Health Promotion in Nursing

Second Edition

Janice A. Maville
Carolina G. Huerta

Contents

SECTION I CONCEPTUAL FOUNDATIONS AND THEORETICAL APPROACHES

Chapter 1 Health Promotion: Past, Present, and Future

Defining Health Promotion

Health Education

Health Promotion

Health Promotion: Past

Ancient Times

Babylonia

Greece

Egypt

Palestine

Rome

China

The Middle Ages, Renaissance,
and Early America

Health Promotion in the Middle Ages
(AD 500–1500)

The Renaissance and Early America
(AD 1500–1800)

The Social Mandate for Health Promotion

The First Movement

The Second Movement

The Third Movement

Sociopolitical Influences for Health

Promotion in the Twentieth Century

Health Reform

Federal Government Involvement in Health Care

Medicaid and Medicare

Government Initiatives for Health

Promotion in the Twentieth Century

Canadian Influence on Health Promotion

International Goals for Health

The United States and National Goals for Health

Health Care Cost Containment

Changes in Nursing Practice

Changes in Nursing Policy

Health Promotion: Where Is It Going?

Forces Shaping the Future of Health Promotion

A Framework for Thinking About the Future

Facilitating Your Role in Health Promotion

Summary

Chapter 2 Nursing Concepts and Health Promotion

Professional Nursing Practice

and Health Promotion

Nursing's Metaparadigm

Defining Nursing

Person, Environment, Health, and Nursing

Person

Maslow's Hierarchy of Needs

Environment

Health

Definitions of Health

Nursing

Nursing as a Profession

Nursing Educational Levels

and Health Promotion

Integrating Health Promotion Concepts into Nursing Practice

Assumptions

Theoretical Foundations

Systems Theory

Adaptation Theory

Needs Theory

Human Becoming Theory and Human

Care Theory

Transcultural Theory

Organizing Nursing Theory

Nursing's Metaparadigm and Nursing Theory

Summary

Chapter 3 Theoretical Foundations of Health Promotion

Clarifying Terms

Wellness

Disease Prevention and Health Protection

Health Promotion

Theoretical Foundations

Theories of Human Behavior

Theory of Planned Behavior

Theory of Social Behavior

Theories of Human Behavior and Health

Health Belief Model

Protection Motivation Theory

Transtheoretical Model of Behavior Change

Models for Groups, Organizations, and Communities

Consumer Information Processing Model

Diffusion of Innovations Model

PRECEDE-PROCEED Model

Health Promotion Models

Pender Model of Health Promotion

O'Donnell Model of Health Promotion Behavior

Developing a Health Promotion Plan

Assessment and Data Collection

Planning and Implementation

Evaluation

Summary

Chapter 4 The Role of the Nurse in Health Promotion

Domains Fundamental to Nursing Practice

in Health Promotion

Biological Domain	58
Psychological Domain	58
Sociological Domain	59
Environmental Domain	59
Political Domain	60
Spiritual Domain	60
Intellectual Domain	61
Sexual Domain	61
Technological Domain	61

Holistic Philosophy

Holistic Nursing Practice

Roles of the Nurse in Health Promotion

Activist/Proactive Change Agent	62
Advocate	63
Educator	63
Empowering Agent	63
Communicator	63
Consultant	63
Coordinator of Care	63
Leader/Member of the Profession	64
Provider of Care/Caregiver	64
Research User and Health Promotion Models	
Researcher	64
Role Model	64

Overview of the Nursing Process

Assessment (Acquiring Information)	65
Nursing Diagnosis	65
Planning	66
Implementation	67
Evaluation	67

Nursing Process and Health Promotion for the Individual, Families, and Communities

Individual	67
Family	67
Community	70

Risk Factors and Health Promotion

Environment	70
Work	70
Socioeconomic Level	70
Education	70
Gender	72
Cultural and Spiritual Influences	72

Current Factors Affecting Nursing Roles

in Health Promotion

Health Care System	72
Nursing Roles	72
Increasing Technology	72
Economic Environment	73
Individual Behavior	73

