Nursing Excellence for the Next Generation

DETAILED CONTENTS

UNIT 1 • The Strength and Structure of Psychiatric–Mental Health Nursing 3

Chapter 1. **Psychiatric–Mental Health Clients: Who Are They?** 4

THE CONCEPT OF MENTAL DISORDER 5

THE INCIDENCE OF MENTAL DISORDER
WORLDWIDE 7

HISTORICAL PERSPECTIVES 8

Era of Magico–Religious Explanations 9

Era of Organic Explanations 9

Era of Alienation 10

Era of Confinement 10

Era of Moral Treatment 10

Era of Psychoanalysis 11

Contemporary Developments 11

Chapter 2. **Psychiatric–Mental Health Nurses: Who Are They?** 14

EMERGENCE OF THE DISCIPLINE 15

Early Psychiatric Nursing Education 15

Moving into the Mainstream 15

Psychiatric Nursing as a Specialty 17

Role Clarification 18

Clinical Nurse Specialist Role 19

Fiscal Decline and Retrenchment 19

Decade of the Brain 20

The New Millennium 20

PROFESSIONAL ROLE 21

Basic Level of Practice 21

Advanced Level of Practice 21

THE MENTAL HEALTH TEAM 22

Partnership and Collaboration on the Mental Health
Team 22

Cooperation versus Competition 22

Partnership and Collaboration with Clients
and Family 24

NURSING'S THEORETIC HERITAGE 24

Peplau 24

Orem 25

Rogers 25

Roy 25

Orlando 25

Wiedenbach 25

Travelbee 25

Paterson and Zderad 26

Watson 26

Benner 26

Implications for Psychiatric–Mental Health Nursing
Practice 26

Chapter 3. **Artful Therapeutic Practice** 29

PERSONAL INTEGRATION 30

Creating a Common Ground 30

Searching for Meaning 30

Feelings: The Affective Self 31

Self-Awareness of Feelings 31, *Problems with Submerged
Feelings* 31, *Dominant Emotional Themes* 31, *Acceptance
of Disapproved Feelings* 32

Beliefs and Values 32

Dogmatic Belief 32, *Issues of Blame and Control* 32,
Attitudes and Opinions 33, *Arriving at Values* 33

Culture and Social Class 33

Sociocultural Heritage 33, *Avoiding Misdiagnosis* 33

TAKING CARE OF THE SELF 34

Solitude 34

Physical Health 34

Attending to Internal Stress Signals 34

Burnout 35

Cues to Burnout 35, *Reducing Burnout* 35

QUALITIES FOR INTERPERSONAL COMPETENCE 36

Respect for the Client 36

Availability 36

Spontaneity 37

Hope 37

Acceptance 37

Sensitivity 37

Assertiveness 37

Passive Behavior 37, *Aggressive Behavior* 38, *Assertive
Behavior* 38

Vision 38

Accountability 38

Advocacy 39

Spirituality 39

Empathy 41

Critical Thinking 41

Self-Disclosure 41

Chapter 4. **Engaging in Evidence-Based Practice** 45

CONTEMPORARY CONDITIONS MANDATING
EVIDENCE-BASED PRACTICE 46

WHAT IS EVIDENCE-BASED PRACTICE? 47

WHY IS EVIDENCE-BASED PRACTICE
IMPORTANT? 48

Best Practices Based on Evidence 48

Critical Thinking and Evidence-Based Practice 49

Clinical Algorithms, Critical Pathways, and Practice
Guidelines 49

Clinical Culture Affects Research Utilization 51

OBTAINING THE EVIDENCE 52

The Belmont Report 52

Respect for Persons 52, *Beneficence* 52, *Justice* 52

Advantages of Doing Research 52
 Security Protection for Data 52
 Research Template 52

RESEARCH INSTITUTES AND MODELS FOR BEST PRACTICES BASED ON EVIDENCE 53

Change to Evidence-Based Practice 54
Challenging the Status Quo 54

PROCHASKA TRANSTHEORETICAL MODEL FOR CHANGE 54

Realistic and Attainable Change 55

ROSSWURM AND LARRABEE MODEL FOR CHANGE TO EVIDENCE-BASED PRACTICE 55

Steps for Change 55

BUILDING A KNOWLEDGE BASE FOR EVIDENCE-BASED PSYCHIATRIC NURSING PRACTICE 56

Discovering the Evidence 56
Synthesizing Research Data to Understand Smoking 58
 Designing a Clinical Trial 58
 Summarizing the Evidence 59
 Evaluating the Evidence 59
 Using the Evidence in Practice 60

LOOKING TO THE FUTURE 60

UNIT 2 • Theoretical Basis for Psychiatric–Mental Health Nursing 65

Chapter 5. Philosophy and Theories for Interdisciplinary Psychiatric Care 66

SCOPE OF PSYCHIATRIC–MENTAL HEALTH NURSING PRACTICE 67

HUMANISTIC INTERACTIONISM AND PSYCHOBIOLOGY: THE MIND–BODY–SPIRIT CONNECTION 67

Basic Premises of Interactionism 67
Implications for Psychiatric–Mental Health Nursing Practice 68

Basic Premises of Humanism 68
Implications for Psychiatric–Mental Health Nursing Practice 69

Basic Premises of Psychobiology 69
Implications for Psychiatric–Mental Health Nursing Practice 70

