Maintenance Costs .....                         | 11-17       |
| 11.5   | Summary .....   | 11-19       |
| <b>12.0</b>  | <b>Special Applications of Wetland Treatment Systems.....</b> | <b>12-1</b> |
| 12.1   | Dairy and Milkhouse Wastewater.....                           | 12-1        |
| 12.2   | Landfill Leachate .....                                       | 12-4        |
| 12.3   | Water Containing Petroleum Hydrocarbons .....                 | 12-9        |
| 12.4   | Pulp & Paper Wastewater.....                                  | 12-12       |
| 12.5   | Acid Mine Drainage.....                                       | 12-14       |
| 12.6   | Heavy Metals .....  | 12-16       |
| 12.7   | Winery Wastewater.....  | 12-17       |
| 12.8   | Summary .....   | 12-18       |
| Appendix A: Modeling Wetland Effluent Concentrations ..... |   | A-1         |
| References.....  |   | R-1         |