Summary

SECTION II FACTORS INFLUENCING HEALTH PROMOTION

Chapter 5 Communication

Communication and Nursing

The Message	79
Encoding	79
The Channel	80
Decoding	80
Feedback	80
Context	81

Types of Communication

Verbal Communication	81
Nonverbal Communication	83
Personal Presentation	83
Proxemics	84
Kinesics	85
Touch	85
Paralanguage	85
Vocalizations That Alter the Quality of Verbal Messages	85

Communication and the Therapeutic Relationship

Communication in Selected Nursing Theories	86
Peplau	86
Travelbee	86
King	86
Orem	86

Nurse Characteristics That Promote Communication	87
Unconditional Positive Regard	87
Empathy	87
Authenticity and Genuineness	88
Caring	88
Active Listening	88
Specific Techniques That Promote Communication	88

Using Communication for Health Promotion

Communication and <i>Healthy People 2010</i>	88
The Health Promotion Model and Communication	90
Empowering Through Communication	91
What to Teach	91
How Learners Learn	91
The Learning Environment	92

Technology and Communication

Summary

Chapter 6 Cultural Considerations

The Concept of Culture

What Is Culture?	96
Worldviews	97
Particular Group	98
Race	98

Ethnicity	99	Health Promotion and Nursing Interventions for Air Quality	122
Religion	100	Health Promotion and Nursing Interventions for Water and Soil Quality	126
Nationality	100	Sound Pollution	126
Labels	100	Health Promotion and Nursing Interventions Related to Sound	128
Cultural Pride	101	Light and Health	129
Cultural Competence	101	Health Promotion and Nursing Interventions Related to Light	129
Cultural Assessment	102	Space and Health	130
Cultural Assessment Tools	102	Health Promotion and Nursing Interventions Related to Space	131
Demographics/Individual Profile/Identifying Information	102	Color and Health	131
Name	103	Scent and Health	132
Gender	103	Workplace Safety and Health	132
Religion/Spiritual Faith	103	Feng Shui	134
Race(s)	104	Environmental Disasters	137
Ethnicity	104	Natural Disasters	137
Date of Birth/Age	104	Earthquakes	137
Birthplace/Where Raised	104	Hurricanes	138
Marital Status	104	Tornadoes	138
Generation in the United States	104	Technological Disasters	138
Years in the United States	104	Terror-Related Disasters	139
Language(s) Spoken, Primary Language, and Preferred Language	104	Posttraumatic Stress Disorder	140
Education	105	Health Promotion and Nursing Interventions for Environmental Disasters	142
Occupation	105	Preparation for Disasters	143
Cultural Domains	105	Summary	144
General Cultural Life Patterns or Lifestyle	105	Chapter 8 The Mind-Body Connection	
Cultural Values, Norms, and Expressions of an Individual or Cultural Group	105	The Physiological Basis	150
Cultural Taboos and Myths	106	The Nervous System	150
Worldview and Ethnocentric Tendencies	106	The Neuropeptides	150
Life-Caring Rituals and Rites of Passage	106	The Endocrine System	151
Lay, Folk, and Professional Wellness-Illness Cultural Systems	107	The Immune System	152
Specific Caring Behaviors and Health Care Values, Beliefs, and Practices	108	Modulation Between the Neuroendocrine and Immune Systems	154
Cultural Diversities, Similarities, and Variations (Nonfamily)	108	The Role of Stress	154
Cultural Changes and Acculturation (Family)	108	Psychoneuroimmunology Research	157
Cultural Competence in a Multicultural Society	109	The Effect of Negative Life Stressors	158
Cultural Cataloging	109	Examination Stress	158
Summary	110	Bereavement	158
Chapter 7 Environmental Factors		Chronic Stress	159
Problem Identification	112	Crisis	160
The EPA Model of Risk Assessment	113	The Effect of Stress on Disease	160
The Body's Response to Environmental Influences	113	Depression Factors	161
Acute and Chronic Exposure	114	Psychocutaneous Disease	161
Sources of Pollution Exposure	114	Cancer	161
Air Pollution	114	Spirituality and Psychoneuroimmunology	162
Indoor Air	115	Controversies Related to PNI Research	162
Worksite Air Quality Management	119	Nursing Implications	163
Outdoor Air	120	Summary	163