THEORIES FOR INTERDISCIPLINARY PSYCHIATRIC CARE 70

Medical–Psychobiologic Theory 70

Assumptions and Key Ideas 70, *Implications for Psychiatric–Mental Health Nursing Practice* 70

Psychoanalytic Theory 71

Assumptions and Key Ideas 71, *Decline of Freudian Psychoanalysis* 74, *Implications for Psychiatric–Mental Health Nursing Practice* 74

Cognitive Behavior Theory 74

Assumptions and Key Ideas 75, *Implications for Psychiatric–Mental Health Nursing Practice* 76

Social–Interpersonal Theories 76

Assumptions and Key Ideas 76, *Implications for Psychiatric–Mental Health Nursing Practice* 78

Chapter 6. Psychobiology, Behavior, and Mental Disorders 82

BRAIN, MIND, AND BEHAVIOR 83

Neuroanatomy 83

Cerebrum 83, *Limbic System* 85, *Diencephalon* 88, *Pituitary Gland* 88, *Basal Ganglia* 88, *Cerebellum* 88, *Brain Stem* 89

Genetics 89

Gene Structure 90, *Gene Function* 90, *Genetic Research* 91, *Ethics in Genetic Research* 91, *The Genetic Basis of Psychiatric Illness* 92

Neurons, Synapses, and Neurotransmission 92

Synaptic Transmission 93, *Neurotransmitters* 94

Psychoendocrinology and Psychoneuroimmunology 97

Endocrine System 97, *Immune System* 98

Kindling and Behavioral Sensitization 98

Circadian Rhythms 98

PSYCHOBIOLOGY AND MENTAL DISORDERS 99

Schizophrenia 99

Neuron Loss 99, *Cognitive Abnormalities* 100, *Molecular Genetics* 100, *Structural Brain Abnormalities* 100, *Genetic Alterations* 100, *Stress–Diathesis Model* 100

Mood Disorders 100

Electroconvulsive Therapy (ECT) 101, *Repetitive Transcranial Magnetic Stimulation (rTMS)* 101

Anxiety Disorders 102

Panic Disorder 102, *Obsessive Compulsive Disorder (OCD)* 102

Dementia of the Alzheimer's Type (DAT) 103

Neurobiology 103, *Genetics* 103

Personality Disorders 103

Neurobiology 103, *Neurochemistry* 104, *Genetics* 104

Substance-Related Disorders 104

PSYCHOBIOLOGY AND NURSING 105

Chapter 7. The Science of Psychopharmacology 110

PSYCHOPHARMACOLOGY AND NURSING 111

Biologic Impact on Ethnically Distinct Groups 113

Neuroleptics and Psychotropics 113

ANTIPSYCHOTIC MEDICATIONS 115

Psychobiologic Considerations 115

Major Effects 116

The Choice of a Specific Medication 116

Newer Antipsychotics 116

Clozapine (Clozaril) 117, *Risperidone (Risperdal)* 118

Dosage 118

The Decision to Use a Medication 119

Special Considerations 119

Unique Routes of Administration 119, *Medication Requirements of Certain Age Groups* 120

Potential Side Effects of Antipsychotic Medications	120
Metabolizing Psychiatric Medications	120
ANTIDEPRESSANT MEDICATIONS	121
Psychobiologic Considerations	122
Tricyclic Antidepressants (TCAs)	122
Monoamine Oxidase Inhibitors (MAOIs)	122
Selective Serotonin Reuptake Inhibitors (SSRIs)	123
Serotonin and Norepinephrine Reuptake Inhibitors (SNRIs)	123
Other Medications Used for Depression	125
Age-Related Considerations	125
MOOD STABILIZERS	125
Dosage	125
Psychobiology of Lithium	128
ANXIOLYTIC MEDICATIONS	128
Effects	128
Medication Classification	128
Meprobamate	128, Benzodiazepines and Nonbenzodiazepines
New Medications	129
Uses for Anxiolytics	129
Psychobiology of Anxiolytic Medications	130
TREATMENT FOR INSOMNIA	130
ACETYLCHOLINESTERASE INHIBITORS	131
MEDICATION COUNTERFEITING	131
HERBAL MEDICINES	132
Assessing Herb Consumption	132

Chapter 8. Stress, Anxiety, and Coping 136

STRESS	137
Conflict as a Stressor	137
Approach–Avoidance Conflict	138, Principles That Explain Vacillation
Avoidance–Avoidance Conflict	138
BIOPSYCHOSOCIAL THEORIES OF STRESS	138
The Fight-or-Flight Response to Stress	138
Selye's Stress–Adaptation Theory	139
Life Changes as Stressful Events	139
Application to Clinical Practice	141
Stress as a Transaction	141
Psychoneuroimmunology Framework	142
Self-Healing Personalities	142, Hardiness and Health
Disease-Prone Personalities	142
ANXIETY	142
Neurobiologic Basis of Anxiety	143
Sources of Anxiety	143
Anxiety as a Continuum	143
Mild Anxiety	143, Moderate Anxiety
Severe Anxiety	144, Panic
Assessing Anxiety	144
Physiologic Dimension	144, Cognitive Dimension
Emotional/Behavioral Dimension	144
COPING WITH STRESS AND ANXIETY	145
Everyday Ways of Coping with Stress	146

Seeking Comfort	146, Relying on Self-Discipline
Intense Expression of Feeling	147, Avoidance and Withdrawal
Talking It Out	147, Privately Thinking It Through
Working It Off	147, Engaging in Self-Healing Mind/Body Practices
Spirituality and Prayerfulness	147, Using Symbolic Substitutes
Somatizing	148
Coping Resources	148
Sense of Coherence	148, Physical and Biochemical GRRs
Artifactual and Material GRRs	148, Cognitive GRRs
Emotional GRRs	148, Valuative and Attitudinal GRRs
Interpersonal–Relational GRRs	148, Macrosociocultural GRRs
149	
Defense-Oriented Ways of Coping: Defense Mechanisms	149
Repression	150, Suppression
150, Dissociation	152, Identification
152, Introjection	153, Projection
153, Denial	153, Fantasy
154, Rationalization	154, Reaction Formation
155, Displacement	155, Intellectualization
155	
PSYCHOLOGICAL FACTORS AFFECTING MEDICAL CONDITIONS	156
Holistic Theory of Illness	157
Selected Conditions Affected by Psychological Factors	158
Gastrointestinal Disorders	158, Cardiovascular Disorders
159, Asthma	160, Arthritis
160, Headache	160, Endocrine Disorders
161, Skin Disorders	161
Resistance to Psychosocial Intervention	161

Chapter 9. Mental Health, Mental Disorder, and Cultural Competence 166

DEVELOPING AN UNDERSTANDING OF CULTURAL COMPETENCE	167
Cultural Competence	168
Worldview	168, Ethnicity and Ethnocentrism
168	
Cultural Sensitivity	168
Global Burden of Disease	169
Cultural Values	170
Cross-Cultural Communication	170
Language and Dialect	170, Degree of Literacy
170	
Other Cultural Phenomena Affecting Health	170
Environmental Control	170, Biologic Variations
171, Social Organization	171, Space
171, Time Orientation	171
Cultural Assessment	171
Degree of Acculturation	171, Heritage Assessment
171, Transcultural Care Planning	171
Culture Brokering	171
The Nurse-as-Culture-Broker	171, Culture Brokering Model
174	
DEVELOPING CULTURAL COMPETENCE IN NURSING PRACTICE	175
General Strategies for Developing Cultural Competence	176
Developing Cultural Competence with Specific Cultural Groups	177
Community-Based Health Care Promotion and Disease Prevention Programs	177

Advocating Issues of Cultural Diversity
in Nursing 177

Nursing Practice 178, *Nursing Research* 178, *Nursing Education* 178

PSYCHIATRIC EPIDEMIOLOGY IN A CULTURALLY DIVERSE SOCIETY 179

Definition of Psychiatric Epidemiology 180

Uses of Psychiatric Epidemiology 180

KEY EPIDEMIOLOGIC CONCEPTS 180

Prevalence and Incidence 180

Risk Factors 181

Gender 181, *Age* 181, *Social Class* 181, *Ethnicity* 181, *Marital Status* 181, *Physical Health Status* 181, *Positive Family History* 181, *Season of Birth* 182, *Social Environment* 182, *Physical Environment* 182, *Lifestyle Habits* 182

The Natural History of Disorder 182

Stage of Susceptibility 183, *Stage of Presymptomatic Disorder* 183, *Stage of Clinical Disorder* 183, *Stage of Disability* 183

Epidemiologic Studies Involving Culture 183

Descriptive Studies 183, *Cross-Sectional Studies* 184

RECENT DEVELOPMENTS RELATED TO CULTURAL DIVERSITY 184

Using DSM-IV-TR for Cultural Assessment 184

Key Findings from Major Studies: A Historic Perspective 185

Mortality 185, *Morbidity and Comorbidity* 185

Implications for Psychiatric–Mental Health Nursing Practice 188

Implications for Psychiatric–Mental Health Nursing Research 188

UNIT 3 • Psychiatric–Mental Health Nursing Processes 193

Chapter 10. Communicating and Relating 194

THE PROCESS OF HUMAN COMMUNICATION 195

Role of Perception 195

Role of Values 196

Role of Culture 196

The Spoken Word 197

Denotation and Connotation 197, *Private and Shared Meanings* 197

Nonverbal Messages 197

Body Movement 197, *Voice Quality and Nonlanguage Sounds* 198, *Personal and Social Space* 198, *Touch* 198, *Cultural Artifacts* 198

Verbal and Nonverbal Links 198

BIOPSYCHOSOCIAL THEORIES AND MODELS OF HUMAN COMMUNICATION 199

Symbolic Interactionist Model 199

Neurobiologic Factors 200

Therapeutic Communication Theory 201

Basic Concepts 201, *Successful versus Disturbed Communication* 202

Behavioral Effects and Human Communication Theory 203

Communication Levels 203, *Communication Disturbances* 203

Neurolinguistic Programming Theory 204

Determining the Sensory Modality 204, *Therapeutic Use of NLP* 205

FACILITATING COMMUNICATION AND BUILDING A RELATIONSHIP 205

Superficiality versus Intimacy 205

Facilitating Intimacy 206

Responding with Empathy 206, *Responding with Respect* 206, *Responding with Genuineness* 206, *Responding with Immediacy* 206, *Responding with Warmth* 206