SECTION III PROMOTING HEALTH THROUGHOUT THE LIFE CYCLE

Chapter 9 The Mother, Infant, and Toddler

The Mother	171
Biological Domain	171
Preconception	171
Pregnancy	173
Postpartum	176
Psychological and Social Domains	178
Preconception	178
Pregnancy	178
Postpartum	179
Political Domain	180
Preconception	180
Pregnancy	181
Postpartum	181
Environmental Domain	181
Preconception and Pregnancy	181
Postpartum	181
Sexual Domain	181
Preconception	182
Pregnancy	182
Postpartum	182
Spiritual Domain	
The Infant and Toddler	182
Biological Domain	183
Nutrition	183
Elimination	185
Sleep and Activity	186
Immunization	187
Screening	188
Psychological Domain	189
Cognitive Development	189
Emotional Development	189
Social Domain	190
Family	190
Day Care	191
Child Abuse and Neglect	191
Cultural Influences	192
Political Domain	192
WIC Program	192
Safety Legislation	192
Environmental Domain	193
Sexual Domain	193
Spiritual Domain	193
Summary	194

Chapter 10 The Child

The Preschool and School-Age Child	199
Biological Domain	199
Nutrition	200
Elimination	202
Sleep and Activity	203
Immunization	204
Screening	205

Psychological Domain	209
Attention-Deficit/Hyperactivity Disorder	209
Social Domain	210
Relationships	210
Television	210
Cultural Influences	211
Political Domain	211
Medicaid and the State Children's Health Insurance Program	211
National School Lunch Program	212
The Individuals with Disabilities Education Act	212
Environmental Domain	212
Sexual Domain	212
Spiritual Domain	213
Summary	214

Chapter 11 The Adolescent and Young Adult

The Adolescent	218
Biological Domain	218
Puberty	219
Nutrition	221
Activity	222
Screening	222
Psychological Domain	226
Cognitive Development	226
Emotional Development	227
Social Domain	228
Family	228
Peers	228
Abuse	228
Culture	229
Political Domain	229
Environmental Domain	230
Accidents	230
Violence	230
Sexual Domain	231
Adolescent Pregnancy	232
Spiritual Domain	232
The Young Adult	233
Biological Domain	233
Nutrition	233
Exercise	233
Skin Cancer Prevention	234
Rest	234
Screening	234
Psychological Domain	236
Cognitive Development	236
Emotional Development	238
Social Domain	238
Political Domain	240
Environmental Domain	241
Sexual Domain	241
Spiritual Domain	242
Summary	242

Importance of Health Promotion in Middle Adulthood	247	Psychological Domain	279
Current Perspective of Health Promotion in Middle-Aged Adults	247	Depression	279
Demographics of Middle Adulthood	248	Stress	279
Middle Adulthood: A Time of Planned Change	249	Elder Abuse	279
Physical Domain	249	Spiritual Domain	280
Female Climacteric	249	Cultural Domain	282
Male Climacteric	251	Environmental Domain	282
Psychological Domain	252	Safety in Driving	282
Depression	252	Safety at Home	283
Sociological Domain	253	Medications and the Elderly	284
Environmental Domain	253	Safety and Assisted Living Facilities	284
Sexual/Gender Domain	254	Summary	288
Spiritual Domain	254		
Culturally Competent Care	254		
Guidelines for Health Promotion and Screening	255	Importance of Nutrition in Health Promotion	294
Strategies for Achieving Lifestyles That Promote Health	255	Healthy People Goals and Nutritional Health	297
Exercise and Nutrition	255	Domains Influencing Eating Behavior	299
Tobacco Avoidance	257	Biological Domain	299
Immunizations	257	Psychological Domain	303
Sleep	258	Sociocultural, Religious, and Spiritual Domains	304
Dental Health	258	Environmental Domain	304
Occupational Safety	259	Technological Domain	305
Nursing Role in Health Promotion and Early Detection	259	Nutritional Excesses, Deficits, and Fads and Health Promotion	305
Educating About Risk Reduction and Health-Promoting Activities	259	Overnutrition	305
Assessment of the Middle-Aged Adult	261	Undernutrition	305
Health Promotion Measures for Major Deviations from Health	261	Anorexia Nervosa	306
Vision and Hearing	261	Bulimia	306
Diabetes Mellitus	263	Nutritional Fads	307
Cancer	263	Dietary Strategies to Promote a Healthful Diet	307
Osteoporosis	263	Dietary Guidelines for Americans	307
Summary	263	MyPyramid	309
		The Exchange System: A Menu Planning Tool	311
Demographic Characteristics of Older Adults	268	Food Labels	311
Who Are the Older Adults?	268	The Five a Day Program	312
Population Trends	268	Nutritional Issues and Health Promotion Strategies	312
Developmental Domain	270	The Nursing Process in Promoting Nutritional Health	313
Developmental Tasks of Aging	270	Assessment	313
Theories Related to Aging	271	Nursing Diagnosis	313
Biological Domain	271	Planning	313
Physical Assessment	271	Implementation	314
Nutrition	273	Health Promotion Model and Nutritional Status	315
Fitness and Exercise	275	Evaluation	316
Sleep	276	Summary	316
Sex	276		
Socioeconomic Domain	278	Exercise and Health Promotion	322
Poverty	278	Physical Fitness	322
Education	278	Components of Health-Related Fitness	323
Health Care Expenditures	279	Cardiovascular Fitness	323
		Muscular Strength and Endurance	324
		Flexibility	324
		Body Composition	324