THERAPEUTIC COMMUNICATION SKILLS 206

Speaking to the Hard of Hearing 206

Empathizing 206

Mindful Listening 207

Using Silence 208

Reflecting 208

Reflecting Content 208, *Reflecting Feelings* 208

Imparting Information 208

Avoiding Self-Disclosure 209

Clarifying 209

Paraphrasing 209

Checking Perceptions 209

Questioning 209

Structuring 210

Pinpointing 210

Linking 210

Giving Feedback 210

Confronting 210

Summarizing 211

Processing 212

COMMON MISTAKES 212

CIRCUMVENTING POTENTIAL CULTURAL BARRIERS TO COMMUNICATION 212

Chapter 11. Assessing 215

PSYCHIATRIC EXAMINATION 216

Psychiatric History 216

Data Sources 216

Mental Status Examination 217

Mini-Mental State Exam 220

Nurses' Observation Scale for Inpatient Evaluations 221

PHYSIOLOGIC ASSESSMENT 221

Biologic History Taking 221

Observation 221

NEUROLOGIC ASSESSMENT 222

Brain Imaging Techniques 222

PSYCHOLOGICAL TESTING 222

Intelligence Tests 222

Personality Tests	224
<i>Common Objective Personality Tests</i>	224, <i>Common Projective Personality Tests</i>
Cognitive Function Tests	225
<i>Common Cognitive Function Tests</i>	225
PSYCHIATRIC DIAGNOSTIC PRACTICE ACCORDING TO THE DSM-IV-TR	225
Basic Principles of the Multiaxial System	226
Description of the Axes	226
PSYCHIATRIC-MENTAL HEALTH NURSING AND THE DSM SYSTEM	229
PSYCHOSOCIAL ASSESSMENT	229
Individual Assessment	229
The Place of Assessment in Practice	230
DOCUMENTATION	230
Nursing Care Plans	230
Critical Pathways	230
Algorithms	231
QUALITY ASSURANCE	231
 Chapter 12. Creating Hospital and Community-Based Therapeutic Environments	235
DEINSTITUTIONALIZATION AND THE COMMUNITY MENTAL HEALTH MOVEMENT	236
TYPES OF TREATMENT SERVICES AND PROGRAMS	237
Hospital-Based Treatment	237
Community-Based Treatment	237
<i>Community Mental Health Centers</i>	237, <i>Mobile Outreach Units</i>
<i>Assertive Community Treatment (ACT)</i>	238, <i>Psychiatric Home Care</i>
239	
MANAGED MENTAL HEALTH CARE	240
Managed Care Settings	241
<i>Inpatient Settings</i>	241, <i>Primary Care Centers</i>
241, <i>Triage Services</i>	241, <i>Employer-Based Clinics</i>
242	
MCOs as a Practice Environment	243
<i>Boundaries</i>	243, <i>Legal Issues</i>
243, <i>Treatment Adherence</i>	243, <i>Medication Adherence</i>
243, <i>Unrealistic Member Expectations</i>	243, <i>Continuity of Care</i>
244	
Ethics in Managed Mental Health Care	244
CASE MANAGEMENT	244
Case Manager Role	245
Gatekeeping and Facilitating	245
Client Advocacy	245
Assessment Phase Challenges	245
Planning Phase Challenges	245
Implementation Phase Challenges	246
Evaluation Phase Challenges	246
THE THERAPEUTIC ENVIRONMENT IN HOSPITAL-BASED CARE	246
A Unique Role for Nurses	246
External Factors	246
<i>Privacy</i>	247, <i>Autonomy</i>
247, <i>Safety</i>	247, <i>Group Well-Being</i>
247	
Therapeutic Environment Principles	247

<i>Restrictiveness</i>	249, <i>Orienting Client and Family</i>
249, <i>Safety and the Structural Environment</i>	249, <i>Program Structure</i>
250, <i>Supportive Social Climate</i>	251, <i>Spirituality</i>
251, <i>Encouraging a Partnership with Clients and Families</i>	251
TREATMENT SETTINGS AND PROGRAMS FOR SEVERE AND PERSISTENT MENTAL ILLNESS	252
Psychiatric Disability	252
Community Support Programs for SPMI	253
<i>Case Management</i>	253, <i>Support for Basic Needs</i>
253, <i>Residential Services</i>	253, <i>Medication Management</i>
253, <i>Outpatient Treatment</i>	254, <i>Crisis Stabilization</i>
254, <i>General Health Care</i>	254, <i>Vocational Programs</i>
254, <i>Day Programs</i>	255, <i>Family and Network Support</i>
255, <i>Advocacy</i>	255
Psychiatric Rehabilitation	255
<i>Psychiatric Rehabilitation Philosophy</i>	255, <i>Psychosocial Rehabilitation Centers/Clubhouses</i>
256, <i>Vocational Rehabilitation</i>	256, <i>Social Skills Training</i>
256	
High-Risk SPMI Clients	256
Concurrent Substance-Related Disorders	256
Homeless and Mentally Ill	257
Frequent Readmissions and Relapse	257
Frequent Criminal Justice System Involvement	258

Chapter 13. **Ethics, Clients' Rights, and Legal and Forensic Issues** 261

ETHICS	262
Ethical Analysis	262
Principles of Bioethics	262
<i>Autonomy</i>	262, <i>Beneficence</i>
263, <i>Fidelity</i>	263, <i>Justice</i>
263, <i>Nonmaleficence</i>	263, <i>Veracity</i>
263	
Neuroethics, an Emerging Field	263
Ethical Guidelines for Psychiatric-Mental Health Nurses	263
Clinical Judgment and Ethical Reasoning	263
Ethical Dilemmas in Psychiatric-Mental Health Nursing	264
<i>Stigma of Psychiatric Diagnoses</i>	264, <i>Controlling Individual Freedom</i>
265, <i>Client Privacy and Confidentiality</i>	267
LEGISLATION, COMMITMENT, AND HOSPITALIZATION ISSUES	267
Admission and Commitment Categories	267
<i>Voluntary Admission</i>	268, <i>Involuntary Commitment</i>
268, <i>Involuntary Outpatient Commitment</i>	269, <i>Ethical Dilemmas</i>
269	
Discharge or Separation Categories	270
<i>Discharge</i>	270, <i>Transfer</i>
270, <i>Escape</i>	270
PSYCHIATRY AND CRIMINAL LAW	270
Determining Legal Sanity	270
<i>M'Naghten Rule</i>	271, <i>Irresistible Impulse</i>
271, <i>American Law Institute Model Penal Code</i>	271, <i>Guilty but Mentally Ill</i>
272	
Diminished Capacity	272
Competence to Stand Trial	272
PSYCHIATRIC FORENSIC NURSING	272
Dimensions of Practice	272
Role Credibility	272

Roles and Functions 273

Forensic Examiner 273, Competency Therapist 274, Expert Witness 274, Consultant to Attorneys 274, Consultant to Law Enforcement 274

Correctional Mental Health Nursing 275**CLIENT RIGHTS 275****Psychiatric Advance Directives 275****Right to Informed Consent 276****Right to Treatment 278****Right to Refuse Treatment 279**

Ethical Dilemmas 280

Right to Treatment in the Least Restrictive Setting 281

Treatment Setting 281, Institutional Policy 281, Enforcement 281, Treatment 281, Client Characteristics 281

Right to Communicate with Others 282**Right Not to Be Subjected to Unnecessary Mechanical Restraints 282****Right to Privacy 282**

Privileged Communication 283, Disclosure to Safeguard Others 283

Right to Periodic Review 284**Right to Independent Psychiatric Examination 284****Right to Participate in Legal Matters 284**

Contracts 284, Wills 284, Marriage and Divorce 284, Voting 285

Right to Drive 285**Right to Practice a Profession 285****Right to Habeas Corpus 285****Rights of Children or Minors 285****LIABILITY AND THE PSYCHIATRIC-MENTAL HEALTH NURSE 285****Negligence 285**

Conditions for Establishing Negligence 286

Malpractice 287

Need to Document 287

CLIENT ADVOCACY 287**Physical and Psychological Abuse of Clients 288****Advocacy Interventions 288****Duty to Intervene 288**

Contract for Care 289, Assessment 289, Responsibility to Communicate and Collaborate 289, Formulating a Plan to Intervene 289, Illegal, Immoral, or Unethical Activities of Professionals 290

UNIT 4 • Clients with Mental Disorders 295

Chapter 14. Cognitive Disorders 296**DELIRIUM 297****Signs of Delirium 297**

Cognition 297, Attention and Wakefulness 297, Psychomotor Behavior 298

DIFFERENTIATING DELIRIUM FROM DEMENTIA 299**DEMENTIA 299****Dementia of the Alzheimer's Type (DAT) 301**

Signs of Dementia of the Alzheimer's Type (DAT) 302,

Progression of Dementia of the Alzheimer's Type (DAT) 302

Dementia with Lewy Bodies 302**Vascular Dementia 304****Parkinson's Disease 304****Huntington's Disease 304****Pick's Disease 305****Creutzfeldt-Jakob Disease 305****New Variant Creutzfeldt-Jakob Disease 305****Pseudodementia 305****AMNESTIC DISORDER 306****BIOPSYCHOSOCIAL THEORIES 306****NURSING PROCESS: Clients with Cognitive Disorders 306****CASE MANAGEMENT 318****COMMUNITY-BASED CARE 318****HOME CARE 318****Chapter 15. Substance-Related Disorders 323****SUBSTANCE-RELATED DISORDERS 324****SUBSTANCE DEPENDENCE 325****SUBSTANCE ABUSE 325****SUBSTANCE INTOXICATION 325****SUBSTANCE WITHDRAWAL 325****BIOPSYCHOSOCIAL THEORIES 326****Biologic/Genetic Theories 326****Psychological Theories 327****Sociocultural Theories 327****Family Systems Theories 327**

Dysfunctional Family Roles 328

ALCOHOL 328**The Effects of Alcohol 330****Patterns of Use 331****Alcohol Withdrawal Syndrome 331**

Hangover 331, Alcoholic Hallucinoses 331, Generalized Seizures 331, Delirium Tremens 331

Withdrawal from Alcohol and Medical Treatment 331

Minor Withdrawal 331, Major Withdrawal 331, Treatment of Withdrawal 331, Blackouts 332

Alcohol-Induced Persisting Amnestic Disorder 333**Alcoholic Encephalopathy 333****Fetal Alcohol Syndrome 333****Suicide and Alcoholism 333****BARBITURATES OR SIMILARLY ACTING SEDATIVES OR HYPNOTICS 333****The Effects of Barbiturates, Sedatives, or Hypnotics 334****Patterns of Use 334****Action 334****Withdrawal 334**

OPIOIDS 334

- The Effects of Opioids 334
- Patterns of Use 335
- Overdose* 335
- Withdrawal 335
- Treatment 335