Assessing Health-Related Fitness	324	Environmental Domain	349
Cardiovascular Fitness	325	Theories of Environmental Influences	349
Muscular Strength	325	Psychological Domain	350
Muscular Endurance	325	Sociocultural Domain	350
Assessing Flexibility	325	Issues Related to Weight Control	351
Assessing Body Composition	326	The Nursing Process	351
Starting a Fitness Training Program: Making That Decision	326	Assessment (Acquiring Information)	352
General Principles of Fitness Training	327	Nursing Diagnosis	357
Principle of Overload	327	Planning	357
Principle of Specificity	327	Implementation of Health Promotion Strategies to Help Control Weight	358
Principle of Progression	327	Health Promotion Model and Weight Control	359
Planning a Fitness Program	328	Behavior, Attitude, and Weight Control	359
Frequency (F)	328	Shaping and Guided Practice Weight Control Techniques	360
Intensity (I)	328	Evaluation	360
Time (T)	328	Summary	361
Type of Training (T)	328		
Principles and Concepts of Cardiovascular Fitness	329	Substance Use and Abuse	367
Resting Heart Rate	329	What Are Drugs?	367
Target Heart Rate	329	Sources and Categories of Drugs	367
A Balanced Fitness Program	330	Prescription Drugs	368
Result Expectations	330	Nonprescription Drugs	368
Implementation of Fitness Program: Essential Elements of Training	330	Psychotropic Drugs	368
Frequent Problems Related to Exercise	331	Drug Mechanics: How They Work	368
Side Stitch	331	Drug Misuse, Drug Abuse, and Addiction	369
Muscle Soreness	331	Biological Basis of Addiction	370
Strains and Sprains	331	The Effect of Drug Withdrawal	370
Warm Weather Conditions	331	Psychosocial Basis of Addiction	370
Exercising in Cold Weather	332	Commonly Abused Psychotropic Drugs	371
Pollution Problems	332	Opiates	371
RICE Concept for Injury Treatment	332	Hallucinogens	372
Myths About Exercise	332	Household Drugs	372
Health Belief and Health Promotion Models	333	Stimulants	372
Utilizing the Nursing Process in Developing a Physical Fitness Plan	334	Tobacco Use and Addiction	373
Assessments Related to Physical Activity and Fitness	334	Environmental Tobacco Smoke	373
Nursing Diagnosis Phase	334	Nicotine	374
Planning the Physical Fitness Program	334	Alcohol Use and Addiction	375
Implementation	335	Why People Drink	375
Evaluation	336	Alcohol and the Central Nervous System	376
Getting Started and Sticking To It	336	Substance Abuse Patterns	376
Summary	338	Gender	376
		Age	376
		Adolescents	376
		Elderly	377
		Ethnicity	377
		Nurses	377
		Comorbidity	378
		Mental Health Issues	378
		Physical Health Issues	378
		Spiritual Health Issues	378
Consequences of Obesity	343	Strategies for Health Promotion	379
Health Promotion and Weight Control	345	Identification of Risk and Protective Factors	379
Obstacles to Weight Control	345	Primary Prevention	380
Childhood and Adolescent Obesity	347	Secondary Prevention	380
Domains Influencing Obesity, Weight Control, and Eating Behaviors	347		
Biological Domain	347		
Theory of Thermogenesis and Weight Control	347		
Theory of Equilibrium Set-Point of Weight Control	348		
Theories of Biochemical Influences and Eating Behaviors	348		