AMPHETAMINES OR SIMILARLY ACTING SYMPATHOMIMETICS 336

- The Effects of Amphetamines 336
- Patterns of Use 336
- Methamphetamine 337
- Withdrawal 338

CANNABIS 338

- The Effects of Cannabis 338
- Patterns of Use 338

COCAINE 339

- The Effects of Cocaine 339
- Cocaine Intoxication* 340, *The "Post-Coke" Blues* 340
- Patterns of Use 341
- Treatment 341
- Crack 341
- Symptoms of Crack Use* 341
- Freebase 341

PHENCYCLIDINE (PCP) 341

- The Effects of PCP 341
- Treatment 343

HALLUCINOGENS 343

- The Effects of Hallucinogens 343
- Treatment 343
- Bad Trips* 343, *Flashbacks* 343

INHALANTS 344

- The Effects of Inhalants 344
- Patterns of Use 344
- Treatment 344

NICOTINE 344

- The Effects of Nicotine 344
- Patterns of Use 344
- Treatment 345

CAFFEINE 345

- The Effects of Caffeine 345
- Patterns of Use 346
- Treatment 346

POLYDRUG USE 346**DESIGNER DRUGS 347****GROUPS AT RISK FOR SUBSTANCE ABUSE 347**

- Teenagers 347
- Psychiatric Clients with Coexisting Substance Abuse Disorders 347
- Gender Differences* 349, *Biologic Aspects* 349
- Women 349
- General Hospital Clients 349
- Older Adults 349

Adult Children of Alcoholics 350

Health Care Providers 350

NURSING PROCESS: Clients with Substance-Related Disorders 350**CASE MANAGEMENT 360****COMMUNITY-BASED CARE 360****HOME CARE 360****Chapter 16. Schizophrenia and Other Psychotic Disorders 370****SYMPTOMS OF SCHIZOPHRENIA 371**

Positive Symptoms 371

Hallucinations 371, *Delusions* 372, *Disordered Speech and Behavior* 372

Negative Symptoms 374

Flat Affect 374, *Alogia* 374, *Avolition* 375, *Anhedonia* 375**SUBTYPES OF SCHIZOPHRENIA 375**

Paranoid Type 375

Disorganized Type 375

Catatonic Type 375

Undifferentiated Type 376

Residual Type 376

SOMATIC TREATMENTS 376**RELAPSE 377****OTHER PSYCHOTIC DISORDERS 377***Schizophreniform Disorder* 377*Schizoaffective Disorder* 377*Delusional Disorder* 378*Brief Psychotic Disorder* 378*Additional Psychotic Disorders* 378**BIOPSYCHOSOCIAL THEORIES 378**

Biologic Theories 379

Genetic Theories 379, *Brain Structure Abnormalities* 379, *Biochemical Theories* 379

Psychological Theories 380

Information Processing 380, *Attention and Arousal* 381

Family Theories 381

Humanistic-Interactional Theories 382

Stress-Vulnerability Model 382, *Resources That Moderate Stress* 382**NURSING PROCESS: Clients with Schizophrenia 383****CASE MANAGEMENT 397****COMMUNITY-BASED CARE 397****HOME CARE 397****Chapter 17. Chapter 25. Psychiatric–Mental Health Clients with HIV/AIDS 670

THE HIV MENTAL HEALTH SPECTRUM	672
The General Worried Population	672
Health Care Providers	672
Significant Others and Family Members	673
Individuals at Risk	673
HIV-Seropositive (Asymptomatic) Individuals	673
Individuals with HIV-Related Conditions	673
Individuals with AIDS	673
Long-Term Survivors	673
HIV TRANSMISSION RISKS IN PSYCHIATRIC POPULATIONS	673
Substance Users	674
The Seriously Mentally Ill	674
The Homeless Mentally Ill	675
THE BIOPSYCHOSOCIAL IMPACT OF HIV/AIDS	675
Neuropsychiatric	675
<i>Focal Brain Processes</i>	<i>675, Medication Side Effects 677, HIV-Related Dementia 677</i>
Psychological	677
Loss	677
Developmental	677
Sociocultural and Economic	678
<i>Stigma</i>	<i>678, Economic Factors 678, Homelessness 678</i>
ROLES FOR PSYCHIATRIC–MENTAL HEALTH NURSES	678
Delivering Ethical Care	679
Providing a Therapeutic Milieu	679

<i>Protecting Privacy</i>	<i>679, Modifying Agency Policies and Procedures 679</i>
Implementing Infection Control Precautions	680
Giving Direct Care	680
Using Touch	680
Providing Support Group Services	680
Intervening in Impaired Communication	681
Intervening in Spiritual Distress	681
Enhancing Home Maintenance Management	681
Providing Risk Reduction Education and Counseling	682
<i>Sexual Behavior</i>	<i>682, Substance Use 683</i>
Supporting Caregivers	684
Providing Bereavement Support	685
Promoting Self-Help and Social Support	685
Incorporating Research	686
Participating in Advocacy and Political Activism	686