Tertiary Prevention	380	Professional Nursing Supply	422
In Control	380	Gender	422
Out of Control	381	Age	423
Summary	381	Ethnicity	423
		Education	424
Chapter 18 Enhancing Holistic Care		Impact of Managed Care on Nursing	424
What Is Holistic Care?	386	Health Behavior Patterns	424
What Is Healing?	387	Health Promotion Practices by Domain	426
What Is a Nurse Healer?	387	Biological Domain	426
Holistic Nursing: Past, Present, and Future	388	Psychological Domain	427
The Past	388	Spiritual Domain	428
The Present	388	Sociocultural Domain	429
The Future	390	Environmental Domain	430
The Nurse-Client Relationship	390	Technological Domain	431
The Nurse's Attitude About Healing	390	Nursing Process and Health	
The Nurse's Attitude About Self	390	Promotion Planning	431
Interaction Between Nurse and Client	391	Summary	431
Holistic Techniques for Health Promotion	392		
The Teaching and Learning		Chapter 20 Economic and Quality Concerns	
of Healing Techniques	392	Factors Driving Costs Up	436
Using Energy as a Healing Tool	393	Efforts to Control Costs	438
The Power of Thoughts and Feelings	396	Medicare and Medicaid	438
The Breath	397	Access to Health Care	438
Imagery	398	Prospective Payment System	439
Meditation	399	Consumer Efforts in Cost Containment	439
The Power of Prayer	400	Managed Care	440
Light and Color	400	Health Maintenance Organization	440
Sound	402	Preferred Provider Organization	440
Music	403	Exclusive Provider Organization	440
Energy-Based Therapies: Therapeutic		Capitation	441
Touch and Healing Touch	404	Nursing's Role in Managed Care	441
Touch Therapies—Reflexology, Massage,		Quality Measures and Managed Care	442
and Acupressure	404	National Committee for Quality Assurance	
Reflexology	405	(NCQA)	442
Massage	405	Joint Commission (JC)	442
Acupressure	406	National Standards and Managed Care	443
Nurturing the Self	407	Nursing Quality Issues	443
Environment	407	Health Promotion, Health Care Cost,	
Sleep	408	and Managed Care	444
Exercise	408	Summary	444
Communication	408		
Nutrition	408	Chapter 21 Ethical, Legal, and Political Concerns	
Herbs	408	Ethical and Legal Issues Influencing	
Aromatherapy	410	Nursing Care	448
Love and Healing	410	Ethical Issues	448
Summary	411	Ethical Theories	448
		Basic Principles of Ethics	449
SECTION V HEALTH PROMOTION CONCERNS		Principle of Autonomy	449
Chapter 19 Concerns of the Health Professional		Principle of Beneficence	450
Change and Its Impact		Principle of Nonmaleficence	450
on the Health Professional	419	Principle of Veracity	450
Issues Impacting the Health		Principle of Confidentiality	451
Care Professional	419	Principle of Justice	451
Factors Affecting the Nursing Profession	421	Principle of Fidelity	451
Nursing Student Characteristics	421	Standard of Best Interest	451
Nursing Student Stress	421	Principle of Respect for Others	452
		Nursing and Ethics	452

Ethical Decision Making and Personal Values	452	Student Nurse Liability	457
Steps in Values Clarification	452	Ethical, Legal, and Political Concerns Related	
Value Conflicts	453	to Health Care Cost and Access	457
Legal Issues	453	Health Care Delivery and Health Care Costs	458
Law and Nursing Practice	453	Health Care Access	458
Competency Indicators	454	Sociological Domain	458
Licensure	454	Cultural Domain	459
Multistate Licensure	455	Ethical-Legal Concepts and Health Promotion	459
Credentialing	455	Nursing and Health Promotion	459
Certification	455	Summary	461
Accreditation	455		
Standards of Care	455		
Torts, Negligence, and Breaches in Legal Duty	456		
Right to Refuse Treatment	457