Chapter 26. Children 690

CHILD PSYCHIATRIC–MENTAL HEALTH NURSING AS A SPECIALTY	691
DEVELOPMENTAL DISORDERS	691
Mental Retardation	691
Specific Developmental Disorders	692
<i>Learning Disorders</i>	<i>692, Motor Skills Disorder 692, Communication Disorders 692</i>
AUTISM SPECTRUM DISORDERS	692
Autistic Disorder	693
Rett's Disorder	694
Childhood Disintegrative Disorder	694
Asperger's Disorder	694
ATTENTION DEFICIT AND DISRUPTIVE BEHAVIOR DISORDERS	694
Attention Deficit Hyperactivity Disorder	695
Conduct Disorder	696
Oppositional Defiant Disorder	697
FEEDING AND EATING DISORDERS	697
Pica	697
Rumination Disorder	697
Feeding Disorder of Infancy or Early Childhood	697
REACTIVE ATTACHMENT DISORDER OF INFANCY OR EARLY CHILDHOOD	698

NURSING PROCESS: Elders 760**CASE MANAGEMENT, COMMUNITY-BASED CARE,
AND HOME CARE 768**

Restorative Care 768
Community-Based Programs 768
Resistance to Care 768

**UNIT 6 • Intervention Strategies
and Outcomes 773****Chapter 29. Counseling the Individual 774****THE ONE-TO-ONE RELATIONSHIP 775**

Therapeutic Alliance 776
Cultural Context 776
Characteristics 776
*Professional 776, Mutually Defined 777, Collaborative 778,
Goal-Directed 778, Open 778, Negotiated 778,
Committed 778*

**PHENOMENA OCCURRING IN ONE-TO-ONE
RELATIONSHIPS 779**

Resistance 779
*Manifestations 779, Acting Out 780, General Intervention
Strategies 780*
Transference 780
Positive Transference 781, Negative Transference 781
Countertransference 781
Conflict Between Caretaker and Therapist Roles 782
Critical Distance 782
Gift Giving 782
*During Orientation Phase 782, During Working Phase 782,
During Termination Phase 783*
Use of Touch 783
Culture, Values, and Beliefs 783

**NURSING PROCESS: Orientation (Beginning)
Phase 784****NURSING PROCESS: Working (Middle) Phase 789****NURSING PROCESS: Termination (End) Phase 793**

CASE MANAGEMENT 795
 COMMUNITY-BASED CARE 796
 HOME CARE 796

Chapter 30. Group and Family Interventions 799

SMALL GROUP DYNAMICS 800

Trust 800
 Self-Disclosure and Self-Awareness 800
Relations Within the Group 801, *Relations with Other Groups* 802
 Cohesion 803
 Group Roles and Leadership 803
 Power and Influence 803

GROUP DEVELOPMENT THEORY 804

Three Basic Interpersonal Needs 804
Inclusion 804, *Control* 804, *Affection* 805
 Group Phases 805
Inclusion Phase 805, *Control Phase* 805, *Affection Phase* 805, *Interweaving of Phases* 806

GROUP THERAPY THEORY 806

Advantages of Group Therapy 806
 Qualifications of Group Therapists 807
 The Curative Factors 807
 Types of Group Leadership 807
Single Therapist Approach 807, *Cotherapy Approach* 807
 Creating the Group 808
Selecting Members 808, *Selection Interviews* 809, *Group Contract* 809
 Stages in Therapy Group Development 810
 Here-and-Now Emphasis 811
Steering the Group into the Here-and-Now 812, *Illuminating the Process* 812

THERAPEUTIC GROUPS 812

Self-Help Groups 812
 Psychoeducation Groups 813
Medication Teaching Groups 813, *Social Skills Training Groups* 813, *Groups of Medically Ill Clients and Their Families* 814
 Activity Therapy Groups 814
Poetry Therapy Groups 814, *Art Therapy Groups* 814, *Music Therapy Groups* 814, *Dance Therapy Groups* 814, *Bibliotherapy Groups* 814
 Storytelling Groups 814
 Community Client Groups 814
 Groups with Nurse Colleagues 815

FAMILY DYNAMICS 815

Family Structures 815
 Stages of Family Development 815
 Family Characteristics and Dynamics 815
Family Roles 815, *Family Boundaries* 816, *Power Structure* 816, *Relationship Strains or Conflicts* 817
 Relationship and Communication Intricacies in Families 817

Self-Fulfilling Prophecy and Life Scripts 817, *Family Myths and Themes* 817, *Family Coalitions* 817, *Deviations in the Adult Partners' Coalition* 818, *Pseudomutuality and Pseudohostility* 818

FAMILY ASSESSMENT 819

Demographic Information 819
 Medical and Mental Health History 819
 Family Interactional Data 819
 Family Burden 820
 Family System Data 820
 Needs, Goals, Values, and Aspirations 820
 Family Genogram 820
Cultural Family Genogram 821, *Spiritual Family Genogram* 821, *Forensic Family Genogram* 821

FAMILY INTERVENTIONS 821

Family Psychoeducation 821
 Referral to NAMI 822
 Family Therapy 823
Forms of Family Therapy 823, *Qualifications of Family Therapists* 823, *The Unit of Treatment* 823, *Contract or Goal Negotiation* 823, *Intervention* 823, *Terminating Family Therapy* 823

Chapter 31. Cognitive and Behavioral Interventions 828

COGNITIVE THERAPY 829

Basic Concepts 829
Attributions 829, *Modeling* 830, *Self-Efficacy* 830
 Cognitive Therapy Techniques 830
Positive Imagery 830, *Mastery Imagery* 831, *Negative Imagery* 831, *Attribution Restructuring* 831

BEHAVIOR THERAPY 831

Classical Conditioning 831
 Operant Conditioning 832
 Rational Emotive Behavioral Therapy 832
 Behavior Modification 833
Response Prevention 833, *Systematic Desensitization* 834

COGNITIVE BEHAVIORAL THERAPY 834

Thought Stopping 835
 Dialectical Behavioral Therapy 835
 Cultural Aspects of Cognitive and Behavioral Interventions 836

NURSING PROCESS: Behavioral Contracting 837

CASE MANAGEMENT 841

COMMUNITY-BASED CARE AND HOME CARE 841

Chapter 32. Psychopharmacologic Nursing Interventions 844

THE NURSING ROLE IN

PSYCHOPHARMACOLOGY 846

Assessing Clients 846

Administering Medications	847
Educating Clients and Families	847
<i>Addressing Individual Differences</i>	847, <i>Evaluating the Teaching–Learning Process</i>
Ethical Concerns	849
<i>Children and Adolescents</i>	849, <i>Elders</i>
<i>Advertising</i>	849, <i>Conflicts of Interest</i>
<i>Medications</i>	849, <i>Right to Refuse Medications</i>
THE CLIENT'S CULTURAL PERSPECTIVE	850
Working with an Interpreter	850
Cultural Self-Awareness of Nurses	851
Ethnicity and Metabolism of Psychiatric Medications	851
NURSING RESPONSIBILITIES WITH ANTIPSYCHOTICS	851
Side Effects	851
<i>Autonomic Nervous System Effects</i>	851, <i>Extrapyramidal Side Effects</i>
Other Central Nervous System Effects	857
Allergic Effects	857
Cardiac Effects	857
Blood, Skin, and Eye Effects	858
Endocrine Effects	858
Weight Gain	858
Neuroleptic Malignant Syndrome	858
Client and Family Education	858
NURSING RESPONSIBILITIES WITH ANTIDEPRESSANTS	859
Side Effects of TCAs	860
Overdose Effects of TCAs	860
Side Effects of Monoamine Oxidase Inhibitors (MAOIs)	860
Side Effects of Selective Serotonin Reuptake Inhibitors (SSRIs)	860
Side Effects of Serotonin and Norepinephrine Reuptake Inhibitors (SNRIs)	861
Age-Related Considerations with Antidepressants	862
Client and Family Education	862
NURSING RESPONSIBILITIES WITH MOOD STABILIZERS	863
NURSING RESPONSIBILITIES WITH ANXIOLYTICS	864
Side Effects	864
Client and Family Education	864
NURSING RESPONSIBILITIES WITH ACETYLCHOLINESTERASE INHIBITORS	864
NURSING RESPONSIBILITIES WITH HERBAL MEDICINES	865
Assessing Herbal Consumption	865
INCOMPATIBILITIES AND UNCOMMON MEDICATION COMBINATIONS	865
ADHERENCE ISSUES	866

Chapter 33. Complementary and Alternative Healing Practices 871

DISCOVERING AND REDISCOVERING CAM 872

National Center for CAM 872

Consumers of CAM 872

Sociocultural Aspects 873

NURSING ROLE IN CAM 874

Helping Clients Become Informed Health

Consumers 874

Safety and Effectiveness 875, *Practitioner Expertise* 875,

Quality and Costs of Service Delivery 876

Integrating CAM into a Treatment Plan 876

Selecting Appropriate Clients 876, *Monitoring the Plan of Care* 876, *Experimenting with What Works* 877

DEEP BREATHING AND RELAXATION EXERCISES 877

Body Scanning to Assess Body Tension 877

Enhancing Relaxation with Music 877

Breathing Exercises 878

Awareness of Breathing 878, *Deep Breathing* 878, *Ten-to-One Count* 878, *Alternate-Nostril Breathing* 878

Progressive Relaxation 878

Active Progressive Relaxation 878, *Passive Progressive Relaxation* 879

VISUALIZATION AND IMAGERY 879

Visualization for Relaxation 880

Visualization for Guidance 881

Visualization for Symptom Control or Healing 881

HYPNOTHERAPY AND SELF-HYPNOSIS 881

MEDITATION 881

Effects of Meditation 881

Steps in Meditating 882

Medical Meditation 882

PRESSURE POINT THERAPIES 883

Acupuncture 883

Acupressure 883

TOUCH THERAPIES FOR HEALING 885

Massage 885

Therapeutic Touch (TT) 885

Phases in Therapeutic Touch 885, *Effectiveness of Therapeutic Touch* 886

HERBALS AND BOTANICALS 886

BIOFEEDBACK 886

REPETITIVE TRANSCRANIAL MAGNETIC STIMULATION (rTMS) 886

EYE MOVEMENT DESENSITIZATION AND REPROCESSING (EMDR) 886

Chapter 34. Crisis Intervention 892

CRISIS AS A TURNING POINT 894

Common Characteristics of Crises 895

Resilience, Risk Factors, and Balancing Factors 895

BIOPSYCHOSOCIAL THEORIES OF CRISIS 896

Tyhurst's Stages of Disaster 897

Impact 897, Recoil 897, Posttrauma 897

Caplan's Stages of a Crisis Reaction 897

Roberts' Model of Crisis Intervention 897

TYPES OF CRISES 897

Situational Crisis 897

Maturational Crisis 898

NURSING SELF-AWARENESS 898

NURSING PROCESS: *Clients in Crisis* 900

CASE MANAGEMENT 907

COMMUNITY-BASED CARE 907

HOME CARE 907
